ASX Announcement

13 September 2021

EXTENSION OF REPORTING AND LODGMENT DATE - REVIEWED INTERIM FINANCIAL REPORT

Po Valley Energy Limited (ASX: PVE) (Po Valley or the Company) advises that it will be relying on ASX Class Waiver Decision – Extended Reporting and Lodgement Deadlines dated 3 May 2021 ("ASX Class Waiver") and ASIC Corporations (Extended Reporting and Lodgment Deadlines – Listed Entities) Instrument 2020/451 as extended by ASIC Corporations (Amended) Instrument 2020/1080 and ASIC Corporations (Amended) Instrument 2021/315 dated 26 April 2021 (the "Amended ASIC Relief"), to extend the lodgement date for its Reviewed Half Year Financial Report.

The Company advises the attached information provided for the half-year ended 30 June 2021 is unreviewed.

Under the ASX Class Waiver, the Company is required to release its reviewed half year accounts for the six months to 30 June 2021 at the earlier of:

- (i) when they are ready to be given to ASX; or
- (ii) when they must be given to ASIC under the Amended ASIC Relief.

The Company confirms that it will immediately make further announcement to ASX if it becomes aware that there will be a material difference between its unreviewed and its Reviewed Half Year Financial Report.

This Announcement was authorised for release by the Board of Po Valley Energy Limited

UNREVIEWED NOTES TO THE INTERIM FINANCIAL REPORT FOR THE SIX MONTHS ENDED 30 JUNE 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1.1 REPORTING ENTITY

Po Valley Energy Limited ("the **Company**" or "**PVE**") is a company domiciled in Australia. The consolidated interim financial report for the six-month period ended 30 June 2021 comprises the Company and its interests in subsidiaries, associates and jointly controlled entities and operations (together referred to as the "Group").

The Group is primarily involved in the exploration, appraisal, development and production from gas properties in the Po Valley region in Italy and is a for profit entity.

1.2 BASIS OF PREPARATION

(a) STATEMENT OF COMPLIANCE

The interim financial report is a condensed general purpose financial report prepared in accordance with AASB 134 Interim Financial Reporting and the Corporations Act 2001.

Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the last annual consolidated financial statements as at and for the year ended 31 December 2020. They do not include all of the information required for a full annual financial report, and should be read in conjunction with the consolidated annual financial report of the Group as at and for the year ended 31 December 2020 and with any public announcements made by Po Valley Energy Limited during the half-year ended 30 June 2021.

The accounting policies and methods of computation adopted are consistent with those of the previous financial year and corresponding half-year. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

(b) BASIS OF MEASUREMENT

These consolidated financial statements have been prepared on the basis of historical cost taking into account, where appropriate, any value adjustments except for certain items required to be recognised at fair value.

(c) GOING CONCERN

The financial report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the normal course of business.

For the period ended 30 June 2021, PVE has recorded a loss after tax from continuing operations of €186,492 (30 June 2020: €427,315); at 30 June 2021 had cash balance of €1,876,122 (31 December 2020 €44,107) net current liabilities of €483,141 (31 December 2021 €4,739,591) and had net cash outflows from continuing operations of €295,102 (30 June 2020: €294,645).

The Group launched a capital raising of A\$10.1 million in June 2021, by way of a placement of A\$1 million and an Accelerated Non-Renounceable Rights Issue ("ANREO" or "Entitlement Offer") of A\$9.1m at \$0.028 per New Share. The ANREO comprised a non-renounceable entitlement offer to institutional shareholders (Institutional Offer) and to retail shareholders (Retail Offer). The placement and Institutional Offer completed on 21st June 2021 raising approximately A\$7.5 million (before costs). Approximately A\$1 million was raised through the Placement and the Institutional offer raised approximately A\$6.5 million, which included conversion of debt of approximately A\$3.35 million.

UNREVIEWED NOTES TO THE INTERIM FINANCIAL REPORT FOR THE SIX MONTHS ENDED 30 JUNE 2021

The Retail Offer closed on the 9th July with completion on the 15th July 2021 raising the remaining approximately A\$2.6 million (before costs), which included a conversion of debt of approximately A\$0.6 million, thereby further strengthening the financial position of the Group.

The Group has prepared a cash flow forecast for the next twelve months from the date of signing the financial report which demonstrates that the Group will have sufficient cash to continue as a going concern, with the following assumptions:

- The successful completion of development of the Selva Gas Field
- The profitable and cash flow positive operation of its interest in Selva.
- Critical to the forecast cash flows is the Group's ability to achieve forecast levels of oil and gas
 production at forecast market prices and gross profit margins.

The Directors has a reasonable expectation that the Selva operation will achieve its forecast positive cash flows. Should the Group not achieve its cashflow forecasts as planned, the Directors recognise that the ability of PVE to continue as a going concern may become dependent on the Group's ability to secure additional funding through either the issue of new equity, convertible debt, sale of operating or non-operating interests in assets or a combination of these and other funding instruments as required to fund ongoing planned activities and for working capital. The Directors are confident that the Group will be able to secure sufficient funding to continue as a going concern based on demonstrated past successes in raising equity.

