Galena Mining Limited and Controlled Entities

ABN 63 616 317 778

DIRECTOR'S REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

Your directors present the following report on Galena Mining Limited (the "Company" or "Galena") and its controlled entities, including Abra Mining Pty Ltd ("AMPL") (together referred to hereafter as the "Group"), for the period ended 31 December 2020.

DIRECTORS

The names of directors in office at any time during or since the end of the period are:

Adrian Byass	Non-Executive Chairman
Alexander Molyneux	Managing Director / Chief Executive Officer
Johnathan Downes	Non-Executive Director
Anthony James	Non-Executive Director
Stewart Howe	Non-Executive Director
Timothy Morrison	Non-Executive Director (resigned 14 December 2020)

Unless noted above, all directors have been in office since the start of the financial year to the date of this report.

COMPANY SECRETARY

Stephen Brockhurst held office as Company Secretary since the start of the financial year until the date of this report.

PRINCIPAL ACTIVITIES

Since listing on the ASX on 7 September 2017 the Company has continued to focus on exploration and pre-development works at the Abra Base Metals Project ("Abra" or the "Project"), together with early stage exploration works at other mineral prospects within the Group's portfolio.

OPERATING RESULTS

The Group incurred a loss for the period ended 31 December 2020 of \$1,255,296 (31 December 2019: \$5,595,273 loss) and net cash outflows of \$24,813,569 (31 December 2019: \$514,807 outflow).

FINANCIAL POSITION

At 31 December 2020, the Group had a net working capital surplus of \$31,651,395 (30 June 2020: \$7,886,933), including cash and cash equivalents of \$33,867,316 (30 June 2020: \$9,053,747).

REVIEW OF OPERATIONS

Highlights

- Successfully completed oversubscribed placement to raise A\$12 million.
- Finalised US\$110 million in project financing debt facilities for the development of the Abra Base Metals Project.
- Received an A\$20M investment tranche from Toho into AMPL increasing their interest in AMPL to 22.72% with Galena retaining 77.28%.
- Recommended preparatory construction and site enabling works, with Project development works 12% complete at the end of the half year.
- Successfully concluded the 2020 Abra Drilling Program with a total of 57 completed diamond core drill-holes (~25km of drilling) completed between August and December 2020, taking total cumulative drilling on Abra to over 100km.
- At the date of this report, assays have been published for all 57 drill-holes, received including the best high-grade lead-silver drill-hole ever at Abra, hole AB147.

Galena Mining Limited and Controlled Entities

ABN 63 616 317 778

DIRECTOR'S REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

Abra Base Metals Project (77.28%)

Abra comprises a granted Mining Lease, M52/0776 and is surrounded by the Exploration Licence E52/1455, together with several co-located General Purpose and Miscellaneous Leases. The Project is 100% owned by AMPL, which as at 31 December 2020 was 77.28% owned by Galena, with the remainder owned by Toho (pursuant to an Investment Agreement and Shareholders Agreement with Toho).

Abra is well located with the availability of key infrastructure and close access to water, public roads, existing mining operations and the towns of Meekatharra and Newman. Lead-silver concentrate will be transported by road to the port of Geraldton in the mid-west of Western Australia. Abra has received all the major approvals required for construction, mining and production.

An outstanding definitive / bankable feasibility study ("FS") was completed for the Project in July 2019. The FS envisages development of an underground mine and conventional flotation concentration processing facility with a 16-year life producing a high-value, high-grade lead-silver concentrate containing approximately 95kt of lead and 805koz of silver per year after ramp-up. Based on a pre-development capital expenditure estimate of A\$170 million, the FS modelled a pre-tax net present value for Abra (at an 8% discount rate) of A\$553 million and an internal rate of return of 39%.

Project construction / development

Following finalisation of the US\$110 million Taurus Debt Facilities and receipt of a further A\$20 million investment tranche from Toho, construction tasks at Abra were recommenced in December 2020.

