

# MARKET ANNOUNCEMENT

## Maiden Iron Ore Shipment from Peru

### HIGHLIGHTS

- 35,000 tonnes Apurimac Premium Lump DSO loaded
- MV Federal Nakagawa departs Peru, bound for China

Strike Resources Limited (ASX:SRK) (**Strike**) is pleased to confirm that MV Federal Nakagawa has departed from Peru, carrying 35,000 tonnes of Apurimac Premium Lump direct shipping iron ore (**DSO**) sourced from Strike's Apurimac Iron Ore Project.

The MV Federal Nakagawa is now heading for China, where under the terms of Strike's Offtake Agreement with Good Importing International Pty Limited<sup>1</sup>, it will deliver its load of Apurimac Premium Lump DSO with an expected voyage time of approximately 32 days.

Strike has already received US\$4.5 Million in prepayments for this first shipment so far, with the balance of sale proceeds to be received prior to the ship's arrival in China.

William Johnson, Managing Director:

*The first shipment of iron ore from Peru is a major milestone for the Company.*

*Strike's 100% owned high grade Apurimac Iron Ore Project in Peru is recognised as one of the highest grade, large scale magnetite projects in the world with the potential to support the establishment of a significant iron ore operation.*

*This first shipment of this high-grade Apurimac Premium Lump DSO is expected to generate considerable market interest, including from potential customers in the region as well as in China.*

*I would like to thank all of Strike's personnel, contractors and partners, who have all contributed to make this first shipment a reality. In particular, our local team members in Peru, who have worked tirelessly over the last few months to get 'first ore on ship'.*

*I would like to pay a special tribute to Peruvian Geologist Jorge Francisco Padilla Pineda, who passed away on 7<sup>th</sup> August. Jorge played an important role in organising this shipment and sadly passed away before seeing it completed. Strike expresses its deepest sympathy and condolences to Jorge's family.*

## Apurimac Iron Ore Project – JORC Mineral Resource

The Apurimac Project (Strike – 100%) has a JORC Code (2012 Edition) compliant Mineral Resource of 269.4 Mt, consisting of:

- a 142.2 Mt Indicated Mineral Resource at 57.8% Fe; and
- a 127.2 Mt Inferred Mineral Resource at 56.7% Fe.

Category	Concession	Density t/m <sup>3</sup>	Mt	Fe%	SiO <sub>2</sub> %	Al <sub>2</sub> O <sub>3</sub> %	P%	S%
Indicated	Opaban 1	4	133.71	57.57	9.46	2.54	0.04	0.12
Indicated	Opaban 3	4	8.53	62.08	4.58	1.37	0.07	0.25
Inferred	Opaban 1	4	127.19	56.7	9.66	2.7	0.04	0.2
<b>Total Indicated and Inferred</b>			<b>269.4</b>	<b>57.3</b>	<b>9.4</b>	<b>2.56</b>	<b>0.04</b>	<b>0.16</b>

Refer Strike's ASX Announcement dated 20 January 2015: Apurimac Mineral Resources Updated to JORC 2012 Standard.

In addition to the current JORC Mineral Resource, there is significant exploration potential given the deposits are open at depth and along strike (with very promising drill results including 154m @ 62% Fe) with extensive undrilled gravity and magnetic anomalies.

---

### ABOUT STRIKE RESOURCES LIMITED (ASX:SRK)

Strike Resources Limited is an ASX listed resource company which is developing the 1.5Mtpa Paulsens East Iron Ore Project in Western Australia. Strike also owns the high grade Apurimac Iron Ore Project in Peru where it has commenced mining of high-grade surface deposits and entered into an offtake agreement with an international iron-ore trading firm to export the "Apurimac Premium Lump" DSO product of ~65% Fe. Strike has a 43% shareholding in Lithium Energy Limited (ASX:LEL), which was recently spun-out of Strike under a \$9m IPO. Lithium Energy is developing battery minerals related assets - the Solaroz Lithium Brine Project in Argentina and the Burke Graphite Project in Queensland.

### JORC Code (2012) Competent Person's Statement

The information in this document that relates to Mineral Resources and other Exploration Results in relation to the Apurimac Iron Ore Project (Peru) is extracted from the following ASX market announcement made by Strike Resources Limited on:

- 20 January 2015: Apurimac Mineral Resources Updated to JORC 2012 Standard.

The information in the original announcement that relates to these Mineral Resources and other Exploration Results (as applicable) is based on, and fairly represents, information and supporting documentation prepared by Mr Ken Hellsten, B.Sc. (Geology), who is a Fellow of the Australasian Institute of Mining and Metallurgy (**AusIMM**). Mr Hellsten was a principal consultant to Strike Resources Limited and was also formerly the Managing Director of Strike Resources Limited (between 24 March 2010 and 19 January 2013). Mr Hellsten has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (the **JORC Code**). The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement (referred to above)..

## FORWARD LOOKING STATEMENTS

This document contains “forward-looking statements” and “forward-looking information”, including statements and forecasts which include without limitation, expectations regarding future performance, costs, production levels or rates, mineral reserves and resources, the financial position of the Company, industry growth and other trend projections. Often, but not always, forward-looking information can be identified by the use of words such as “plans”, “expects”, “is expected”, “is expecting”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates”, or “believes”, or variations (including negative variations) of such words and phrases, or state that certain actions, events or results “may”, “could”, “would”, “might”, or “will” be taken, occur or be achieved. Such information is based on assumptions and judgements of management regarding future events and results. The purpose of forward-looking information is to provide the audience with information about management’s expectations and plans. Readers are cautioned that forward-looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company and/or its subsidiaries to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information. Such factors include, among others, changes in market conditions, future prices of minerals/commodities, the actual results of current production, development and/or exploration activities, changes in project parameters as plans continue to be refined, variations in grade or recovery rates, plant and/or equipment failure and the possibility of cost overruns.

Forward-looking information and statements are based on the reasonable assumptions, estimates, analysis and opinions of management made in light of its experience and its perception of trends, current conditions and expected developments, as well as other factors that management believes to be relevant and reasonable in the circumstances at the date such statements are made, but which may prove to be incorrect. The Company believes that the assumptions and expectations reflected in such forward-looking statements and information are reasonable. Readers are cautioned that the foregoing list is not exhaustive of all factors and assumptions which may have been used. The Company does not undertake to update any forward-looking information or statements, except in accordance with applicable securities laws.
