

## Quarterly Activities and Cashflow Report for the Period Ended 30 September 2021

Base metals explorer Zinc of Ireland NL (ASX: ZMI) ("**ZMI**" or "**Company**") presents its Quarterly Activities and Cashflow report for the Quarter ended 30 September 2021. In Ireland, while the Company continues its watch and wait position with respect to ongoing government COVID 19 public health measures, it notes that considerable progress has been made during the quarter as vaccination rates have allowed a general re-opening of the economy. ZMI further expects that suitable conditions will allow field operations to recommence in Q1, 2022 if not before. In Australia ZMI has progressed desktop studies at its Earraheedy Zn-Pb-Ag-Mn exploration licence (application) in Western Australia. This included the appointment of a geological consultancy to conduct initial reconnaissance studies as well as the completion of a geophysical review of open source data and an associated structural review.

During the Quarter the Company announced that it had finalised its capital raising placed to Sophisticated and Professional investors and raising a total of \$1.8m (before costs). Proceeds from the capital raising are to be allocated to advancing exploration activities in both Ireland and Western Australia.

### Highlights: Earraheedy Project – Western Australia

#### Earraheedy Tenement EL 38/3624

The Earraheedy licence is located approximately 200km southeast of the RTR Chinook and Magazine Pb-Zn discoveries having been pegged by Unconformity Zinc Pty Ltd (UZ) prior to RTR taking a position in the basin (**Figure 1**).

- A review of the available open source geophysical data was completed during the quarter. This included reprocessing of magnetic, radiometric, AEM and gravity data including that collected by North Ltd in 1996.
- A subsequent structural interpretation was also completed and confirmed the presence of potential transfer faults striking NNE.
- A field crew will commence a field visit of approximately ten days duration in October. The team will be tasked with gaining familiarity with access and available infrastructure as well as carrying out reconnaissance mapping, pXRF data collection and other non-invasive exploration permissible prior to granting of the EL.

## Highlights: Rathdowney Project – Ireland

- Remaining non-Rathdowney Trend licences at Charlestown were relinquished during the quarter. This completes ZMI's consolidation of exploration assets in Ireland to a 100% focus on the Rathdowney Trend.
- Drillhole planning proposals were refined for submission in October.

## Earaheedy Project

The ZMI tenement is largely unexplored with previous operators having focused on gold within Archean greenstones adjacent to the tenement and under Proterozoic cover, especially to the west of the Licence area. A wide-spaced State geochemistry programme has returned a 181ppm Zn result (WACHEM dataset Sample ID 166818\_C1M3SD3) coincident with the Frere/Yelma unconformity (refer Figure 2).