Construction tasks recommenced towards the end of the half year comprise of preconstruction and enabling works, including:

- Installation of the remaining 200 camp units and other ancillary buildings to complete the 280-unit Abra mine site village.
- Clearing and earthworks involving preparation of sites for the ROM pad, future processing plant, settlement pond and others.
- The construction of an explosives magazine (now complete as at the date of this report).
- Roadworks.

The Company continues to target the commencement of the procurement / construction phase of Abra's plant and deployment of the underground mining contractor in the first half of the 2021 calendar year. Based on the current schedule, first production of high-value, high-grade lead silver concentrate at the Project will commence within 2022.

Safety and environment

During the half year to 31 December 2020, 49,644 employee and contractor work hours were recorded at Abra. One recordable injury was reported regarding a drilling contractor employee.

No environmental reportable incidences or exceedances were recorded during the half year.

Galena Mining Limited and Controlled Entities

ABN 63 616 317 778

DIRECTOR'S REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

2020 Abra Drilling Program

On 4 August 2020, Galena announced the commencement of drilling at Abra for the 2020 Abra Drilling Program. The Program was initially planned to consist of approximately 15,000 metres to 18,000 metres of drilling with three objectives: lead-silver orebody infill; drilling into selected prospective 'metal rich' zones for potential life of mine plan optimisation; and copper-gold exploration.

The 2020 Abra Drilling Program initially started with one drill-rig and then ramped-up to three drill-rigs. A fourth drill-rig was added on 12 November 2020, then the Program wound down for conclusion on 16 December 2020. By the end of the Program, 57 diamond core drill-holes were successfully completed for a total of 24,832 cumulative linear metres. Total completed drilling at Abra is now approximately 100.5km, of which more than two-thirds has been completed under Galena's ownership since late-2017.

One of the reasons the 2020 Abra Drilling Program was expanded was the outstanding success of drill-hole AB147 (reported on 19 October 2020), which encountered 86.1 metres of combined down-hole cumulative thickness of significant intersections and is considered to be the best high-grade lead-silver drill-hole in Abra's history. Importantly, AB147 was targeting a prospective 'metal rich' zone not currently in the early years of the mine plan used for the Feasibility Study, in this case a relatively shallow zone on the north-eastern limb of the Indicated portion of Abra's Mineral Resource. AB147 indicated the existence of a potentially mineable domain approximately 30 metres closer to the surface than the shallowest currently planned mining zone. The relative shallowness of this area and proximity to early decline development makes it a target for optimisation of the early years of the mine plan and potentially improves risk in that period. Based on the success of drill-hole AB147 and then subsequent follow-up success of drill-holes added to the Program around it, an additional 16 drill-holes were added to the 2020 Abra Drilling Program in that area. The added drill-holes cover an area approximately 100 metres (north-south) by 200 metres (east-west), extending outside of the Indicated Resource area modelled for the Apron Zones 101 and 102 lode in the October 2019 Resource, into the Inferred area between the two northern limbs of the Indicated Resource boundary.

As at the date of this report, assays for all 57 holes from the 2020 Abra Drilling Program have been published. Eight holes from the program showed cumulative significant lead-silver intersections in excess of 50 metres.

One of the last drill-holes drilled in the Program (AB195) was drilled to target the interpreted copper and gold zone underneath the lead-silver mineralisation at Abra. Significant copper-gold intersections from AB195 include: 3.0 metres at 4.2g/t gold and 1.1% copper from 670.7 metres; 2.0 metres at 6.9% copper from 698.1 metres; and 26.9 metres at 1.4% copper from 763.8 metres, including 8.9 metres at 2.3% copper from 773.0 metres. Significant copper and gold mineralisation in AB195 occurred within the potential copper-gold channel zone interpreted by the Company's geological and geophysical review in 2020. A downhole electromagnetic survey is planned to be conducted on AB195 during the second quarter of 2021 for the definition of conductive plates within its vicinity.

