COMMENTARY

Eneco Refresh Ltd (Group) is pleased to announce that it has achieved a 17% increase in revenue and trimmed its loss by 85% compared to the previous financial year. The effect of COVID-19 lockdowns has been felt across the country. Despite that, the Group has done well and is able to grow because of its diversified product offering. Every Cash Generating Unit achieved positive variance both in revenue and bottom line. The Federal and State government packages have helped in reducing losses.

Refresh Waters

Sales growth in New South Wales, Victoria, and Queensland improved partly because since September 2020, our 2-litre Demineralised Water has been sold in all Woolworths supermarkets (with the exception of Western Australia and Northern Territory). This is in addition to our 5-litre Refresh Pure Water being sold in Woolworths for the last 16 years (with the exception of South Australia and Tasmania).

New South Wales continued to do well and our custom labelled bottled water sales picked up significantly.

Victoria was unfortunately badly affected by many lockdowns, resulting in only a marginal increase in profitability.

Sales in the Northern Territory have overtaken Victoria, which reflects positively on our strategy to acquire the only single-serve bottled water factory in the Top End.

Queensland had excellent revenue growth of 20% and also achieved the highest variance in profitability. Refresh Waters bought back a 51% share of our Queensland business on 2 January 2019, making it a wholly-owned subsidiary. Under our management, it has achieved record profit.

Refresh Plastics

Refresh Plastics achieved excellent growth of 17%. This is despite it no longer selling Petainer one-way PET kegs, which used to be about 5% of total revenue. Petainer refused to take back raw materials and finished goods worth \$93,000. We have progressively written down the value of these stocks, with \$70,000 written off in the current financial year. Refresh Plastics' loss would otherwise have been much lesser.

A breakdown by Cash Generating Units is presented below.

1. SEGMENT INFORMATION

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

In identifying its operating segments, management follows the geographical location of the Group's bottled water business, but show Refresh Plastics separately. Corporate costs are included under "Other". Segment information can be analysed as follows for the reporting period under review.
