

## Environmental Permit Granted

Salt Lake Potash Limited (SO4 or the Company) is pleased to announce it has received its Part IV Environmental Approval for the Lake Way project covering full scale operations of 245ktpa of SOP.

---

### Highlights

- The Company's Part IV Environmental submission has been approved by the Government, having been recommended by the EPA with no appeals in January 2021.
- The permit enables SO4 to finalise construction of pond trains 4-6 as well as associated trench and bore construction that will support full scale operations at Lake Way of 245kt per annum of SOP.
- Construction work on the final components of on-lake infrastructure will commence this quarter.

---

### CEO Statement

Receiving final Environmental Approval over the full Lake Way project will enable our team to commence construction of the remaining on-lake infrastructure and deliver the full scope of the Lake Way project. We look forward to commencing work shortly on this final phase.
