

Expanding horizons From strong foundations

- ✔ Strategic reset to support global expansion
- ✔ Strong development, exploration pipeline
- ✔ Continued strong production and cash-flow

2020 Annual General Meeting – Online

Friday, 27 November 2020

Tshukudu T3 Drill Core

This presentation has been prepared by Sandfire Resources Ltd (**Sandfire** or **the Company**) and contains information about Sandfire current at the date of this presentation. The presentation is in summary form, has not been independently verified and does not purport to be all inclusive or complete. The Company is not responsible for providing updated information and assumes no responsibility to do so. Recipients should conduct their own investigations and perform their own analysis in order to satisfy themselves as to the accuracy and completeness of the information, statements and opinions contained in this presentation.

This presentation is for information purposes only. Neither this presentation nor the information contained in it constitutes an offer, invitation, solicitation or recommendation in relation to the purchase or sale of shares in any jurisdiction and may not be distributed in any jurisdiction except in accordance with the legal requirements applicable in such jurisdiction. Recipients should inform themselves of the restrictions that apply in their own jurisdiction. A failure to do so may result in a violation of securities laws in such jurisdiction.

This presentation does not constitute investment advice and has been prepared without taking into account the recipient's investment objectives, financial circumstances or particular needs and the opinions and recommendations in this presentation are not intended to represent recommendations of particular investments to particular persons. Recipients should seek professional advice when deciding if an investment is appropriate. All securities transactions involve risks, which include (among others) the risk of adverse or unanticipated market, financial or political developments.

To the fullest extent permitted by law, Sandfire, its related bodies corporate, and each of their officers, employees, agents and advisers expressly disclaim, to the maximum extent permitted by law, all liabilities (however caused, including negligence) in respect of, make no representation or warranty, express or implied, as to the currency, accuracy, reliability or completeness of any information, statements, opinions, estimates, forecasts or other representations contained in this presentation. No responsibility for any errors or omissions from this presentation arising out of negligence or otherwise is accepted.

Certain statistical and other information included in this presentation is sourced from publicly available third party sources and has not been independently verified.

All figures are expressed in Australian dollars unless otherwise stated.

This presentation is authorised for market release by Sandfire's Managing Director and CEO, Karl Simich.

Forward-Looking Statements

This presentation may include forward-looking statements. Forward-looking statements are only predictions and are subject to risks, uncertainties and assumptions which are outside the control of Sandfire. There is continuing uncertainty as to the full impact of COVID-19 on Sandfire's business, the Australian economy, share markets and the economies in which Sandfire conducts business. Given the high degree of uncertainty surrounding the extent and duration of the COVID-19 pandemic, it is not currently possible to assess the full impact of COVID-19 on Sandfire's business or the price of Sandfire securities. Actual values, results or events may be materially different to those expressed or implied in this presentation. Given these uncertainties, recipients are cautioned not to place reliance on forward-looking statements. Any forward-looking statements in this presentation speak only at the date of issue of this presentation. Subject to any continuing obligations under applicable law and the ASX Listing Rules, Sandfire does not undertake any obligation to update or revise any information or any of the forward-looking statements in this presentation or any changes in events, conditions or circumstances on which any such forward-looking statement is based.

FY2020 Highlights

Year in review

- **Record production and cost performance from DeGrussa:**
 - 72,238t contained copper, 42,263oz contained gold
 - Low C1 cash costs: US\$0.72/lb
- **Strong financial results:** \$74.1M NPAT; \$273.6M cash-flow from operating activities; \$291M cash and deposits; no debt
- **Creating value for shareholders:** 42.88c EPS; 19c in dividends
- **New growth platform in Botswana:**
 - 5.2Mtpa larger-scale Motheo Production Hub concept
 - Definitive Feasibility Study for T3 Copper-Silver Project imminent
 - Emerging discovery at A4 Dome, 8km from T3 – maiden resource imminent
- **Black Butte Copper Project, USA:**
 - Permitting complete and Feasibility Study and maiden Ore Reserve for Johnny Lee Deposit
 - Inferred Resource for Lowry Deposit, 3km SE of Johnny Lee
 - Multiple activities underway to progress and enhance the project

FY2020 Highlights

Health, Safety,
Environment &
Community and
Sustainability

- **Safety is our top priority** – TRIFR of 5.8 (down from 6.2 in FY2019)
- **Zero material adverse environmental or community incidents**
- **12,908t of CO₂ emissions saved** through the DeGrussa Solar Project
- **Created value for our local communities**
 - \$47.4M spent on employee wages
 - \$93.7M paid in taxes and royalties
 - \$598K invested in community projects
- **Local procurement focus**
 - 76% of procurement spend in Australia, 70% in WA, 8% in regional towns
- **New sustainability strategy implemented** aligned to our strategic growth plan with six key elements

Key Corporate Data

Market Index	ASX-200
Issued Capital	178.25 million shares
Cash	\$304 million <small>(Sept 2020)</small>
Debt	Nil
Market Capitalisation	~\$800 million <small>(at \$4.50)</small>

Geographic Analysis of Investors

Key Assets

Building a diversified portfolio of high-quality base metal assets

Operating Mines

- **DeGrussa Operations, WA**
 - DeGrussa Copper-Gold Mine
 - Monty Copper-Gold Mine

Development Pipeline

- **Tshukudu, Botswana**
 - T3 Copper-Silver Project
 - A4, T1 Expansion Projects
- **Black Butte Copper Project, USA (85%)**

Exploration Portfolio

- **Greater Doolgunna Project, WA**
- **East Coast Portfolio (NSW, Qld)**
- **Kalahari Copper Belt, Botswana and Namibia**
- **Black Butte, Montana, USA**

Strategy

Creating value
through
opportunity

DeGrussa

Strong
foundations in
Western Australia

DeGrussa Operations, WA

- DeGrussa Copper-Gold Mine
- Monty Copper-Gold Mine

Exploration

- Greater Doolgunna Province, WA
- East Coast Portfolio (NSW, Qld)

DeGrussa Operations

High-grade, high-
margin production
profile

CUMULATIVE PRODUCTION TO END OF FY2020

over 554,000

TONNES OF CONTAINED COPPER

319,000

OUNCES OF CONTAINED GOLD

\$4.2 billion

IN CUMULATIVE SALES REVENUE

\$2.1 billion

IN CUMULATIVE OPERATING CASH-
FLOW TO END OF FY2020
(prior to exploration and evaluation
expenditure)

\$198 million

(\$1.21 PER SHARE)
IN CUMULATIVE
DIVIDENDS TO SHAREHOLDERS

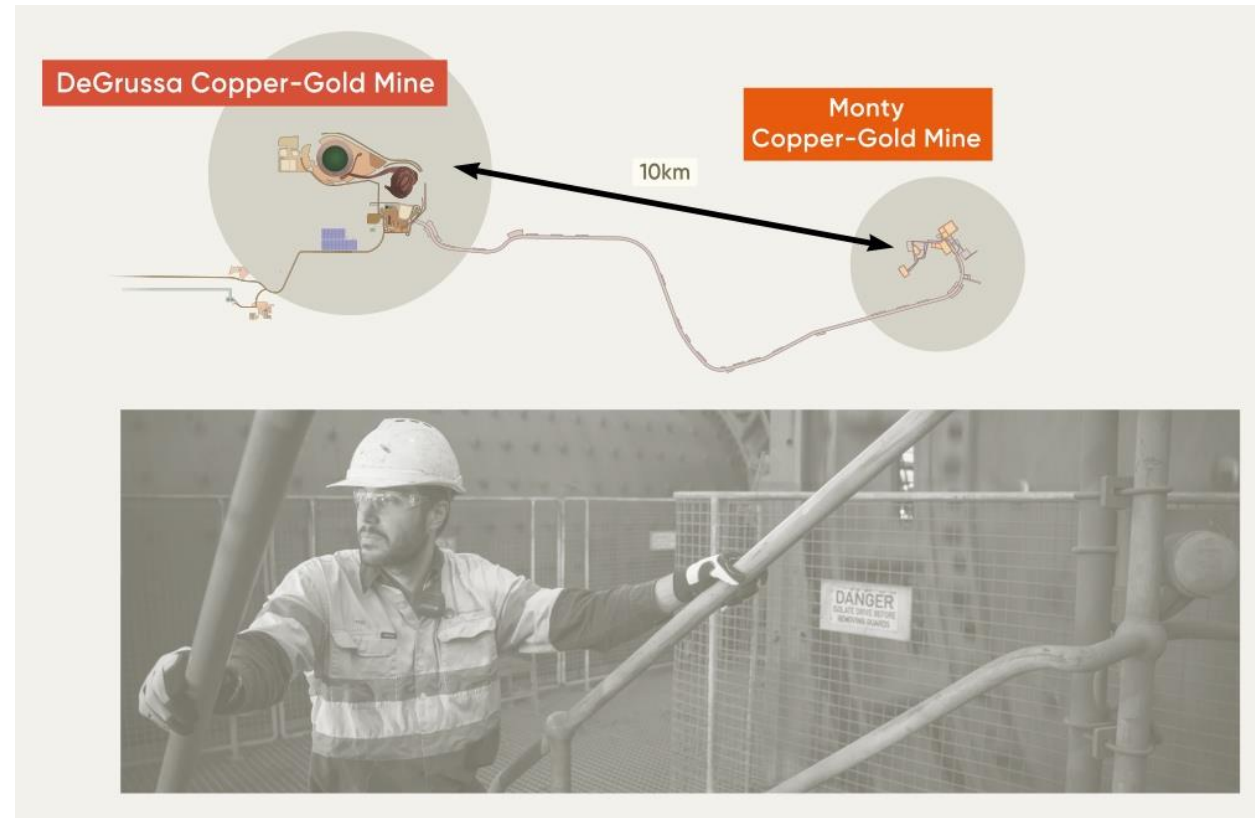

\$640 million

IN CUMULATIVE NET PROFIT
AFTER TAX
(attributable to members)

