

New Technologies and Manufacturing

ASM - Independent Supplier of Critical Metals

David Woodall – Managing Director

December 2020

Disclaimer

This presentation contains certain forward looking statements and forecasts, including possible or assumed reserves and resources, production levels and rates, costs, prices, future performance or potential growth of Australian Strategic Materials Ltd, industry growth or other trend projections. Such statements are not a guarantee of future performance and involve unknown risks and uncertainties, as well as other factors which are beyond the control of Australian Strategic Materials Ltd. Actual results and developments may differ materially from those expressed or implied by these forward looking statements depending on a variety of factors. Nothing in this presentation should be construed as either an offer to sell or a solicitation of an offer to buy or sell securities.

This document has been prepared in accordance with the requirements of Australian securities laws, which may differ from the requirements of United States and other country securities laws. Unless otherwise indicated, all ore reserve and mineral resource estimates included or incorporated by reference in this document have been, and will be, prepared in accordance with the JORC classification system of the Australasian Institute of Mining, and Metallurgy and Australian Institute of Geosciences.

Competent Person

Unless otherwise stated, the information in this presentation that relates to mineral exploration, mineral resources and ore reserves is based on information compiled by Mr D I Chalmers, FAusIMM, FAIG, (director of the Company) who has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Ian Chalmers consents to the inclusion in the presentation of the matters based on his information in the form and context in which it appears. Mr Chalmers is a shareholder of Australian Strategic Materials Limited.

Contents

- ASM – Mine To Manufacturing
- Critical Materials - Essential For New Technology

ASM – Mine to Manufacturing

Dubbo Project

- Key products defined
- Flowsheet optimised to deliver key products, with potential at a lower capital and operating costs with increased revenue
- Envisioned to be “net zero carbon”

Ziron Tech

- Ownership of a novel patented metallisation process
- World class Ziron Tech R&D team focused on new materials for emerging technologies
- Developer/preferred partner of innovative materials processing

Metal

- Enables preferred partnerships of metal production
- Delivered a new business unit on Titanium metal / metal powder business
- Enables the integration into global markets through boutique metal plants strategically located

Critical Materials – Essential for New Technology

Electric Vehicles - ~5kg Rare Earth Permanent Magnets

Growth - 3.4M to 25.3M EV cars by 2030

Source: Deloitte Insight – Electric Vehicle: Setting a course for 2030

Wind turbines – ~ 195kg of Nd/MW

Forecast 7.9% annual growth - 2020 to 2024

Source: EU's Joint Research Centre

Defence / Aerospace

Jet turbines, GPS, defence systems

Critical Materials Supply – Snap Shot

1. Production of oxides, metals and metal powders highly concentrated
2. Suppliers of concentrates and oxides receive discounted Realised Pricing
3. Metals and Powders integrated within manufacturing sectors where additional value is gained.

Projected Regional Production
of Rare Earth Oxides - 2030

Forecast Production 2030 - ~90 ktpa

Source: Adamas Intelligence

Projected Regional Manufacturing
of Permanent Magnets - 2030

Source: Adamas Intelligence

Critical Materials Demand - Rare Earth Magnets

Electric vehicles will consume 1t out of 4t of permanent magnets globally by 2030

Growth Rare Earth Permanent Magnets to 2030

Commercial EV
traction motors

Passenger EV
traction motors

Electric Mobility
Vehicles

ASM – An Emerging Independent Critical Metals Supplier

US \$ 4,000B

ASX Producers and Developer Peers

- Producers achieve a % of **Realised Price** compared to FOB China due to VAT duties/taxes and discounting
- Exposed to highly concentrated buyer universe (rare earth refiners)
- Multiple parties involved adds to complexity and costs

ASM Business Model

- ✓ Higher **Realised Prices**. Full value captured for oxides to metals/alloys across the business.
- ✓ Demonstrated commercial production of metals, alloys and powders
- ✓ Additional value in titanium and strip metal alloys

Dubbo Plant Optimisation

Defined Dubbo products

Optimised flowsheet

Potential improved project financial returns

Ziron Tech - Innovation – Technology - Value

ASM has 95% interest in Ziron Technology Corporation (Ziron Tech)

ASM owns the pilot plant and all IP related to the metallisation process

Ziron Tech team integrated into ASM

ASM's Integrated Metals Business

Rare Earths

- Long term stable, secure, and sustainable supply;
- Potential to provide strip metal alloy for permanent magnets;
- Potential to be part of a permanent magnet solution

Titanium

- Independent, lower cost, environmentally responsible supply
- Independent business that provides titanium metal, metal alloys and powders
- Potential to integrate into 3D manufacturing

Critical Metals

- Supply zirconium and hafnium metal for present and future demand
- Supplier of Niobium Metal
- Independent supply of critical metals

Global Independent Metals Producer

Agreement with Dongkuk R&S

Proven commerciality – 1,000 kg pd

Develop a Korean metals facility

Potential Timetable – Sustainable, Secure & Stable Supply

ASM Focus – Next 6 Months

- Complete optimisation of the Dubbo Project
- Progress Offtake and Strategic Partner discussions
- Progress EPC / EPCM Financing
- Progress Korean metal plant
- Progress financing of the Dubbo Project

Dubbo Project Resources & Reserves

Dubbo Project – Mineral Resources

Resource Category	Tonnes (Mt)	ZrO ₂ (%)	HfO ₂ (%)	Nb ₂ O ₅ (%)	Ta ₂ O ₅ (%)	Y ₂ O ₃ (%)	TREO* (%)
Measured	42.81	1.89	0.04	0.45	0.03	0.14	0.74
Inferred	32.37	1.90	0.04	0.44	0.03	0.14	0.74
Total	75.18	1.89	0.04	0.44	0.03	0.14	0.74

*TREO% is the sum of all rare earth oxides excluding ZrO₂, HfO₂, Nb₂O₅, Ta₂O₅, Y₂O₃,

Dubbo Project – Ore Reserves

Reserve Category	Tonnes (Mt)	ZrO ₂ (%)	HfO ₂ (%)	Nb ₂ O ₅ (%)	Ta ₂ O ₅ (%)	Y ₂ O ₃ (%)	TREO* (%)
Proved	18.90	1.85	0.04	0.440	0.029	0.136	0.735
Total	18.90	1.85	0.04	0.440	0.029	0.136	0.735

*TREO% is the sum of all rare earth oxides excluding ZrO₂, HfO₂, Nb₂O₅, Ta₂O₅, Y₂O₃,

Note: Full details including Competent Person statements can be found in the ASX announcement 29 July 2020 (Information Memorandum & Demerger Booklet) and in the Company's Annual Report (ASX release 7 October 2020) - the Company confirms that all material assumptions and technical parameters underpinning the estimated Mineral Resources and Ore Reserves, as disclosed continue to apply and have not materially changed. The Company also confirms that the form and context in which the Competent Person's findings are presented have not been materially modified.

Corporate Profile

Capital Structure

Ordinary Shares	119.05 million
Share Price (1 December 2020)	A\$4.18
Market Capitalisation	A\$497.63
52 week low/high	A\$0.84/\$4.25
Cash (30 September 2020)	A\$16.5M
Enterprise Value	A\$481.13M
Average Daily Turnover (3 Months)	A\$1.75 million

Experienced Board and Management Team focused on delivering:

- Development of the Dubbo Project
- Production of high purity metals direct to customers
- Integrate further in the critical metals value chain

Share Price and Volume (3 Months)
