Peppermint Managing Director and CEO, Chris Kain, said: "Our investors have again demonstrated a strong commitment in the Company's growth strategy by converting 74% of all outstanding options and 73% of all convertible notes into ordinary fully paid shares in Peppermint.

"This support translates into an additional A\$1.865 million in working capital for the Company to execute our business growth strategy - in particular, the establishment of our bizmoPay operations that we will soon be in a position to update the market on.

"We are awaiting final approvals for our finance license from the Philippines' Securities Exchange Commission which will be a significant milestone in the Company's strategy to provide an alternative non-bank micro-enterprise lending platform, via the bizmoto mobile App.

"In addition, the conversion of 73% of the issued convertible notes significantly reduces the Company's debt position, which strengthens our overall balance sheet and provides us with financial flexibility moving forward."

- (a) the relevant securities are in a class of securities that are quoted securities of the body; and
- (b) either:
 - (i) a prospectus is lodged with ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or

Application moneys will be held in a separate subscription account until the Shares are issued. This account will be established and kept by the Company in trust for each Applicant. Any interest earned on the application moneys will be for the benefit of the Company and will be retained by the Company irrespective of whether any Shares are issued and each Applicant waives the right to claim any interest.

The Directors will determine the recipients of all the Shares. The Directors reserve the right to reject any application or to allocate any Applicant fewer Shares than the number applied for.

Where the number of Shares issued is less than the number applied for, the surplus moneys will be returned by cheque as soon as practicable after the Closing Date. Where no issue of Shares is made, the amount tendered on application will be returned in full by cheque as soon as practicable after the Closing Date. Interest will not be paid on moneys refunded.

3.6 ASX listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made within 7 days of the date of this Prospectus. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of 3 months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

(c) Dividend rights

Subject to and in accordance with the Corporations Act, the ASX Listing Rules, the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be

applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of Shares contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

6. RISK FACTORS

6.1 Introduction

The Shares offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for Shares pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this Section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

6.2 Coronavirus (COVID-19)

The outbreak of the coronavirus disease (COVID-19) is impacting global economic markets. The nature and extent of the effect of the outbreak on the performance of the Company remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by COVID-19. Further, any governmental or industry measures taken in response to COVID-19 may adversely impact the Company's operations and are likely to be beyond the control of the Company.

The Directors are monitoring the situation closely and have considered the impact of COVID-19 on the Company's business and financial performance. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain. In compliance with its continuous disclosure obligations, the Company will continue to update the market in regard to the impact of COVID-19 on its revenue channels and any adverse impact on the Company. If any of these impacts appear material prior to close of the Offer, the Company will notify investors under a supplementary prospectus.

6.3 Company specific

(a) Acquisitions and Partnerships

The Company plans to investigate and consider potential acquisitions and opportunities to enter into new partnerships that are consistent with its stated growth strategy. The successful implementation of acquisitions will depend on a range of factors including funding arrangements and technical integration. The Company may also enter into partnerships in the future.

Subject to the relevant partnerships, the Company cannot control the actions of joint venture partners and therefore cannot guarantee that partnerships will be operated or managed in accordance with the Company's preferred direction, strategy or risk management parameters. To the extent that acquisitions or partnership arrangements are not successfully integrated with the Company's existing business lines, the growth and financial performance of the Company could be affected and, despite the terms of the relevant agreements, it may be

impractical to enforce all of the Company's rights (particularly if the partnerships operate overseas).

(b) **Contracts**

The Company may enter agreements with counterparties. In such cases, there is the risk that counterparties default on their obligations, which may in turn necessitate legal action. This could result in significant financial loss for the Company. In some cases, the contracts that the Company has entered into may be governed in jurisdictions outside Australia. It may be more difficult to resolve disputes in such jurisdictions than it would be under Australian law. As such, the Company cannot ensure that an appropriate legal resolution will be achieved.

(c) **Intellectual Property Rights**

The Company owns the intellectual property now being used by agents and commercial banks in the Philippines. While the Company has systems and procedures in place to protect its content and information, unauthorised use of its intellectual property could have a negative impact on its operations and brand. The Company also operates in a market where claims of infringement of intellectual property are common. There is a risk of third parties making claims of infringement of intellectual property against the Company. This could result in significant legal costs and negatively impact operations.

