

## QUARTERLY ACTIVITIES REPORT FOR PERIOD ENDING 31 MARCH 2021

**Triton Minerals Limited** (ASX: TON) ("**Triton**" or "**the Company**") provides its activity report for the quarter ending 31 March 2021 ("**the Quarter**").

During the quarter, the Company continued to work with representatives and nominee directors of its largest shareholder, Jigao International Investment Development Co., Limited (**Jigao**) on financing for its flagship Ancuabe Graphite Project ("**Ancuabe**" or "**the Project**") in North East Mozambique. Senior management acknowledges that the financing timeframe is significantly beyond that previously anticipated and assures shareholders that completing financing as soon as possible remains its core focus.

### ANCUABE GRAPHITE PROJECT

Located within the established graphite region of Cabo Delgado in north eastern Mozambique, Ancuabe is closest to port of all East African graphite projects.

The Ancuabe Project is the only large scale, large flake graphite project in the region and its high-purity, large flake graphite (suited to the emerging EV and electric storage markets), commands a market price premium over smaller flake products.

**Figure 1.** Location of TON's Graphite Portfolio

Triton is aiming to become the next East African premium graphite producer, targeting production of 60,000 tonnes of high purity, large flake graphite concentrate per annum.

Late in 2019 a \$19.5 million investment by Chinese state-owned enterprise Jinan Hi Tech (“JHT”) was completed to provide financing support for the early construction activities at Ancuabe. This investment resulted in JHT becoming TON’s largest shareholder with a 34.01% interest.

The Company has signed binding offtake agreements with Tianshengda Graphite and Chenyang Graphite each for up to 16,000 tonnes of annual Ancuabe graphite concentration production, equating to over 50% of anticipated annual production from Ancuabe.

A Definitive Feasibility Study (“DFS”) (ASX December 2017) completed by Triton confirms Ancuabe to be a high quality, long life, high margin graphite project and was underpinned by a Maiden JORC Compliant Ore Reserve of 24.9Mt at 6.2% TGC that supported the DFS evaluation period of 27 years.

MCC International Incorporation Limited has been awarded the Engineering, Procurement and Construction contract for the mineral processing facility and other infrastructure at Ancuabe.

### EUROPEAN BATTERY ALLIANCE

The Company has joined the European Battery Alliance (EBA). The EBA was launched in 2017 by the European Commission with the aim of creating a competitive and sustainable European battery industry by 2025. The EBA is a unique meeting platform and provides the Company with access to a network of key industry players along the entire battery value chain. Details about the EBA can be found at <https://www.eba250.com>.

### SECURITY

The Company is actively monitoring the security situation in the Northern Districts of Cabo Delgado. To date, there has been no impact on Triton’s employees and the Company’s risk management strategies are deemed appropriate.

### CHANGE OF CHIEF EXECUTIVE OFFICER

During the quarter, Peter Canterbury stepped down as Managing Director and Chief Executive Officer of Triton and Triton Chief Financial Officer, Mr. David Edwards, was appointed to the role of Interim Chief Executive Officer effective 1 February 2021.

Mr. Canterbury has continued as a Non-Executive Director to ensure a smooth transition as the Company looks to proceed to the construction phase of the Ancuabe Graphite Project in Mozambique in 2021.

### CORPORATE INFORMATION

At 31 March 2021, the Company had 3,632 shareholders and 1,134,468,067 shares on issue. The top 20 shareholders held 59.6% of the issued ordinary shares.

At 31<sup>st</sup> March 2021, the Company had cash at bank of approximately \$1.75 million. The cash at bank excludes the cash backed construction guarantee of approximately \$2.6 million lodged with INAMI in November 2019.

### EXPENDITURE

The pro-forma appendix 5B – statement of consolidated cash flows is attached to this report.
