# Disclaimer

The material in this presentation has been prepared by Frugl Group Limited ABN 20 611 354 208 (Frugl) (Company) and includes general Company information and product overview, as at the date of this presentation. This information is given in summary form and does not purport to be complete. Information in this presentation, including forecast financial information, should not be considered as advice or a recommendation to investors or potential investors in relation to holding, purchasing or selling securities or other financial obligations or opportunities. It does not take into account your particular investment objectives, financial situation or needs. Before acting on any information you should seek independent financial advice. All investments involve risks. To the extent permitted by law, no responsibility for any loss arising in any way (including by way of negligence) from anyone acting or refraining from acting as a result of this material is accepted by the Company, including Frugl Group Limited and any of its related bodies corporate. This presentation may contain forward looking statements including those regarding our intent, belief or current expectations with respect to our businesses and products. While due care has been used in the preparation of forecast information, actual results may vary in a materially positive or negative manner. Forecasts and hypothetical examples are subject to uncertainty and outside the Company's control. Investors and others should carefully consider such factors and other uncertainties and events. The Company makes no representation or warranty as to the accuracy of any forward-looking statements in this presentation and undue reliance should not be placed upon such statements. Forward-looking statements may be identified by words such as "aim", "anticipate", "assume", "continue", "could", "estimate", "expect", "intend", "may", "plan", "predict", "should", "will", or "would" or the negative of such terms or other similar expressions that are predictions of or otherwise indicate future events or trends. The forward-looking statements included in this presentation speak only as of the date of this presentation. We are under no obligation, and do not intend, to update any forward-looking statements contained in this presentation.

# Who we are, what we do

**Frugl** is a retail intelligence ecosystem that acquires publicly available grocery data, organises it, enriches it, and utilises it to power two independent retail platforms:

**Frugl Groceries** – a free grocery comparison and wellness mobile app for shoppers (B2C)

**InFocus Analytics** - an advanced retail analytics platform for retailers, suppliers and analysts (B2B)

With management drawn from major Australian and International retail organisations, **Frugl** combines extensive retail experience, proven expertise in data analytics and strategy, and enterprise-scale retail data sets ready for immediate commercialisation.