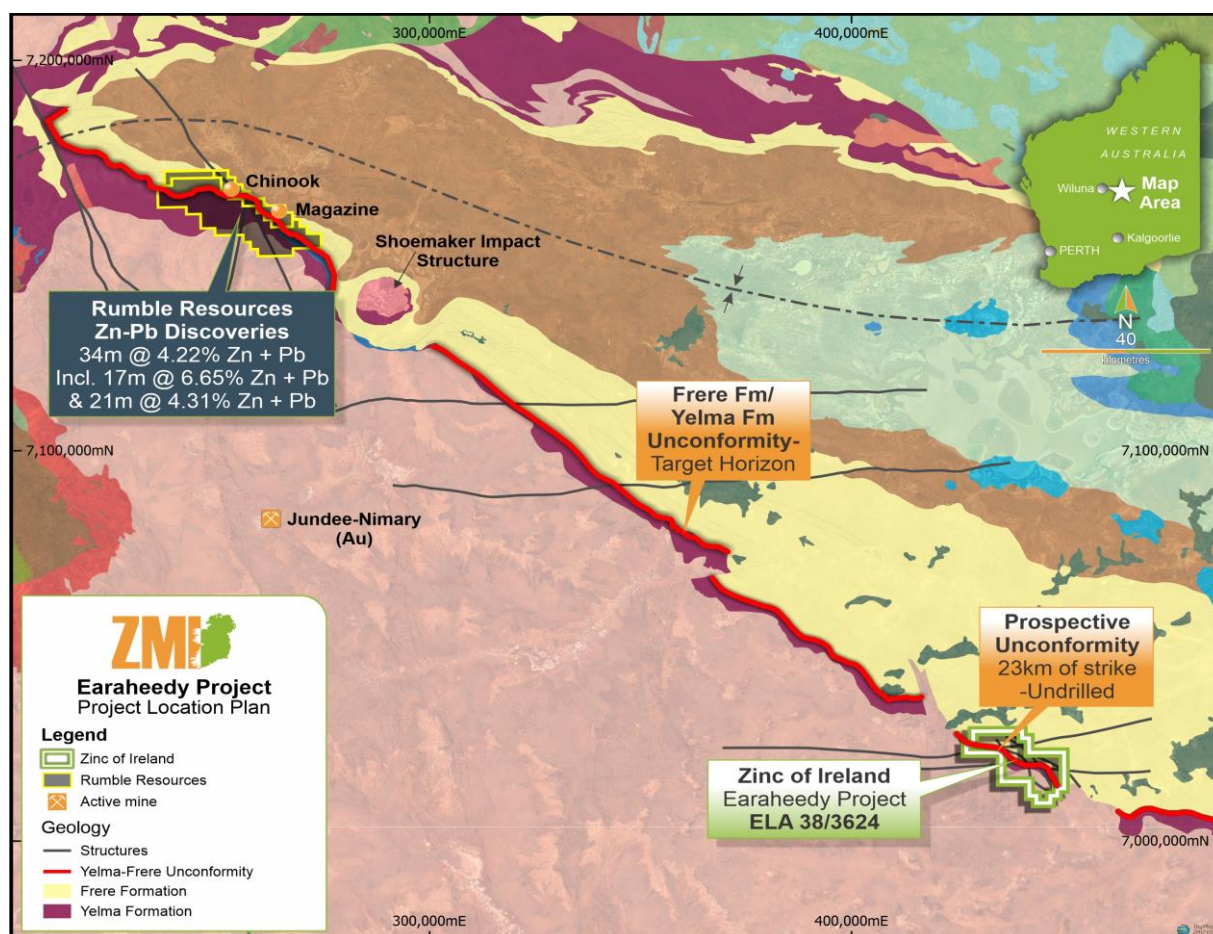

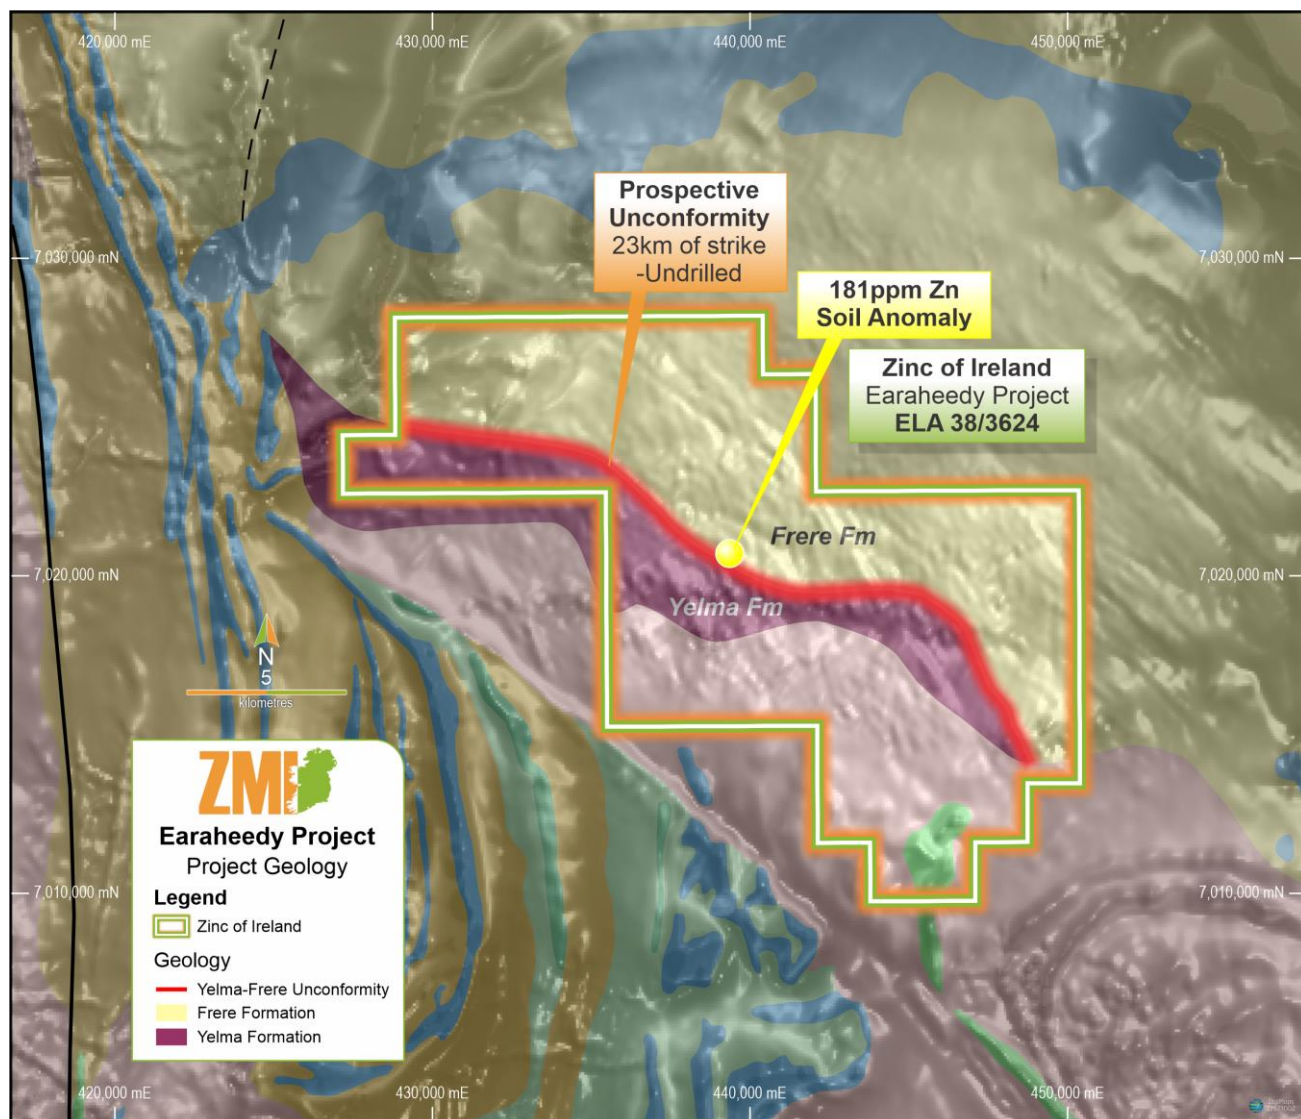

Figure 1. Zinc of Ireland acquisition with respect to unconformity contact and RTR discovery.

The licence contains approximately 23km of strike of the target unconformity between the Frere and Yelma formations. The Paleoproterozoic Frere Formation is comprised of granular iron-formation, granular siliceous iron-formation, peloidal chert, siltstone and sandstone and unconformably overlies sandstones, siltstones, shales, minor conglomerates and dolomite of the older Yelma Formation.