For these reasons the Directors have reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable and the Directors consider the going concern basis of preparation to be appropriate for this financial report.

Should the Group not achieve the matters set out above, there is a material uncertainty that may cast significant doubt whether the Group would continue as a going concern and therefore whether it would realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report. The financial report does not include adjustments relating to the recoverability or classification of the recorded assets amounts nor to the amounts or classification of liabilities that might be necessary should the Group not be able to continue as a going concern.

(d) FUNCTIONAL AND PRESENTATION CURRENCY

The consolidated financial statements are presented in Euro, which is the Company's and each of the Group entities' functional currency.

(e) USE OF ESTIMATES AND JUDGEMENTS

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market change or circumstances arising beyond the control of the Company. Actual results may differ from these estimates.

Estimates and underlying assumptions are based on complex or subjective judgments and past experience of other assumptions deemed reasonable in consideration of the information available at the time and are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

The estimates and judgements that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

UNREVIEWED NOTES TO THE INTERIM FINANCIAL REPORT FOR THE SIX MONTHS ENDED 30 JUNE 2021

Impairment of non-current assets

The ultimate recoupment of the value of resource property costs and property plant and equipment is dependent on successful development and commercial exploitation, or alternatively, sale, of the underlying properties. The Group undertakes at least on an annual basis, a comprehensive review for indicators of impairment of these assets. Should an impairment indicator exist, the area of interest or CGU is tested for impairment. There is significant estimation involved in determining the inputs and assumptions used in determining the recoverability amounts.

The key areas of estimation involved in determining recoverable amounts include:

- Recent drilling results and reserves and resources estimates
- Environmental issues that may impact the underlying licences
- The estimated market value of assets at the review date
- Fundamental economic factors such as the gas price and current and anticipated operating costs in the industry
- Future production rates

The post-tax discount rate used for impairment purposes is 10%.

Rehabilitation provisions

The value of these provisions represents the discounted value of the present obligations to restore, dismantle and rehabilitate each well site. Significant estimation is required in determining the provisions for rehabilitation and closure as there are many transactions and other factors that will affect ultimate costs necessary to rehabilitate the sites. The discounted value reflects a combination of management's best estimate of the cost of performing the work required, the timing of the cash flows and the discount rate.

A change in any, or a combination of, the key assumptions used to determine the provisions could have a material impact on the carrying value of the provisions. The provision recognised for each site is reviewed at each reporting date and updated based on the facts and circumstances available at that time. Changes to the estimated future costs for operating sites are recognised in the statement of financial position by adjusting both the restoration and rehabilitation asset and provision.

The Group has considered its obligations for restoration and rehabilitation of the well development planned for the Selva field. The Company estimates that the cost of restoration of the well development will be €2,065,119 to be incurred once production ceases at the end of estimated production life estimated to be 15 years. A provision for these restoration costs will commence to be recognised once the final production concession is granted and development has commenced as anticipated in the latter half of 2021.

Reserve estimates

Estimation of reported recoverable quantities of Proven and Probable reserves include estimates regarding commodity prices, exchange rates, discount rates, and production and transportation costs for future cash flows. It also requires interpretation of complex geological and geophysical models in order to make an assessment of the size, shape, depth and quality of reservoirs, and their anticipated recoveries. The economic, geological and technical factors used to estimate reserves may change from period to period.

A change in any, or a combination of, the key assumptions used to determine the reserve estimates could have a material impact on the carrying value of the project via depreciation rates or impairment assessments. The reserve estimates are reviewed at each reporting date and any changes to the estimated reserves are recognised prospectively to depreciation and amortisation. Any impact of the change in the reserves is considered on asset carrying values and impairment losses, if any, are immediately recognised in the profit or loss.

UNREVIEWED NOTES TO THE INTERIM FINANCIAL REPORT FOR THE SIX MONTHS ENDED 30 JUNE 2021

Recognition of deferred tax assets

The recoupment of deferred tax assets is dependent on the availability of profits in future years. The Group undertakes a forecasting exercise at each reporting date to assess its expected utilisation of these losses. The key areas of estimation involved in determining the forecasts include:

- Future production rates
- Economic factors such as the gas price and current and anticipated operating costs in the industry
- Capital expenditure expected to be incurred in the future

A change in any, or a combination of, the key assumptions used to determine the estimates could have a material impact on the carrying value of the deferred tax asset. Changes to estimates are recognised in the period in which they arise.

1.3 SIGNIFICANT ACCOUNTING POLICIES

- a) New and revised Standards and Interpretations on issue not yet adopted Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet effective have not been early adopted by the Group for the reporting period ended 30 June 2021. The Directors do not believe that these new and revised Standards and Interpretations will have a material effect on the Group.
- b) New Standards and Interpretations applicable for the six-month period ended 30 June 2021 The Directors have reviewed all the new and revised Standards and Interpretations issued by the AASB that are relevant to the Group and effective for the current reporting period. As a result of this review, the Directors have determined that there is no material impact of the new and revised Standards and Interpretations on the Group and, therefore, no material change is necessary to the Group accounting policies.

