in Peru and Australia

ASX Announcement | 11 June 2021 | ASX: ICG

WATER PERMIT GRANTED - RIQUEZA

All requisite permits now obtained for the NE Area diamond core drilling program

Highlights

- Water Permit granted overnight

Inca Minerals Limited (ASX: **ICG**) is pleased to announce that the Water Permit for the 6,070m diamond drill program at the NE Area of its flagship Riqueza Project in Peru was granted overnight by the Ministry of Energy and Mines. All requisite permits for the program are now obtained.

Commenting on the grant of the Water Permit, Inca's Managing Director, Mr Ross Brown, said: *"This is very pleasing considering the difficulties facing Peru. COVID-19 has ravaged its people and yet during this pandemic all permits have been granted, admittedly with significant delays, but with no material roadblocks. It's testament to the will of the Peru government to support exploration and mining – a vital component of the country's economic wellbeing and future."*

Alternative sources of water are no longer required for drilling. Drilling continues and the Company looks forward to updating the market on the progress.
