**BASE
RESOURCES**

Disclaimer and Important Notices

This document has been prepared by Base Resources Limited (**Base Resources**). Its release has been authorised by Base Resources' Disclosure Committee. Information in this document should be read in conjunction with other announcements made by Base Resources to ASX, particularly Base Resources' announcement on 12 December 2019 "DFS reinforces Toliara Project's status as a world class mineral sands development" (**DFS Announcement**). Base Resources' ASX announcements are available at <https://baseresources.com.au/investors/announcements>.

DFS Announcement

The DFS Announcement discloses details about the material assumptions and underlying methodologies adopted for deriving the production information included in this document in respect of the Toliara Project. It also discloses key pre and post FID risks in respect of the Toliara Project. Base Resources confirms that all the material assumptions underpinning the production information disclosed in the DFS Announcement continue to apply and have not materially changed.

Forward-looking statements

Certain statements in or in connection with this document contain or comprise forward looking statements. Such statements include, but are not limited to, statements with regard to capital cost, capacity, future production and grades and financial performance and may be (but are not necessarily) identified by the use of phrases such as "will", "expect", "anticipate", "believe" and "envisage". By their nature, forward looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future and may be outside Base Resources' control. Accordingly, results could differ materially from those set out in the forward-looking statements as a result of, among other factors, changes in economic and market conditions, success of business and operating initiatives, changes in the regulatory environment and other government actions, fluctuations in product prices and exchange rates and business and operational risk management. Subject to any continuing obligations under applicable law or relevant stock exchange listing rules, Base Resources undertakes no obligation to update publicly or release any revisions to these forward-looking statements to reflect events or circumstances after today's date or to reflect the occurrence of unanticipated events.

Not advice or an offer and other

Nothing in this document constitutes investment, legal or other advice. You must not act on the basis of any matter contained in this document but must make your own independent investigation and assessment of Base Resources and obtain any professional advice you require before making any investment decision based on your investment objectives and financial circumstances.

This document does not constitute an offer, invitation, solicitation, advice or recommendation with respect to the issue, purchase or sale of any security in any jurisdiction. In particular, this document does not constitute an offer to sell, or a solicitation of an offer to buy, securities in the United States or to any "US Person" (as defined in the US Securities Act of 1933). This document may not be distributed or released in the United States or to, or for the account of, any US Person.

No representation or warranty, express or implied, is made as to the fairness, accuracy or completeness of the information contained in this document (or any associated presentation, information or matters). To the maximum extent permitted by law, Base Resources and its related bodies corporate and affiliates, and their respective directors, officers, employees, agents and advisers, disclaim any liability (including, without limitation, any liability arising from fault, negligence or negligent misstatement) for any direct or indirect loss or damage arising from any use or reliance on this document or its contents, including any error or omission from, or otherwise in connection with, it.

Building a unique mineral sands company

- “Mid cap” **pure mineral sands** company.
- Established **profitable Kwale Operation** in Kenya with extensional potential.
- A **world class mineral sands development project** in the Toliara Project in Madagascar.
- **Long combined mine life** once the Toliara Project is developed.
- **Track record of excellence** in safety, community engagement and environmental stewardship.
- An **experienced team** and capacity to execute well.
- A **robust financial position** from which to grow the business and deliver returns to shareholders.
- Creating a company of **strategic relevance** in a sector likely to continue to evolve.

Operations successfully adapted for COVID-19

Workplace

- COVID-19 response has been effective in maintaining the health and wellbeing of employees whilst continuing to deliver operational performance – balancing business needs, employee and community safety and sentiment, government policy and product markets.

Community support programs

- \$1.7m invested in Kenya and Madagascar, including for:
 - Medical equipment and supplies
 - Food distribution
 - Construction of hygiene infrastructure
- 100 high flow ventilators donated to Kenyan Ministry of Health.
- Face mask production facility established in Toliara, utilising local women to produce ~5,000 re-usable masks per week for donation to the community.