(d) **Operations and Management of Potential Growth**

The Company believes that it has attracted a highly skilled and experienced management team. However, the Company is a complex and dynamic business. The Company is working in a fast moving environment, engaged in business with multiple partners and operating in numerous geographies around the world. Navigating these issues while effectively dealing with prioritisation, timing, execution, cost control, and other business decisions is likely to provide real challenges for its small management team.

There can be no guarantee that successful execution of the Company's strategy will make it profitable or commercially viable. Current product development and marketing strategies may not have the intended effect of increasing customers. Similarly, strategies to create value from customers of the application may not yield the expected revenue.

(e) **Product Development**

The Company believes that it provides a meaningful and engaging offering. Moreover, in addition to its current products and services, the Company is planning to develop new products to suit the mobile banking, payments and remittance business it is building. There is also the risk that delays in product development, cost overruns, or difficulties in delivering new features will negatively impact the Company and its business.

(f) **Consistency of Supply**

Product shortages and prolonged delays in delivery may jeopardise the Company's ability to supply tangible products and therefore fulfil contractual obligations to customers and distributors. The Company will

continually adapt its inventory control processes as necessary to mitigate the effect of any supply shortages that may be encountered.

(g) **Maintenance of Reputation and Brand**

Usage and engagement with the Company products and services have the potential to be significantly affected by popular consumer sentiment. As such, the Company's exposure to public relations issues and threats to its reputation and brand name may be greater than for other businesses.

(h) **Dependence on other technological providers**

As a mobile banking and payment application business, the Company will maintain and rely extensively on information technology systems and network infrastructures for the effective operation of its business. As with any product that is dependent on technological systems if the integrity of Peppermint's products fails to meet its clients' expectations (whether or not through any fault of the Company), the Company's reputation could suffer.

PEP is heavily reliant on the operations of telecommunications networks for the provision of PEP's services to the marketplace concerned. Should any of these relationships or agreements terminate or become strained for any reason that would have a negative impact on our operations and business development plans.

(i) **Insurance**

While the Company has sought to be insured in a way that is in keeping with industry practices, there is the risk of an event occurring that is not fully covered by insurance. This may cause significant financial and material loss to the Company. Furthermore, there is the risk that the Company's insurer fails to respect a legitimate claim made by the Company.

(j) **Reliance on Core Information Technology, Other Systems and Security**

As a mobile banking and payment application business, the Company will maintain and rely extensively on information technology systems and network infrastructures for the effective operation of its business. It is also dependent on reliable telecommunication and information technology provision by third parties. As with any product that is dependent on technological systems if the integrity of the Company's products fails to meet its clients' expectations (whether or not through any fault of the Company), the Company's reputation could suffer.

Techniques used to gain unauthorised access to private networks are constantly evolving and the Company may be unable to anticipate or prevent unauthorised access to data pertaining to its customers, which could include credit card and debit card information, bank account details or other personally identifiable information. The Company's service is vulnerable to computer viruses, phishing attacks or other attacks and similar disruptions from unauthorised use of its systems, any of which could lead to system interruptions, delays or shutdowns, causing loss of critical data or the unauthorised access to personally identifiable information. If an actual or perceived breach of security occurs of the Company's systems, it may face civil liability and public perception of our security measures could be diminished, either of which would negatively

affect the Company's ability to attract or maintain customers. The Company also would be required to expend significant resources to mitigate any such breach of security and to address related matters.

(k) **International Expansion**

The Company's products and services are used in the Philippines but in the future intends to expand into other countries. It may therefore likely be subject to multiple overseas jurisdictions. In each different jurisdiction there may be increased compliance and operating costs. If and when it becomes necessary to have a local presence in overseas markets there will be increased overheads as well as development and marketing costs. There is no guarantee such expansions will be successful and increased costs may adversely impact the profitability and working capital of the Company.

(l) **Unforeseen Expenditure**

If the Company's expenses are greater than anticipated due to fluctuation in market prices or any factors which have not been taken into account during the development of this Prospectus, then it will have fewer funds with which to pursue its plan of operations and financing requirements will be greater than anticipated.

