DIRECTORS' REPORT

The Directors of Si6 Metals Limited ("Si6" or "the Company") present their report, together with the financial statements on the consolidated entity consisting of Si6 Metals Limited and its controlled entities for the half-year ended 31 December 2020 ("the Period").

It is recommended that the Directors' Report be read in conjunction with the annual financial statements for the year ended 30 June 2020 and considered together with any public announcement made by the Company during the period and up to the date of this report.

1. DIRECTORS

The names of the Company's Directors who held office during the Period and until the date of this report are set out below. The Directors were in office for this entire Period unless otherwise stated.

Director	Position	Duration of Appointment
Mr Patrick Holywell	Executive Chairman	Appointed 25 November 2019
Mr Steven Groves	Technical Director	Appointed 22 February 2017
Mr Joshua Letcher	Non-Executive Director	Appointed 21 August 2017

2. PRINCIPAL ACTIVITIES

The Group's principal activities during the year continue to be on exploration at the Maibele Project (Botswana) as well as Western Australia, following an option agreement entered into to acquire the Monument Project.

3. REVIEW OF OPERATIONS AND ACTIVITIES

Botswana – Maibele Project

The Maibele nickel sulphide mineralisation is related to ultramafic intrusions within mobile belt rocks and is broadly similar in style to other ultramafic intrusion-related mobile belt nickel discoveries such as Nova-Bollinger and Julimar. The Project is prospective for base metals and platinum group elements. During the period, planning was undertaken for a single deep diamond hole (which commenced late in the period) at Maibele North within a large electromagnetic conductor spatially associated with the mineralisation, testing along strike to the east of the nickel-sulphide intersection from the previous drill hole MARD0094. MARD0094 successfully intersected a nickel sulphide body returning significant assay results such as 6.82 metres @ 0.75% Ni, 0.25% Cu, 485 ppm Co, 0.06g/t Au and 0.43g/t Pd from 460 metres (see ASX announcement dated 14 October 2020).

During the period, other work undertaken at Maibele included gradient array induced polarization surveys at Airstrip and Dibete prospects which demonstrated strong chargeability responses for high-grade copper and silver mineralisation. Sampling was also undertaken at the Majante prospect highlighting a 1.2km long, sub-parallel zone of strong nickel responses coincident with the conductive electromagnetic feature.

Si6 has a farm-in and joint venture agreement with BCL Limited and its subsidiary BCL Investments (Pty) Ltd (jointly referred to as BCL). Under the terms of this agreement, BCL was required to spend A\$4 million on exploration expenditure to earn a 40% equity interest in three tenements. BCL has the option to continue funding the project to a Bankable Feasibility Study in order to earn an additional 30%. In October 2016, BCL was placed into liquidation.

DIRECTORS' REPORT

In early 2021, the Honourable, Moagi Lefoko, the Minister of Mineral Resources, Green Technology and Energy Security of Botswana, recently affirmed in Botswana Parliament the press release by the Liquidator for the BCL Group of Companies, stating that Premium Nickel Resources (PNR) was selected as the preferred bidder to acquire the assets formerly owned by BCL. PNR is a private Canadian company, dedicated to the exploration and development of high-quality nickel-copper-cobalt resources.

BCL owns the Selebi Phikwe mine, which is in close proximity to Si6's projects. Selebi Phikwe operations are comprised of a mining complex, a concentrator and a smelter, as well as other supplementary assets and infrastructure including rail line, dams, tailings, dumps, and employee housing. Mining concluded in 2016 when the operations were placed on care and maintenance, due to low base metal prices and high operational costs. The mine employed more than 5,000 workers at the time of their closing.

