

September 2021 Quarterly Activities Report

Highlights

- **Execution of Strategic Partnership Agreement and MOU with MCC-CIE**
- **Receipt of strong local community support for the Minim Martap Project**
- **Successful \$6.2 million placement to institutional and sophisticated investors to advance Minim Martap Project**

Canyon Resources Limited (ASX:CAY) (Canyon or Company) is pleased to report on activities at its projects including its 100%-owned Minim Martap bauxite project (Project) in Cameroon, for the quarter ended 30 September 2021.

The September quarter focussed on progressing matters in relation to the receipt of a Mining Permit for the world class Minim Martap Bauxite Project in Cameroon, including the firming up of the Company's balance sheet to progress further work. Pleasingly for the Company, there remains strong support for the Project at both the Cameroonian Government and local stakeholder level.

Execution of Strategic Partnership Agreement and MOU with MCC

On 26 August 2021, the Company announced that it had entered into a Strategic Partnership Agreement and MOU with Zhongye Changtian International Engineering Corporation of MCC (MCC-CIE), the mining engineering division of global mining giant Metallurgical Corporation of China (MCC). The agreement follows the awarding of the bankable feasibility study (BFS) contract for the development of Stage 1 of the Project to MCC-CIE in December 2020.

The Strategic Partnership Agreement and MOU states that "In accordance with good cooperation between the parties during the BFS, Canyon and MCC-CIE shall commence a Comprehensive Strategic Partnership. MCC-CIE, as the Strategic Partner, would offer necessary assistance to Canyon in facilitating the off-taking and financing for the Project in China. MCC will also provide all necessary support to assist Canyon in technical, business off-taking and financial related issues, etc."

Post the signing of the Strategic Partnership and MOU, MCC representatives alongside the Canyon team, including Managing Director, Phil Gallagher met with officials from the Government of Cameroon to present the merits of the Strategic Partnership, with feedback received thus far being very positive.

Key details of the MOU and Strategic Partnership Agreement are:

- The parties have commenced a Comprehensive Strategic Partnership and will immediately hold regular meetings to promote the financing and execution of the Project.
- MCC-CIE will provide Canyon with all necessary support within its capacity to assist Canyon in technical, business, off-taking and financing related issues.
- The Strategic Partnership Agreement and MOU remains in force until 31 December 2022 unless extended.

September 2021 Quarterly Activities Report

- The parties agree to reach a more comprehensive legally binding agreement for the implementation of the Project to replace the non-binding relationship established through the MOU and Strategic Partnership Agreement.

About MCC

MCC-CIE is a member of the China Minmetals Corporation, and a subsidiary of Metallurgical Corporation of China (MCC). China Minmetals ranks 65th among the Fortune Global 500 companies with revenue of US\$102 billion, and is a world-class metal and mining corporation. MCC is the world's largest metallurgical and mining construction contractor and operation service provider, ranking 8th among Engineering News Record's (ENR) Top 250 Global Contractors. MCC has the capacity, knowledge, experience, and skills to undertake various projects all over the world including, mining, roads, bridges, water treatment, power plants, iron and steel plants, cement plants, etc.

Minmetals is engaged in the production and trading of metals and minerals, including bauxite, alumina, aluminium, copper, tungsten, tin, antimony, lead, zinc, and nickel. Minmetals is a joint venture partner for the mining and processing of bauxite in Jamaica and has interests in aluminium production in China.

Canyon receives strong community support of the Minim Martap Project

On 30 August 2021, the Company announced that it had received letters of support from the traditional leaders and elders of the region local to the Project. This included the Governor of the Adamaoua Region, Lamido of Ngaoundere, Sous-Prefet of Martap and Chiefs of the villages of Haleo, Makor, Minim and Martap.

This written recognition of support for and acknowledgement of the significance of the Project to the local communities indicates Canyon's strong social licence to operate and develop the Project. This is significant for the Company and demonstrates the positive impact Canyon continues to have with local communities and key stakeholders, confirming an overwhelming support for development of the Project.

Successful \$6.2 million placement

In August 2021 Canyon announced a successful placement of 77,257,157 new shares to institutional and sophisticated investors at \$0.08 per share to raise approximately \$6.2 million (before costs). This included a pro-rata participation in the Placement by the Company's major shareholder, Mr Peter Su.

Funds from the Placement will be used for:

- delivery of the Minim Martap Project Feasibility Study and other Project deliverables;
- advancing strategic Project and off-take discussions; and
- corporate overheads and general working capital.

Exploration Activities

During the June quarter the Company undertook grade-definition drilling, bulk sampling, chemical testwork and metallurgical testing with an associated cash outflow of approximately \$1.354 million as disclosed in the Appendix 5B dated-29 October 2021.

Corporate

During the period, a General Meeting of Shareholders was held to ratify the issue of shares under the Placement and approve the issue of Shares to Mr Peter Su (a Related Party of the Company).