**Figure 2. Tenement location containing 23km of prospective unconformity striking northwest with anomalous soil sample at the contact. (WACHEM dataset, 181ppm Zn Sample ID 166818\_C1M3SD3)**

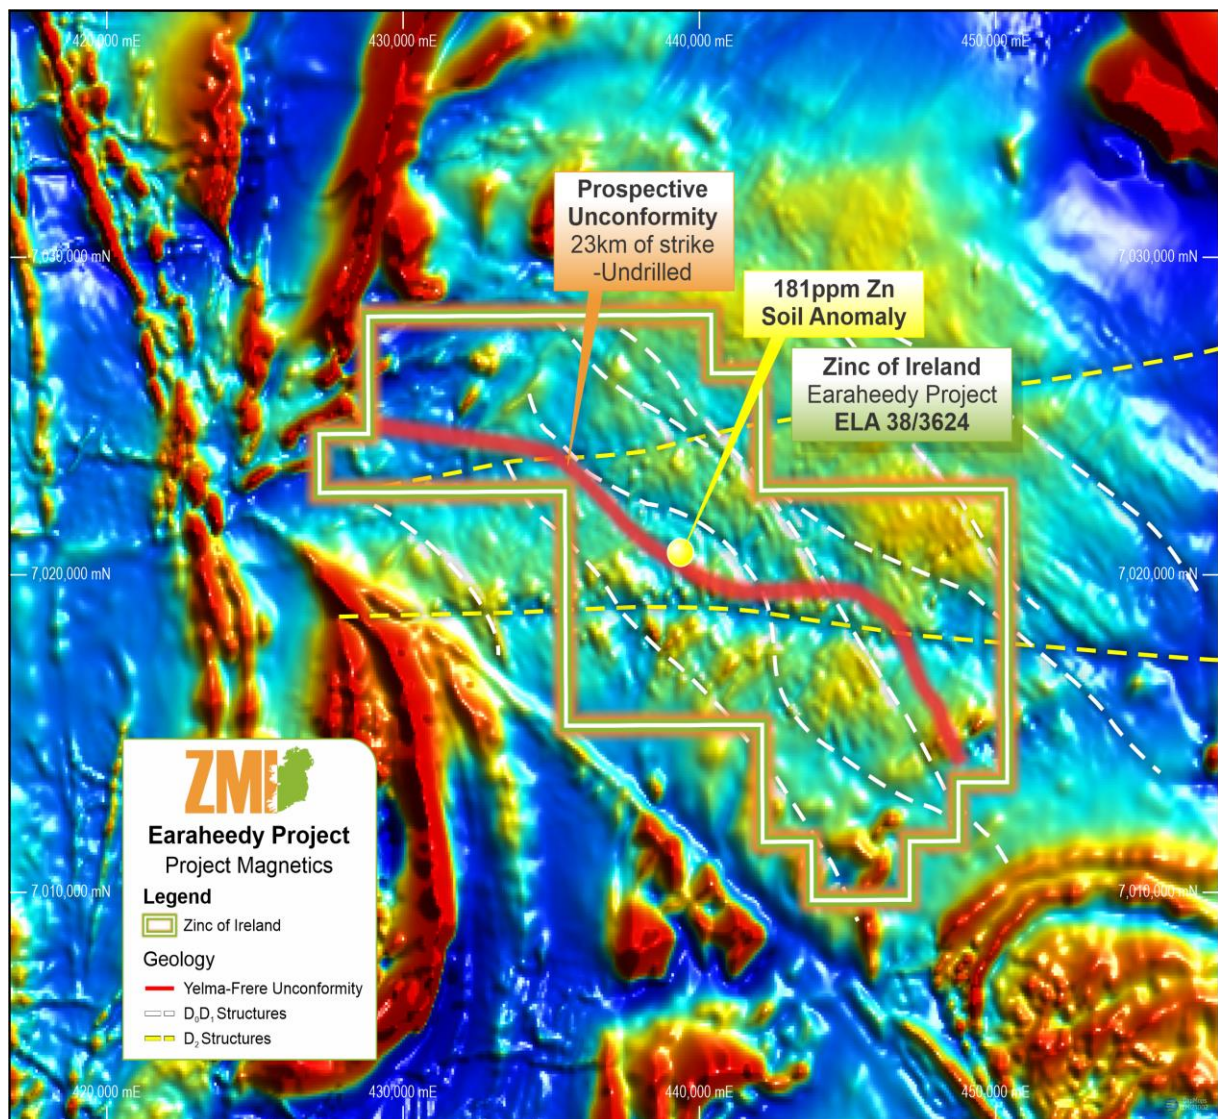

ZMI considers the EL to be prospective for sedimentary exhalative (SEDEX) zinc lead mineralization and amenable to low-cost geochemical exploration techniques along the unconformable contact.