The foundation - The Kwale operation

Delivering “mutual benefit” – \$3.4 million invested in FY20

1,989 full secondary and tertiary scholarships currently active

3,000 small-holders participating in the Kwale Cotton Project

240,000 training hours delivered to employees, contractors and community

89 interns, apprentices, graduates and trainees

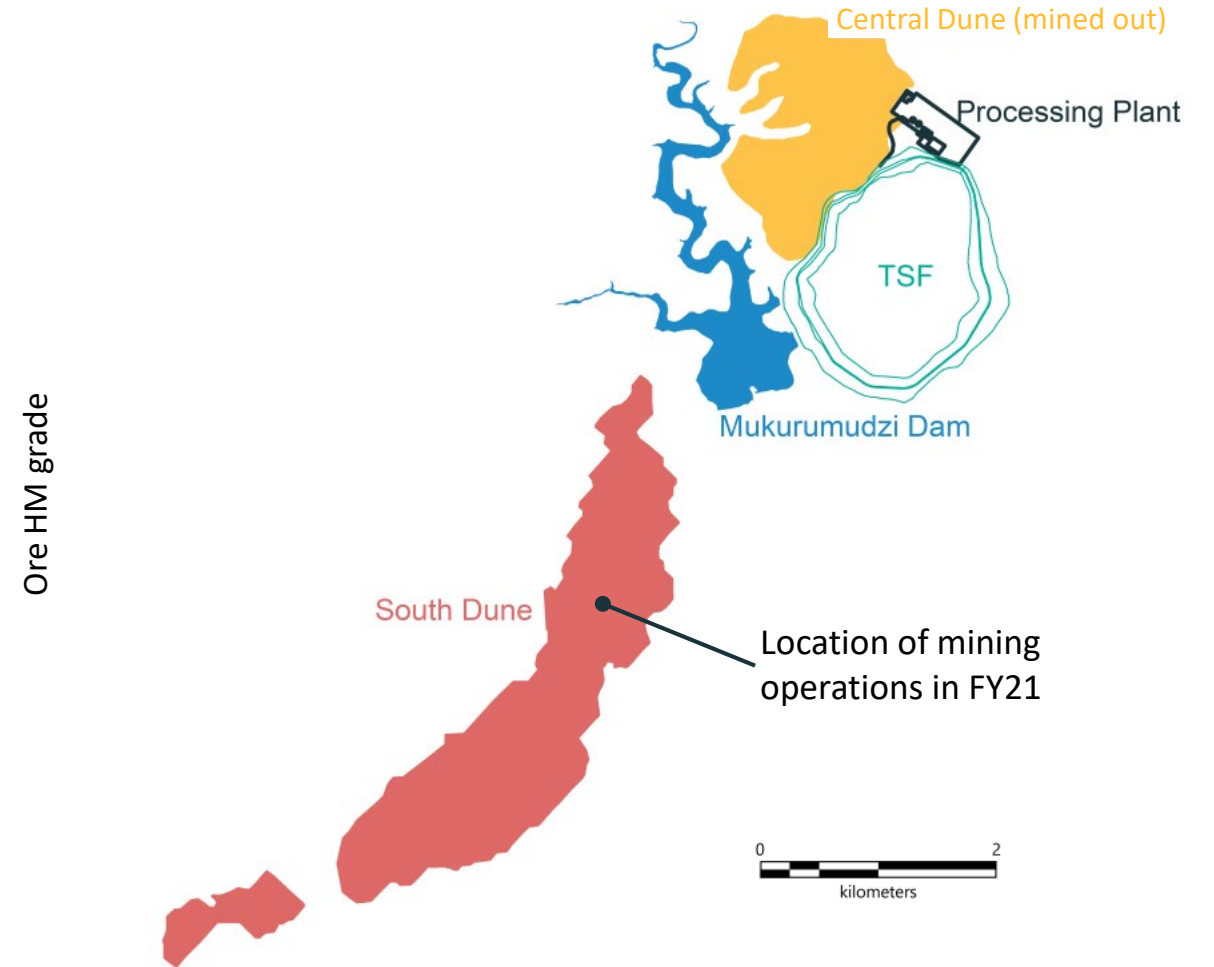

11,955 trees planted

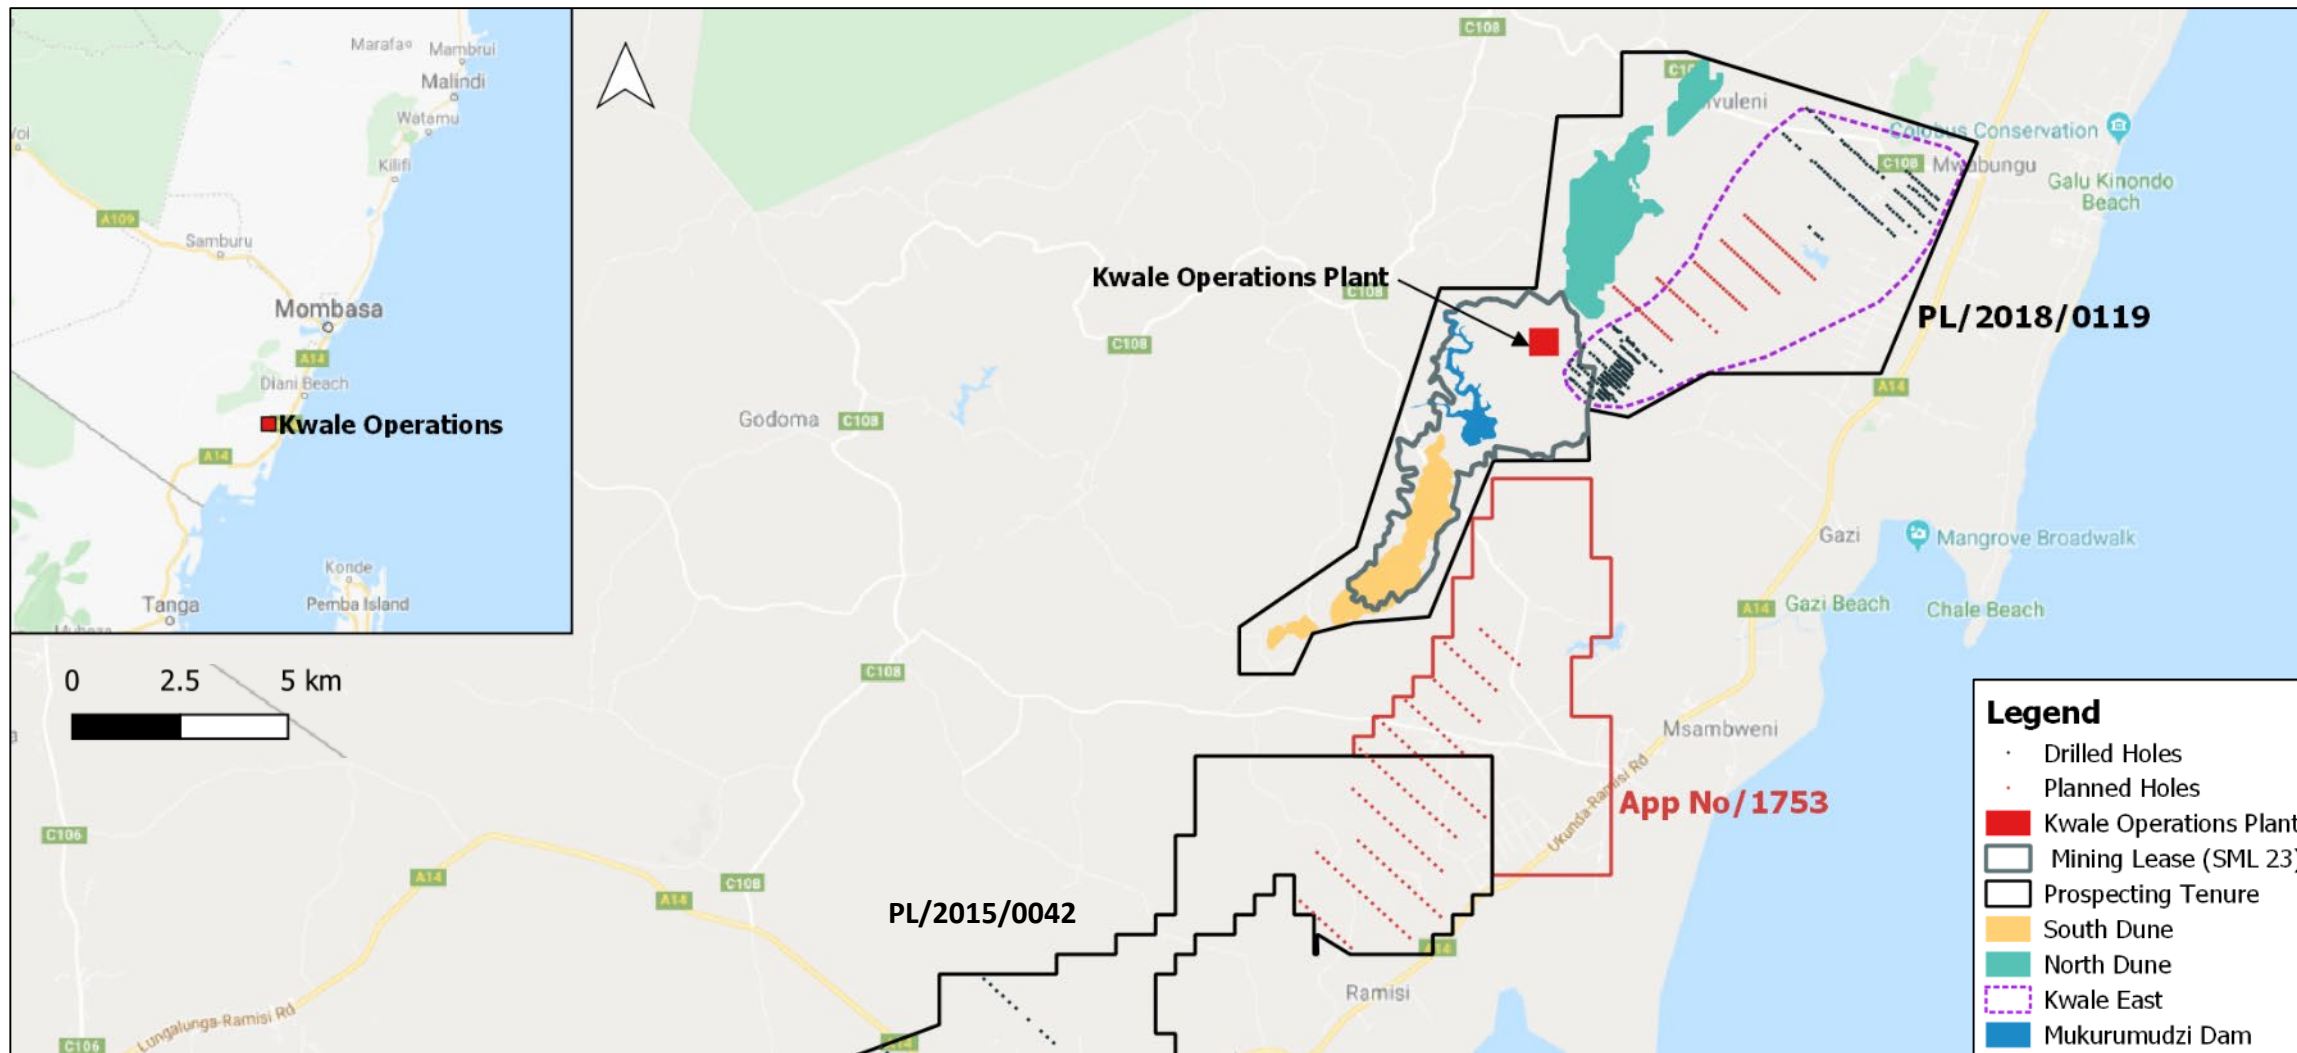

194 volunteer health workers supported

