

Douough Quarterly Review Q2 FY2021

- AI-powered banking and wealth management platform successfully launched in the U.S.
- Fostering financial wellness – helping customers spend smarter, save more and build wealth
- Douough enters strategic JV partnership to launch a BNPL anywhere offering in the U.S.
- The BNPL offering expected to increase the average revenue per customer
- Placement raising of \$12 Million completed including Humm Ventures taking up a \$2.5 Million strategic cornerstone investment
- Placement bolsters Douough’s already strong balance sheet, finishing the 2020 calendar year with more than \$16 Million cash at bank

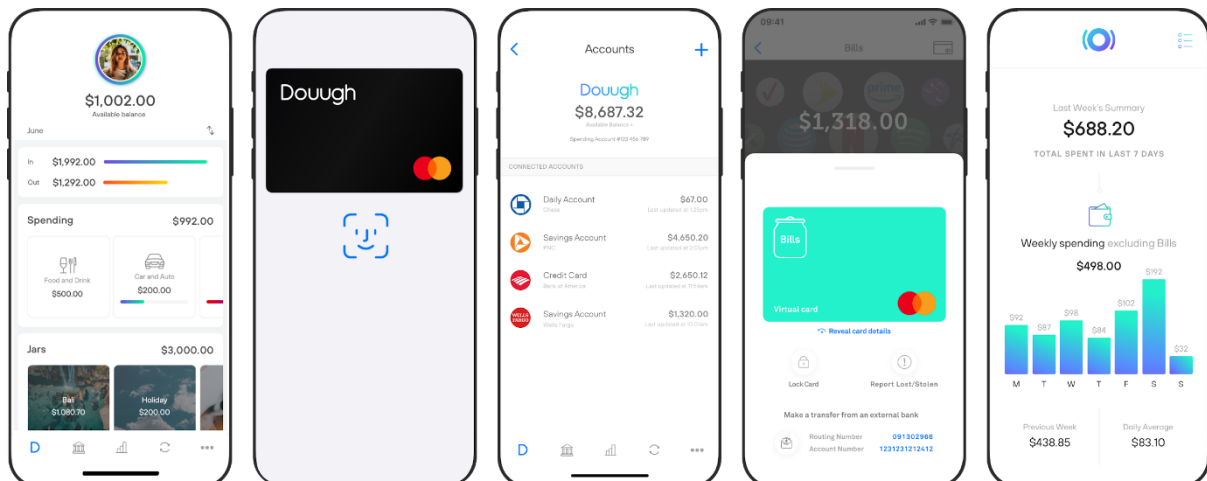

Subsequent to Quarter end:

- Douough agrees to acquire millennial investing fintech Goodments, to fast-track the introduction of its integrated wealth management service and monthly subscription in the U.S

29 January 2021 (SYDNEY): AI-driven financial wellness app provider Douough Limited (ASX: DOU) (“Douough” or the “Company”) presents the following activities report for the quarter ended on 31 December 2020 (the “Quarter”).

Activity Highlights

On 17 November 2020, the Company announced the official launch of its much anticipated financial wellness app in the United States after a successful 18-month beta trial.

The launch marked the introduction of Douough’s industry-first Bills Jar feature with a linked dedicated virtual card, which helps users track and cover their fixed and recurring outgoing expenses.

Central to Douough’s go-to-market growth strategy will be its utilisation of Google’s AI-powered ad bidding platform to target profitable customers, as well as the introduction of a viral member-get-member affiliate distribution channel to grow the community via word-of-mouth, and expanded marketing program across online and social media platforms.

About the Dough Wellness Platform

Dough uses individual banking data to provide intimately tailored financial solutions that help people spend smarter, save more and build wealth. Dough utilises the banking licenses of its partners, U.S.-based **Choice Bank** and Australian **Regional Australia Bank** to deliver core banking services via its SaaS delivery model.

Having forged a strategic partnership with Mastercard, Dough was in beta with select U.S. consumers from mid-2019 up until the launch this Quarter.

JV partnership with Humm Group Limited

On 1 December 2020, the Company announced that it had entered into a strategic JV partnership with ~\$600 million ASX listed Company Humm Group Limited (ASX: HUM) (Humm) (previously Flexigroup Limited), to launch an integrated interest-free 'buy now, pay later' (BNPL) feature in the U.S market.

The JV partners are working together to enter into a further agreement which will include the breakdown of revenue between the parties.

Company Overview, Strategy and Outlook

On 6 October 2020, Dough commenced trading on the ASX following completion of its capital raise of \$6 million, led by Canaccord Towards the end of the Quarter, the Company also focussed on completing its JV partnership with Humm Group Limited. Genuity. Canaccord also led the \$12 million follow-on Placement which was completed on 8 December 2020.

The Company's focus during the quarter was the launch of the Dough wellness app; in particular optimising marketing efforts to target high ARPU users and gaining user data to feed into the platform's AI processes.

The Quarter is covered by the Use of Funds projection detailed in the Company's August 2020 Prospectus. Below is a high-level comparison of anticipated versus actual expenditure for the Company.

Use of Funds per Prospectus	Anticipated	Actual to date	Variance	
Working capital and administrative expenses	\$1,435,000	\$672,000	\$763,000	53%
Research and development	\$1,100,000	\$283,000	\$817,000	74%
Marketing/growth hacking	\$2,700,000	\$272,000	\$2,428,000	89%
*Capital raising fees payable to Lead Manager	\$360,000	\$360,000	-	-
Transaction expenses	\$405,000	\$405,000	-	-
	\$6,000,000	\$1,992,000		

*Capital raising fees related to the December 2020 capital raising were paid from that capital raising and so are not reflected in this table

To date there have been no material variances to the Use of Funds as set out in the Prospectus. As the Company's plans progress, there will be further alignment between the Actual and Anticipated values.

The next step for the Company is the scale up the U.S customer base for the Dough Wellness Platform. Its upcoming Autopilot and Investment Jars features are scheduled to be rolled out in the coming months, prior to the introduction of a monthly subscription fee.

The Company will also look to finalise the terms of the JV Partnership with Humm as well as complete the acquisition of 100% of the issued capital in the consumer business of millennial investing fintech, Goodments Pty Ltd (Goodments) in an all scrip deal.

The acquisition of Goodments will accelerate the development and broaden the depth of Douugh's planned 'Wealth Jars' feature, which will initially allow customers to accelerate their savings goals by investing money in custom-built portfolios to help it fulfill its mission of becoming a fully fledged autonomous financial wellness platform, with integrated banking AND investing.

CEO Andy Taylor noted:

"With \$16 million cash in the bank, Douugh is strongly positioned to successfully scale up the U.S. customer base of the Douugh Wellness App. Data collection and AI learning are well underway and our development team has performed strongly and is well ahead of schedule to deliver key new features on our development roadmap.

While acknowledging our strong success operationally, we also want to acknowledge that there have been some issues in adjusting to becoming a public company and I would like to reassure all stakeholders that we are prioritising the strengthening of our governance and oversight moving forward, and thank everyone for their patience and support.

The Company has been corresponding with the ASX and expects to have all outstanding matters resolved over the coming days. Once resolved, the Company expects that the suspension on trading of its shares on ASX will be lifted immediately."

--Ends--

About Douugh

Douugh is a purpose-led fintech company operating in the U.S, taking an AI first approach in helping customers autonomously manage and grow their money to live financially healthier. Douugh's vision is to become a subscription based financial control centre.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