DeGrussa Operations | Consistent High-Grade Production

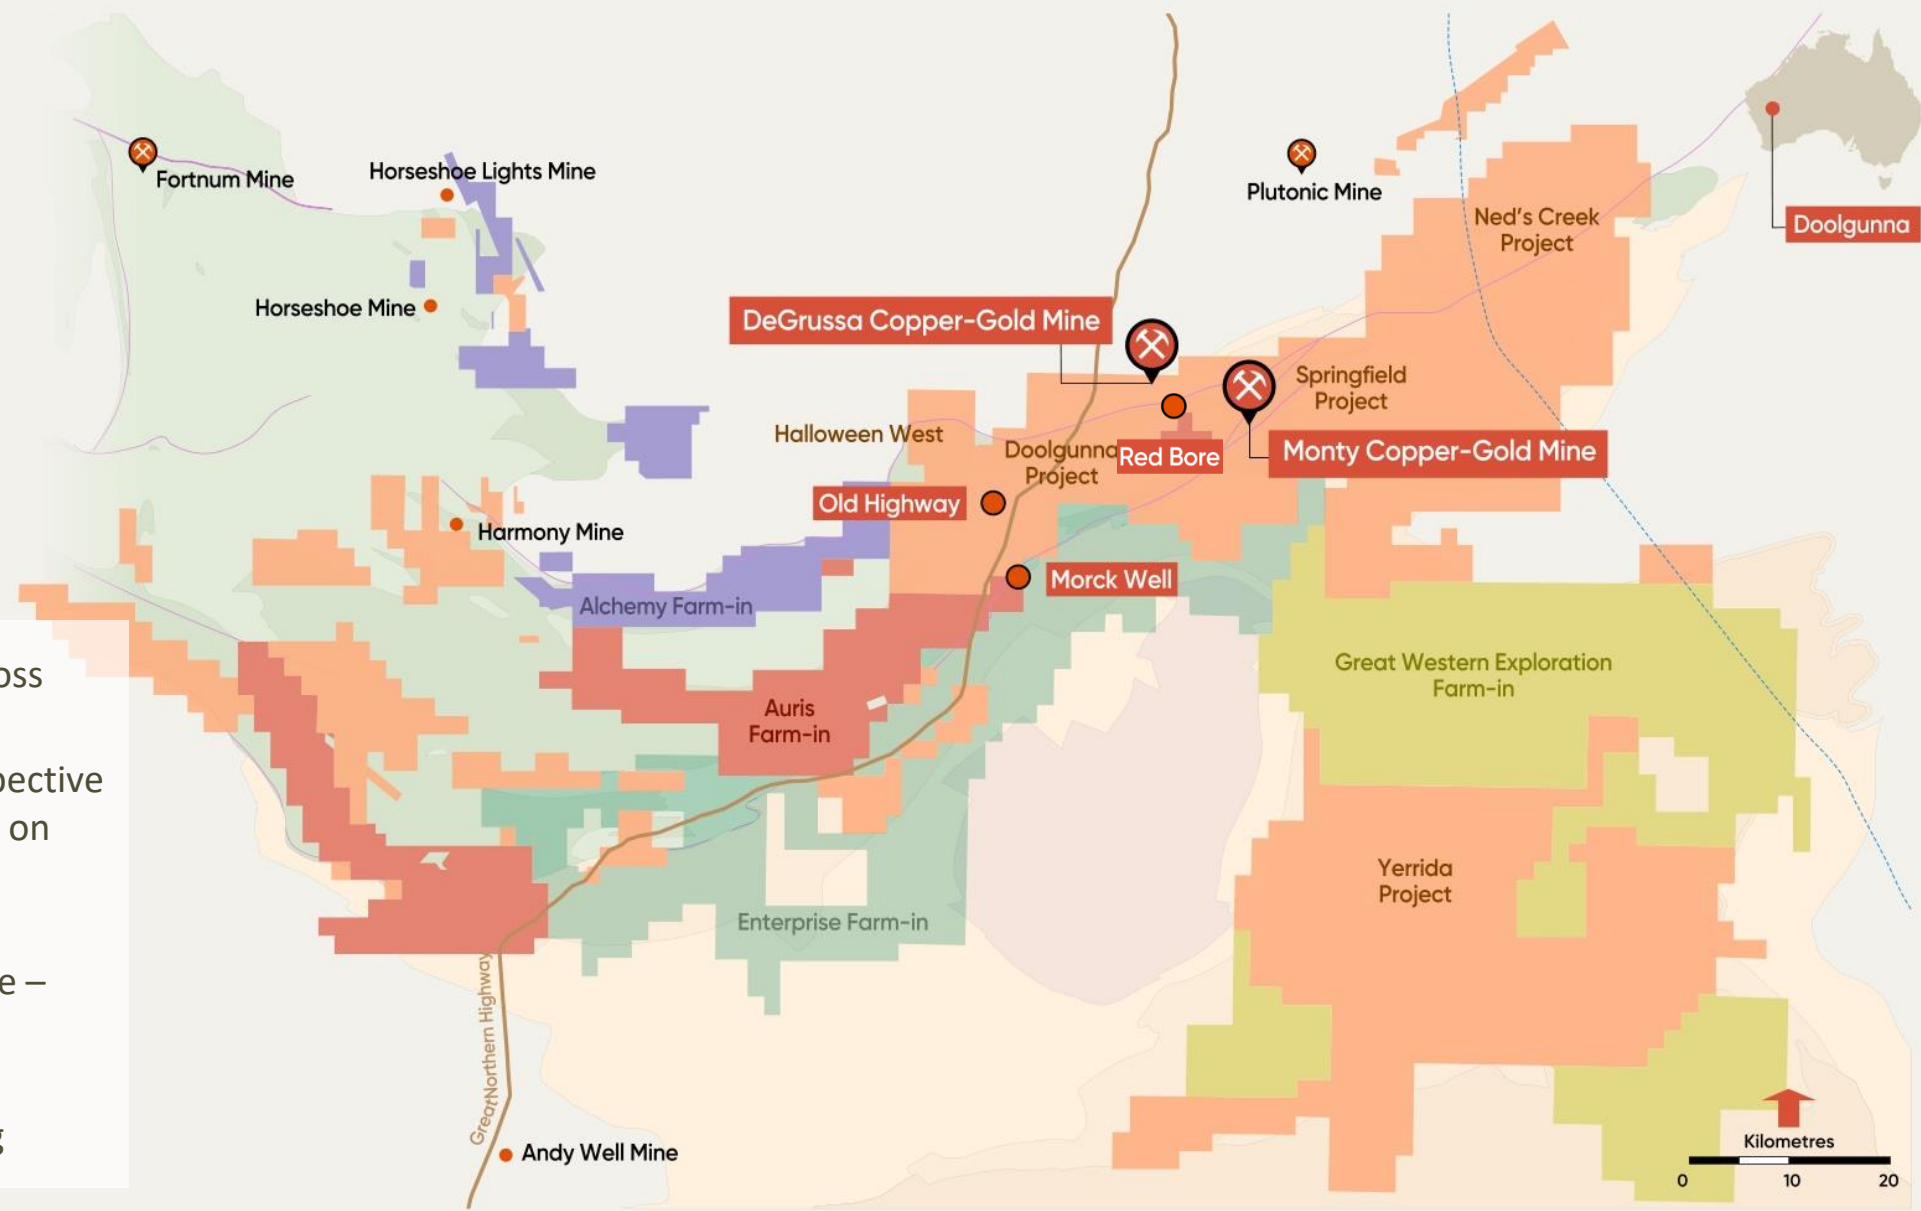

- 1.6Mtpa Concentrator fed by two underground mines – DeGrussa and Monty
- Record FY2020 annual production and costs
- Concentrator performing well with FY2020 recoveries averaging 93% for Cu and 46% for Au
- Strong September 2020 Quarter: Record 19,400t Cu and 11,683oz Au at C1 US\$0.53/lb
- FY2021 production guidance: upper end of 67-70kt Cu and 36-40koz Au

PRODUCTION OVERVIEW – Key Figures

Production	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018	FY 2019	FY 2020
Copper (Cu)	64,017t	67,690t	67,154t	68,202t	67,088t	64,918t	69,394t	72,238t
Gold (Au)	42,679oz	33,893oz	37,386oz	37,612oz	38,623oz	39,273oz	44,455oz	42,263oz
C1 Cost (US\$/lb)	1.24	1.18	1.09	0.95	0.93	0.93	0.83	0.72

Doolgunna | World-Class VMS Exploration Project

