

### Resource Base Appoints Exploration Manager

#### Highlights

- Resource Base appoints highly experienced Geologist Mr Ian Cameron as Exploration Manager
- Mr Cameron has significant geological experience throughout the Stavelly Belt of Western Victoria and will fulfil the role of Competent Person (CP) for the Company
- Large-scale geophysical survey program at Black Range Project commencing shortly; to test the priority target area between the Eclipse and New Moon prospects

Resource Base Limited (ASX:RBX) (Resource Base or the Company) is pleased to announce the appointment of Mr Ian Cameron as the Company's Exploration Manager, effective immediately. Mr Cameron is based in regional Victoria close to the Company's Black Range Project, providing him with direct site access to enable the close management of all site related activities.

#### Commenting on the appointment, Resource Base Managing Director, Mr Shannon Green, said:

"On behalf of the Board and myself personally, it gives us great pleasure to welcome Ian to the team. We are extremely lucky to have secured someone of Ian's calibre. His exploration management and technical experience, particularly his experience in the Stavelly Belt of Western Victoria, will bring enormous value to the Company - Ian is an outstanding appointment".

#### Resource Base Exploration Manager, Mr Ian Cameron commented:

"I am very excited to be joining the Resource Base team at such an important time in the Company's journey with major geological site-based works programs about to commence. The strength of experience of the Resource Base team and the quality of the Black Range project were strong attractions for me, I look forward to being a part of the Company's growth".

Mr Cameron is an experienced geologist and geophysicist with some 25 years' experience in gold, base metal, tin and tungsten exploration across Australia and SE Asia. He has held exploration and in-country management roles and has significant experience working closely with government, regulatory and local community stakeholders, managing tenure permitting and the respectful and diligent implementation of work programs in densely populated agricultural regions.

Ian graduated with a Bachelor of Science from Latrobe University and began his career in the Stavelly Belt of Western Victoria. He has held technical roles with North Exploration, Plutonic Resources, Newcrest Mining, Barrick Gold, and a number of privately held groups. Most recently, Mr Cameron has been running operations out of Victoria and Western Australian for an exploration services provider.

Mr Cameron will have corporate and project level geology accountability with an initial focus on planning the Company's inaugural drilling program at the Black Range Project located in the well-known and highly prospective Stavely Volcanic corridor in North-West Victoria (EL4590).

Mr Cameron will fulfill the role of Competent Person as defined in the 2012 edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (the JORC Code).

### **Exploration Program**

With the appointment of Mr Cameron as Exploration Manager, the Company continues to finalise plans for an aggressive exploration program at the priority target area between the Eclipse and New Moon prospects at the Black Range Project, with the aim of commencing drilling in Q4 CY2021. Drilling is planned to then continue to further target areas across the broader tenement following further geophysical programs.
