

## LETTER TO SHAREHOLDERS AND PROXY FORM IN RELATION TO ANNUAL GENERAL MEETING

African lithium developer, Prospect Resources Limited (ASX: PSC, FRA:5EB) attaches in relation to its Annual General Meeting, the following documents:

- Letter to Shareholders; and
- Proxy Form.

Message from Mr Sam Hosack, Managing Director of Prospect Resources Ltd:

*“Over the past 12 months we have signed an offtake agreement with leading industrial minerals company Sibelco for the world’s largest petalite offtake agreement, entered into an MOU with Uranium One Group to progress discussions on offtake and investment and demonstrated the highest purity products in the market, entered a sale option agreement of our non-core asset Penhalonga and raised A\$6m before costs to fund a pathway to production by:*

- 1. Delivering high purity samples to customers across Europe and Asia for qualification in first half of 2021.*
- 2. Complete Front End Engineering Design (FEED) for incremental staged growth, in first half of 2021.*
- 3. Complete project finance activities and seek finance investment decision (FID) second half of 2021.*

*Lithium is extremely critical to the green energy solution as we all contribute to global emissions reduction. Prospect Resources has diversified products and markets and is well positioned to meet the forecast sharp rise in demand for lithium. The market is turning and the time to act is now. Due to the lack of new supply coming online and demand expected to increase over the next two years, it is likely that the current market “balance” will move into a shortage within the coming 12 to 24 months.*

*Looking to the path ahead I believe Prospect Resources is well positioned to meet the forecast sharp rise in demand for lithium with its two lithium products – high purity petalite for the glass and ceramics market and spodumene for the battery (electric vehicle and energy storage) market.*

*Prospect Resources values and actively seeks shareholder engagement, as success is achieved as a collective. Our General Manager of Corporate Affairs, Nick Rathjen, and I will be providing you frequent updates as we continue to hit our milestones.*

*Please don’t hesitate to contact us and again thank you for your support as we transform Prospect into a leading high purity lithium producer.”*