- Strategic 7,189km² footprint across the Bryah Basin
- Over 90km strike length of prospective VMS lithologies – strategic focus on southern limb of Bryah Basin
- Three centres of sulphide mineralisation discovered to date – DeGrussa, Monty, Morck Well
- Extensive and multi-pronged exploration programs continuing

Doolgunna

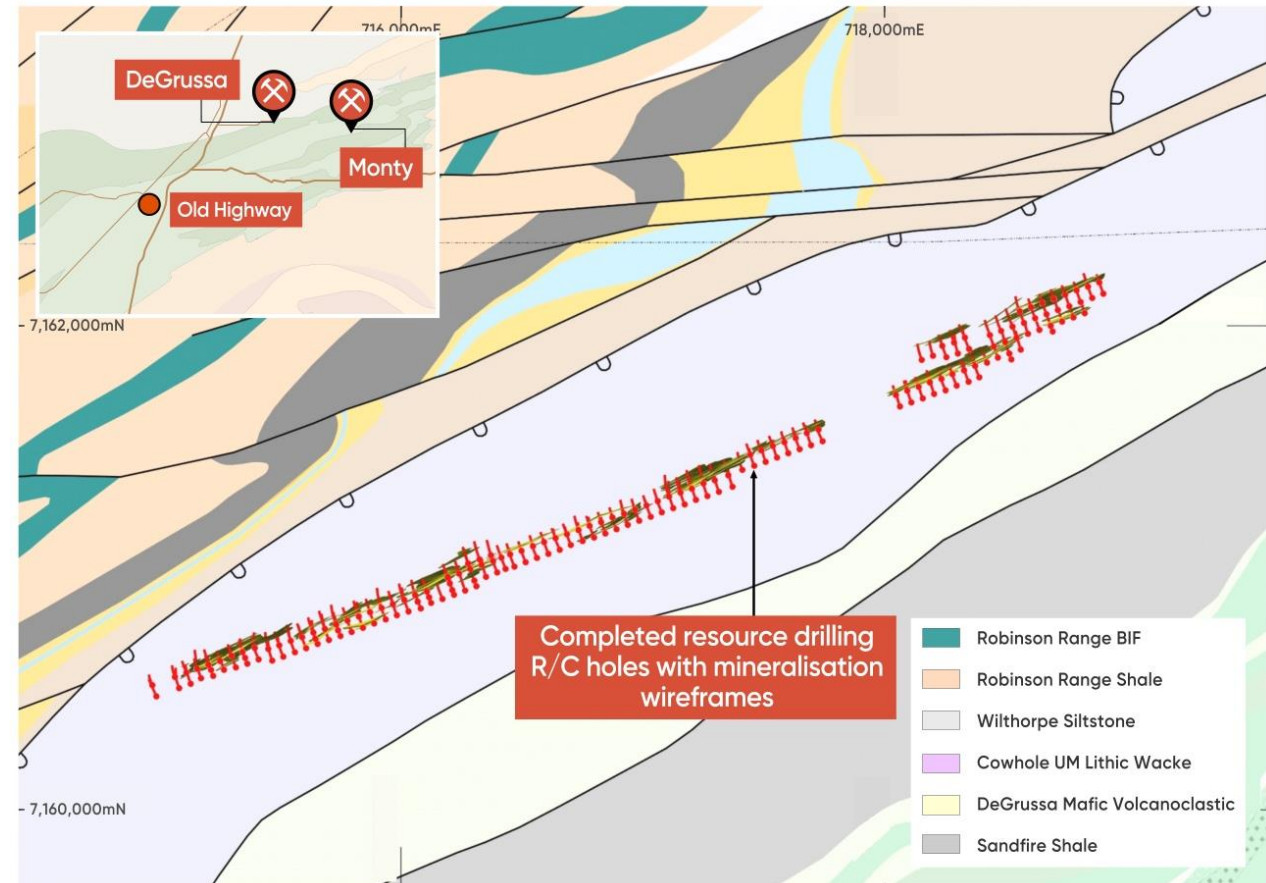

Multi-Pronged Exploration Strategy

- Doolgunna exploration strategy:
 - Accelerate discovery to extend DeGrussa Operations mine life
 - Focus on Mineral System Element Processes for deep targeting
 - 22 favourable structural corridors identified in the Sandfire managed tenure
 - Basin-scale geodynamics review underway
 - Rolling out new geophysical technology to allow deeper targeting
 - Continue first-pass exploration in prospective areas of the Bryah Basin never previously explored for copper

