ASX Market Announcements Office  
ASX Limited  
20 Bridge Street  
SYDNEY NSW 2000

### **Westminster Resources changes name to Solis Minerals Ltd**

Latin Resources Limited (“Latin” or “the Company”) (ASX: LRS) advises that Westminster Resources has changed its name to **Solis Minerals Ltd** and is now trading under the symbol **SLMN** on the TSX-V.

As previously announced to ASX on 9 June 2021, Solis Minerals has commenced the process of dual listing on the Australian Securities Exchange. Latin Resources remains the largest shareholder of Solis Minerals.

The terms and timing of the ASX listing application remain under consideration, and shareholders will be kept informed as the ASX listing is advanced in the weeks ahead.

A copy of Solis Minerals’ announcement of its change of name is appended to the end of this release.

## **Solis Minerals Begins Trading July 21 under symbol SLMN**

**Vancouver, B.C. – July 21st, 2021 Solis Minerals Ltd.** (TSXV: SLMN) (“Solis” or the “Company”) is pleased to announce it has begun trading today under the symbol SLMN, as the successor to Westminster Resources Ltd. (old symbol WMR). There has been no change in capitalisation structure. Solis Minerals is a Latin-American focused copper company, exploring the Mostazal copper porphyry project in northern Chile, and the Ilo Norte copper IOCG project and Ilo Este copper porphyry projects in southern Peru.

Having recently closed a \$2.7 million financing on May 12, 2021, Solis Minerals is well funded for its first field season in Chile and Peru. Mostazal represents a drill-ready, multi-kilometre porphyry target, with high-grade manto-style mineralisation near surface, tested by 60 historical drill holes. Ilo Norte has a 10-kilometre-long alteration system, only partially tested by historical drilling, including a 30-metre intercept grading 0.93% copper. Ilo Este is a large, eroded porphyry, with copper as well as gold, silver and molybdenum mineralisation mapped over a 3 square kilometre area.

Jason Cubitt, President and CEO of Solis Minerals noted “The re-naming of Westminster Resources to the new Solis Minerals is another milestone in our history. Copper has never been more in demand, from EVs to infrastructure, and Chile and Peru are already established as the top copper producers in the world. With a high-quality technical team, drill-ready targets, and a well-capitalized and structured company, I’m confident that Solis Minerals is an attractive vehicle for investors looking for exposure to the red-hot copper market.”

Solis Minerals’ new website can be found at [www.solisminerals.com](http://www.solisminerals.com). The Company’s new CUSIP number is 83423L108 and the new ISIN number is CA83423L1085.

Technical information in this news release has been reviewed and approved by Derrick Strickland, PGeo, (10000315) a qualified person as defined in National Instrument 43-101.

### **About Solis Minerals**

Solis Minerals is a Latin American focused mining exploration company. The Company holds a 100% interest in a package of highly prospective IOCG and porphyry copper projects in southwestern Peru within the country’s prolific coastal copper belt—source of nearly half of Peru’s copper production. The Company also has an option to purchase a 100% interest in the Mostazal copper project in Chile’s Atacama Desert, one of the world’s premier copper production jurisdictions.
