About BlackEarth Minerals NL

BlackEarth Minerals (ASX:BEM) is an Australian Company with a focus on the development of critical commodity assets. BlackEarth has a substantial investment in its advanced graphite mining projects in Madagascar and base metal exploration prospects (Ni-Cu-PGE) in Western Australia.

Graphite

The Company holds the flagship Maniry Graphite Project, which is located in Southern Madagascar, with the Bankable Feasibility Study (BFS) currently underway and a focus on value added products, which are in high demand. The Company is also developing a number of opportunities to expand its interests into graphite downstream processing and is actively working with a number of industry leading organisations to supply product to the EV and downstream graphite production market. In time, the Company aspires to develop downstream processing facilities in Australia, Madagascar and other strategic locations.
