

INVESTMENT SUMMARY – WHY INVEST?

Large gold system – mainly only drilled to ~600m and already over 11Moz gold

Existing production and cashflow in an attractive Tier 1 investment jurisdiction

A proven management team who have done it before

Strategic alliances and supportive shareholders

₹

RIGHT

Significant investment and operational track record

Low risk exploration to drive future growth

Stage 1 funded up to approximately 120k ounces, commissioning commences quarter 2 financial year 2022

Staged production growth to ~250koz pa, targeting commencing 2024

WILUNA IS LOCATED IN THE MIDDLE OF THE PROLIFIC

WA GOLD DISTRICT

- WA is among the most attractive mining investment jurisdictions in the world¹
- With over 400 million ounces discovered to date, it is one of the most richly gold-endowed district globally²
- Wiluna owns a vast 1600 km² of this blue-chip real estate
- The operation is the 8th largest in Australia by Mineral Resources under single ownership (and it remains relatively unexplored)
- Surrounded by multiple million-ounce mines and excellent infrastructure

COMPANY SNAPSHOT

FINANCIAL YEAR 2021

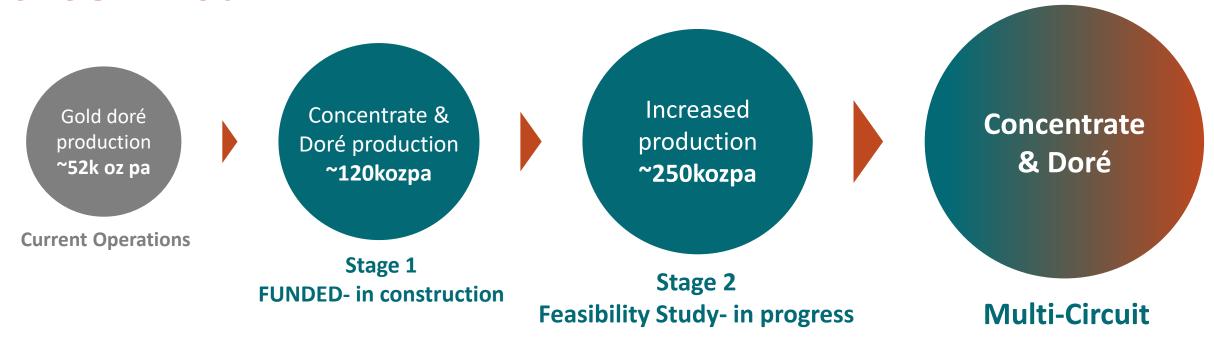

- FY 2021¹ production of ~51,552oz @ AISC of A\$1,794
- FY 2021¹ preliminary gross profit from operations of \$21 million (unaudited)
- Mineral Resources >7Moz; High-grade Mineral Resource of 4.24Moz @ 4.89 g/t
- 112,000m Resource Development drilling completed in FY 2021 with up to 8 rigs; Resource update in progress
- Ore Reserves of 1.32Moz. Underground reserves 662,000oz at 4.74g/t; Reserve update in progress
- Fully funded Stage 1 Development underway increasing production to 120kozpa; fully ramped up June 2022
- \$99 million investment in asset development in FY 2021
- Construction of concentrator commenced in Q2 FY 2021 and is 66% complete
- 6,274 metres of underground development for Stage 1 completed in FY 2021
- 100% of upcoming 3-year concentrate sales contracts for Stage 1 with Polymetal and Trafigura
- Stage 2 Feasibility Study in progress to assess doubling production to 250kozpa; view to construction commencing mid-2022; fully ramped up in 2024
- Further planning with ultimate target conceptually to right-size Wiluna
- LSE Main Board listing targeting Q2 FY2022