- Transition to gold production at DeGrussa with potential development of Old Highway Gold Prospect:
 - Synergies with the DeGrussa Tailings Gold Retreatment Project studies
 - Initial phase of resource definition drilling designed to test the extent of gold mineralisation hosted in quartz veining associated with shearing in sediments
- Resource drilling programme:
 - Stages 1 & 2 (50m x 50m pattern) completed in August 2020:
 - 180 RC holes for 27,880m
 - 4 structural NQ DDHs for 1,753m
 - 3 metallurgical PQ DDHs for 670m
 - Stage 3 (nominally 25m x 25m pattern) in progress
- Maiden Mineral Resources and Scoping Study to be completed in the first half of CY2021

Black Butte

Montana, USA

Black Butte Copper Project, Montana, USA (85%)

Black Butte Copper Project

Current activities and outlook

- Early project works
- Enhancement of Feasibility Study being progressed
- Exploration underway within the Mining Lease targeting potential extensions and other near-mine opportunities
- Continuing to respond to and deal with legal challenges
- Further key decisions to be taken during CY2021

Black Butte Copper Project

Key Johnny Lee Feasibility Study results

- Maiden Ore Reserve of 8.8Mt at 2.6% Cu for 226,100t of contained copper
- Underpins an 8-year mine life at 1.2 million tonnes per annum
- Forecast LOM production totaling 805,000 dry metric tonnes of copper concentrate containing 189,500t of copper metal
- Average annual production of ~23,000t of copper metal at a C1 unit cost of US\$1.51/lb
- Generates US\$1.3 billion in gross sales and US\$518 million in pre-tax net cashflow during operations
- Pre-tax NPV_{5%} of US\$124.9 million (IRR=17%) and a post-tax NPV_{5%} of US\$77.6 million (IRR=13%)
- Construction capital cost of US\$274.7 million

Refer to Sandfire's ASX Announcement, dated 28 October 2020, titled 'USA and Botswana Development Projects Update' for details.

Black Butte Copper Project

Johnny Lee and Lowry Deposits

Advanced, high-grade copper project:

Ore Reserve – Johnny Lee (100%)	Mt	Cu Grade (%)	Contained Cu (kt)
Proved	2.0	3.0	61
Probable	6.8	2.4	165
Total	8.8	2.6	226

Mineral Resource – Johnny Lee (100%)	Mt	Cu Grade (%)	Contained Cu (kt)
Measured & Indicated	10.9	2.9	311
Inferred Resource	2.7	3.0	80
Total	13.6	2.9	391

Mineral Resource – Lowry (100%)	Mt	Cu Grade (%)	Contained Cu (kt)
Inferred Resource	8.3	2.4	199
Total	8.3	2.4	199

Refer to Sandfire’s ASX Announcement, dated 28 October 2020, titled ‘USA and Botswana Development Projects Update’ for details.

Tshukudu

Expanding
horizons in
Botswana

Tshukudu, Botswana

- T3 Copper-Silver Project
- A4, T1 Expansion Projects
- 26,650km² exploration portfolio (Botswana and Namibia)