For further information regarding results for the 34 drill-holes from the 2020 Abra Drilling Program where assays have been published please see Galena's ASX announcements of 19 October 2020, 18 November 2020, 22 January 2021, 22 February 2021 and 24 February 2021.

Following completion of the Program, the drilling density at Abra has been substantially improved, particularly across the shallower northern area of the deposit. For example, the area covered with thirty-by-thirty metre or better drill-hole spacing has grown approximately five-fold.

Galena Mining Limited and Controlled Entities

ABN 63 616 317 778

DIRECTOR'S REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

Commercial initiatives in support of Abra development – project financing debt

On 12 November 2020, Galena finalised US\$110 million in debt facilities arranged by Taurus Funds Management. The facilities include a US\$100 million Project Finance Facility plus a US\$10 million Cost Overrun Facility.

The Project Finance Facility consists of a US\$100 million, 69-month term loan primarily to fund capital expenditures for the development of Abra. Key terms include:

- Fixed interest of 8.0% per annum on drawn amounts, payable quarterly in arrears.
- Arrangement fee of 2.5% (already paid) and commitment fee of 2.0% on undrawn amounts.
- No mandatory hedging.
- Early repayment allowed without penalty.
- US\$30 million drawable upfront. The remainder will be drawable once the results of the Abra 2020 Drilling Program are incorporated into the cash flow model and the model continues to forecast compliance with lock up financial ratios.

The Cost Overrun Facility consists of a US\$10 million loan to finance identified cost overruns on the Project in capital expenditure and working capital. Fixed interest of 10.0% per annum will apply to amounts drawn under the Cost Overrun Facility.

Conditions precedent to draw-down of the Taurus Debt Facilities include, receipt of Toho's remaining A\$40 million equity investment (for draw-down of in excess of the first US\$30 million), the aforementioned infill drilling condition for drawdown amounts in excess of US\$30 million and other conditions customary for facilities of this nature. The Taurus Debt Facilities will be secured against the Project assets and over the shares that each of Galena and Toho own in AMPL.

In consideration of the Taurus Debt Facilities, AMPL has entered into a Royalty Deed with Taurus for a royalty of 1.125% of net smelter return, which is the same amount as the historical vendor royalty terminated by AMPL after completion of the Abra Feasibility Study (see Galena ASX announcement of 4 December 2019). The royalty is conditional on the conditions precedent to drawdowns in excess of US\$30 million under the Project Finance Facility being met.

Commercial initiatives in support of Abra development – Toho Transaction

In April 2019, Galena executed definitive agreements with Toho setting out the terms for Toho's investment of A\$90 million in tranches for a 40% ownership interest in Galena's previously wholly-owned subsidiary, AMPL (the "Toho Transaction"). Key components of the Toho Transaction include:

- Investment and investment structure – A\$90 million total investment to be made via the subscription of new ordinary shares in AMPL such that Toho owns 40% of AMPL on completion of the full investment and Galena retains 60%.
- Tranched payment – A\$20 million was paid on initial closing of the transaction in April 2019; A\$10 million was paid in August 2019. A further A\$20 million was received during the half year (see Galena ASX announcement of 13 November 2020) and A\$40 million will be paid once the conditions precedent to drawing all of the Project Finance Facility are met (with all tranches combined taking Toho's total ownership in AMPL to 40%).
- Repayment of historical shareholder loans to Galena – As part of the Transaction, AMPL has repaid A\$12.75 million of historical shareholder loans back to Galena out of the received payment tranches.
- Off-take – Toho has also entered into an off-take agreement with AMPL to purchase 40% of Abra's high-grade high-value lead-silver concentrate on arms-length, benchmark terms.

Galena Mining Limited and Controlled Entities

ABN 63 616 317 778

DIRECTOR'S REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

Near-Project exploration

There were no material near-Project exploration activities completed during the half year.

Non-Abra prospects

Galena's non-Abra prospects consist of Woodlands, Manganese Range, Quartzite Well and Copper Chert, which comprise more than 76 kilometres of continuous strike to the west of Abra and reside within five granted Exploration Licences, being: E52/1413; E52/3575; E52/3581; E52/3630; and E52/3823.