NOTE 2: PROFIT AND LOSS INFORMATION

Loss for the half-year includes the following items:

| | 30 June 2021 | 30 June 2020 | |
|---------------------------------------|--------------|--------------|--|
| | € | € | |
| Professional fees | (28,740) | (99,629) | |

| Travel costs | (10,175) | (17,164) | |
| Gain on agreement debt settlement | - | 110,940 | |

Cost reductions in the current period are a result of reduced activity and cost restrictions due to the current economic climate under COVID-19 and ongoing management effort to further reduce costs whilst the Group awaits granting of the final production concession of its Selva development project.

Resource property costs comprises the carrying value of its exploration and pre-development projects. The ultimate recoupment of resource property costs is dependent upon the successful development and exploitation, or alternatively sale, of the respective areas of interest at an amount greater than or equal to the carrying value. Where activities in the area of interest have, at the reporting date, reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, the exploration and evaluation assets are assessed for impairment. Impairment will occur if sufficient data exists to determine technical feasibility and commercial viability and the facts and circumstances suggest

UNREVIEWED NOTES TO THE INTERIM FINANCIAL REPORT FOR THE SIX MONTHS ENDED 30 JUNE 2021

that the carrying amount exceeds the recoverable amount. Following review, no impairment has been recognised for the 6 months to 30 June 2021.

NOTE 8: LEASING

Lease liabilities are presented in the statement of financial position within trade and other payables as follows:

| | 30 June 2021 | 31 December 2020 | |
|-----------------------------|--------------|------------------|--|
| | € | € | |
| Lease liabilities (current) | - | 3,091 | |

The Group had a lease for the main operation office in Rome Italy. The lease terminated in January 2021. The Group has elected not to recognise a lease liability for short term leases (with expected term of 12 months or less) or for leases of low value assets. The expense relating to payments not included in the measurement of lease liability for the period to 30 June 2021 was €5,308.

All ordinary shares are fully paid and carry one vote per share and the right to dividends. In the event of winding up the Company, ordinary shareholders rank after creditors. Ordinary shares have no par value.

No dividends were paid or declared during the current period (no dividends were paid at December 2020).

NOTE 11: CONVERTIBLE NOTES

The Company has on issue convertible notes equivalent to A1,750,000 \ (£1,105,834) \ (31 December 2020 A$2,500,000 \ (£1,571,070))$. During the period, the Company repaid A750,000 \ (£477,854) \ of convertible notes in cash and converted interest on convertible notes of <math>A$504,767 \ (£320,591) \ to equity as part of the ANREO institutional offer.$

The remaining convertible notes are convertible into fully paid ordinary shares of the Company at a conversion price of A\$0.042 per share. The notes are to be converted or otherwise redeemed in April 2022 (repayment date) and interest shall be payable in cash on the principal amount at a rate of 8% per annum, calculated monthly and payable 6 monthly in arrears.

Subject to shareholder approval, if required, the noteholder may before the maturity date convert the convertible note into shares by providing the Company with written notice of the conversion. The Company has the right to elect to redeem any unconverted convertible notes by giving 30-day notice to the noteholder.

Redemption of the notes occurs on:

a) The repayment date;

NOTE 13: FINANCIAL ASSETS AND FINANCIAL LIABILITIES

The carrying amounts of financial assets and liabilities as disclosed in the statement of financial position equate to their estimated net fair value.

| | 30 June 2021 | 31 December 2020 | |
|------------------------------------|--------------|------------------|--|
| | € | € | |
| Financial assets | | | |
| Cash and cash equivalents | 1,876,122 | 44,107 | |
| Receivables – current | 47,709 | 86,617 | |
| Other assets | 2,078 | 78 | |
| Total financial assets | 1,925,909 | 130,802 | |
| Financial liabilities | | | |
| Trade and other payables - current | 818,209 | 1,226,182 | |
| Lease liabilities – current | - | 3,091 | |
| Loans – current | 480,132 | 2,067,175 | |
| Convertible notes – current | 1,105,834 | 1,571,070 | |
| | 2,404,175 | 4,867,518 | |

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy.

The three levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Current receivables, current payables and cash & cash equivalents are not measured at fair value. Due to their short- term nature, the carrying amount of current receivables, current payables and cash and cash equivalents is assumed to approximate their fair value.

The table below summarises financial assets and liabilities at fair value at each level of measurement:

| At 30 June 2021 | Level 1 € | Level 2 € | Level 3 € | Total € |
|-----------------------------------|--------------|--------------|--------------|------------|
| Convertible Notes (refer note 11) | - | 1,105,834 | - | 1,105,834 |