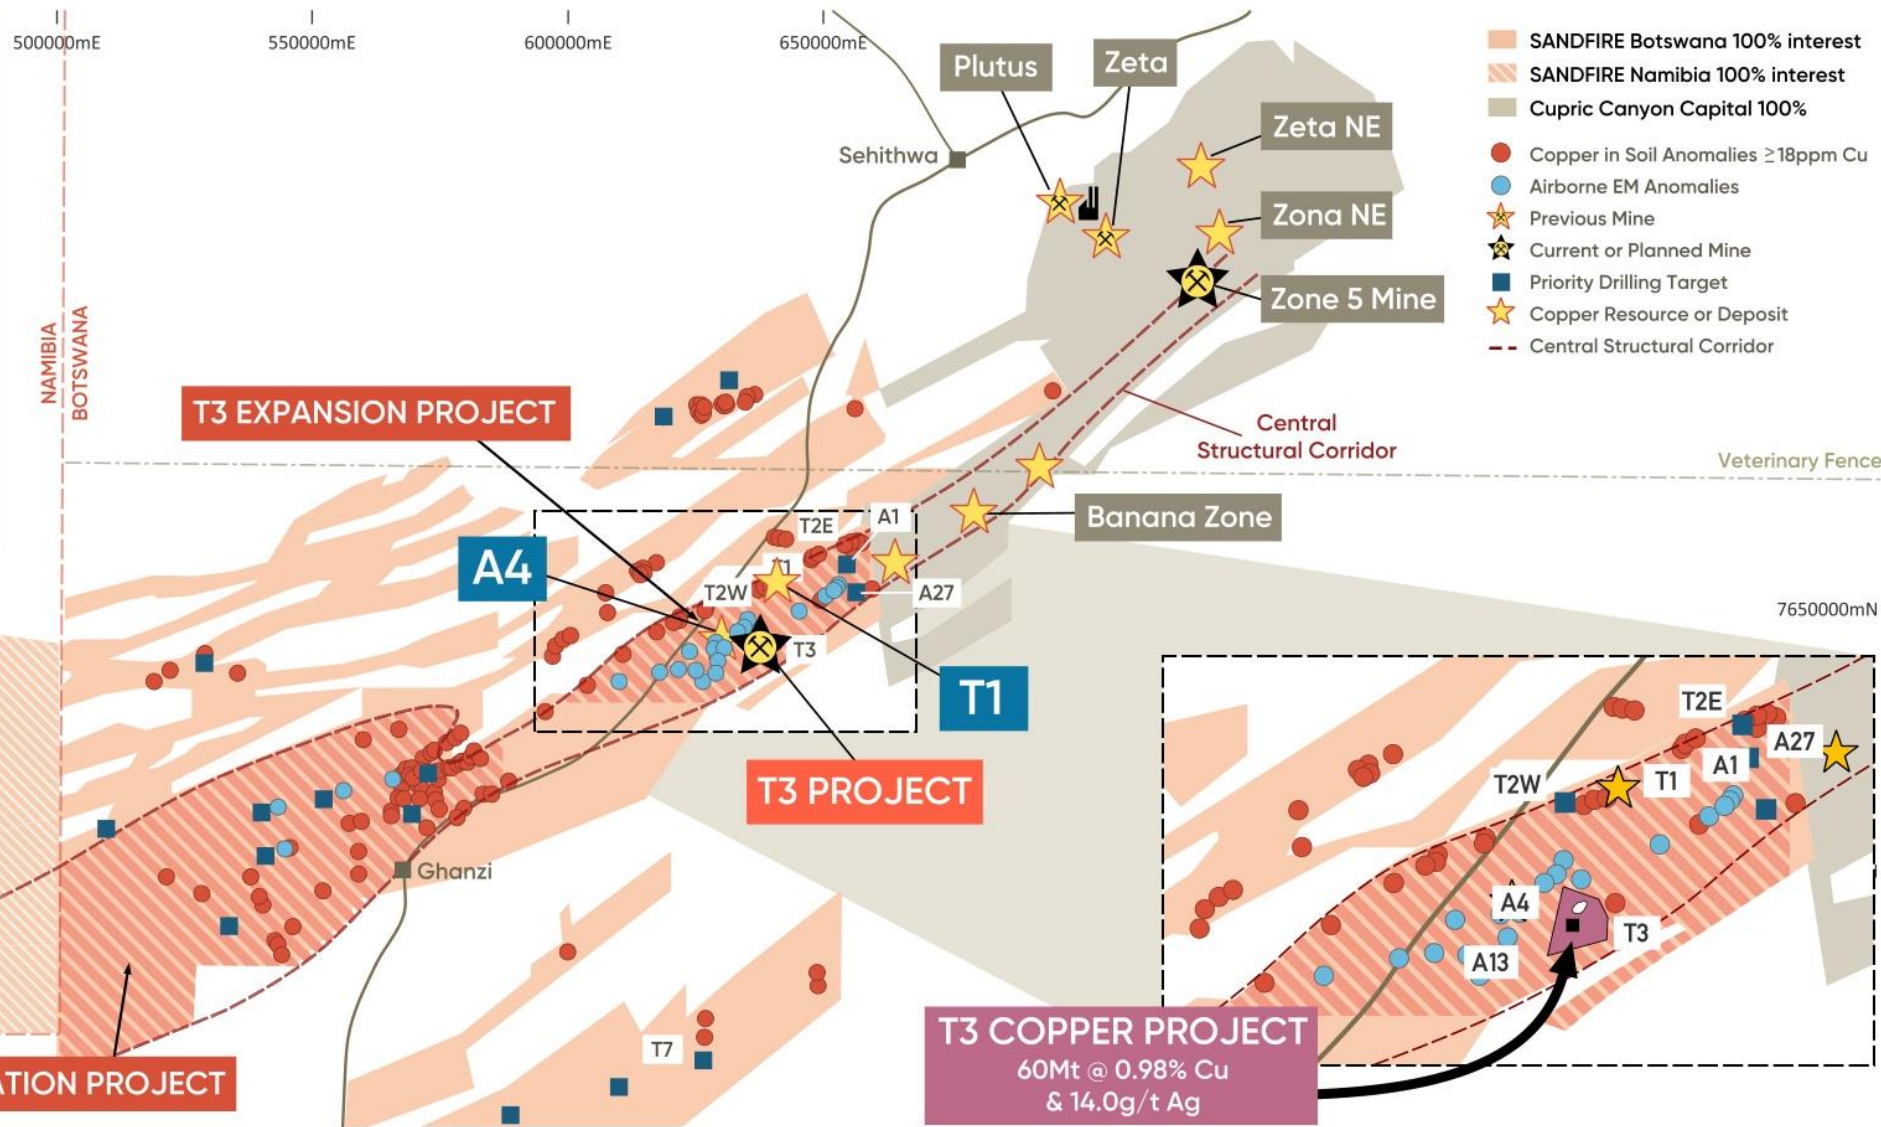

Motheo Production Hub

5.2 Mtpa expansion case

- Definitive Feasibility Study (DFS) for T3 imminent:
 - 3.2Mtpa base case for DFS (T3 Pit)
- In parallel with the DFS, Sandfire is evaluating an emerging Motheo Production Hub concept within the T3 Expansion Project area
- Operating scale scenarios:
 - 5.2Mtpa expansion case (adding A4)
 - Significant potential to extend mine life
 - Drill targets include A1, T1, T2W & T2E, A27 and A13 within ~30km radius of proposed mine