During the half year to 31 December 2020, the Company concluded a downhole electromagnetic survey program over one diamond drill-hole drilled at Quartzite Well Manganese Range ("QWMR") Prospect in 2019 targeting the identification of potential conductive bodies within the vicinity of the drill-hole. Due to the high concentration of magnetite within some of the stratigraphic horizons, the quality of the data acquired was compromised and no significant conductive targets were identified. Despite the inconclusive results with the downhole electromagnetic survey, QWMR Prospect remains a significant exploration target due to its magnetic and gravity signature, and nearby lead, silver, zinc and copper mineralisation at Quartzite Well Prospect.

Also, during the half year to 31 December 2020, Resource Potentials Pty Ltd, a geophysical consulting company, delivered the final data for the gravity survey completed across four Jilawarra Project tenements, where the regional gravity data was merged into the new gravity data.

Impact of COVID-19

Issues of COVID-19-related market volatility, combined with practical issues associated with travel / logistics restrictions delayed the ability to complete credit approvals on a mutually agreed set of terms for the project finance debt. However, during the half year to 31 December 2020 the Company finalised the Taurus Debt Facilities.

Abra is a fly-in-fly-out ("FIFO") site in the Gascoyne Region of Western Australia, with flights to site originating from Jandakot Airport and Perth Airport in Perth. A number of measures have been implemented to protect employees and contractors working on the Project, in line with recommended Government guidelines and procedures.

The boards of both Galena and AMPL continue to monitor the evolving COVID-19 situation and how it might impact the Company's strategy. Of particular importance is the process of working with contractors for the development of Abra in determining any impact on their works and delivery schedules for key construction work items to be commenced on completion of the project financing debt process.

Corporate

A\$12 million placement

On 8 July 2020 the Company announced the successful completion of a placement to raise A\$12 million to continue progress on the Abra Base Metals Project. 57,150,000 new Galena shares were issued at a placement price of \$0.21 per share.

The placement was significantly oversubscribed and well supported by existing and new investors including high-quality institutional investors. The Company's largest shareholder and strategic investor, Mr Timothy Andrew Roberts, subscribed for 11,150,000 placement shares to maintain his pro-rata shareholding at approximately 20%.

Resignation of Non-Executive Director

On 14 December 2020, Galena announced the resignation of Non-Executive Director, Mr Timothy Morrison.

Galena Mining Limited and Controlled Entities

ABN 63 616 317 778

DIRECTOR'S REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

Mr Morrison contributed to the achievement of significant milestones during the period he served as a board member, including completion of the ASX initial public offering in 2017 and the numerous advancements to bring Abra into the early construction phase.

The Company thanks Mr Morrison for his contributions and wishes him well in his future endeavours.

Outlook

To date, approximately A\$28 million has been spent on Project development at Abra to complete 12% of Project works. Abra site is prepared for the deployment of key contractors for the construction of the plant and ancillary infrastructure, and deployment of the underground mining contractor. In addition, key agreements for such services are awarded or in a near-to-final state, further advancing on the completion of permitting, native title arrangements and offtake achieved in 2019.

Galena also has a strong, flexible and supportive partner for the Project in Toho. Since Toho's overall A\$90 million investment was agreed in April 2019 the investment received to date has been used to prepare the Abra site and advance early project works. Toho is the leading producer of lead in Japan and has entered into a binding offtake agreement to purchase 40% of Abra's production for an initial period of 10-years from the commencement of production.

During the Quarter, Galena concluded US\$110 million of project financing debt facilities arranged by Taurus Funds Management.

The Company continues to target the commencement of the procurement / construction phase of Abra's plant and deployment of the underground mining contractor in the first half of the 2021 calendar year. Based on the current schedule, first production of high-value, high-grade lead silver concentrate at the Project will commence within 2022.