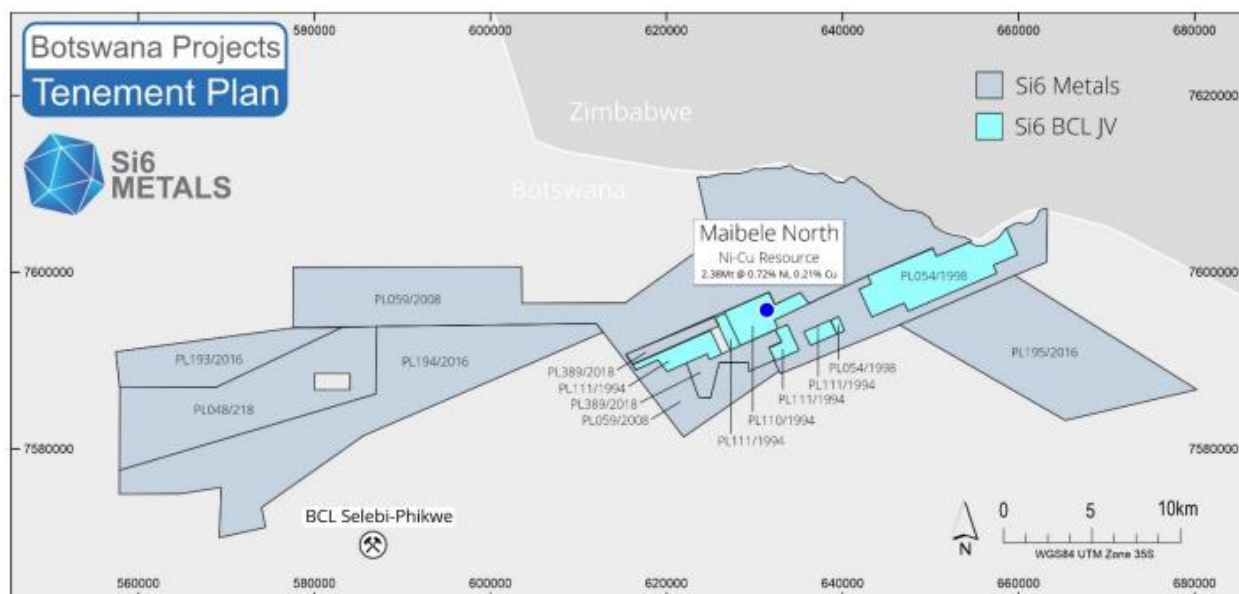

Figure 1: Location map showing Si6's as well as Si6/BCL JV tenements, Maibele resource and the nearby BCL Selebi Phikwe mine.

An initial JORC-compliant (2012) Inferred Resource was calculated at Maibele by MSA South Africa in 2015 (see Table 1.). At the time of BCL's liquidation, Worley Parsons had been engaged to recalculate the resource based on further drilling in preparation for mining pre-feasibility studies. This work was never completed.

Western Australia – Monument Project

In Western Australia, Si6 Metals entered into a binding and exclusive heads of agreement to acquire a 100% interest in the Monument Project which is prospective for gold. The Project covers an area of 310km² in a well-established mining district hosting excellent infrastructure and access including the sealed Leonora-to-Laverton Road, which runs directly through the Project, a gas pipeline and a sealed airstrip at Laverton. The Project contains significant gold mineralisation and ~30km of relatively untested gold-hosted banded iron formation, which is interpreted to be the same unit that hosts the Westralia gold deposit (Dacian's Mt Morgan Project), located immediately southeast of the Project. The world class Laverton Tectonic Zone, in which the Project lies, has produced more than 30 million ounces of gold and yielded some of Australia's best-known gold mines.

Since entering into the heads of agreement, Si6 has undertaken preparations for a 4,400 metre reverse circulation drilling program at Korong and Waihi, which commenced in early 2021. The Korong Prospect has been the focal point of previous explorers and currently has an inferred resource estimate of 0.86Mt @ 1.8g/t for 50,000oz (see Table 2). Ongoing project assessment work has also identified additional drill targets and exploration targets for follow up. Reconnaissance sampling has also confirmed bedrock mineralisation >1g/t Au over 9km of strike between A1 and Perseverance prospects with a number of bedrock samples >3g/t Au and a peak value of 39.3g/t Au from grab sampling at the Fred's Well North workings.

Competent Persons Statement

The information in this report that relates to Exploration Targets and Exploration Results is based on historical exploration information compiled by Mr Steven Groves, who is a Competent Person and a Member of the Australian Institute of Geoscientists. Mr Groves is a Director of Six Sigma Metals Limited. Mr Groves has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for the reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Groves consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Disclaimer

In relying on the above mentioned ASX announcements and pursuant to ASX Listing Rule 5.23.2, the Company confirms that it is not aware of any new information or data that materially affects the information included in the above mentioned report.

Share Placements

The Company completed a capital raising initiative via a combination of share placement and a Share Purchase Plan. The Company successfully raised \$0.96 million via a share placement at \$0.006 of 160,000,000 ordinary shares on 14 July 2020. 240,000,000 ordinary shares were issued at \$0.006 per share to raise \$1.44 million on 18 August 2020.

4. SIGNIFICANT CHANGES TO THE STATE OF AFFAIRS

There have been no significant changes to the state of affairs during the half-year ended 31 December 2020.

Notes to the Consolidated Interim Financial Statements

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These general purpose interim financial statements for half-year reporting period ended 31 December 2020 have been prepared in accordance with requirements of the Corporations Act 2001 and Australian Accounting Standard AASB 134: Interim Financial Reporting. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Si6 Metals Limited. As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2020, together with any public announcements made during the following half-year.

Significant accounting judgments and key estimates

The preparation of the interim financial report requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing this interim financial report, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial report for the year ended 30 June 2020.

Accounting Policies

The accounting policies are consistent with those applied in the previous financial year and those of the corresponding interim reporting period, other than as detailed below.

New and amended Accounting Standards that are effective for the current period

The Company has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to their operations and effective for the current half-year. New and revised Standards and amendments thereof and Interpretations effective for the current year that are relevant to the Company are:

- AASB 2018-6 Amendments to Australian Accounting Standards – Definition of a Business
- AASB 2018-7 Amendments to Australian Accounting Standards – Definition of Material
- AASB 2019-1 Amendments to Australian Accounting Standards – References to the Conceptual Framework
- AASB 2019-3 Amendments to Australian Accounting Standards – Interest Rate Benchmark Reform
- AASB 2019-5 Amendments to Australian Accounting Standards – Disclosure of the Effect of New IFRS Standards Not Yet Issued in Australia
- AASB 2020-4 Amendments to Australian Accounting Standards – COVID-19-Related Rent Concessions

Their adoption has not had any material impact on the disclosures or on the amounts reported in these financial statements.

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, Australian Accounting Standard AASB 134 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 31 December 2020 and of its performance for the financial half-year ended on that date; and
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to section 303(5)(a) of the Corporations Act 2001.

On behalf of the directors

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Si6 Metals Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Si6 Metals Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2020, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a summary of statement of accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2020 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the directors for the financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2020 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
