Continuous High Growth

As announced earlier in announcement dated 25 January 2021, Fatberry is a Southeast Asia based high-growth insurtech platform that has recorded on average of more than 100% month-on-month growth from June 2020 to February 2021.

In just over 8 months, between June 2020 and February 2021, Fatberry's monthly revenue has grown an impressive 6800 % to reach monthly revenue of MYR 550,000 (A\$175,000).

Via a full commercial launch in the Malaysian market during April 2020 (at the beginning of the COVID-19 pandemic), Fatberry has transformed the way consumers purchase insurance products in Malaysia via Fatberry.com, which is now a leading insurance online destination that allows customers to easily compare, customise and purchase insurance products online.

Launch of New Product Range to Fuel Growth

The main product offering of Fatberry is vehicle insurance. Earlier this month, Fatberry expanded into the 2-wheel motorcycle insurance vertical, in which it sees potential. The vehicle and motorcycle insurance market in Malaysia is estimated to worth MYR 8.5 billion (A\$2.67billion) in year 2020 alone (source: Motor Intelligence). Fatberry plans to launch further new product range in different insurance verticals to drive growth.

New Funding For Further Market Share

Fatberry's CEO, John Tan commented "With the funding raised, we will continue in our mission to make purchasing insurance on digital platform as easy as possible for consumers. "

FFG's Group CEO, Kin W. Lau, further commented "Consumers are going to prefer to purchase insurance on digital platforms. It is an unstoppable macro-trend. We are excited about the prospect of Fatberry and we can see lots of synergies between Fatberry's insurance platform and our Buy-Now-Pay-Later business. We would be looking to explore collaboration between the two businesses down the road".

This announcement has been authorized by the Board of Directors of FFG.
