# 1. DETAILS OF THE ENTITLEMENT OFFER

## 1.1 Entitlement Offer

The Entitlement Offer is a non-renounceable pro rata entitlement issue of one (1) New Share for every five (5) Shares held by Eligible Shareholders on the Record Date at an issue price of \$0.04 per New Share to raise up to approximately \$1.85 million (before costs) (**Entitlement Offer**). The Entitlement Offer is made to all Shareholders with a registered address in Australia and New Zealand on the Record Date, being 5.00pm (AWST) 18 May 2021. The issue price represents a 7% discount to the 30 day VWAP.

The Entitlement Offer is being made pursuant to section 708AA of the Corporations Act (as modified by ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84).

Under this Offer Document, Eligible Shareholders, being Shareholders on the Record Date with a registered address in Australia or New Zealand are eligible to participate in the Entitlement Offer.

At the date of this Offer Document, the Company has on issue 185,222,009 Shares and 18,000,000 Options and 23,000,000 Performance Rights. Following the issue of 46,305,303 Placement Shares and assuming no Options or Performance Rights are exercised before the Record Date, up to approximately 46,305,462 New Shares may be issued under the Entitlement Offer (subject to rounding). If all of the existing Options and Performance Rights are exercised before the Record Date (and assuming all Shares issued on exercise of the Options and Performance Rights are issued to Eligible Shareholders), up to approximately 54,505,462 New Shares may be issued under the Entitlement Offer (subject to rounding).

Where the determination of the Entitlement of any Shareholder results in a fraction of a New Share, such fraction will be rounded up to the nearest whole New Share.

All of the New Shares will rank equally with the Shares on issue at the date of this Offer Document. Refer to Section 2.13 for a summary of the rights attaching to New Shares.

This Offer Document is also for the offer of New Shares that are not applied for under the Entitlement Offer. Refer to Section 2.5 for further details of the Shortfall Offer.

Further information about the Company and its operations is contained in publicly available documents lodged by the Company with the ASIC and ASX. This Offer Document should be read in conjunction with this material.

There are a number of risks associated with investing in the share market generally and the Company specifically. The New Shares must be regarded as highly speculative. Investors should read this Offer Document in its entirety before deciding to invest and in particular, consider the risks detailed in Section 4.

The Placement Shares are expected to be issued on 14 May 2021.

Refer to the Company's announcement of 13 May 2021 for further details of the Placement.

### 1.3 Reasons for the Entitlement Offer and funding allocation

The Company will use the funds raised from the Entitlement Offer (after costs) to fund:

- (b) 52 hectare extension of existing avocado orchard at the Carpenters Project; and
- (c) general working capital purposes

### 1.4 Capital structure on completion of the Offers

## **2. FURTHER DETAILS OF THE OFFERS**

### **2.1 Entitlements and acceptance**

The Entitlement of Eligible Shareholders to participate in the Entitlement Offer is determined on the Record Date. Your Entitlement is shown on the Entitlement and Acceptance Form accompanying this Offer Document.

Acceptance of a completed Entitlement and Acceptance Form and Application Monies by the Company creates a legally binding contract between the Applicant and the Company for the number of New Shares accepted by the Company. The Entitlement and Acceptance Form does not need to be signed to be a binding acceptance of New Shares.

If an Entitlement and Acceptance Form is not completed correctly it may still be treated as valid. The Directors' decision as to whether to treat the acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

### **2.2 No rights trading**

The rights to New Shares under the Entitlement Offer are non-renounceable. Accordingly, there will be no trading of rights on the ASX and you may not dispose of your rights to subscribe for New Shares under the Entitlement Offer to any other party. If you do not take up your Entitlement by the Closing Date, the Entitlement Offer to you will lapse.

### **2.3 Shortfall Shares**

Any New Shares under the Entitlement Offer that are not applied for will form the Shortfall Shares.

### **2.4 Underwriting**

The Entitlement Offer is partially underwritten by Penagri Holdings Pty Ltd (**Penagri**). Penagri has agreed to underwrite the Entitlement Offer by procuring Applications for any Shortfall Shares up to such number of Shares that following completion of the Offers Penagri's voting power in the Company is equal to 19.9%.

There are no fees, commissions or other consideration payable to Penagri for acting as partial underwriter to the Entitlement Offer and there are no significant events that could lead to the underwriting being terminated.