¹ASX release 21 July 2021

GROWTH PROFILE

STAGED EXPANSION

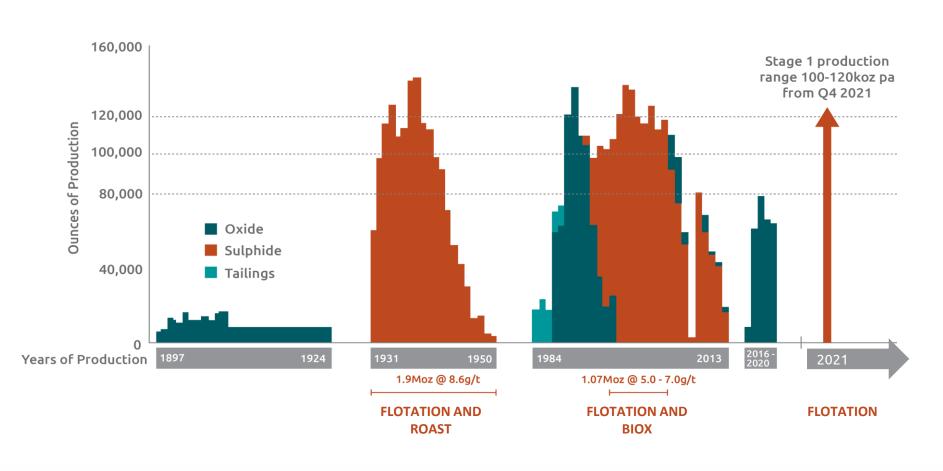

WILUNA SULPHIDES - A GOLDEN PAST AND FUTURE

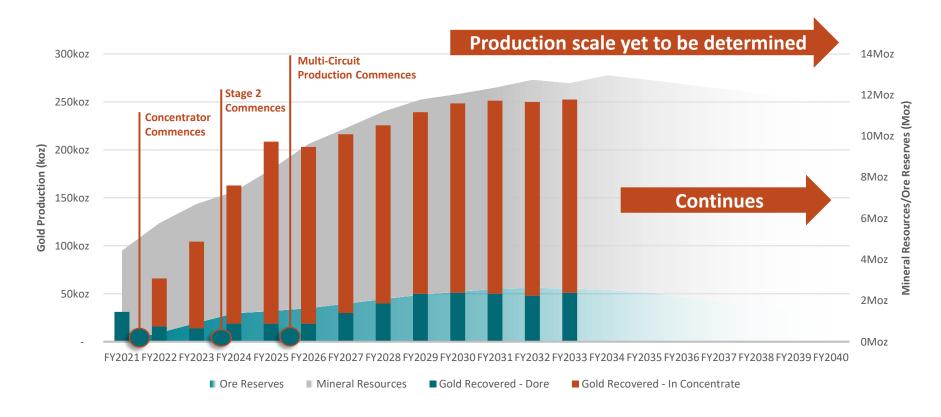

4.7 MILLION OUNCES PRODUCED TO DATE FROM OPEN PITS AND UNDERGROUND MINES

- Current Wiluna Mining Centre ('WMC') Mineral Resource (@2.5g/t COG) is 26.9Mt @ 4.89g/t for 4.24Moz
- Current WMC Underground Reserve is 4.3Mt @ 4.74g/t for 661Koz
- Abundant opportunities at depth, north, south and west of the main mineralized / mining corridor

POTENTIAL PATHWAY TO PRODUCTION EXPANSION

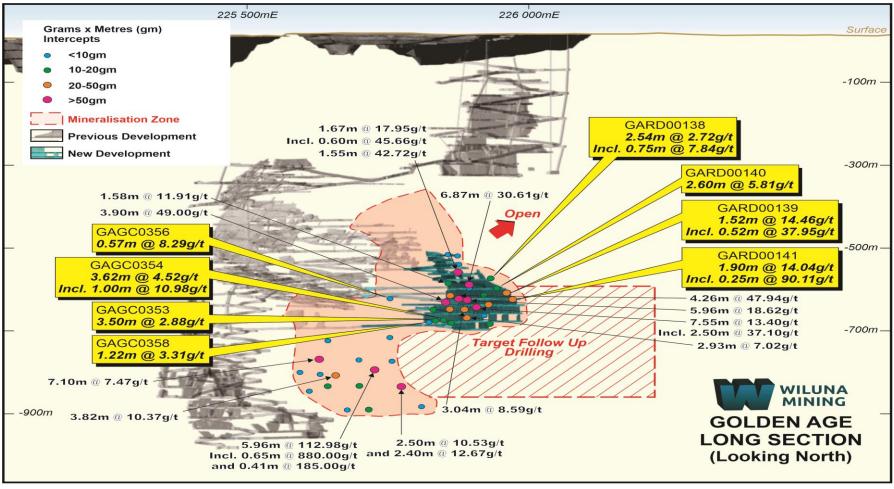

The potential quantity and grade of the Exploration Target is conceptual in nature. The JORC Compliant Exploration Target defined for the East/West structures at the Wiluna Mining Centre is approximately 35Mt to 40Mt @ 4.5g/t to 7g/t for 5Moz to 7Moz of gold (ASX release dated 17 November 2020). The Exploration Target potential does not pertain to a Mineral Resource or Ore Reserve and is purely an indication of the potential of the Wiluna deposit beyond the current production areas and currently defined Mineral Resource. There has been insufficient exploration drilling to estimate a Mineral Resource in the target areas, and it is uncertain if further exploration will result in the estimation of a Mineral Resource. The Company's major ongoing resource and reserve development programme over the next 5 years will systematically test these targets.

- The Exploration Target for the East/West structures at the Wiluna Mining Centre is approx. 35Mt to 40Mt @ 4.5g/t to 7g/t for 5Moz to 7Moz of gold (ASX release 17 November 2020).
- The Exploration Target potential is purely an indication of the *potential* of the Wiluna deposit beyond the currently defined Mineral Resource.