Payments to Related Parties

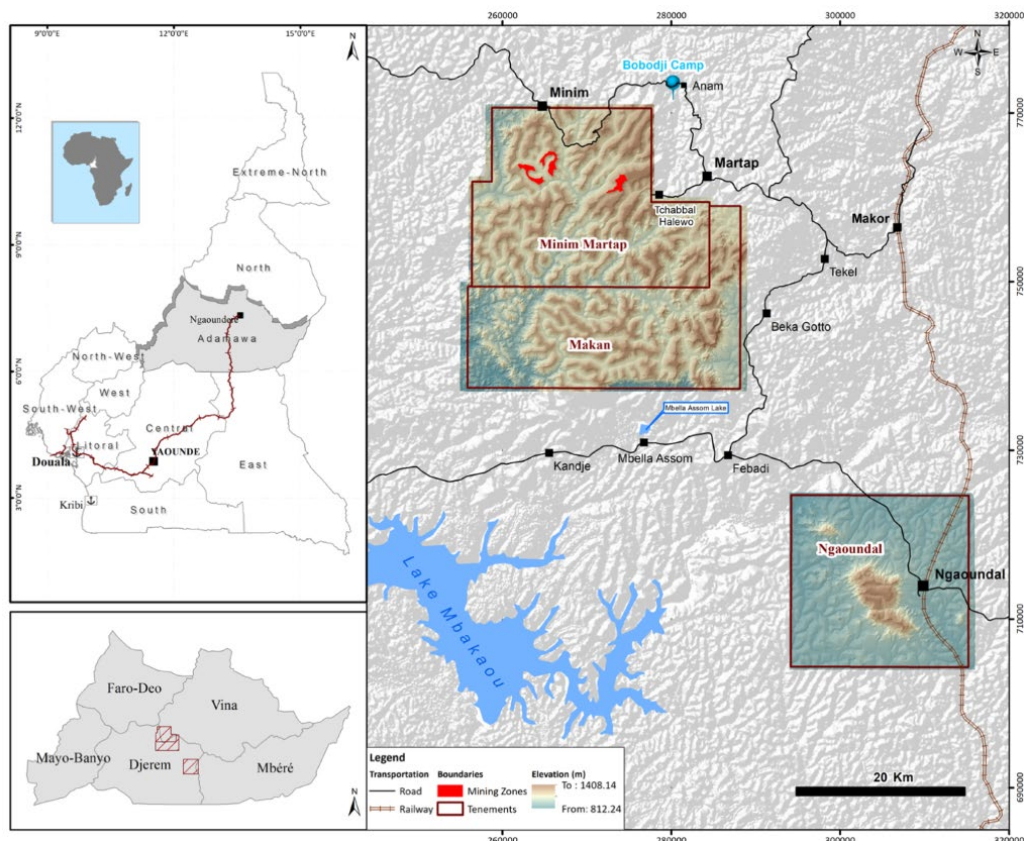

Payments totalling approximately \$257k were made to related parties of the Company during the quarter ended 30 September 2021, as shown in the Appendix 5B dated 29 October 2021. These payments related to executive director salaries and non-executive directors' fees.

About Canyon Resources

Summary

Canyon Resources is focussed on the development of the 100% owned Minim-Martap Bauxite Project, a direct shipping ore (DSO) project development opportunity in central Cameroon. The Project is situated adjacent to the main rail line linking the region to the Atlantic port of Douala. The rail line is currently underutilised and coupled with the existing port of Douala, supports a low capex, low opex solution to deliver high grade, low contaminant, seaborne bauxite to market to fuel the large and growing aluminium industry as described in the 2020 Pre-Feasibility Study. The country is planning a rail extension and is undergoing rail line debottlenecking upgrades, giving longer term potential for export through the newly built, deep-water port of Kribi.

Canyon is planning the development of the bauxite Project in a 2 Stage, 2 Port execution programme with initial production exported through the port of Douala utilising the existing rail and port infrastructure and Stage 2 unlocking tonnes and reducing costs by utilising the planned rail extension to access the deep-water port of Kribi.

Pre-Feasibility Study

The Company’s previously released Stage 1 Pre-Feasibility Study demonstrated the Minim Martap Bauxite Project’s potential as a long-term producer of very high quality, low contaminant bauxite via a multi-stage development program utilising existing infrastructure in Cameroon. Canyon is advancing strategic partnership and off-take agreement discussions with interested parties to accelerate the Project development timeline. The headline economic outcomes of the Pre-Feasibility Study are as follows:

Minim Martap Project ¹	Units	Stage 1
Annual Production Rate	Mtpa	5.0
Project Development Capital	US\$M	120
Average Operating Cost C1	US\$/t	35.1
Project NPV ₁₀	US\$M	291
Project IRR	%	37
Capital Intensity	US\$/t	24

Resources and Reserves

The Project is validated by the **Ore Reserve estimate**, (ASX announcement 25 May 2021), prepared by a Competent Person, in accordance with the JORC Code (2012) and is presented as:
