8.6.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: No. The Company made payments to suppliers of approximately \$738k for invoices relating to previous periods and employee entitlement payouts as part of the completed cost-cutting plans. In addition shipping costs of \$257k relating to previous periods and deposit payments of \$244k relating to upcoming production runs all contributed to an atypical increase in operating cash outflows for the quarter.	
8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: No, the Company anticipates a decrease in operating cash outflows for the next quarter when compared to this quarter for the reasons outlined above and the completed cost-management initiatives. The company also anticipates an increase in cash inflows from product sales.	
8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer: Yes, the company will be able to continue to meet its business objectives in line with its business plans.	
<i>Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.</i>