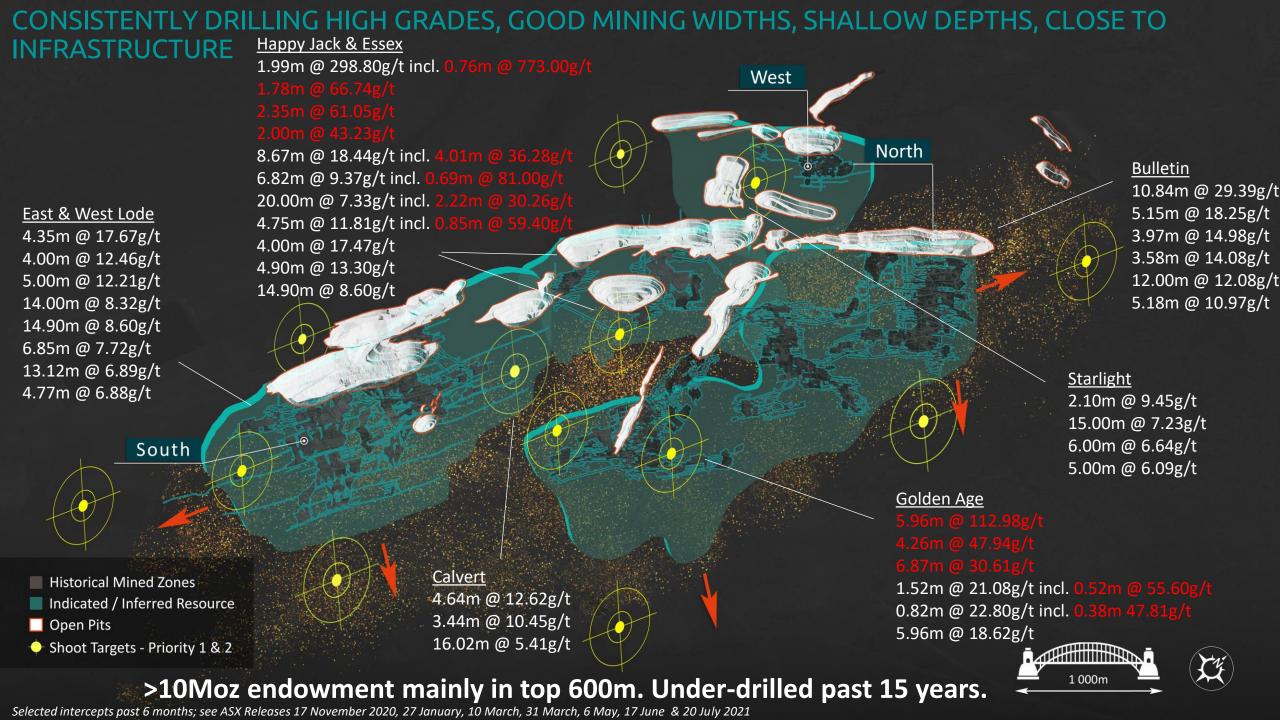

GOLDEN AGE -VALUABLE ORE SOURCE FOR TRANSITION AND STAGE 1

Golden Age long section showing assay results from infill and extensional drilling, yellow highlights are new results. Further drilling is planned to target high-grade reef extensions down-plunge to the east.

ASX releases: 11 March, 31 March, 17 June 2021.

WILUNA MINING - STRATEGIC ALLIANCE WITH

Polymetal recently installed this autoclave at their second Pressure Oxidation Plant (POX-2) in Amursk, Russia.

Off-take agreement signed in March 2020 with Polymetal International (market cap. £9.5b) for 70% of Stage 1 gold concentrate development during first 3 years of operation.

POX-1 capacity currently: 225k tonnes of concentrate per annum. Approx. 10-15% sourced from third parties.

POX-2 will add capacity to treat additional 250-300k tonnes of concentrate. 10-15% of new capacity feedstock to come from third parties.

The alliance with Wiluna Mining is the first of its kind for Polymetal outside Russia and the Former Soviet Union.

WILUNA

WILUNA MINING - ESG

We strive to enrich the lives of our workforce, contribute positively to the community and operate in an environmentally responsible manner that benefits the broader economy.

- Wiluna continues to practice and investigate efficient utilization and conservation of water, power and natural resources in its routine business operations
- Move to producing a concentrate via flotation with downstream processing via pressure oxidation (POX) technology - most efficient and environmentally-friendly technology for processing refractory gold ore
- Renewable power sources to support future base load power¹
- Supporting the local Wiluna indigenous population via educational and community enrichment programs
- Outstanding health and safety record, strict COVID and risk management protocols
- Committed to workplace diversity hiring more women and indigenous employees to foster greater representation in the mining industry

SUMMARY

The Right Place

An 11-million-ounce growing gold endowment in the middle of tier 1 safe West Australia – the world's number one gold endowment

The Right Plan

A proven strategy targeting underground ore leveraging off established mine infrastructure - 4 million ounces of sulphide gold already produced; 4.24Moz @ 4.89 g/t Au of current high-grade inventory at Wiluna

The Right Team

Powerful alliances and supportive shareholders backed by a proven management team who have done it before

The Right Time

Strong gold prices, excess global gold concentrate processing capacity, on track to increase production to 250,000 ounces of gold a year at least 5 years ahead of a comparable greenfield 250kozpa project starting out today and substantially lower capital

WILUNA - A TIER 1 GOLD LOCATION

WILUNA IS AN ESTABLISHED MINE WITH SIGNIFICANT SUNK CAPITAL

FULLY PERMITTED WITH SUBSTANTIAL INFRASTRUCTURE

- Processing infrastructure refurbished crushing and milling circuit
- New tailings dam with 10 years deposition
- Over 100km (>62mi) of existing development including 5 declines
- 1,500km (>900 mi) of drilling, with a replacement value of >A\$250 million
- 300-person village
- Gas lateral and power station
- Airport (1hr flight from Perth)
- Fully permitted water supply
- Operation adjoins major road the Goldfields Highway
- At least 5 years and substantial capital sunk ahead of a start up project of comparable size

LEADERSHIP TEAM WITH PROVEN VALUE CREATION

BOARD OF DIRECTORS

MILAN JERKOVIC - EXECUTIVE CHAIR

Mr Jerkovic is a qualified geologist with postgraduate qualifications in mining & mineral economics and over 30 years of experience in the mining industry involving resource evaluation, operations, financing, acquisition, project development and general management. Mr Jerkovic was previously the CEO of Straits Resources Limited and has held positions with WMC, BHP, Nord Pacific, Hargraves, Tritton and Straits Asia Resources (as founding Chairman), Metals X and Geopacific Limited. He is a Fellow of the AusIMM and a member of the Australasian Institute of Company Directors.

GREG FITZGERALD - NON-EXECUTIVE DIRECTOR

Mr Fitzgerald is a Chartered Accountant with more than 30 years of gold mining and resources related experience, and extensive executive experience in managing finance and administrative matters for listed companies. He held the positions of Chief Financial Officer and Company Secretary for ASX 200 company, Resolute Mining Limited, for more than 15 years.