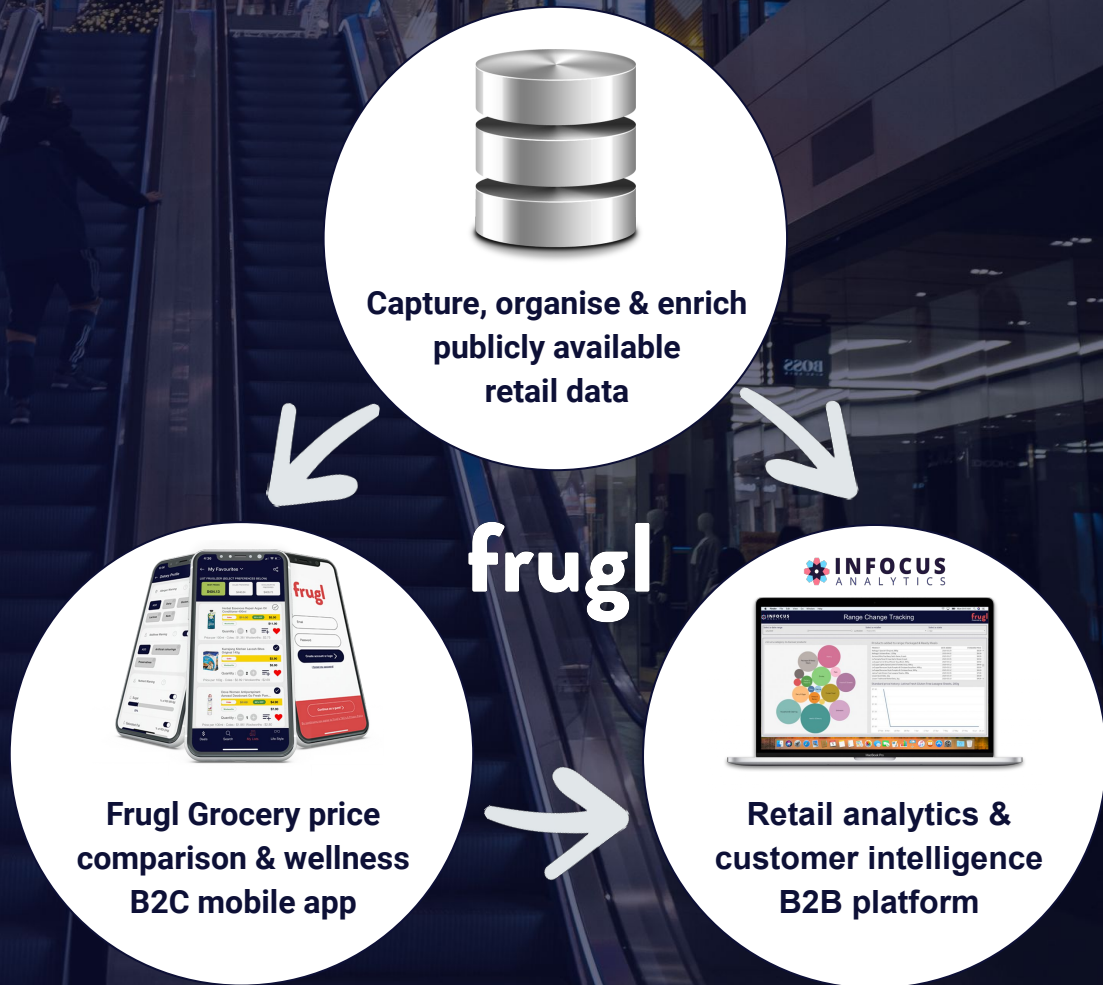

# The Data Process

Frugl captures publicly available retail data across a range of retailers before further transforming it, organising it, and enriching it via automated processing.

The data is then made available to shoppers via the **Frugl Grocery** app, as well as to businesses via the **InFocus Analytics** retail intelligence platform.

Users of the **Frugl Grocery** app generate user behaviour and segment data, which is collated and further able to be used by the InFocus Analytics platform for deeper consumer retail analytics.

# Frugl Retail Data

## Acquired & Enriched

### Retail Pricing Data

Regular data collation from Australia's largest supermarkets with price, promotion, range & product information

**Price, Range & Promotions Intelligence**

### Ingredient, Nutrient & Allergen Data

Product extracts include ingredients, nutritional values, allergens and provenance data

**Product health & quality Intelligence**

## Frugl App Generated

### Shopper Behaviour Data

Product selections & associated decision drivers for each frugl app user captured for analysis

**Shopper Behavioral Intelligence**

### Shopper Profile Data

Frugl app audience data including demographics, location, health and nutritional preferences

**Unique Consumer Segments**

# frugl

# Layering Retail & Customer Analytics

Retailers and brands who wish to understand the true impact of pricing, ranging and promotional tactics on shoppers can leverage behavioural insights alongside competitive data to understand and inform long-term product, price strategy and promotional planning.

Data Acquisition

Product & Pricing Analytics

Promotional Analytics

Competitor Range Analytics

Competitor Price Tracking

# InFocus Analytics

## Retail business intelligence

Our retail analytics platform can help businesses understand their customers and their competitive environments by developing data driven solutions matching their needs, and applying analytical techniques to create relevant and actionable insights.

Our goal is to create close, collaborative working relationships with our clients and to build innovative and intelligent data solutions that use data to unlock real business value.

# frugl

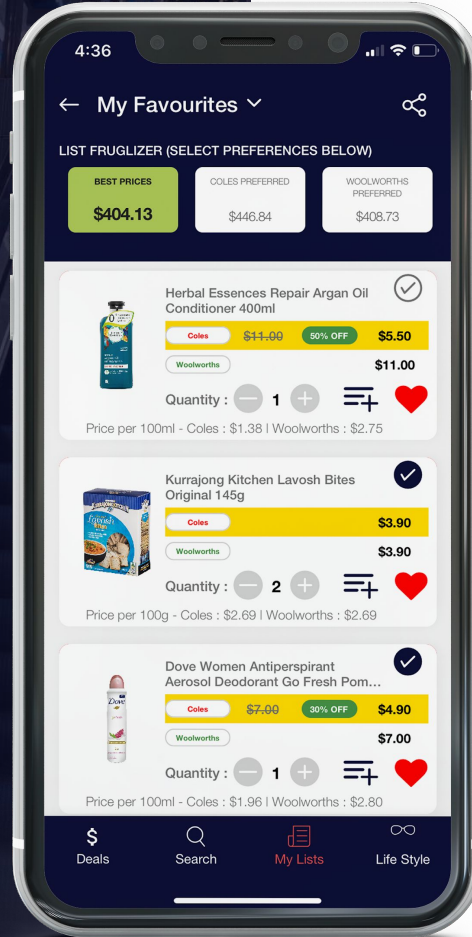

Compare grocery prices

Set up a health profile and receive ingredient and/or allergen alerts

See 1,000s of weekly discounts

## Frugl Grocery

### Lower Prices & Healthier Options

Frugl aggregates grocery product pricing and promotions data to provide shoppers with the lowest prices as well as health & nutritional information across Australia's leading supermarkets to help shoppers make informed decisions for their families well-being.