Tshukudu | Overview

- SANDFIRE Botswana 100% interest
- SANDFIRE Namibia 100% interest
- Cupric Canyon Capital 100%
- Copper in Soil Anomalies $\geq 18\text{ppm Cu}$
- Airborne EM Anomalies
- Previous Mine
- Current or Planned Mine
- Priority Drilling Target
- Copper Resource or Deposit
- Central Structural Corridor

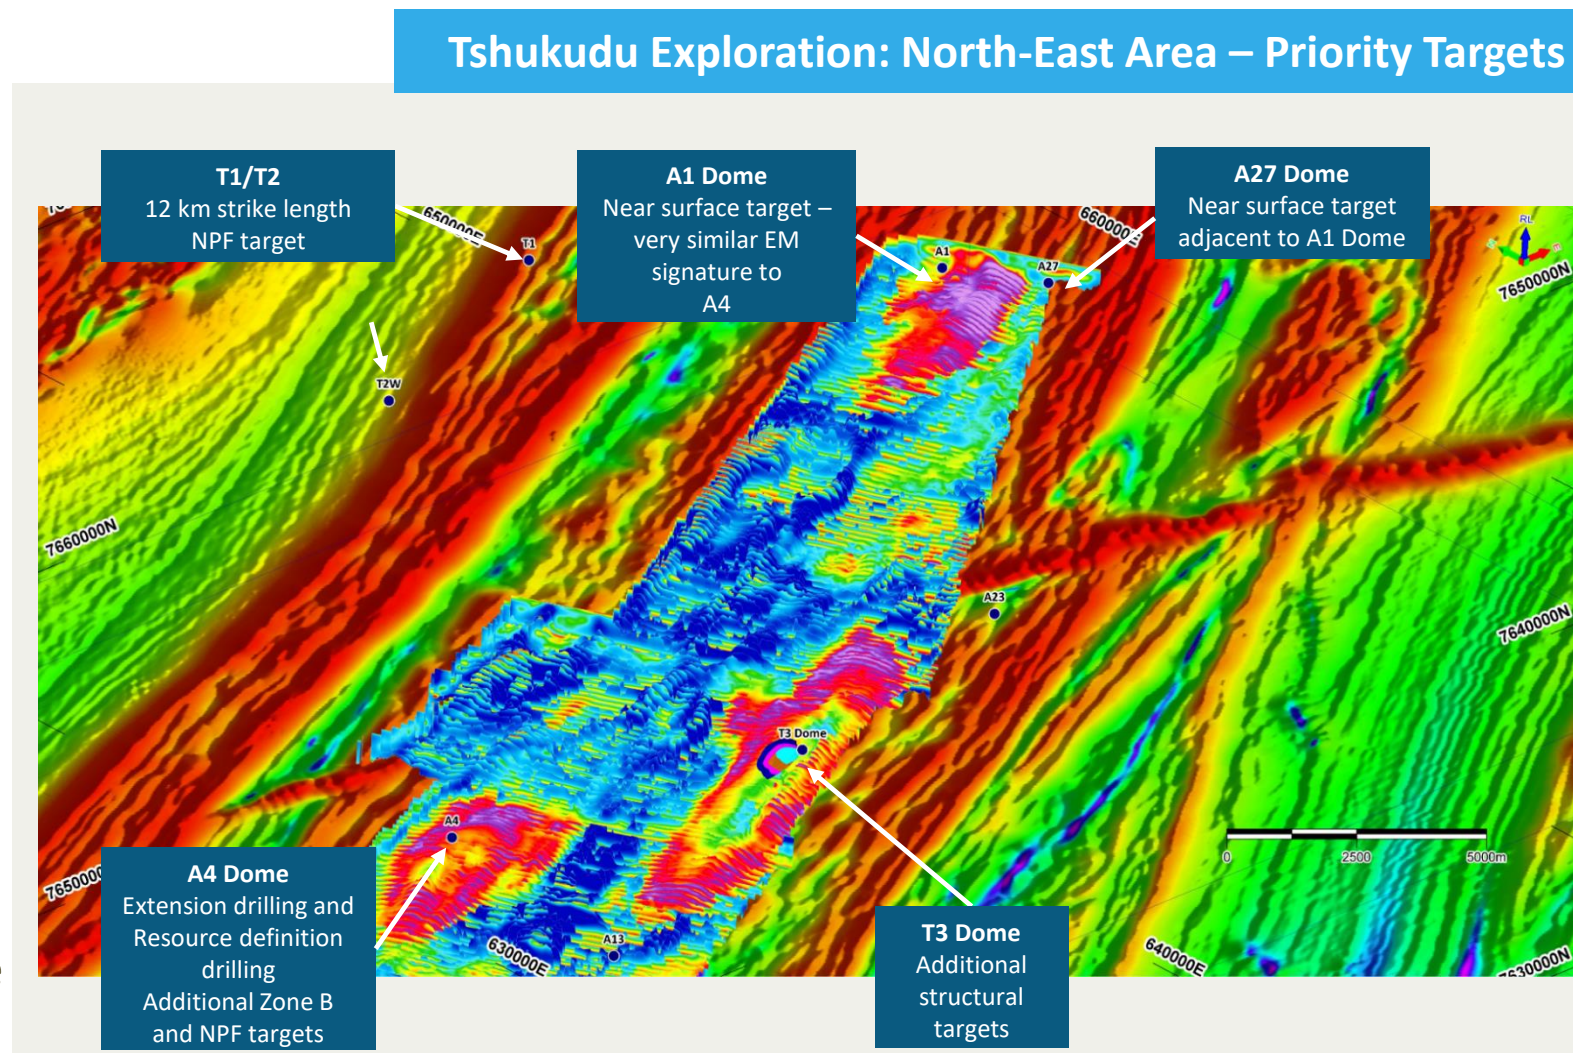

Motheo Production Hub

Treatment Plant Layout

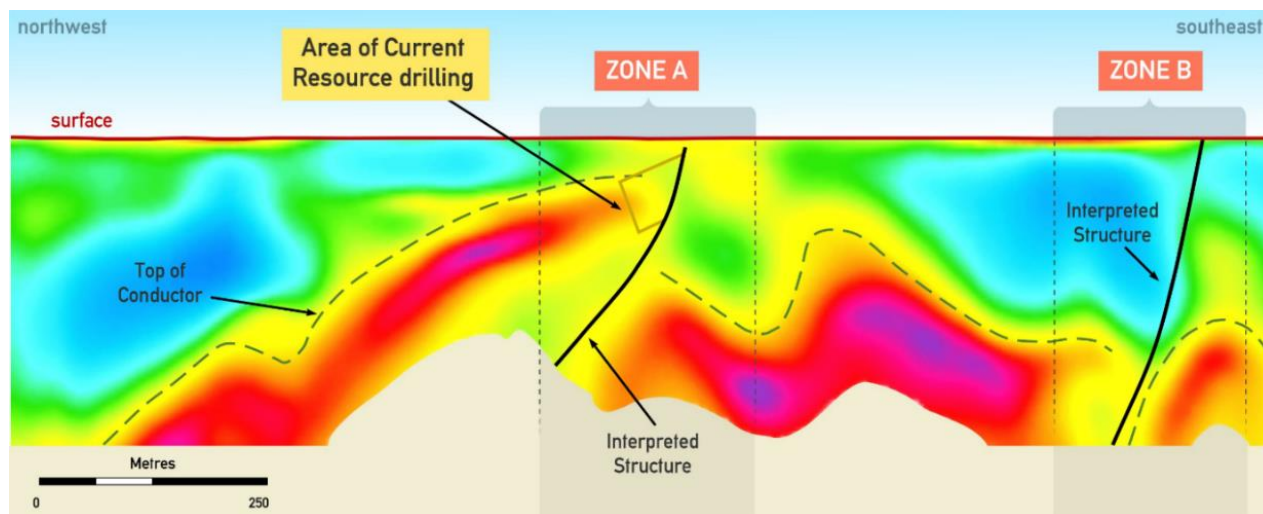

Tshukudu | Expanded Near-Mine Exploration Program

- Expanded exploration underway to:
 - Target high-grade satellite discoveries with potential to support the emerging Motheo Production Hub
 - Delineate additional resources with the potential to extend mine life
 - Target major new regional discoveries to unlock the belt's broader potential
- Initial focus within the ~1,000km² T3 Expansion Project Area
- Resource drilling focused on the A4 deposit, 8km west of T3
- A4 identified by AEM and drilled initially by MOD Resources in 2018
- Immediate success by Sandfire with significant shallow zone of copper mineralisation identified at the A4 Dome
- On completion of A4 Resource drilling, plan is to focus on A1 Dome

Tshukudu | A4 Resource Drilling Program

- Maiden Mineral Resource imminent
 - 6 diamond rigs at A4 with high-grade vein-hosted copper intersected in many holes at shallow depth
- Resource drilling programme:
 - Phase 1 (50m x 50m pattern) completed September
 - Phase 2 (25m x 25m) in progress
 - Maiden mineral resource estimate imminent with studies in progress

Summary

Building a global, diversified and sustainable mining company

- ✔ **Record production continues** into Q1 FY2021 at DeGrussa
- ✔ **Growing pipeline** of quality global copper development assets
- ✔ **Project development studies** being delivered
- ✔ **Committed** to organic growth via exploration
- ✔ **Strong** balance sheet, no debt
- ✔ **Gearing up for the future** with a focused international team

Sandfire has begun its transformation from a single-mine company operating in Australia into a diversified and sustainable mining company