HANSJÖRG PLAGGEMARS - NON-EXECUTIVE DIRECTOR

Mr Plaggemars is an experienced Company Director with a high skill set in corporate finance, corporate strategy, European and North American Capital markets and governance. He has qualifications in Business Administration and has served on several Boards both on the ASX and in Europe. Mr Plaggemars is a USA citizen and is based in Germany, home to a large number of our shareholders including our major shareholder, the Delphi Group.

NEIL MEADOWS - EXECUTIVE DIRECTOR OPERATIONS

Mr Meadows is a qualified metallurgist with over 30 years' experience in the mining and processing industries. Prior to joining Wiluna Mining, he recently worked as Chief Operating Officer for European Metals Holdings Limited. Mr Meadows' previous roles include COO of Karara Mining Ltd, Managing Director of IMX Resources Limited, COO of Queensland Nickel Pty Ltd and General Manager of Murrin Murrin Operations for Minara Resources Ltd.

SARA KELLY - NON-EXECUTIVE DIRECTOR

Ms Kelly has significant transactional and industry experience having both worked in private practice, as a corporate advisor, and as in-house counsel. Ms Kelly regularly acts for ASX listed companies and their directors and officers, in relation to capital raisings, recapitalizations of ASX shells, asset acquisitions and disposals, Corporations Act and Listing Rules compliance, corporate reconstructions and insolvency, and directors' duties, meeting procedure, and general corporate and commercial advice. Ms Kelly is a Partner at Edwards Mac Scovell, a boutique litigation, insolvency and corporate firm based in Perth, WA.

COLIN JONES - NON-EXECUTIVE DIRECTOR

Mr Jones is a highly experienced Mining Executive with almost 40 years' experience as a mining, exploration and consulting geologist. He has experience in a number of different geological environments and has worked on all continents on producing mines, as part of feasibility teams and as an explorationist. He has acted as Independent Engineer on behalf of major international resource financing institutions and banks and as Technical Adviser to private equity resource funds in Australia and Canada. Mr Jones resides in New Zealand.

LEADERSHIP TEAM WITH PROVEN VALUE CREATION

MANAGEMENT TEAM

MILAN JERKOVIC - EXECUTIVE CHAIR

Mr Jerkovic is a qualified geologist with postgraduate qualifications in mining & mineral economics and over 30 years of experience in the mining industry involving resource evaluation, operations, financing, acquisition, project development and general management. Mr Jerkovic was previously the CEO of Straits Resources Limited and has held positions with WMC, BHP, Nord Pacific, Hargraves, Tritton and Straits Asia Resources (as founding Chairman), Metals X and Geopacific Limited. He is a Fellow of the AusIMM and a member of the Australasian Institute of Company Directors.

ANTHONY RECHICHI - CHIEF FINANCIAL OFFICER

Mr Rechichi is a Chartered Accountant and a highly accomplished senior accounting and finance professional with over 20 years of experience in public companies, predominantly in the gold mining industry. Prior to joining Wiluna Mining, Mr Rechichi spent more than ten years with Resolute Mining Limited where he performed the role of General Manager – Finance, playing a key role in long term budgeting and forecasting across three operating mines with a key focus on cost control, treasury management, financial reporting, and taxation planning and compliance. Additionally, Mr Rechichi has strong experience in both debt and equity financing.

CAIN FOGARTY - GENERAL MANAGER GEOLOGY & BUSINESS DEVELOPMENT

Mr Fogarty is a geologist with postgraduate qualifications in mineral economics and 20 years of experience in the mining industry, predominantly in near-mine reserve growth, greenfields exploration, and acquisitions. He brings a wealth of multicommodity, global experience from working with major and junior mining companies in Australia, Africa and China. Prior to joining Wiluna Mining, Mr Fogarty worked on the successful exploration and development of Equinox Mineral's copper projects in Zambia, with CSA Global on the Caijiaying Zn-Au mine in China, and with Barrick Gold in near-mine reserve development at WA gold mines.

NEIL MEADOWS - EXECUTIVE DIRECTOR OPERATIONS

Mr Meadows is a qualified metallurgist with over 30 years' experience in the mining and processing industries. Prior to joining Wiluna Mining, he recently worked as Chief Operating Officer for European Metals Holdings Limited. Mr Meadows' previous roles include COO of Karara Mining Ltd, Managing Director of IMX Resources Limited, COO of Queensland Nickel Pty Ltd and General Manager of Murrin Murrin Operations for Minara Resources Ltd.

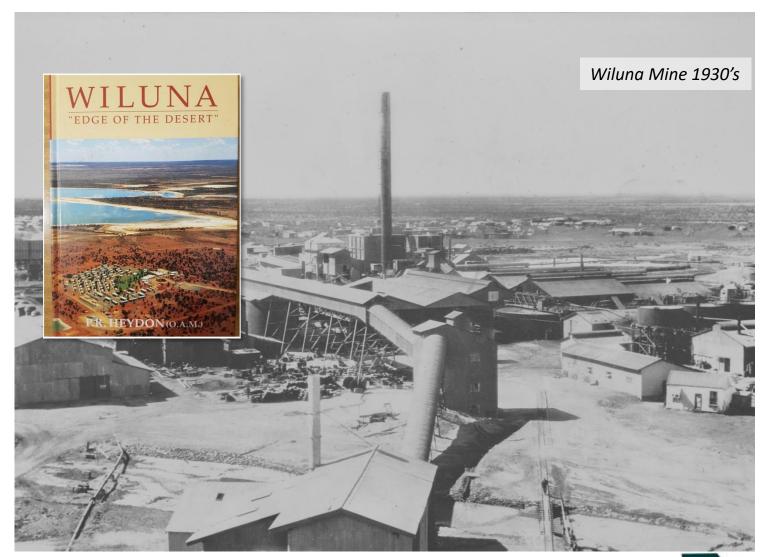

JIM MALONE - GENERAL MANAGER INVESTOR RELATIONS & COMMUNICATIONS

Mr Malone has over 30 years' experience in the mining, resources, financial, broking and sporting industries. He has worked in Perth, Melbourne, London, Santiago, Lima and New York, and listed, advised, managed and been on the Boards of several ASX listed resource and oil and gas companies. Mr Malone has raised over A\$500 million in equity and debt for ASX listed companies. He was also the CEO of Richmond Football Club from 1994 until 2000.

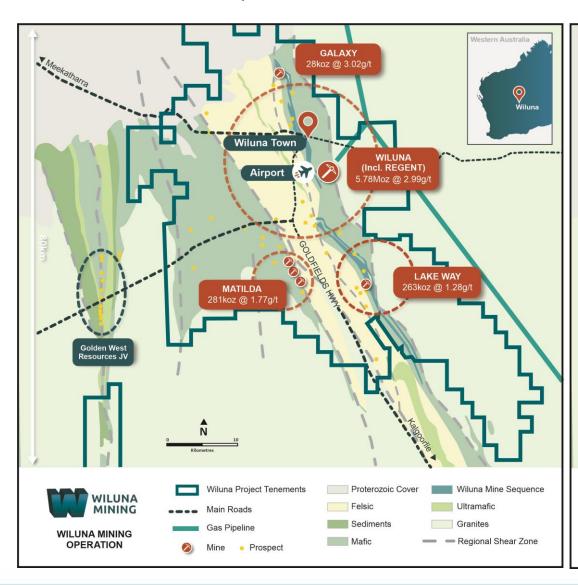

REBIRTH OF ONE OF AUSTRALIA'S GREATEST GOLDFIELDS WILLUNG

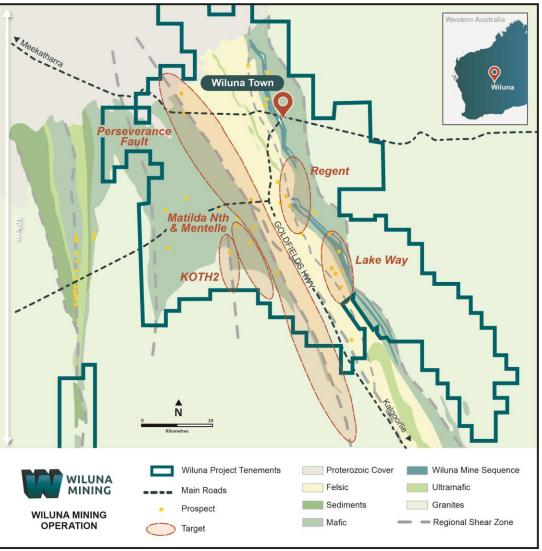

- Wiluna was historically one of Australia's great mines
- Once the largest gold mine in the British Empire
- Gold was initially discovered at Wiluna by explorer Laurence Wells in 1892
- According to the 600-page book Wiluna Edge of the Desert (P Heydon, 1897), Percy's pick came into contact with "the largest lump of gold ever unearthed in the Colony"
- The nugget measured 13 inches long, 27 inches in circumference and weighed 463 ounces!
- Quartz reefs were first mined in 1897
- Major underground development in the 1930's-1940's associated with legendary industrialist Claude de Bernales
- De Bernales financed the Wiluna Gold Mine in London in the 1930's
- A rich history however the best is yet to come!

RESOURCES, RESERVES AND DISCOVERY

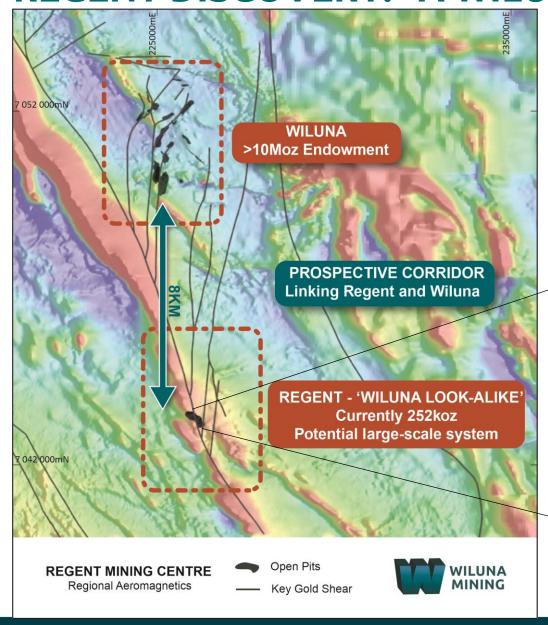

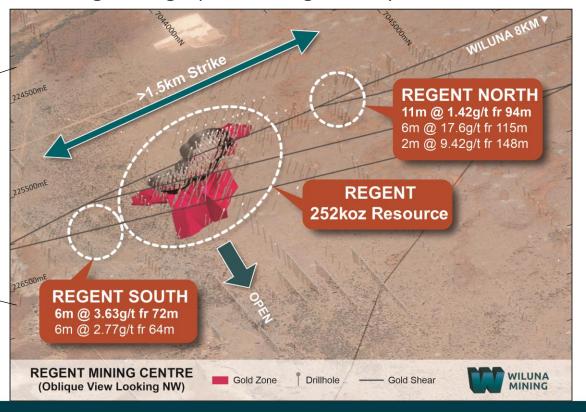

REGENT DISCOVERY: "A WILUNA LOOK-ALIKE"

