

## 30 June 2021 Quarterly Activities Report

### QUARTERLY HIGHLIGHTS

- **Considerable focus advancing Lindian's world class bauxite portfolio in Guinea by defining the optimal export solution and confirming the unique and highly desirable quality of the product.**
- **Engagement with infrastructure groups advanced in the quarter with multiple parties to establish the best option for Lindian:**
  - **CRSG workstreams are advancing as expected with detailed due diligence and technical engagement not uncovering any issues.**
  - **Lindian is continuing to progress discussions with the Government of Guinea regarding the development of the Dobali Port with focus moving towards ownership structures and requirements for third party access.**
  - **Preliminary negotiations have commenced regarding the utilisation of existing road, rail and port infrastructure to facilitate low capital, near term production opportunities.**
- **Product testing of Gaoual by potential third parties confirmed the high quality and grade of the product:**
  - **Testing of the Gaoual bauxite product has confirmed the unique nature of the ore body and product.**
  - **Feedback suggests there will be significant demand for the product once production has commenced.**
- **Conversion of options raised \$400,000 at quarter end; Lindian has sufficient cash at bank and a very low monthly burn rate. The potential conversion of in-the-money options provide another source of capital to the Company.**

**Lindian Resources Limited (ASX:LIN) (“Lindian” or “the Company”) is pleased to report on its activities during the June 2021 quarter.** The Company has made solid progress in the quarter with the primary focus being the advancement of portfolio of world-class bauxite projects in Guinea. Specifically, the focus has been on:

- Liaison and negotiations with third parties that have been assessing and testing the Gaoual conglomerate bauxite ore. The Company has received interest from parties that have existing mining and processing operations in Guinea that see Gaoual as quality feedstock for blending and processing;
- Resumption of discussions with respect to infrastructure sharing agreements for rail, road and port allocations outside of its ‘Northern Corridor’ development strategy. These negotiations have coincided with renewed interest in the Gaoual conglomerate bauxite ore from some parties that have existing access to this infrastructure.
- Advancing negotiations with interested parties on development of the Northern Corridor rail and port infrastructure.

#### COMMENTARY

**Chairman Asimwe Kabunga, commented:** *“Our Board and team in Guinea has been working diligently on a number of fronts and whilst we have had limited market updates in the quarter, excellent progress has been made. Lindian has a complementary blend of bauxite assets with excellent attributes: some are close to the coast, they are exceptionally high quality with high grades, and they are massive untapped resources. We are actively defining the best way to export product from these projects.*

*“Ongoing discussions regarding Gaoual indicate that there are a variety of groups interested in this highly desirable and indeed unique product. With the increasing attention paid to the environmental impact of commodities, there is a growing focus from industry wanting to reduce the amount of bauxite they have to transport and to drastically lower red mud disposal. As a result, higher grade bauxite, like what we have at Gaoual, has become much more desirable.*

*“With a solid quarter of progress behind us, we are confident that the near-term will be transformational for Lindian. We thank our shareholders for their continued commitment.”*