Johnny Lee and Lowry Mineral Resource

The information in this announcement that relates to the Johnny Lee and Lowry Mineral Resources is based on information compiled by Mr Erik Ronald (M. Eng., P.Geo, RM-SME, Principal Resource Geology Consultant, SRK). Mr Ronald has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resource and Ore Reserve. Mr Ronald consents to the inclusion of the matters based on his information in the form and context in which it appears.

Johnny Lee Ore Reserve

The information in this announcement that relates to the Johnny Lee Ore Reserve is based on information compiled by Mr Brad Evans (MAusIMM, CP(Mining)). Mr Evans has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resource and Ore Reserve. Mr Evans consents to the inclusion of the matters based on his information in the form and context in which it appears.

Exploration Results – Tshukudu Project

The information in this presentation that relates to Exploration Results is based on information compiled by Mr Julian Hanna who is a Member of AusIMM. Mr Hanna is a permanent employee of Sandfire and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Hanna consents to the inclusion in the presentation of the matters based on his information in the form and context in which it appears.

Exploration and Resource Targets

Any discussion in relation to the potential quantity and grade of Exploration and Resource Targets is only conceptual in nature. While Sandfire is continuing exploration programs aimed at reporting additional JORC compliant Mineral Resources, there has been insufficient exploration to define mineral resources in addition to the current JORC compliant Mineral Resource inventory and it is uncertain if further exploration will result in the determination of additional JORC compliant Mineral Resources.

Expanding horizons From strong foundations

- ✔ Strategic reset to support global expansion
- ✔ Strong development, exploration pipeline
- ✔ Continued strong production and cash-flow
