

ASX ANNOUNCEMENT

25 July 2021

ANTERIS PATENT GRANT

Brisbane, Australia and Minneapolis, USA.

Anteris Technologies Ltd (ASX: AVR; Anteris or the Company) reports the Commonwealth of Australia Patent Office granting a patent* for the Company's '*Sterilized packaging system for catheter*' invention on 22 July 2021. The patent term is 20 years from 16 July 2018.

Sterilization of surgical products used *in vivo* is essential. Having a specialized, proprietary sterilization system for the Company's products enhances the intellectual property barrier around key technologies, in particular, for its ComASUR™ Transfemoral Delivery System, and maintains product sterile status in the delivery chain from manufacturing point to surgical theater. It, also, helps protect against potential product counterfeit and overall adds to product commercial value.

*Patent number: 2018304128

ENDS

About Anteris Technologies Ltd (ASX: AVR)

Anteris Technologies Ltd is a structural heart company delivering clinically superior and durable solutions through better science and better design. Its focus is on developing next generation technologies that help healthcare professionals create life-changing outcomes for patients.

The Anteris DurAVR™ aortic replacement valve addresses the acute need in terms of superior hemodynamic profile as well as chronic needs in its ability to sustain that profile longer over the lifetime of the patient.

The proven benefits of its ADAPT® tissue technology, paired with DurAVR™'s unique 3D single-piece aortic valve design, has the potential to deliver a functional cure to aortic stenosis patients and provide a much-needed solution to the challenges facing heart surgeons today.
