### **About BPM Minerals**

BPM Minerals Limited (ASX:BPM) is a Perth-based gold, nickel and base-metal explorer with a portfolio of high-tenor projects located across some of Western Australia's most prolific greenstone belts (Figure 1). The Company listed in late 2020 with only 36 million shares on issue and larger holdings escrowed for 24 months.

The Company seeks to build its landholdings within Tier-1 mining locations, close to existing deposits and world-class infrastructure. The management and exploration teams are well supported by an experienced Board of Directors who have a strong record of funding and undertaking exploration activities which have resulted in the discovery of globally significant deposits both locally and internationally.