### **2.5 Shortfall Offer**

The Company will offer for issue any remaining Shortfall Shares following Penagri's underwriting at the same price of \$0.04 per New Share as that offered under the Entitlement Offer. The offer to issue Shortfall Shares is a separate offer under this Offer Document (**Shortfall Offer**).

The Shortfall Shares will have the same rights as the New Shares as detailed in Section 2.13. Eligible Shareholders may apply for Shortfall Shares by completing the relevant section of their Entitlement and Acceptance Form (refer to Section 3.1 for further details). Other investors may also apply for Shortfall Shares by completing the Shortfall Application Form upon invitation from the Company (refer to Section 3.3).

Under the Shortfall Offer, Shortfall Shares may be allocated to any Eligible Shareholder who applies for Shortfall Shares or to other investors who apply for Shortfall Shares under the Shortfall Offer, at the absolute discretion of the Directors. Any remaining Shortfall Shares following Penagri's underwriting component will not be allocated to Penagri or its associates under the Shortfall Offer.

An Application for Shortfall Shares accompanied by payment of Application Monies does not guarantee the allotment of any Shortfall Shares. The Shortfall Shares will be allocated within three months after the Closing Date.

In relation to the Shortfall Offer, the Company reserves the right to issue to an Applicant a lesser number of Shortfall Shares than the number applied for, reject an Application or not proceed with the issuing of the Shortfall Shares or part thereof. If the number of Shortfall Shares issued is less than the number applied for, surplus Application Monies will be refunded in full. Interest will not be paid on Application Monies refunded.

## 2.6 Dilution and potential effect on control

The information included in this Section 2.6 has been prepared on the assumption that the Placement Shares have been issued.

Shareholders should note that if they do not participate in the Entitlement Offer, their holdings are likely to be diluted by the following percentages:

Example Shareholder	Holding as at Record Date	% as at Record Date	Entitlement	Holding if Entitlement not taken up	% following allotment of New Shares
Shareholder 1	10,000	0.0043	2,000	10,000	0.0036
Shareholder 2	20,000	0.0086	4,000	20,000	0.0072
Shareholder 3	50,000	0.0216	10,000	50,000	0.0180
Shareholder 4	100,000	0.0432	20,000	100,000	0.0360

Notes:

1. The dilution in the above table is the maximum percentage on the assumption that those Entitlements not accepted are placed under the Shortfall Offer. If Entitlements not accepted are not subsequently placed under the Shortfall Offer, the dilution to each shareholder not accepting their Entitlement will be less.
2. The above table assumes no Options or Performance Rights are exercised before the Record Date.

Assuming existing substantial Shareholders (being Shareholders with a relevant interest in greater than 5% of the Company's Shares) take up their Entitlements in full and do not acquire or dispose of a relevant interest in any Shares after the date of this Offer Document but before the Record Date, their voting power in the Company will remain the same following the Offers.

The voting power of Penagri and its associates will increase from 15.1% following the Placement to 19.9% following the Offers, assuming there are sufficient Shortfall Shares that its underwriting is called on in full.

## 2.7 Directors' interests and participation

The relevant interest of each Director in Shares as at the date of this Offer Document, together with their respective Entitlements, is detailed in the table below:

Director	Shares held	Entitlement (Number of New Shares)
John McGlue	5,013,171	1,002,634
John Palermo	800,000	160,000
Mark Clements	500,000	100,000

At the date of this Offer Document, all Directors intend to take up their Entitlements in full.

## **2.8 Foreign Shareholders**

The Entitlement Offer is not being extended to any Shareholders whose registered address is outside Australia or New Zealand (**Foreign Shareholders**).

The Company is of the view that it is unreasonable to make the Offers to Shareholders outside Australia or New Zealand having regard to:

- (a) the number of those Shareholders;
- (b) the number and value of Shares to be offered to those persons; and
- (c) the cost of complying with overseas legal requirements.

**This Offer Document and the Entitlement and Acceptance Form do not, nor are they intended to, constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer.**

Shareholders resident in Australia or New Zealand holding Shares on behalf of persons who are resident overseas are responsible for ensuring that taking up Entitlements under the Entitlement Offer does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

## **2.9 Opening and closing dates**

The Company will accept payments in respect of the Entitlement Offer from Eligible Shareholders from the Opening Date until 5.00pm (AWST) on the Closing Date or such other date as the Directors in their absolute discretion shall determine, subject to the Listing Rules.