Upcoming value-adding Abra and corporate milestone workstreams include:

- Remaining 2020 Abra Drilling Program assays (assays for 23 drill-holes pending).
- Commencement of plant procurement and construction under the EPC contract.
- Mobilisation of the underground mining contractor.
- Receipt of the final A\$40 million of Toho's investment into AMPL.
- First draw-down of the Taurus Debt Facilities.

CORPORATE

As at the date of this report, the following shares and options were on issue:

- 462,855,353 fully paid ordinary shares on issue;
- 10,750,000 options exercisable at \$0.08 on or before 30 June 2021;
- 1,250,000 options exercisable at \$0.50 on or before 26 March 2023;
- 1,250,000 options exercisable at \$0.60 on or before 26 March 2023;
- 1,250,000 options exercisable at \$0.50 on or before 17 April 2023;
- 1,250,000 options exercisable at \$0.60 on or before 17 April 2023;
- 11,500,000 performance rights exercisable on or before 9 November 2023;
- 2,000,000 performance rights exercisable on or before 13 August 2024;
- 1,585,000 share appreciation rights exercisable at \$0.17 on or before 21 January 2024; and
- 2,500,000 share appreciation rights exercisable at \$0.24 on or before 1 September 2025.

Galena Mining Limited and Controlled Entities

ABN 63 616 317 778

DIRECTOR'S REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

CHANGES IN STATE OF AFFAIRS

In the opinion of the directors, there were no other significant changes in the state of affairs of the Company that occurred during the period under review not otherwise disclosed in this report or in the financial report.

EVENTS AFTER THE REPORTING PERIOD

- On 8 January 2021, the Company issued 1,000,000 fully paid ordinary shares for 1,000,000 share options that were exercised at \$0.30. On 6 February 2021, the Company advised that the remaining 4,000,000 share options which the Company issued on 7 February 2018 were unexercised and therefore lapsed.
- On 18 January 2021, the Company advised that 25,000 share appreciation rights which the Company issued on 4 December 2019 lapsed and were cancelled due to the holder ceasing to be an eligible participant.
- The impact of the COVID-19 pandemic is ongoing and while it has not significantly impacted the Group up to 31 December 2020, it is not practicable to estimate the potential impact, positive or negative, after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

No other matter or circumstance has arisen since the end of audited period which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial periods.

AUDITOR'S INDEPENDENCE DECLARATION

Section 307C of the Corporations Act 2001 requires our auditors, PKF Perth, to provide the Directors of the Company with an Independence Declaration in relation to the audit of the financial report. This Independence Declaration is set out on page 10 and forms part of this Directors' Report for the period ended 31 December 2020.

This report is signed in accordance with a resolution of the Board of Directors.

Adrian Byass
Chairman

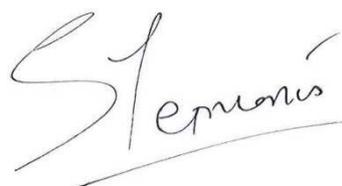

Dated this 26th day of February 2021

AUDITORS INDEPENDENCE DECLARATION
TO THE DIRECTORS OF GALENA MINING LIMITED

In relation to our review of the financial report of Galena Mining Limited for the half year ended 31 December 2020, to the best of my knowledge and belief, there have been no contraventions of the auditor independence requirements of the Corporations Act 2001 or any applicable code of professional conduct.

NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2020

NOTE 1: BASIS OF PREPARATION OF HALF YEAR FINANCIAL REPORT

Statement of compliance

The half year financial report is a general-purpose financial report prepared in accordance with the *Corporations Act 2001* and Australian Accounting Standards Board (AASB) 134 'Interim Financial Reporting'. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'. The half year report does not include notes of the type normally included in an annual financial report and shall be read in conjunction with the most recent annual financial report.

a) Going Concern

The half year financial report has been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

The Group incurred a loss for the period ended 31 December 2020 of \$1,255,296 (31 December 2019: \$5,595,273 loss) and net cash inflows of \$24,813,569 (31 December 2019: \$514,807 outflows).

At 31 December 2020, the Group had a net working capital surplus of \$31,651,395 (30 June 2020: \$7,886,933), including cash and cash equivalents of \$33,867,316 (30 June 2020: \$9,053,747). At the date of this report, the Directors are satisfied there are reasonable grounds to believe that, having regard to the Group's financial position and its available financing options, the Group will be able to meet its obligations as and when they fall due.

The impact of the Coronavirus (COVID-19) pandemic is ongoing and while it has not significantly impacted the Group up to 31 December 2020, it is not practicable to estimate the potential impact, positive or negative, after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

b) Basis of preparation

The consolidated financial statements have been prepared on the basis of historical cost. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australia dollars, unless otherwise noted.

The accounting policies and methods of computation adopted in the preparation of the half year financial report are consistent with those adopted and disclosed in the Group's 2020 annual financial report for the financial year ended 30 June 2020, except for the impact of the Standards and Interpretations described below. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

Under AASB 137 'Provision, Contingent Liabilities and Contingent Assets' a provision is required in respect of the future cost of rehabilitating the mine site. In accordance with AASB 137, using the life of mine, the present value of the rehabilitation costs of \$1,215,100 was calculated. As a result, a provision of \$1,171,723 was recorded during the half year and increased by the unwinding of the discount of \$11,541 to \$1,183,264 as at 31 December 2020.

The half year report does not include notes of the type normally included in an annual financial report and shall be read in conjunction with the most recent annual report and any public announcements made by Galena Mining Limited and its controlled entity during the half year in accordance with the continuous disclosure requirements of The Corporations Act 2001 and The ASX Listing Rules.

c) Adoption of new or revised accounting standards and interpretations

The Group has adopted all the new and revised Standards and Interpretations issued by the AASB that are relevant to their operations and effective for the current half year. Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

It has been determined by the Group that there are no new Accounting Standards or Interpretations that have a material or otherwise impact on its business.

Galena Mining Limited and Controlled Entities

ABN 63 616 317 778

NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2020

NOTE 2: SEGMENT INFORMATION

The Group has identified its operating segments based on the internal reports that are reviewed and used by the board of directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

The Group is managed primarily on the basis of one geographical segment being Australia, and has the following operating segments:

- The Abra Project segment which is a globally significant lead-silver project currently in development and located in the Gascoyne region of Western Australia.
- The Exploration segment which undertakes exploration and evaluation activities in Western Australia.
- The Other Activities segment which includes all corporate expenses that cannot be directly attributed to the Group's operating segments.

Segment Results

NOTE 4: ROYALTY TERMINATION	31 December 2020	31 December 2019
	\$	\$
Royalty termination	<u>-</u>	<u>4,000,000</u>

In December 2019, AMPL terminated a 1.125% historical vendor royalty on Abra by entering into a transaction with the individual royalty holder. Under the transaction, AMPL paid consideration for the royalty termination of \$1.6 million in cash; plus 7,000,000 shares in Galena. The consideration required for the termination was provided to AMPL by each of its shareholders, with \$1.6 million contributed by Toho's wholly-owned subsidiary CBH Western Australia Pty Ltd and the 7,000,000 Galena shares contributed by the Company. Following the royalty termination, total historical vendor and other non-Government royalty equivalent payments applicable to Abra have reduced from 3.5% to 2.375%.

	69,549	98,609

* Native title compensation arrangements were agreed by AMPL in May 2019 and expected payments under this agreement have been included in the above expenditure commitments for the Abra Project.

In the opinion of directors, there were no further capital or other commitments as at 31 December 2020.

NOTE 15: EVENTS AFTER REPORTING PERIOD

- On 8 January 2021, the Company issued 1,000,000 fully paid ordinary shares for 1,000,000 share options that were exercised at \$0.30. On 6 February 2021, the Company advised that the remaining 4,000,000 share options which the Company issued on 7 February 2018 were unexercised and therefore lapsed.
- On 18 January 2021, the Company advised that 25,000 share appreciation rights which the Company issued on 4 December 2019 lapsed and were cancelled due to the holder ceasing to be an eligible participant.
- The impact of the COVID-19 pandemic is ongoing and while it has not significantly impacted the Group up to 31 December 2020, it is not practicable to estimate the potential impact, positive or negative, after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

No other matter or circumstance has arisen since the end of audited period which significantly affected or may significantly affect the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial periods.

