About Nanoveu Limited

We are technology innovators who specialize in modern, cutting-edge nanotechnology that improve the way we live, from reducing contagious transmissions on high touch points to immersive vision-based entertainment. <https://www.nanoveu.com/>

Nanoshield - is a film which uses a patented polymer of Cuprous embedded film to self-disinfect surfaces. Nanoshield antiviral protection which is available in a variety of shapes and forms, from mobile screen covers, to mobile phone cases and as a PVC commercial film, capable of being applied to a number of surfaces such as doorhandles and push panels. The perfectly clear plastic film contains a layer of charged copper nanoparticles which have antiviral and antimicrobial properties. This technology is also being applied to fabric applications targeting use in the personal protective equipment sector.

EyeFly3D - is a film applied to digital displays that allowed users to experience 3D without the need for glasses on everyday mobile handheld devices.

Customskins - are vending machines capable of precisely applying screen covers to mobile phones with an alignment accuracy of 150 microns.

EyeFyx - currently in research and development stage, EyeFyx is a vision correction solution using hardware and software to manipulate screen output addressing long-sightedness without the need to wear reading glasses.

BENEFITS OF NANOSHIELD™

NANOSHIELD™
SELF DISINFECTING FILM

Film – Visible antiviral protection

Viruses are eliminated within minutes of being in contact with the film¹, reducing the risk of transmission in surfaces that are frequently touched.

Advanced manufacturing in Japan

Patented copper compound (Cu₂), more effective than Copper Alloy, Nano Silver, Silver ion or Zinc in speed of elimination of viruses and bacteria.

Optical clarity for touchscreens – made with nano materials

Only optically clear film (88% transmission) on the market using PET Polymers with silicone adhesive, making it the ONLY FILM suitable for touch screens.

Easy installation with a variety of plastic options – PET/PVC/TPU – indoor vs outdoor

Our films come with an adhesive backing that makes it simple to install. Just cut to size, peel and stick.

Lab tested with in Singapore, USA, Australia, India, China, Japan and Saudi Arabia

Tested in leading laboratories in USA, Japan, Singapore. ¹