#### PROGRESSING MOU WORKSTREAMS WITH CRSG

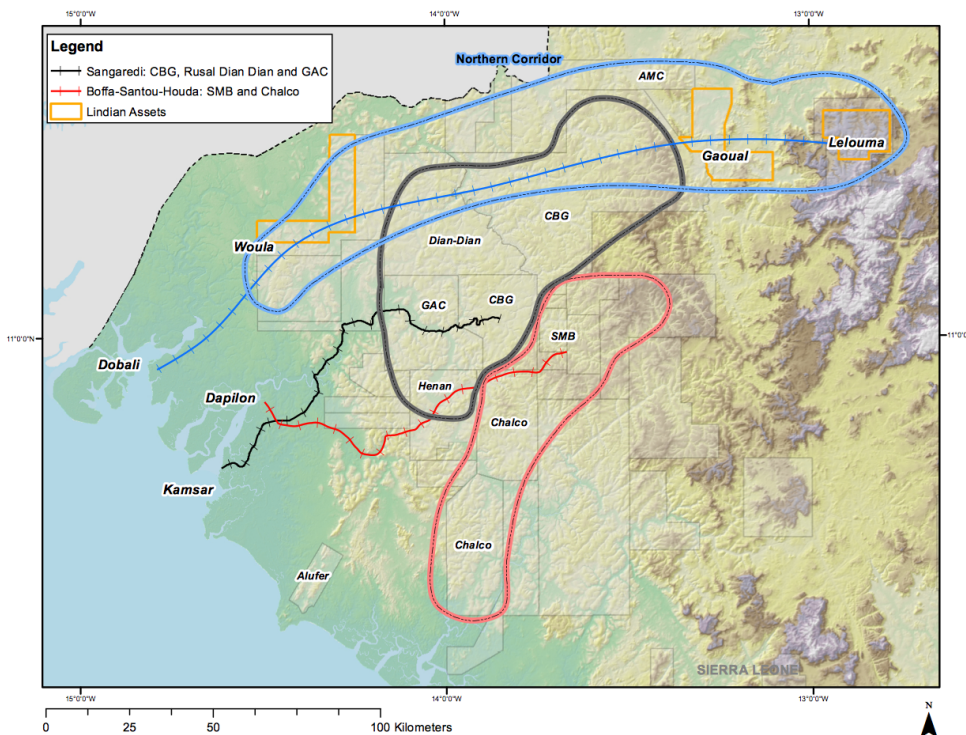

Following the signature of the Memorandum of Understanding (“MOU-CRSG”) with China Railway Seventh Group Co. Ltd (“CRSG”) and subsequent site visit in the March quarter, Lindian’s focus during engagement has been on the definition of the preferred export solution prior to the commencement of technical workstreams to progress the infrastructure studies to the next stage of development.

As announced on 21 January 2021, the aim of the MOU-CRSG was to determine an infrastructure solution and to accelerate development of Lindian’s projects. CRSG, through its affiliates and related entities and partners could facilitate in development financing and/or introducing offtake partners. To date, the workstreams are advancing as expected with detailed due diligence and technical engagement.

**DISCUSSIONS WITH GOVERNMENT OF GUINEA**

Lindian’s 75% owned infrastructure subsidiary Terminal Logistics & Holdings Pte Ltd (“TLH”) continues to work with the Guinean Government subject to the announced Memorandum of Understanding (“MOU-G”) regarding the potential exploration and joint development of the Port of Dobali and the associated logistics corridor (the “Northern Corridor”) in Guinea.

In parallel with commercial discussions including ownership structures and requirements for third party access, TLH is planning to commence technical work including conducting marine bathymetry studies, seismic surveys as well as environmental and social impact studies.

**INFRASTRUCTURE SHARING NEGOTIATIONS**

Preliminary negotiations have commenced regarding the utilisation of existing road, rail and port infrastructure. Lindian’s longer term strategy is to develop the “Northern Corridor” to unlock the full potential of the portfolio but as an interim step Lindian is exploring the opportunity to take advantage of the significant infrastructure developed in Guinea over the past 10 years to facilitate low capital, near term production.

**PRODUCT TESTING**

On 19 January 2021, Lindian announced the completion of testwork at the high grade Gaoal project with results demonstrating that screening resulted in a product with quality of 58.2% Al<sub>2</sub>O<sub>3</sub> and 2.8% SiO<sub>2</sub>. Samples have been provided to potential offtakers and Lindian will advance discussions accordingly.

### Q3 2021 INVESTOR PRESENTATION

Post quarter end, on 21 July 2021, an Investor Presentation was released by Lindian which is available to download in both English and Chinese. Both versions of the presentation can be found on the Investor Centre page of the Lindian Resources website [www.lindianresources.com](http://www.lindianresources.com).

### EXPLORATION EXPENSE

The \$0.075m of exploration and evaluation outflows during the quarter (refer item 2.1 (d) of the Appendix 5B for the June quarter), was predominantly comprised of expenses relating to the Gaoual, Lelouma, and Woula bauxite projects in Guinea. No expenditure was incurred on development or production activities during the quarter.

### CORPORATE - CASH AT END OF QUARTER

At the end of the quarter, the Company held \$0.501m in cash.

### UPDATE ON LITIGATION - KANGANKUNDE RARE EARTHS PROJECT, MALAWI

The Company originally entered into an exclusive option agreement with Saner and RVR which was announced to the ASX on 6 August 2018. As detailed in the statement the Company made to the ASX on 23 November 2018, Saner and RVR subsequently claimed that changed circumstances in Malawi made the agreement unenforceable and made an offer to enter into a separate agreement for the sale of the Project on completely different terms to those originally agreed between the Company, Saner and RVR. There are no further updates this quarter.

### LUSHOTO AND PARE BAUXITE PROJECTS, TANZANIA

The Lushoto and Pare bauxite projects are subject to a Farm-In and Joint Venture Agreement pursuant to which Lindian has earned a 51% Stage 1 interest in East Africa Bauxite Limited.

No meaningful work has been undertaken on the Tanzanian projects during the June Quarter.

### RELATED PARTY TRANSACTIONS

During the quarter, Lindian paid \$0.062m in relation to Non-Executive Directors fees.

### COO/CFO RESIGNATION

At the end of the quarter the COO/CFO Mr David Sumich resigned from the Company to pursue other opportunities. The COO duties will be shared between the existing Board members for the foreseeable future and the Company's accounting function will be managed in future by an internal consultant.