Please note that payment made by BPAY® or EFT must be received no later than 5.00pm (AWST time) on the Closing Date. It is the responsibility of all Eligible Shareholders to ensure that their BPAY® payments are received by the Company on or before the Closing Date.

The Shortfall Offer is currently scheduled to close on the Closing Date but the Directors reserve the right to extend the date that the Shortfall Offer closes by up to three months after the Closing Date, without prior notice.

## **2.10 Issue and Dispatch**

The expected dates for issue of New Shares and dispatch of holding statements are expected to occur on the dates specified in the Indicative Timetable.

It is the responsibility of Applicants to determine their allocation prior to trading in New Shares. Applicants who sell New Shares before they receive their holding statements will do so at their own risk.

Shortfall Shares may be issued within three months after the Closing Date.

## **2.11 Application Monies held on trust**

All Application Monies will be held on trust in a bank account maintained solely for the purpose of depositing Application Monies received pursuant to this Offer Document until the New Shares are issued. All Application Monies will be returned (without interest in accordance with the Corporations Act) if the New Shares are not issued.

## **2.12 Acceptance and payments**

Acceptance by the Company of a BPAY® or EFT payment creates a legally binding contract between the Applicant and the Company for the number of New Shares accepted by the Company. The Application Form does not need to be signed to be a binding acceptance of New Shares.

## **2.13 Rights and liabilities attaching to New Shares**

The New Shares offered under this Offer Document will rank equally in respect of dividends and have the same rights in all other respects (e.g. voting, bonus issues) as existing Shares.

Full details of the rights and liabilities attaching to New Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

The Company does not currently intend to pay any dividends. Payment of dividends by the Company will be at the discretion of the Board after taking into account many factors, including, but not limited to, the Company's operating results, financial condition and current and anticipated cash needs.

## **2.14 ASX quotation**

Application will be made to ASX no later than seven days after the date of this Offer Document for Official Quotation of the New Shares. If ASX does not grant Official Quotation of the New Shares within three months after the date of this Offer Document (or such period as the ASX allows), no New Shares will be issued or allotted under the Offers and the Company will return, as soon as practicable, without interest, all Application Monies in accordance with the Corporations Act received pursuant to this Offer Document.

ASX takes no responsibility for the contents of this Offer Document. The fact that ASX may grant Official Quotation is not to be taken in any way as an indication of the merits of the Company or the New Shares.

## **2.15 CHESS**

The Company participates in the Clearing House Electronic Subregister System, known as CHESS. ASX Settlement, a wholly owned subsidiary of ASX, operates CHESS in accordance with the Listing Rules and Securities Clearing House Business Rules.

Under CHESS, Applicants will not receive a certificate but will receive a statement of their holding of New Shares.

If you are broker sponsored, ASX Settlement will send you a CHESS statement.

The CHESS statement will set out the number of New Shares issued under this Offer Document, provide details of your holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the New Shares.

If you are registered on the Issuer Sponsored subregister, your statement will be dispatched by the Share Registry and will contain the number of New Shares issued to you under this Offer Document and your security holder reference number.

A CHESS statement or Issuer Sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their shareholding changes. Shareholders may request a statement at any other time, however, a charge may be made for additional statements.

## **2.16 Continuous disclosure obligations**

The Company is a 'disclosing entity' (as defined in section 111AC of the Corporations Act) and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities.

This Offer Document is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

All announcements made by the Company are available from the ASX website [www.asx.com.au](http://www.asx.com.au).

Additionally, the Company is required to prepare and lodge with ASIC yearly and half-yearly financial statements accompanied by a directors' statement and report, and an audit report or review. These reports are released to ASX and published on the ASX website.

## **2.17 Taxation implications**

The Directors do not consider it appropriate to give Applicants advice regarding the taxation consequences of subscribing for New Shares.

The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Applicants. Applicants should consult their own professional tax adviser to obtain advice in relation to the taxation laws, regulations and implications applicable to their personal circumstances.

## **2.18 Risks of the Offers**

As with any securities investment, there are risks associated with investing in the Company. However, having regard to the risks applicable to the Company detailed in Section 4, Eligible Shareholders should be aware that an investment in the New Shares should be considered highly speculative and there exists a risk that you may, in the future, lose some or all of the value of your investment.

Before deciding to invest in the Company, investors should read this Offer Document in its entirety, in particular the specific risks associated with an investment in the Company (detailed in Section 4), and should consider all factors in light of their personal circumstances and seek appropriate professional advice.

## **2.19 Withdrawal**

The Directors may at any time decide to withdraw this Offer Document and the Offers, in which case, the Company will return all Application Monies (without interest) in accordance with the Corporations Act.

## **2.20 Privacy**

The Company collects information about each Applicant provided on an Application Form for the purposes of processing the Application and, if the Application is successful, to administer the Applicant's security holding in the Company.

By submitting an Application Form, each Applicant agrees that the Company may use the information provided by an Applicant on the Application Form for the purposes detailed in this

privacy disclosure statement and may disclose it for those purposes to the Share Registry, the Company's related bodies corporate, agents, contractors and third party service providers, including mailing houses and professional advisers, and to ASX and regulatory authorities.

## **4. RISKS**

### **4.1 Introduction**

The New Shares are considered highly speculative and carry no guarantee with respect to the payment of dividends or returns of capital. An investment in the Company is not risk free and the Directors strongly recommend that potential investors consult their professional advisers and consider the risks described below, together with information contained elsewhere in this Offer Document, before deciding whether to apply for New Shares.

The following list of risks ought not to be taken as exhaustive of all the risks faced by the Company or by Shareholders. The proposed future activities of the Company are subject to a number of risks and other factors which may impact its future performance. Some of these risks can be managed and mitigated by planning and the use of safeguards and appropriate controls. However, many of the risks are outside the control of the Company or the Directors and cannot be mitigated.

### **4.2 Specific investment risks**

#### **(a) Early stage operations**

The Company's business streams (originator, developer and manager of agricultural land and water assets) are early stage endeavours with no current operating revenue streams. There can be no assurance that the Company will generate revenue from these activities or be profitable in the future. The Company's operating and capital expenditures are likely to increase in line with the requirement for consultants, personnel and equipment associated with construction, commissioning, ramp up and commercial production of its operations. The amounts and timing of expenditures will depend on the progress of construction activities and production ramp up.

The Company has experienced losses from operations and expects to continue to incur losses until production commences and reaches the required level. The Company expects to continue to incur losses until such time as its properties enter into commercial production and generate sufficient revenues to fund its continuing operations.

#### **(b) Climatic variability**

The Company operates in primary production and therefore is exposed to risks associated with climatic variability. This includes risks of drought and extreme weather events that may have a material adverse impact on the Company's operations and financial performance.

#### **(c) Water availability**

The success of the Carpenters Project is contingent upon the availability of water. The Company is reliant upon licenses to extract water held by the landowner granted by the Department of Water and Environmental Regulation (**DWER**). These licences are renewed every 10 years. If DWER does not renew such licenses or elects to materially amend these licences there could be increased pressure on licenced water resources in the region, reduced availability of water for irrigation purposes which may adversely affect the long term viability of the Carpenters Project.

(d) **Local government approvals**

The Company's operations and business relies upon the need to obtain local government/shire approval to any future operations or potentially an expansion of existing operations. There is a risk that a local government may reject or request significant adjustments to any proposed development application for future projects. Any such rejections may adversely impact upon future operations and hence the financial performance of the Company.

(e) **Dam construction**

The construction of Dam 1 at the Carpenters Project is subject to various factors beyond the Company's control. Wet weather conditions and availability of equipment or personnel may significantly delay the construction of Dam 1, leading to significant increases in construction costs and time for completion, which may jeopardise the renewal of permits from DWER required to construct Dam 1. DWER may also place additional conditions on the construction of Dam 1 resulting in additional time, scope and cost pressures. Further, the lack of, or no, available contractors to tender for the work or inflated tendered rates for the construction of Dam 1 may create additional delays (impacting on the Company's ability to meet the approval permit requirements) which may impact on the construction of Dam 1 and the long term viability of the Carpenters Project.