The Zn-Pb mineralization identified at Chinook and Magazine is reported to occur as sphalerite galena and pyrite hosted within sandstone subbasins overlying the Frere/Yelma unconformity (refer BPM Minerals (ASX:BPM) announcement dated 19 May 2021).

Previous ground based exploration on the tenement appears to be negligible based on a search of open source data. Airborne magnetic and radiometric data was collected by North Ltd in 1996 (WAMEX openfile Ref: A52845) providing coverage of approximately two thirds of the tenement including all of the unconformable contact target area.

The structural regime proposed by North Ltd is also apparent in the government aeromagnetic dataset (**Figure 3**) and also has obvious similarities to that depicted on the RTR tenements where the NNW-SSE and ENE-WSW structures are readily apparent, the former appearing to bisect the tenement.

**Figure 3. Wamex Open Source Aeromagnetic data (TMI) with strongly developed structural sets.**

## **Proposed Aims of Initial Site Visit – October 2021**

The proposed work programme will be comprised of:

- Assess surficial cover and the amenability of surface geochemistry along the unconformity.
- Reconnaissance mapping to better delineate the iron rich Frere Formation's unconformable contact with the underlying Yelma Formation and to understand the project regolith and types of cover and the most appropriate geochemical sampling technique.
- Visiting the site of the anomalous surface sample recorded in WA GeoView database (181ppm Zn).
- Trial portable XRF (pXRF) lines across unconformity looking for base metals (Zn in particular).

## **Proposed Work Programme – 2022**

The proposed work programme to be carried out after granting of the EL, will be dependent on outcomes of the initial site visit but is likely to be comprised of:

- The 23km long unconformity corridor and any pXRF anomalism will be sampled and mapped in greater detail.
- Anomalous areas will be targeted with conventional soil geochemistry and/or power auger sampling as appropriate.
- Ground geophysical surveys may be carried out to follow up on or supplement areas identified by first pass mapping and sampling.
- Drill planning and permitting.

The absence of previous exploration data (with the exception of sparse broadly spaced, circa 2km by 2km, soil geochemistry) in combination with readily available open source data and the success of RTR along strike has leant itself towards, the proposed implementation of simple, cost effective exploration strategies at ZMI's Earraheedy licence.