Kwale Operations smoothly transitioned to next phase

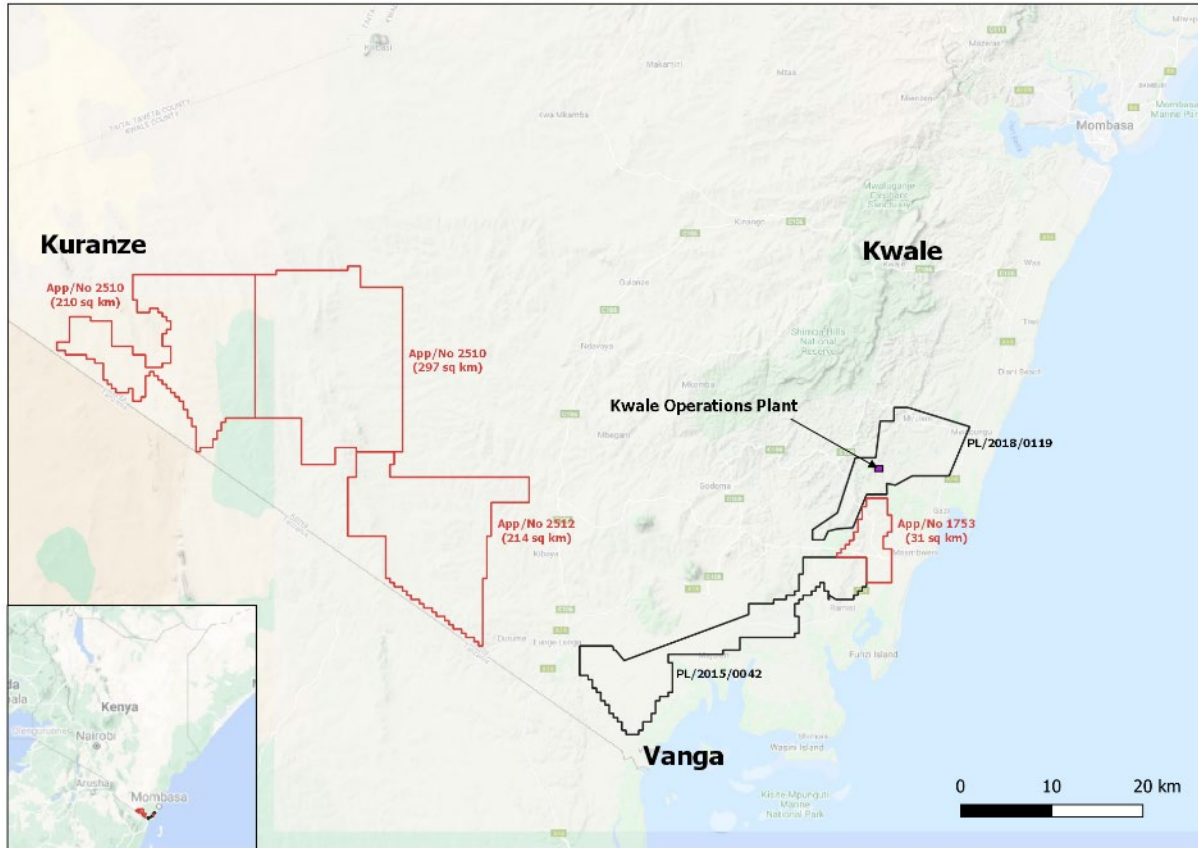

1. For further information, including the guidance range and applicable assumptions, refer to Base Resources' announcement on 28 July 2020 "Quarterly Activities Report – June 2020" available at <https://baseresources.com.au/investors/announcements>.

Multiple mine life extension opportunities being explored...

...as well as Kenyan opportunities further afield

Delivering returns

Our approach

Consistent with Base Resources' growth strategy, the Company seeks to provide returns to shareholders through both long-term growth in the Company's share price and appropriate cash distributions.

Cash not required to meet the Company's near-term growth and development requirements, or to maintain requisite balance sheet strength in light of prevailing circumstances, could be expected to be returned to shareholders.

- Maiden dividend of AUD 3.5 cents per share, unfranked, paid.
- Striking the right balance between:
 - Delivering cash returns to shareholders;
 - Retaining balance sheet strength in the face of COVID operational risks and economic uncertainty; and
 - Allowing for sensible progression of the Toliara Project pending certainty on fiscal terms and FID timing.

Toliara – a world class development project

Project video available at www.baseresources.com.au

Toliara Project Ore Reserves afford long mine life...

Stylised cross section

45% of Mineral Resources

33 year mine life
Average annual production¹:
Ilmenite 780kt
Zircon 53kt
Rutile 7kt

**Toliara Project DFS
 Ore Reserves² mined
 586Mt @ 6.5% HM**

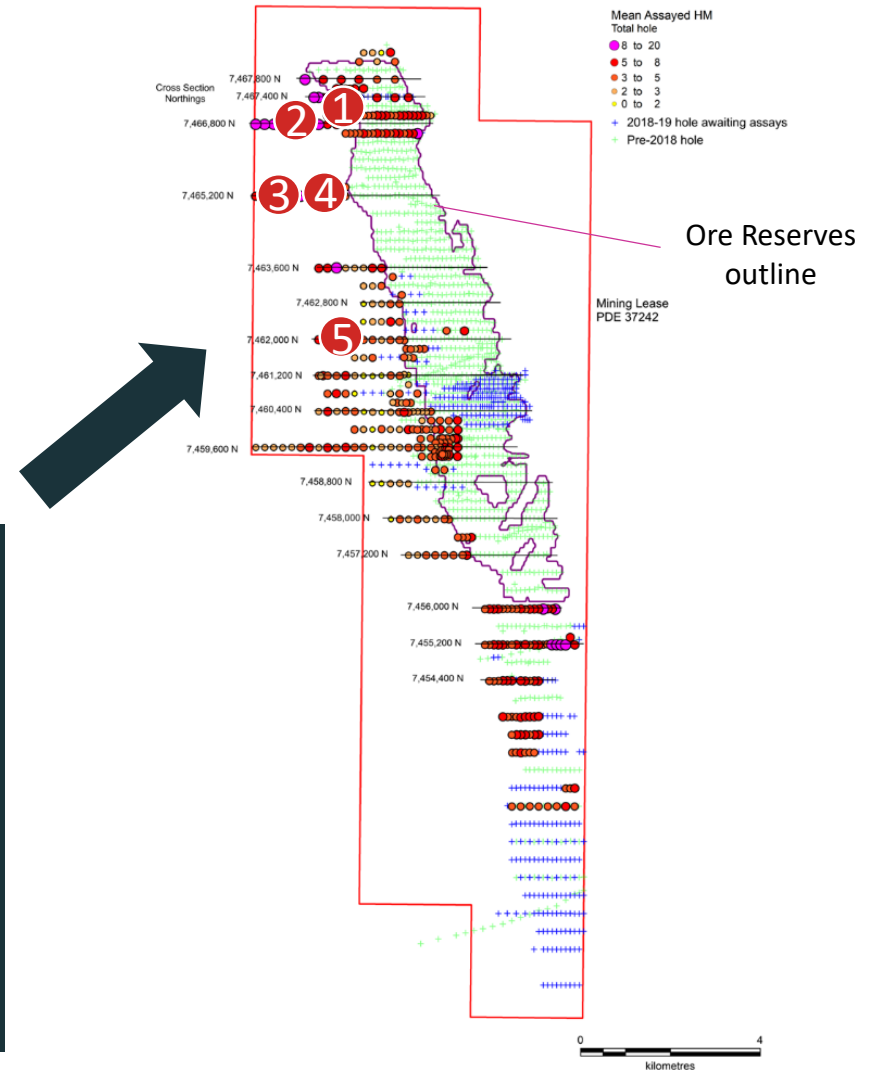

1. The anticipated annual production information is derived from the Toliara Project Definitive Feasibility Study and excludes the first and last partial operating years. For further information about that study, refer to Base Resources' announcement on 12 December 2019 "DFS reinforces Toliara Project's status as a world-class mineral sands development" available at <https://baseresources.com.au/investors/announcements>.
 2. For further information about the Ranobe Mineral Resources and Ranobe Ore Reserves, refer to the Appendices to this document.

...with significant expansion potential

- 29,753m in 770 holes drilled in the 2018/19 program.
- Assay results received to date show material heavy mineral intercepts - particularly in the lower sand unit.
- Further drilling targeting high-grade lower sand unit zones to be planned once assaying of remaining samples is complete.
- Update to Ranobe Mineral Resource underway to incorporate the 2018/19 drill program results.

Notable drill results

- ① 72m @11.6% HM, with LSU of 43.5m @ 16.5% HM
- ② 71.5m @12.2% HM, with LSU of 41.5m @ 17.6% HM
- ③ 81m @ 15.7% HM, with LSU of 67.5m @ 18.3% HM
- ④ 87m @ 13.9% HM, with LSU of 69m @ 16.4% HM
- ⑤ 87m @ 9.1% HM, with LSU of 52.5m @ 13.8% HM

Preparing the Toliara Project for FID and construction

Project delivery preparation focused on rapid resumption of on-ground activities and post FID implementation.

Lenders' technical review

Critical path contracts

FEED activities

Workforce development

Toliara Project indicative timeline

Planned FID has been delayed from H2 2020. Once line of sight on lifting of suspension, resumption of international travel and financial market conditions is achieved, a revised FID will be announced – with FID unlikely to be before September 2021. The next critical milestone is agreeing fiscal terms with the Government of Madagascar. We maintain readiness to accelerate progress when conditions support.

Delivering returns

- **Team** with a track record of delivery.
- Consistent, **high cash flow Kwale Operations**, with extension potential.
- **Reputation for excellence** in safety, community and environment.
- A robust financial position from which to **grow the business** and **deliver returns** to shareholders.
- Market outlook supporting a clear **need for new supply**.
- A world class development asset in the **long-life Toliara Project**.