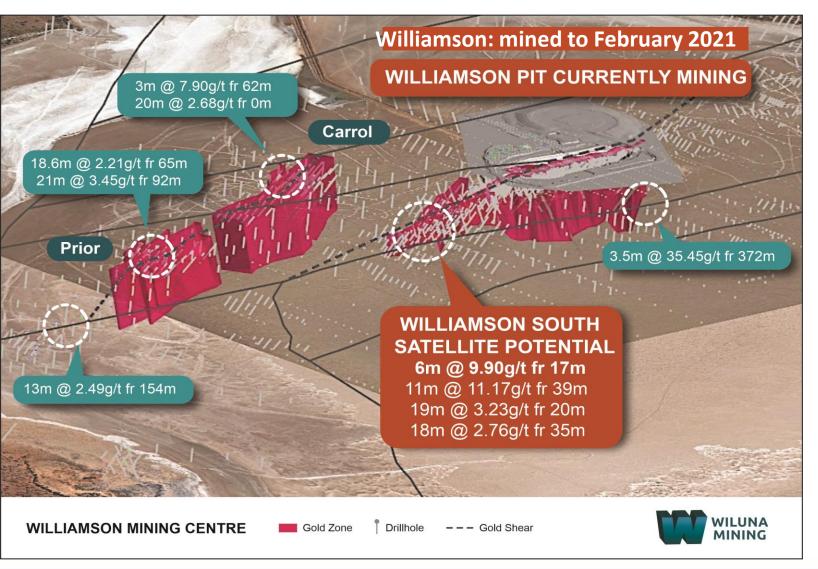

DISCOVERY PROGRAM

- "Wiluna-style" sulphide mineralisation with free-milling open pit potential
- Mineral Resource 252koz @ 1.27g/t (above 0.4g/t cut-off)
- Sulphide intercepts open at depth: 24m @ 5.9g/t, 8m @ 6.1g/t,
 15m @ 5.1g/t
- Drilling will target potential large-scale system like Wiluna >10Moz

LAKE WAY DISCOVERY

GROWTH PROGRAM

Williamson South, Carrol & Prior:

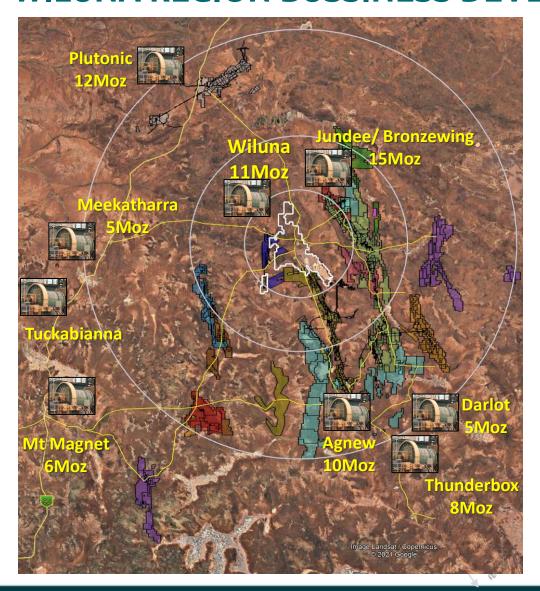

- Longer-term free-milling potential
- Targeting extensions and infill of maiden Inferred Mineral Resources (see ASX release dated 30 September 2020)
- Base-load feed, potentially very large tonnage
 Williamson pit:
- Test 'big-pit' concept and poorly-drilled depth extents

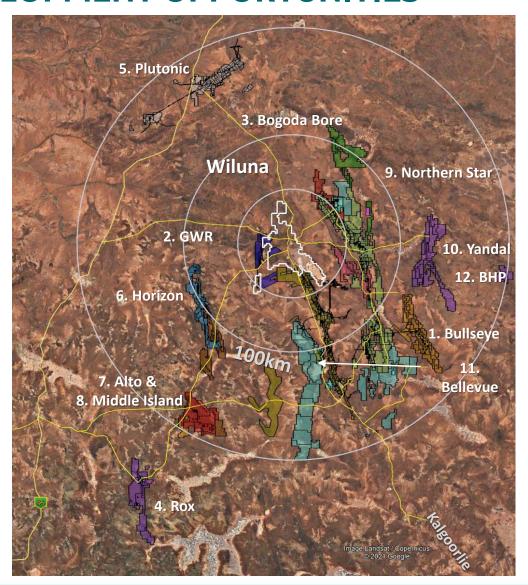

Lake Way:

 Multiple geochemical and structural targets ready for reconnaissance drilling

WILUNA REGION BUSSINESS DEVELOPMENT OPPORTUNITIES

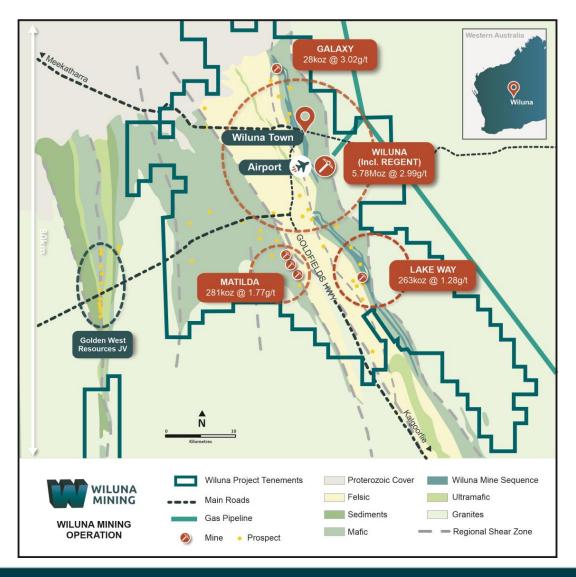

GEOLOGY & BUSINESS DEVELOPMENT STRATEGY

SUMMARY

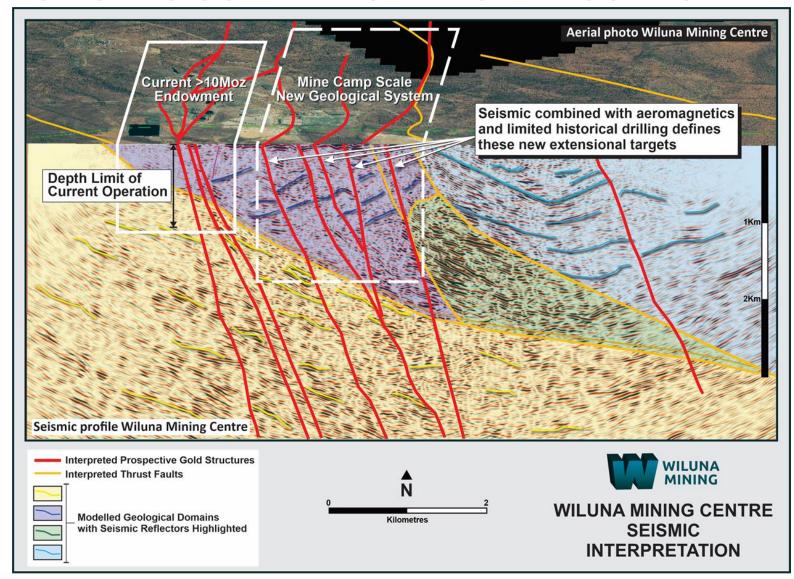

Our strategy to rapidly grow Resources & Reserves, make a Discovery and fully use existing infrastructure:

- Focus on adding +500koz Ore Reserves for Sulphide Development at shallow, high-grade, low-cost mining areas, <600m below surface = next 6 months.
- Increase sulphide Reserves to scale up the mine, with programs from surface to a depth of 1,200m. Includes mine dewatering, rehabilitation and installation of drill drives for Stage 2 sulphide drilling = medium term.
- Discovery at Wiluna; reveal the full scale of the large gold system, multiple targets "under the headframe" = medium term.
- Discovery in the wider 1,600km2 project tenure, four known gold deposit styles and multiple targets; potential stand-alone mines and mills; advance free-milling business plan.
- Regional Business Development: mine the stranded projects in the Wiluna region to fully utilise the Company's installed infrastructure to increase profits.

SEISMIC CONFIRMS LARGE PROSPECTIVE GOLD

- Gold structures are shown to extend well beyond the limits of the current operation
- Multiple parallel Wiluna look-alike structures are exploration targets
- Full-scale three-dimensional survey is now planned to assist with targeting future drilling

ASX Release 6 May 2021

WILUNA MINING CENTRE: A LARGE GOLD SYSTEM

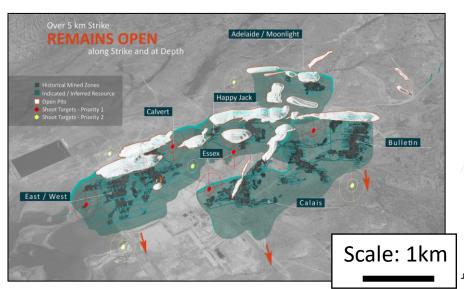

The scale of Wiluna comparable with peers (shown to scale)

- The Wiluna Mining Centre is world class 10Moz endowment
- ➤ Major Reserve infill drilling operation underway with 5 rigs currently

Wiluna Mining Centre

Mined to 1km depth (most mining < 600m) Resources 4.24Moz @ 4.89g/t (> 2.5g/t cut-off) UG Reserves 661koz @ 4.74g/t (and growing)

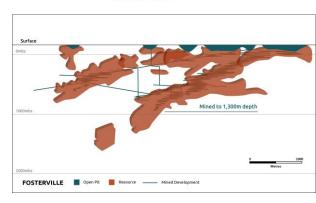

Jundee

HEMI MINERAL RESOURCE

Wiluna Mining - Long Section – September to June FY 2022 Drilling Areas

South North

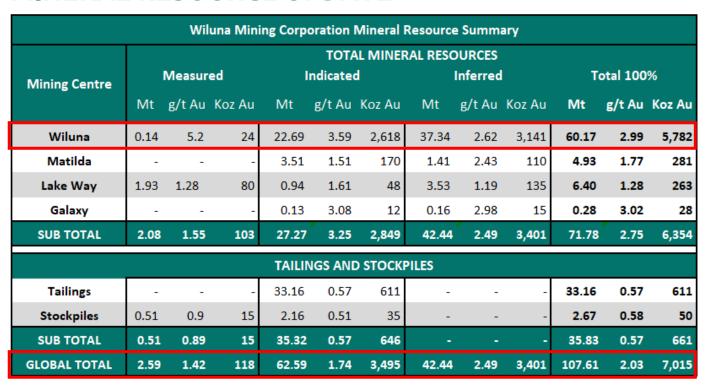

These programs are to convert Inferred Resources to Indicated (then Reserves) and test 'gaps' in drilling knowledge for new shoots or extensions