(m) **Ability to attract and retain skilled personnel**

The Company's success depends, to a large extent, on its ability to attract and retain appropriately skilled personnel. The Company is currently operated and managed by a small group of select team members. The departure, either temporary or permanent, of those key staff, or any delay in their replacement, could adversely affect The Company's performance. Similarly, as a company seeking to grow and expand, the Company's success in securing new talent will be critical going forward and may be constrained for a number of reasons. The attraction and retention of key staff is determined by a broad range of internal and external factors, some more or less within the Company's control, including, but not limited to, issues concerning: personal or health issues, company performance, public relations and branding, logistics and timing, the availability of IT staff in the market and macro-economic factors.

Additionally, the Company relies on offshore team members. In the event that offshore employees cease to continue working with the Company, this could cause significant disruption to the operations of the business and would require the Company to find alternative employees. Finding alternative employees would take time in recruiting and training them on the product and getting them to a professional level where they could assist in running the operations of the Company business and help to execute the Company business plan. This would have a significant impact on the costs of running the Company business and would likely delay the Company from achieving its objectives and business plan.

(n) **Going concern risk**

The Company's ability to continue as a going concern is dependent upon obtaining financing for planned operations. There can be no assurance that those funds will be raised, or if the Company is able to

raise funds that such funds will be in the amounts required or on terms favourable to the Company.

6.4 Industry specific

(a) Competition from Existing Market Players

The Company may face competition from existing market players who may, for example, undertake aggressive marketing campaigns, product innovation or price discounting.

6.5 General risks

(a) Limited Operating History

The business has had limited operations and revenues to date in which potential investors can evaluate the business. Investors must consider all risks associated with and frequently encountered by companies operating in the same space, particularly companies involved in generally new, rapidly evolving markets.

(b) Loss of key clients

The business currently operates with a few key client relationships. The Company is expected to maintain current and establish new relationships through the continued enhancement of its products and solutions. In the event that these established relationships diminish or fail (including through a termination event arising under an agreement) the resulting effect may negatively impact the operating results of the Company.

(c) Shareholder Dilution

In the future, the Company may elect to issue Shares or engage in fundraisings and also to fund, or raise proceeds, for acquisitions. While the Company will be subject to the constraints of the ASX Listing Rules regarding the percentage of capital that it is able to issue within a 12 month period (other than where exceptions apply), Shareholders may be diluted as a result of such Shares and fundraisings.

(d) Economic

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

(e) Market conditions

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;

- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(f) **Competition risk**

The industry in which the Company will be involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.

(g) **Additional requirements for capital**

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

(h) **Market Acceptance**

The global marketplace for most products is ever changing due to new technologies, new products, changes in preferences, changes in regulation and other factors influencing market acceptance or market rejection. This market volatility and risk exists despite the best endeavours of market research, promotion and sales and licensing campaigns.

Accordingly, there is a risk that the Company may not be able to commercialise its products, which could adversely impact the Company's operations

(i) **Reliance on key personnel**

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.

(j) **Foreign Exchange Rate Risks**

The Company expects to derive a majority of its revenue and incur a major part of its expenses from its operations in the Philippines, in Philippine Pesos. Accordingly, changes in the exchange rate between the Philippine Peso and the Australian dollar would be expected to have a direct effect on the performance of the Company.

(k) **Legal Environment and Sovereign Risk**

The Company currently conducts its operations in the Philippines with intentions to develop its business through Asia, Europe and through other parts of the world in future.

While Australia is a stable and developed legal environment, there are still a range of sovereign risks that may adversely affect the performance of the Company. These include, but are not limited to changes to privacy, taxation, accounting, employment, licensing, exchange control or other legislation.

Particularly, over recent years, there has been an increased regulatory and public focus on the use of private information, especially how private information is collected and used for commercial purposes. Any further changes to laws and regulations governing the use of this information could result in an adverse impact on the markets in which the Company operates and, in its business, including its forecast revenues, profit margins, and compliance costs.

The Company's products and services are also used in numerous other countries and will be subject to the local laws and regulations where they apply. Some of the countries in which the Company's products and services are used represent emerging markets and/or less stable legal environments. This may involve risks related to the regularity, speed, transparency and expectations surrounding Government action, ease of gaining fair representation in court and clarity and consistency of the legal framework.

Working in changing, complex and multiple regulatory environments involves a set of risks. These include the risk that the Company may fail to comply with laws or regulations or that laws or regulations may have unintended consequences or are open to interpretations that increase the risk of non-compliance. In addition, there is a risk that the Merged Group may fail to implement procedures within the statutory timeframes to ensure that it can provide services which comply with the introduction of these new laws and regulations.

