NOTE 10 Operating segments

10.1 Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are provided to the Board of Directors on a regular basis and in determining the allocation of resources. Management continually assesses the Group's segments and has identified the operating segments based on the one principal location based on geographical areas and therefore different regulatory environments – Australia (2019: Australia). The Group operates predominantly in the minerals exploration and evaluation industry.

Due to its reduced activity, the Group currently operates materially in one business segment and one geographical segment as described above. Accordingly, the financial information presented in the statement of comprehensive income and statement of financial position is the same as that presented to the chief operating decision maker.

Notes to the condensed consolidated financial statements

for the half-year ended 31 December 2020

NOTE 11 Statement of significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements to the extent they have not already been disclosed in the other notes above. These policies have been consistently applied to all the years presented, unless otherwise stated.

11.1 Basis of preparation

11.1.1 Statement of compliance

The half-year financial report is a general purpose financial report that have been prepared in accordance with the *Corporations Act 2001* and AASB 134 'Interim Financial Reporting'.

Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

The half-year financial report does not include notes of the type normally included in the annual financial report and shall be read in conjunction with the most recent annual financial report.

The financial statements were authorised for issue on 10 March 2021 by the directors of the Company.

11.1.2 Comparative figures

Where required by AASBs comparative figures have been adjusted to conform to changes in presentation for the current financial year.

Where the Group retrospectively applies an accounting policy, makes a retrospective restatement or reclassifies items in its financial statements, an additional (third) statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements is prepared.

11.1.3 New and amended Standards adopted by the Group

A number of new standards, amendments to standards and interpretations issued by AASB which are not yet mandatorily applicable to the Company have not been applied in preparing these financial statements. The Company does not plan to adopt these standards early.

There are no other standards that are not yet effective and that would be expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions

11.2 Use of estimates and judgments

The preparation of consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. These estimates and associated assumptions are based on historical experience and various factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Judgement made by management in the application of AASBs that have significant effect on the consolidated financial statements and estimates with a significant risk of material adjustment in the next year are discussed below.

11.2.1 Critical accounting estimates and judgements

The critical estimates and judgements are consistent with those applied and disclosed in the 30 June 2020 annual report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