(f) **Agricultural risks**

Growing avocados involves an agricultural process. As such, the business is subject to the risks inherent in an agricultural business, including risks of crop failure presented by weather, insects, plant diseases, mould, availability of labour and other agricultural risks. Adverse changes or developments affecting cultivation, production, and processing facilities, including, but not limited to, disease, mould or infestation of crops, fire, frost, hail, explosions, power failures, flood, storms or natural disasters, or material failures of the Company's security infrastructure, could reduce or require the Company to entirely suspend its production avocados. These factors can also impact grow times, the number of harvests and expected production yields

(g) **Future funding**

The Company is developing the Carpenters Project. Further expansion beyond the application of funds from the Offers will depend upon the availability of revenues generated by the Company's activities (which are uncertain) and the availability of further investor funds. No assurance can be given that future investor funds as required will be made available on acceptable terms (if at all). If the Company is unable to obtain additional financing (whether equity or debt) as is needed, it may be required to reduce the scope of its operations and scale back its expansion and development programs.

(h) **Dependence on key personnel**

The Company's success depends in part on the core competencies of the Directors and management and the ability of the Company to retain these key executives. Loss of key personnel may have an adverse impact on the Company's performance.

(i) **Contracting and partnering**

The development of the Carpenters Project involves contracting and partnering with other parties. If the Company's partners cease to be able to meet their commitments and obligations to the Company, including due to insolvency, loss of key licences, certifications or permits or any other reason, this could have a material adverse

effect on the Company's business, financial condition, development operations and prospects.

**(j) Contractual risk**

The success of the Company's contractual relationships is dependent upon the Company and the other contractual parties maintaining an effective relationship and complying with contractual obligations. The ability of the Company to achieve its business objectives will depend on the performance by the Company and counterparties of their contractual obligations. If any party defaults in the performance of its obligations under a contract, it may be necessary for either party to approach a court to seek a legal remedy, which could be costly for the Company. The operations of the Company also require the involvement of a number of third parties, including consultants, contractors and suppliers. Financial failure, default or contractual non-compliance on the part of such third parties may have a material impact on the Company's operations and performance. It is not possible for the Company to predict or protect the Company against all such risks.

**(k) Environmental risk**

The operations and proposed activities of the Company are subject to laws and regulations concerning the environment at both State and Federal level. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

**(l) Insurance**

The Company may maintain insurance within ranges of coverage that it believes to be consistent with industry practice and having regard to the nature of activities being conducted. However, it is not always possible to cost-effectively insure against all risks associated with the Company's activities. The Company may decide not to take out insurance against certain risks as a result of high premiums or for other reasons. Should liabilities arise on uninsured risks, the Company's business, financial condition and results of operations and the market price of the Shares may be materially adversely affected.

**(m) Competition risk**

The industry in which the Company is involved is subject to domestic and global competition. While the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's business.

**(n) Legal Proceedings**

Legal proceedings may arise from time to time in the course of the business of the Company.

**(o) New investments**

The Company may make acquisitions and investments in the future as part of future growth plans. There can be no guarantee that any new project acquisition or investment will eventuate from these pursuits, or that any acquisitions or investments will result in a return for Shareholders. Such acquisitions or investments may result in the use of cash resources and/or the issuance of equity securities, which will dilute shareholdings.

(p) **COVID-19**

The global economic outlook is facing uncertainty due to the current COVID-19 pandemic which is impacting global capital markets and companies abilities to conduct business operations. The Company will seek to monitor and assess its ability to conduct operations in light of the COVID-19 pandemic. However, as the situation with respect to COVID-19 continues to develop (and various government restrictions may be implemented), there can be no assurance that the Company will be able to continue to mitigate any adverse effects of COVID-19 on its operations and planned business activities.

Further, the Company is ultimately exposed to the general economic conditions globally which could have an adverse effect on the operating and financial performance of the Company. A prolonged economic contraction as a result of COVID-19 and/or other factors could impact on the Company's ability to conduct its operations.

### **4.3 General risks**

(a) **Price of Shares**

The Shares are subject to general market risks applicable to all securities listed on a stock exchange. This may result in fluctuations in the Share price that are not explained by the performance of the Company.

The price at which Shares are quoted on the ASX may increase or decrease due to a number of factors, some of which may not relate directly or indirectly to the Company's performance or prospects.

There is no assurance that the price of the Shares will increase in the future, even if the Company's earnings increase.