Galena Mining Limited and Controlled Entities

ABN 63 616 317 778

NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2020

NOTE 16: GROUP INFORMATION

Interest in controlled entities

The consolidated financial statements incorporate the assets, liabilities and the results of the following subsidiary in accordance with the accounting policy described in note 1:

Name	Country of Incorporation	Class of share	Equity holding 31 December 2020	Equity holding 30 June 2020
Abra Mining Pty Ltd	Australia	Ordinary	77.28%	86.16%
GML Marketing Pty Ltd ⁽ⁱ⁾	Australia	Ordinary	100%	100%
Metal Range Ltd ⁽ⁱ⁾	Australia	Ordinary	-	100%
MR1 Holding Pty Ltd ⁽ⁱ⁾	Australia	Ordinary	-	100% ⁽ⁱⁱ⁾

(i) Entities have no activity.

(ii) MR1 Holding is a wholly owned subsidiary of Metal Range Limited only

Proportion of equity interest held by non-controlling entity

Name	Country of Incorporation	Non-controlling interest	
		31 December 2020	30 June 2020
Abra Mining Pty Ltd	Australia	22.72%	13.84%

On 12 April 2020, the Company completed a transaction with Toho to invest \$90,000,000 in various tranches for a 40% joint-venture investment in AMPL. During the reporting period AMPL received the third tranche payment of \$20,000,000 (2019: \$10,000,000 received) from Toho and an additional \$18,000,000 equity from Galena and Toho. AMPL issued new shares to Galena and Toho's wholly-owned subsidiary, CBHWA, such that AMPL is currently owned 77.28% by Galena and 22.72% by CBHWA. The transactions have been accounted for as an equity transaction with a non-controlling interest in accordance with AASB 10 Consolidations which specifies accounting for non-controlling interests, resulting in the following:

	31 December 2020	30 June 2020
	\$	\$
Proceeds from the issue of new shares in AMPL to CBHWA	27,200,000	11,600,000
Net assets attributable to non-controlling interest	(11,795,465)	(3,208,906)
Increase in equity attributable to parent (i)	15,404,535	8,391,094

(i) Represented by an increase in the consolidation reserve.

DIRECTORS' DECLARATION

In accordance with a resolution of the directors of Galena Mining Limited, the directors of the company declare that:

1. the financial statements and notes thereto are in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the financial position of the Group as at 31 December 2020 and of its performance, for the half year ended on that date; and
 - (ii) complying with Australian Accounting Standards (including International Financial Reporting Standards) and the Corporations Regulations 2001;
2. in the directors' opinion there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration has been made after receiving the declarations required to be made to the directors in accordance with sections of 295A of the Corporations Act 2001.

This declaration is made in accordance with a resolution of the Board of Directors.

Adrian Byass
Chairman

Perth, 26th day of February 2021

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF GALENA MINING LIMITED

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Galena Mining Limited (the company) and controlled entities (consolidated entity) which comprises the consolidated statement of financial position as at 31 December 2020, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at 31 December 2020, or during the half year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Galena Mining Limited is not in accordance with the Corporations Act 2001 including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2020 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report.

Independence

We are independent of the company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Directors' Responsibility for the Interim Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with the Australian Accounting Standards and the Corporations Act 2001 and for such internal controls as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

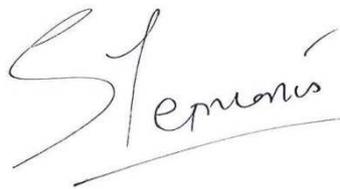

Auditor's Responsibilities for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2020 and its performance for the half year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporation Regulations 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