- FY 2023 programs will continue to drill out the ore body to 1,200m and below
- Large-scale +5Moz Exploration Target to explore with 3D seismic and deep drilling = Large-scale, long-life operation

FY 2022 (Sep '21 – June '22)

- 1. Calvert Resource addition/conversion targets
- East Lode North
- 3. Essex
- 4. Golden Age
- 5. East Lode South
- 6. West Lode South
- 7. Seismic survey truth
- 8. Sulphide pits

MINERAL RESOURCE UPDATE

Wiluna Mining Corporation Mineral Resource Summary												
			TC	TAL MIN	NERAL R	ESOURC	ES (WILU	INA DEP	osits o	NLY)

Explanatory Notes:

- 1. The reported Mineral Resources are inclusive of the Ore Reserves.
- Tonnes are reported as million tonnes (Mt) and rounded to the nearest 10,000; grade reported in grams per tonne (g/t) to the nearest hundredth; gold (Au) ounces are reported as thousands rounded to the nearest 100.
- 3. Wiluna open pit mining centre includes reserves from Golden Age and Squib open pit mining areas.
- Wiltails Ore Reserve includes reclaimed tailings material in Tailings Storage Facilities C, H and Western Extension and backfilled pits at Adelaide, Golden Age, Moonlight and Squib
- 5. East West underground mining centre includes reserves from East West and Calvert underground mining areas.
- 6. Bulletin underground mining centre includes reserves from Bulletin Upper/Lower, Woodley and Henry V underground mining areas.
- 7. Happy Jack underground mining centre includes reserves from Happy Jack North/Central and Essex underground mining areas.
- 8. Burgundy underground mining centre includes reserves from Burgundy and Baldrick underground mining areas.
- 9. Competent Persons: Andrew Hutson and Glenn Van Vlemen of Mining Plus Pty Ltd

DISCLAIMERS & IMPORTANT INFORMATION

Forward-Looking Statements

This presentation includes certain statements that may be deemed 'forward-looking statements'. All statements that refer to any future production, resources or reserves, exploration results and events or production that Wiluna Mining Corporation Ltd ('Wiluna Mining' or 'the Company') expects to occur are forward-looking statements. Although the Company believes that the expectations in those forward-looking statements are based upon reasonable assumptions, such statements are not a guarantee of future performance and actual results or developments may differ materially from the outcomes. This may be due to several factors, including market prices, exploration and exploitation success, and the continued availability of capital and financing, plus general economic, market or business conditions. Investors are cautioned that any such statements are not guarantees of future performance, and actual results or performance may differ materially from those projected in the forward-looking statements. The Company does not assume any obligation to update or revise its forward-looking statements, whether as a result of new information, future events or otherwise.

Competent Person Statements

- The information contained in the report relating to Exploration Targets and Results at the Wiluna Gold Operation is based on information compiled or reviewed by Mr Cain Fogarty, who is a full-time employee of the Company. Mr Fogarty is a Member of the Australian Institute of Geoscientists and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which is being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Fogarty has consented to the report's inclusion of the matters based on this information in the form and context in which it appears.
- The information in the report to which this statement is attached that relates to Mineral Resources for the Wiluna, Lake Way and Regent Mining Centre based on information compiled or reviewed by Mr Graham de la Mare, a Competent Person who is a Fellow of the Australian Institute of Geoscientists. Graham de la Mare was a full-time employee of Wiluna Mining Corporation at the time of this statement and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Marcus Osiejak consents to the inclusion in this announcement of statements based on this information in the form and context in which it appears.
- The information in the report to which this statement is attached that relates to Mineral Resources for the Matilda, Galaxy and WilTails Mining Centres is based on information compiled or reviewed by Mr Marcus Osiejak, a Competent Person who is a Member of the Australian Institute of Mining and Metallurgy. Marcus Osiejak is a full-time employee of Wiluna Mining Corporation and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Marcus Osiejak consents to the inclusion in this announcement of statements based on this information in the form and context in which it appears.
- Regarding the Matilda-Wiluna Gold Operation Mineral Resources, the Company is not aware of any new information or data that materially affects the information included in this report.
- With regard to the Matilda-Wiluna Gold Operation Production Targets, the Company is not aware of any new information or data that materially affects the information included in this report and that all material assumptions and parameters underpinning Production Targets as reported in the market announcement dated 9 October 2020 continue to apply and have not materially changed.
- The information in the report to which this statement is attached that relates to Surface Ore Reserves for the Williamson and Wiluna Mining Centre, as well as surface stockpiles and tailings retreatment (Wiltails project) is based on information compiled or reviewed by Mr Andrew Hutson, a Competent Person who is a Fellow of the Australian Institute of Mining and Metallurgy (AusIMM Member No. 920705). Andrew is a full-time employee of Mining Consultancy, Mining Plus Pty Ltd and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Andrew consents to the inclusion in this announcement of statements based on this information in the form and context in which it appears.
- The information in the report to which this statement is attached that relates to Underground Ore Reserves for the Wiluna Mining Centres is based on information compiled or reviewed by Mr Glenn Van Vlemen, a Competent Person who is a Member of the Australian Institute of Mining and Metallurgy (AusIMM Member No. 109265). Glenn is a full-time employee of Mining Consultancy, Mining Plus Pty Ltd and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Results, Mineral Resources and Ore Reserves'. Glenn consents to the inclusion in this announcement of statements based on this information in the form and context in which it appears.
- The Company confirms that it is not aware of any new information or data that materially affects the information in the relevant ASX releases, and the form and context of the announcement has not materially changed. The Company confirms that the form and context in which the Competent Persons findings are presented have not been materially modified from the original market announcements.