Some of the factors which may affect the price of the Shares include:

- (i) fluctuations in the domestic and international markets for listed stocks;
- (ii) general economic conditions, including interest rates, inflation rates, exchange rates, commodity and oil prices or changes to government;
- (iii) fiscal, monetary or regulatory policies, legislation or regulation;
- (iv) inclusion in or removal from market indices;
- (v) the nature of the markets in which the Company operates;
- (vi) general operational and business risks;
- (vii) variations in sector performance, which can lead to investors exiting one sector to prefer another; and
- (viii) initiatives by other sector participants which may lead to investors switching from one stock to another.

Deterioration of general economic conditions may also affect the Company's business operations, and the consequent returns from an investment in Shares.

In the future, the sale of large parcels of Shares may cause a decline in the price at which the Shares trade on ASX.

(b) **Tax law and application**

The application of and change in relevant tax laws (including income tax, goods and services tax (or equivalent), rules relating to deductible liabilities and stamp duty), or changes in the way those tax laws are interpreted, will or may impact the tax liabilities of the Company or the tax treatment of a Shareholder's investment. An interpretation or application of tax laws or regulations by a relevant tax authority that is contrary to the Company's view of those laws may increase the amount of tax paid or payable by the Company.

Both the level and basis of tax may change. Any changes to the current rate of company income tax (in Australia or other countries in which the Company operates) and / or any changes in tax rules and tax arrangements (again in Australia or other countries in which the Company operates) may increase the amount of tax paid or payable by the Company, may also impact Shareholder returns and could also have an adverse impact on the level of dividend franking / conduit foreign income and Shareholder returns. In addition, an investment in Shares involves tax considerations which may differ for each Shareholder. Each Shareholder is encouraged to seek professional tax advice in connection with any investment in the Company.

(c) **Force majeure events**

Events may occur within or outside Australia that could impact upon global, Australian or other local economies relevant to the Company's financial performance, the operations of the Company and the price of the Shares. These events include but are not limited to acts of terrorism, an outbreak of international hostilities, fires, floods, earthquakes, labour strikes, civil wars, natural disasters, outbreaks of disease or other man-made or natural events or occurrences that can have an adverse effect on the demand for the Company's services and its ability to conduct business. The Company has only a limited ability to insure against some of these risks.

(d) **Accounting standards**

Australian Accounting Standards (**AAS**) are adopted by the AASB and are not within the control of the Company and its Directors. The AASB may, from time to time, introduce new or refined AAS, which may affect the future measurement and recognition of key statement of profit or loss and statement of financial position items. There is also a risk that interpretation of existing AAS, including those relating to the measurement and recognition of key statement of profit or loss or statement of financial position items may differ. Any changes to the AAS or to the interpretation of those standards may have an adverse effect on the reported financial performance and position of the Company.

(e) **Shareholder dilution**

In the future, the Company may elect to issue further Shares in connection with fundraisings, including to raise proceeds for acquisitions or investments. While the Company will be subject to the constraints of the Listing Rules regarding the percentage of its capital it is able to issue within a 12 month period (other than where exceptions apply), Shareholders may be diluted as a result of such fundraisings.

(f) **Expected future events may not occur**

Certain statements in this Offer Document constitute forward looking statements. Such forward looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance and achievements of the Company to be materially different from any future results,

performance or achievements expressed or implied by such forward looking statements. Given these uncertainties, prospective investors should not place undue reliance on such forward looking statements. In addition, under no circumstances should forward looking statements be regarded as a representation or warranty by the Company, or any other person referred to in this Offer Document, that a particular outcome or future event is guaranteed.

**(g) Trading in Shares may not be liquid**

There is no guarantee that there will be an ongoing liquid market for the Shares. Accordingly, there is a risk that, should the market or the Shares become illiquid, the Shareholders will be unable to realise their investment in the Company.

**(h) General economic and financial market conditions**

The operating and financial performance of the Company is influenced by a variety of general domestic and global economic and business conditions that are outside the control of the Company. There is a risk that prolonged deterioration in general economic conditions may impact the demand for the Company's products and negatively impact the Company's financial performance, financial position, cash flows, dividends, growth prospects and Share price.

#### **4.4 Investment speculative**

The above list of risks ought not to be taken as exhaustive of the risks faced by the Company or by prospective investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Shares. The New Shares carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Shares. Prospective investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for New Shares.
