PIEDMONT RAISES A\$159 MILLION

Piedmont Lithium Limited (“Piedmont” or the “Company”) is pleased to advise that it has successfully completed an underwritten public offering of 1.75 million of its American Depositary Shares (“ADSs”), with each ADS representing 100 of its ordinary shares, at an issue price of US\$70.00 per ADS, to raise gross proceeds of US\$122.5 million (A\$159.1 million) (“Public Offering”).

J.P. Morgan, Evercore ISI and Canaccord Genuity acted as joint book-runners for the Public Offering. BTIG, LLC, B. Riley Securities, Loop Capital Markets, Roth Capital Partners, ThinkEquity, a division of Fordham Financial Management, Inc., Jett Capital Advisors and Tuohy Brothers acted as co-managers for the Public Offering. Piedmont has granted the underwriters a 30-day option to purchase up to an additional 262,500 ADSs at the issue price of the Public Offering.

Proceeds from the Public Offering will be used to continue development of the Company’s Piedmont Lithium Project, including definitive feasibility studies, testwork, permitting, further exploration drilling, mineral resource estimate updates and ongoing land consolidation, to fund the previously announced strategic investments in Sayona Mining Limited and Sayona Quebec Inc and other possible strategic initiatives, and for general corporate purposes.

The ADSs, each representing 100 ordinary shares, will be issued under ASX Listing Rule 7.1 and are expected to be issued on March 25, 2021. The issue price of US\$70.00 per ADS (A\$0.909 per ordinary share) represents a 3% discount to the 20-day VWAP on ASX of A\$0.933.

Subject to orders being made by the Supreme Court of Western Australia, the Company intends to issue supplementary disclosure to advise shareholders of the Public Offering and seek a later date for the scheme meeting to consider the approval of the scheme of arrangement. This will delay the timetable for the scheme of arrangement and shareholders will be advised of the revised timetable as soon as it is available.

This press release is not an offer or sale of the securities in the United States or in any other jurisdiction where such offer or sale is prohibited, and such securities may not be offered or sold in the United States absent registration or an exemption from registration under the Securities Act of 1933, as amended.

About Piedmont

Piedmont Lithium (Nasdaq:PLL; ASX:PLL) is developing a world-class integrated lithium business in the United States, enabling the transition to a net zero world and the creation of a clean energy economy in America. Our location in the renowned Carolina Tin Spodumene Belt of North Carolina, the cradle of the lithium industry, positions us to be one of the world’s lowest cost producers of lithium hydroxide, and the most strategically located to serve the fast-growing US electric vehicle supply chain. The unique geographic proximity of our resources, production operations and prospective customers places us on the path to be among the most sustainable producers of lithium hydroxide in the world and should allow Piedmont to play a pivotal role in supporting America’s move to the electrification of transportation and energy storage.
