MT DIMER DRILLING COMPLETED

7 SEVEN DEPOSITS AND PROSPECTS ASSESSED

Aurumin Limited (ASX: AUN) ("Aurumin" or "the Company") is pleased to announce that **drilling has been completed** at its 100% owned **Mt Dimer Project**. Located 120km north-east of Southern Cross in Western Australia, Mt Dimer is a historical high-grade production centre, having produced over 125,000 ounces of gold, including open pit and underground production of 600,000 tonnes @ 6.4 g/t Au.

The programme consisted of 34 RC drill holes for 2,954 metres, targeting seven different deposits and prospects.

Drilling assessed the existing deposits (Lighting, Golden Slipper and LO3) and at newly identified mineralised structures discovered during Aurumin's recent SAM survey target drilling (Frodo North (T6), T12, and T24). Aurumin also targeted a new prospect north of the Karli West open pit based on historical soil sampling and site mapping.

All initial samples have been dispatched to the assay laboratory and the Company expects assays to be returned in approximately five weeks.

Competent Person Statement

The information in this announcement that relates to exploration results, data quality, and geological interpretations for the Mt Dimer Project is based on information compiled by Peter Aldridge, a Competent Person who is a Member of the Australian Institute of Geoscientists and a full-time employee of Aurumin Limited. Mr Aldridge has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Aldridge consents to the inclusion in this announcement of the matters based on this information in the form and context in which it appears.

About Aurumin Limited

Aurumin Limited is an Australian company, listed on the ASX in December 2020, as a mineral exploration company. The Company has four gold projects including two historical high-grade production centres, Mt Dimer and Mt Palmer:

- Mt Dimer – Over 125,000 ounces of gold produced, including open pit and underground production of approximately 600,000 tonnes @ 6.4 g/t, and a substantial tenure footprint.
- Mt Palmer – Historical open pit and underground production for approximately 158,000 ounces of gold at an average grade of 15.9 g/t.

The Company is actively exploring its tenements and will pursue further acquisitions which complement its existing focus and create additional Shareholder value.