Any substantial failure by the Company to comply with applicable laws and regulations could result in cessation of part or all of its operations, restriction on its ability to carry out operations, fines, penalties or other liabilities to customers, suppliers or third parties. Compliance failure could also damage the Company's reputation and reduce the attractiveness of its products and services.

(l) **Changes to Government Policies and Legislative Changes**

Government policy and legislative changes which are outside the control of the Company may have a negative impact on the financial

performance of the Company. This risk factor applies to government policy and legislative changes in the Philippine and in Australia.

(m) **Additional requirements for capital**

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

6.6 Speculative investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Shares offered under this Prospectus

Therefore, the Shares to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Shares.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for Shares pursuant to this Prospectus.

7. ADDITIONAL INFORMATION

7.1 Litigation

As at the date of this Prospectus, the Company is not involved in any legal proceedings and the Directors are not aware of any legal proceedings pending or threatened against the Company.

7.2 Continuous disclosure obligations

The Company is a “disclosing entity” (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company’s securities.

This Prospectus is a “transaction specific prospectus”. In general terms a “transaction specific prospectus” is only required to contain information in relation to the effect of the issue of securities on the Company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 3 months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and

Remuneration

The remuneration of an executive Director is decided by the Board, without the affected executive Director participating in that decision-making process. The total maximum remuneration of non-executive Directors is initially set by the Constitution and subsequent variation is by ordinary resolution of Shareholders in general meeting in accordance with the Constitution, the Corporations Act and the ASX Listing Rules, as applicable. The determination of non-executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director. The current amount has been set at an amount not to exceed \$300,000 per annum.

A Director may be paid fees or other amounts (ie non-cash performance incentives such as Options, subject to any necessary Shareholder approval) as the other Directors determine where a Director performs special duties or otherwise

performs services outside the scope of the ordinary duties of a Director. In addition, Directors are also entitled to be paid reasonable travelling, hotel and other expenses incurred by them respectively in or about the performance of their duties as Directors.

7.7 Consents

Chapter 6D of the Corporations Act imposes a liability regime on the Company (as the offeror of the Shares), the Directors, the persons named in the Prospectus with their consent as proposed Directors, any underwriters, persons named in the Prospectus with their consent having made a statement in the Prospectus and persons involved in a contravention in relation to the Prospectus, with regard to misleading and deceptive statements made in the Prospectus. 7.9 Electronic Prospectus

ASIC has exempted compliance with certain provisions of the Corporations Act to allow distribution of an electronic prospectus and electronic application form on the basis of a paper prospectus lodged with the ASIC, and the publication of notices referring to an electronic prospectus or electronic application form, subject to compliance with certain conditions.

If you have received this Prospectus as an electronic Prospectus, please ensure that you have received the entire Prospectus accompanied by the Application Form. If you have not, please phone the Company on + 61 8 6255 5504 and the Company will send you, for free, either a hard copy or a further electronic copy of the Prospectus, or both.

The Company reserves the right not to accept an Application Form from a person if it has reason to believe that when that person was given access to the electronic Application Form, it was not provided together with the electronic Prospectus and any relevant supplementary or Prospectus or any of those documents were incomplete or altered.

7.10 Clearing House Electronic Sub-Register System (CHESS) and Issuer Sponsorship

The Company will not be issuing Share certificates. The Company is a participant in CHESS, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHESS will be issuer sponsored by the Company. Because the sub-registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation.

Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of Shares issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHESS and issuer sponsorship.

Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

7.11 Privacy Act

If you complete an application for Shares, you will be providing personal information to the Company. The Company collects, holds and will use that information to assess your application, service your needs as a Shareholder, facilitate distribution payments and corporate communications to you as a Shareholder and carry out administration.

The information may also be used from time to time and disclosed to persons inspecting the register, bidders for your securities in the context of takeovers, regulatory bodies, including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the Company's Share Registry.

You can access, correct and update the personal information that we hold about you. Please contact the Company if you wish to do so at the relevant contact numbers set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the *Privacy Act 1988* (Cth) (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules. You should note that if you do not provide the information required on the application for Shares, the Company may not be able to accept or process your application.
