REVIEW OF OPERATIONS

The group reported a consolidated loss of \$382,076 for the half-year ended 30 June 2021 (2020: a consolidated loss of \$394,758).

Energy Metals is a dedicated uranium exploration company with eight projects located in the Northern Territory (NT) and Western Australia covering over 2,400 km². Most of the projects contain uranium mineralisation discovered by major companies in the 1970's, including the advanced Bigrlyi project, located in the prospective Ngalia Basin (NT). Bigrlyi is characterised by relatively high uranium grades (with vanadium credits) and excellent metallurgical recoveries.

The company's exploration activities were affected by COVID-19-related travel and access restrictions, however, they were of a sufficient level to maintain the company's tenements in good standing given the expenditure covenant relief measures provided by the NT Government during the period.

Bigrlyi Joint Venture (EME 72.39%)

The Bigrlyi exploration camp remained on a care and maintenance footing during the period and only minimum exploration activities were undertaken. Energy Metals' focus this period was on the optimisation of various aspects of the pre-feasibility study including an update of the mineralisation model, and geotechnical and mining design reviews in order to improve the economics of Bigrlyi project.

Ngalia Regional Project (EME 100%)

During the half-year only minimum exploration activities were conducted due to the COVID-19-related suspension of fieldwork programs. Exploration work was limited to desk-top studies including a geological review and completion of an exploration database update.

Malawiri Joint Venture (EME 76.03%)

Minimum exploration activities were undertaken in the current half-year to ensure the tenements remained in good standing.

Walbiri Joint Venture (EME 77.12%)

Minimum exploration activities were undertaken in the current half-year to ensure the tenements remained in good standing.

Western Australia

The company's strategy is to maintain tenure over its Western Australian uranium deposits with minimum expenditure until economic conditions improve and WA Government restrictions on uranium mining are lifted. Four projects are covered by granted Retention Licences and one, the Manyingee East project, by a Retention Licence application. Landholder objections to the grant of the Manyingee East application is progressing through the Warden's Court process. Energy Metals continues to monitor the situation with a view to recommencing exploration and development activities in the future.

NOTE 1: BASIS OF PREPARATION OF HALF-YEAR REPORT

Statement of compliance

The half-year financial report is a general purpose financial report prepared in accordance with the *Corporations Act 2001* and AASB134 '*Interim Financial Reporting*'. Compliance with AASB 134 ensures compliance with International Financial Reporting Standards IAS 34 '*Interim Financial Reporting*'. The half-year report does not include notes of the type normally included in an annual financial report and shall be read in conjunction with the most recent annual financial report.

Basis of preparation

The condensed consolidated financial statements have been prepared on the basis of historical cost, except for the revaluation of certain non-current assets and financial instruments. Cost is based on the fair value of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the company's 2020 annual financial report for the year ended 31 December 2020, except for the impact of the Standards and Interpretations described below. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

Coronavirus (COVID-19) pandemic

The Directors have considered the impact of the COVID19 pandemic on the position of the group at 30 June 2021 and its operations in future periods.

Judgement has been exercised in considering the impacts that the Coronavirus (COVID-19) pandemic has had, or may have, on known information. This consideration extends to the nature of business, supply chain, staffing and geographic regions in which the entity operates. Other than as addressed in specific notes, there does not currently appear to be either any significant impact upon the financial statements or any significant uncertainties with respect to events or conditions which may impact the consolidated entity unfavourably as at the reporting date or subsequently as a result of the Coronavirus (COVID-19) pandemic.

NOTE 2: NEW ACCOUNTING STANDARDS AND INTERPRETATIONS

For the half-year ended 30 June 2021, the Group has reviewed all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to its operations and effective for annual reporting periods beginning on or after 1 January 2021. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

New and revised Accounting Standards in issue not yet adopted

At the date of authorisation of the Financial Statements, the Standards applicable to the group's business listed below were in issue but not yet effective. The potential effect of the revised Standards on the group's financial statements has not yet been determined.

AASB 2014-10 Amendments to Australian Accounting Standards – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture and AASB 2015-10 Amendments to Australian Accounting Standards – Effective Date of Amendments to AASB 10 and AASB 128 and AASB2017-5 Amendments to Australian Accounting Standards-Effective Date of Amendments to AASB10 and AASB128 and Editorial Corrections, effective for annual reporting periods beginning on or after 1 January 2022;

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Energy Metals Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Energy Metals Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2021, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the Corporations Act 2001 including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2021 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001 which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the directors for the financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the Group's financial position as at 30 June 2021 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
