## Clarification of Twitter Post

---

Firefinch Limited (ASX:FFX) (**Company**) refers to a tweet made on 13 September 2021 by a third party contractor of Firefinch, referring to the rebalance of the GDXJ exchange traded fund and the amount of funds to rebalance that would be required to be purchased in Firefinch by the GDXJ manager.

The statement was made by a third party contracted by Firefinch and was not authorised by Firefinch. The tweet has been deleted by the contractor. The Company warns that investors should not rely on the information that was provided in the tweet regarding the funds required to rebalance in relation to Firefinch securities for their investment decision.

This announcement has been approved for release to the ASX by the Board.

Firefinch (ASX: FFX) is a Mali focussed gold miner and lithium developer. Firefinch has an 80% interest in the Morila Gold Mine (**Morila**) and it currently owns 100% of the Goulamina Lithium Project (**Goulamina**).

The Morila Gold Mine is one the world’s great open pit gold mines, having produced over 7.5Moz of gold since 2000 at grades that were among the highest in the world, earning it the moniker “Morila the Gorilla”. Firefinch acquired Morila for just US\$28.9m in late 2020 with the strategic intent to rapidly increase production; initially targeting 70-90kozpa of gold from a combination of satellite pits, stocks and tailings, and thereafter growing production to 150-200kozpa of gold by mining the Morila Superpit. Morila’s current Global Resource is 2.43 million ounces of gold (Measured: 1.73Mt at 0.5g/t gold for 0.03Moz, Indicated: 26.7Mt at 1.49g/t gold for 1.28Moz and Inferred: 22.1Mt at 1.58g/t gold for 1.12Moz). However, Morila’s geological limits have not been tested. Exploration is therefore a major focus at the existing deposits and multiple targets on the 685km<sup>2</sup> of surrounding tenure.

Goulamina is one of the world’s largest undeveloped deposits. In partnership with Ganfeng, Firefinch will bring the project into production. A 50/50 incorporated joint venture has been established, with Ganfeng contributing US\$194 million in development funding, comprising US\$130 million in equity funding and US\$40-64 million in debt funding. All permits are in place and the Definitive Feasibility Study confirmed Goulamina as a long life, large scale and low-cost open pit project expected to produce 436ktpa of spodumene concentrate at an average cash cost of US\$281/t. An initial mine life of 23 years is underpinned by a high grade, low impurity Ore Reserve of 52Mt at 1.51% Li<sub>2</sub>O for 0.79Mt contained Li<sub>2</sub>O comprising 8.1 million tonnes of Proven Ore Reserves at 1.55% Li<sub>2</sub>O and 44.0 million tonnes of Probable Ore Reserves at 1.50% Li<sub>2</sub>O. Goulamina has a Mineral Resource of 109Mt at 1.45% Li<sub>2</sub>O for 1.57Mt contained Li<sub>2</sub>O comprising 8.4 million tonnes at 1.57% Li<sub>2</sub>O in the Measured category, 56.2 million tonnes at 1.48% Li<sub>2</sub>O in the Indicated category and 43.9 million tonnes at 1.45% Li<sub>2</sub>O in the Inferred category. The Company is in the process of demerging Goulamina into a new ASX listed entity.

Firefinch is a responsible miner. We support positive social and economic change through contributing to the communities in which we operate. We seek to buy local, employ local and back local socio-economic initiatives, whilst operating in a manner that safeguards the environment and places our team’s safety and wellbeing as our first priority.

The Company confirms that it is not aware of any new information or data that materially affects the Mineral Resources at Goulamina and Morila and the production estimates for Goulamina. The Company also confirms that all material assumptions and parameters underpinning the Mineral Resource estimates and production estimates continue to apply and have not materially changed. Please refer to ASX Announcements of 8th July 2020 and 20th October 2020 (Goulamina), 8th February 2021 (Morila Resource), 7th September 2020 and 28th April 2021 (Morila Tailings), 24th November 2020 and 3rd May 2021 (N’Tiola, Viper, Domba, Koting, Morila Pit 5), and 5th May 2021, 6<sup>th</sup> July 2021 and 29<sup>th</sup> July 2021 (Morila Gold Production, Ore Reserves and Production Targets).
