

18th December 2020

EXPLORATION DRILLING UPDATE

- **Emu Lake aircore drilling completed - 59 holes for 3,801m**
- **Kanowna East update - 148 aircore holes completed for 9,417m**
- **Drilling to recommence in January 2021**

Metal Hawk Limited (ASX: MHK, “Metal Hawk” or “The Company”) is pleased to provide an update on the Company’s exploration activities.

Stage-1 aircore drilling has been completed at the Emu Lake Project with 59 holes drilled for 3,801 metres. Gold assays are expected early in the new year.

At the Kanowna East Project 148 holes have been drilled to date for 9,417 metres. This includes 49 holes drilled for 2,311 metres by Western Areas Limited (ASX: WSA) as part of WSA’s nickel exploration program. The aircore rig is taking a short break over the Christmas period and drilling will recommence at Kanowna East in January 2021. Additionally, a track-mounted lake rig is scheduled to begin drilling at Kanowna East in Q1 2021.