## **Rathdowney Trend Project (Ireland)**

### **Quarterly Activity and Post Covid Work Programme**

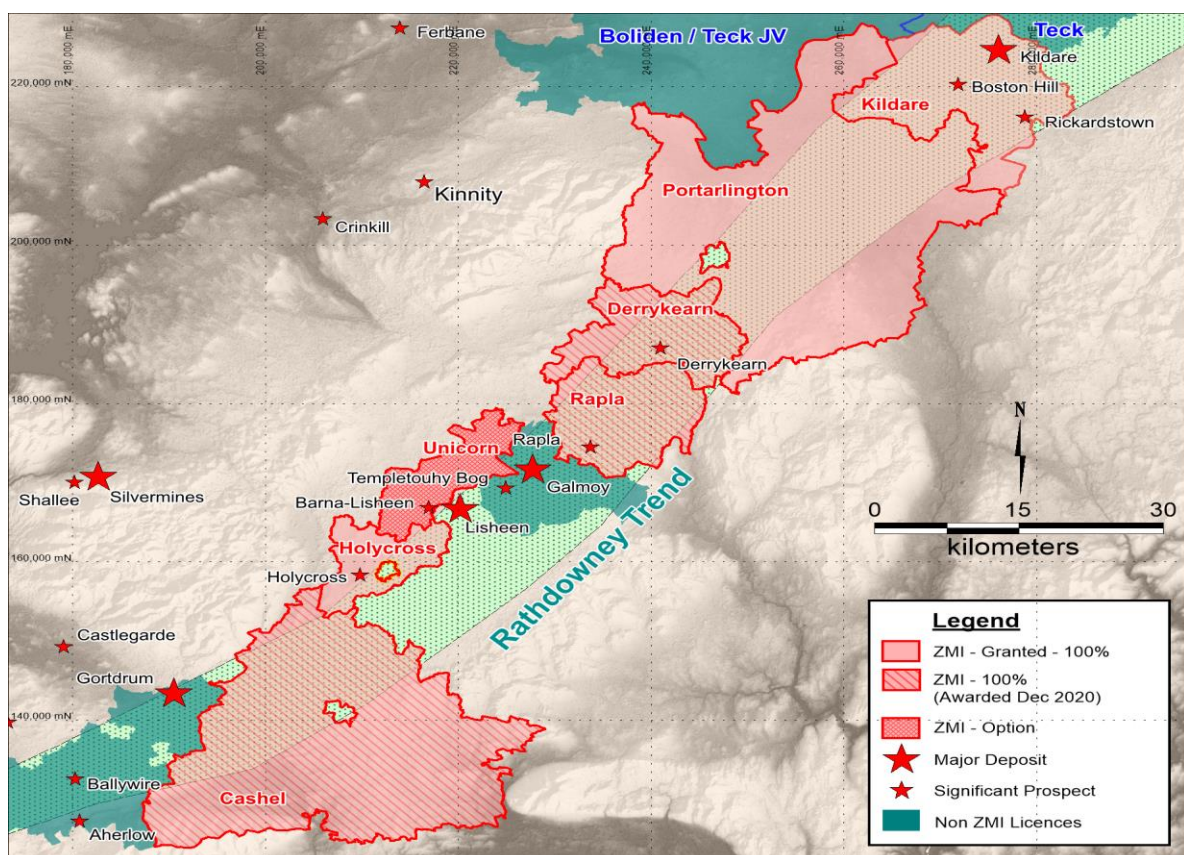

Due to the ongoing effects of the Covid 19 pandemic, exploration activity during the quarter was heavily curtailed in Ireland. ZMI continued to liaise with the Department of Environment, Climate Change and Communications (DECC) and other relevant stakeholders during the quarter to ensure that post pandemic field programmes can be implemented.

- The completion of the Placement will promote exploration on the Trend as the effects of Covid 19 subside and exploration activity becomes both possible and prudent.

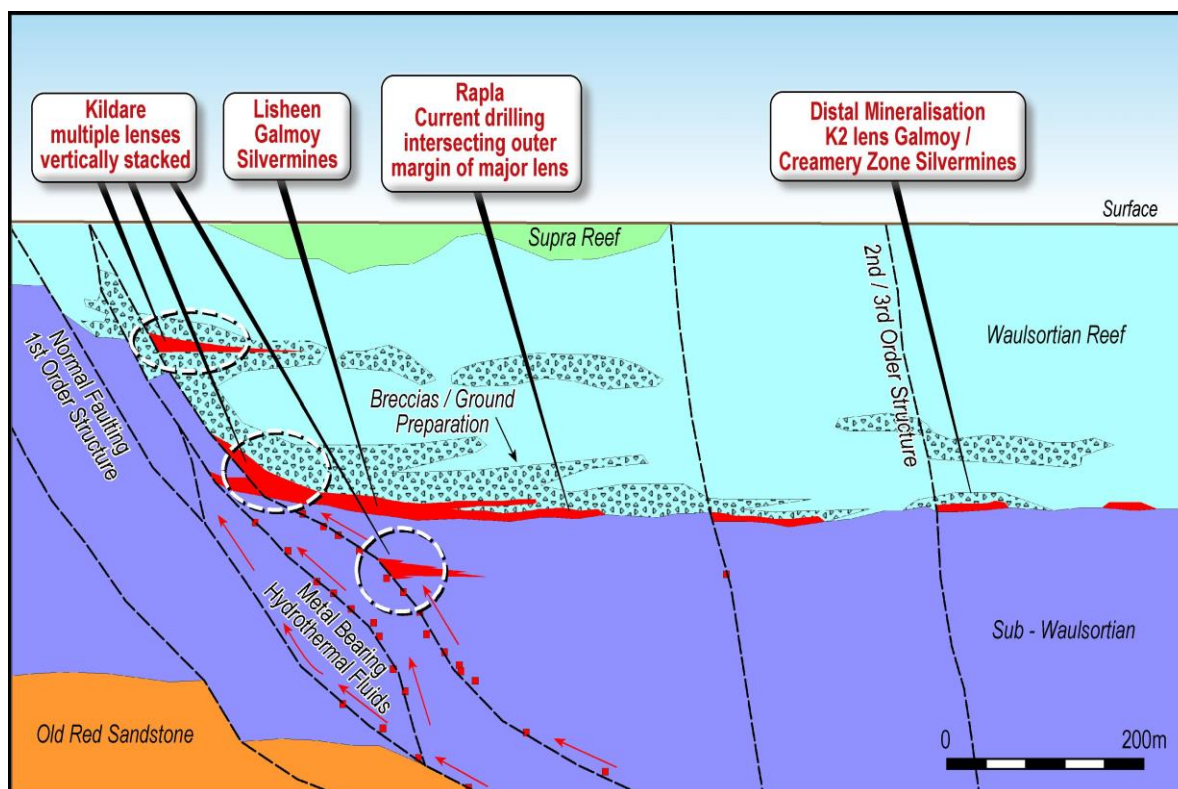

- ZMI via (Raptor Resources) now controls 67 Prospecting Licences (PL's) covering 2,500km<sup>2</sup> and 130km of strike on the Rathdowney Trend.
- The Rathdowney Trend hosts the previously mined Lisheen (22.8Mt at 14.1% Zn+Pb) and Galmoy (9.7Mt at 16.2% Zn+Pb) deposits as well as the Company's flagship Kildare deposit (11.3Mt @ 9.0% Zn + Pb) and a number of other prospects.
- An updated Inferred Mineral Resource Estimate for the Kildare Project was reported to the ASX on 8 September 2020 with resources now standing at: 11.3 Mt @ 9.0% Zn+Pb (7.8% Zn and 1.2% Pb) at a 5.0% Zn equivalent cut off.
- The Company is now in control of what is arguably one of the most prospective exploration land packages for high grade, large tonnage, Zn/Pb deposits in the world (**Figure 4**).

Quality target areas are being identified based on the mineralisation model developed by the Company (**Figure 5**) and comprehensive follow up work programmes will be designed and implemented.

**Figure 4. ZMI Licence position on the Rathdowney Trend**

**Figure 5 – Typical deposit setting; Rathdowney Trend**

## Other Matters – Corporate

The Company had cash on hand as at 30 September 2021 of approx. \$1.9m. During the quarter A\$30K was paid to related parties for Director's fees, these fees were paid on normal commercial terms.

On 30 September 2021 ZMI announced that it had completed its capital raising to Sophisticated and Professional investors and raised \$1.8m (before costs). The Company also issued 18,000,000 free attaching placement options (ex \$0.10, exp 29 Sept 2024). Funds raised will be used to advance exploration in Ireland and Western Australian and for general working capital purposes.

During the quarter the Company advised that the following Options had expired unexercised.

Security Code	Name	Quantity
ZMIAA (OPT6)	Class "A" Unlisted Director Options (ex \$0.30, Exp 11 July 2021)	1,250,000
ZMIAA (OPT7)	Class "B" Unlisted Director Options (ex \$0.40, Exp 11 July 2021)	1,250,000
ZMIOC	Listed Options (ex \$0.30, Exp 21 July 2021)	52,877,901
ZMIAA (OPT3)	Unlisted Options (ex \$0.80, Exp 21 July 2021)	16,316,682
ZMIAA (OPT5)	Unlisted Options (ex \$1.20, Exp 30 Sept 2021)	350,000

On 3 September 2021 the Company held a General Meeting of Shareholders and reported on that date that all resolutions put to the meeting were decided by poll with all resolutions being passed. On 6 October 2021 the Company advised Shareholders that it will conduct its Annual General Meeting on Friday, 19 November 2021, further details can be found on the ASX platform and on the Company's website <http://www.zincofireland.com.au/investors/asx-announcement-archive/>.

