## \$500,000+ order from Beacon Lighting

ASX RELEASE

29 April 2021

### Highlights

- Beacon Lighting commits to an order worth over \$500,000
- Zimi Powermesh devices rolled out to all Beacon Lighting stores
- Devices to appear on an upcoming TV renovation show

Zimi Ltd (ASX:ZMM) ("Zimi", the "Company") is delighted to receive a purchase order ("the purchase order") from Beacon Lighting Group ("Beacon Lighting", ASX:BLX). The devices in the purchase order are due to be delivered to Beacon Lighting from June through to November 2021, however, global microchip shortages may result in some delays. The purchase order is worth over \$500,000 and is in addition to the orders already received from its distributor GSM-Electrical ("Trader") for over 17,000 products<sup>1</sup>.

Beacon Lighting is Australia's leading specialist retailer and trade supplier of lights, fans and globes with over 115 stores and a presence in every state and territory. The Zimi Powermesh devices will be sold under the Lucci Powermesh brand and will feature as part of the Beacon Lighting product range. Following an initial trial in flagship stores and online<sup>1</sup>, Beacon Lighting will roll out the devices in all its stores nationwide. The Lucci Powermesh devices will also appear on an upcoming popular renovation TV show where Beacon Lighting is one of the suppliers.

**Beacon Lighting's CEO, Glen Robinson, commented:** 'The humble light switch is seeing technological change we haven't seen before. The Lucci Powermesh products will offer our customers total control over their everyday appliances and help them future-proof their homes easily and affordably.'

**Zimi's CEO, Brett Savill, commented:** 'We are thrilled with the vote of confidence from Beacon Lighting and look forward to working closely with them over the coming months.'

This release has been approved by the board.