Richard Monti and Thomas Corr continue to take their director fees in ZMI securities in lieu of cash on a 50% and 100% basis respectively, this has been ongoing since May 2020.

The Board of Directors of Zinc of Ireland NL have authorised this announcement for release to the market.

Yours faithfully,

**Richard Monti**

Non-Executive Chairman  
Zinc of Ireland NL

**Competent Persons' Statements**

*The information in this report that relates to exploration results is based on information compiled by Mr. Greg Hope, a Competent Person who is a member of the Australian Institute of Geoscientists (AIG) Mr. Hope has sufficient experience, which is relevant to the style of mineralisation and types of deposits under consideration and to the activity which has been undertaken to qualify as a Competent Person as defined in the 2012 edition of the Australasian Code for Reporting of Exploration Results, Mineral resources and Ore Reserves (JORC Code). Mr. Hope consents to the inclusion in this announcement of the matters based on his information in the form and context in which it appears.*

*The information in this report that relates to the Mineral Resources at ZMI's Kildare Project is extracted from the report entitled (Increase in JORC Resource and Completion of Mining Study at the Kildare Zn/Pb Project Co. Kildare, Ireland) created on 8 September 2020 and is available to view on the ASX Platform in the Company announcements section. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.*

**Disclaimer**

*Certain statements contained in this announcement, including information as to the future financial or operating performance of ZMI and its projects, are forward-looking statements that:*

- may include, among other things, statements regarding targets, estimates and assumptions in respect of mineral reserves and mineral resources and anticipated grades and recovery rates, production and prices, recovery costs and results, capital expenditures, and are or may be based on assumptions and estimates related to future technical, economic, market, political, social and other conditions;
- are necessarily based upon a number of estimates and assumptions that, while considered reasonable by ZMI, are inherently subject to significant technical, business, economic, competitive, political and social uncertainties and contingencies; and,
- involve known and unknown risks and uncertainties that could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward-looking statements.

5.3	Bank overdrafts	-	-
5.4	Other (provide details)	-	-
<b>5.5</b>	<b>Cash and cash equivalents at end of quarter (should equal item 4.6 above)</b>	<b>1,881</b>	<b>470</b>

<b>6.</b>	<b>Payments to related parties of the entity and their associates</b>	<b>Current quarter \$A'000</b>
6.1	Aggregate amount of payments to related parties and their associates included in item 1	30*
6.2	Aggregate amount of payments to related parties and their associates included in item 2	-
<i>Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.</i>		

“\*” Directors fees paid on normal commercial terms.

<b>7.</b>	<b>Financing facilities</b> <i>Note: the term "facility" includes all forms of financing arrangements available to the entity.</i> <i>Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	<b>Total facility amount at quarter end \$A'000</b>	<b>Amount drawn at quarter end \$A'000</b>
7.1	Loan facilities	-	-
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	<b>Total financing facilities</b>	-	-
7.5	<b>Unused financing facilities available at quarter end</b>		
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

<b>8.</b>	<b>Estimated cash available for future operating activities</b>	<b>\$A'000</b>
8.1	Net cash from / (used in) operating activities (item 1.9)	(154)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(54)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(208)
8.4	Cash and cash equivalents at quarter end (item 4.6)	1,881
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	1,881
8.7	<b>Estimated quarters of funding available (item 8.6 divided by item 8.3)</b>	<b>9.04</b>
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>		
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: Not applicable		
8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: Not applicable		
8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer: Not applicable		
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>		

## Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Jerry Monzu (Company Secretary)

Date: 28 October 2021

The Board of Directors of Zinc of Ireland NL have authorised this announcement for release to the market.

## Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – e.g. Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
