MT DIMER DRILLING UNDERWAY

RC DRILLING AT MULTIPLE DEPOSITS AND PROSPECTS

Aurumin Limited (ASX: AUN) ("Aurumin" or "the Company") is pleased to announce that **drilling has commenced** at its 100% owned **Mt Dimer Project**. Located 120km north-east of Southern Cross in Western Australia, Mt Dimer is a historical high-grade production centre, having produced over 125,000 ounces of gold, including open pit and underground production of 600,000 tonnes @ 6.4 g/t Au.

In line with previously released ASX announcement dated 05/10/2021, between 2,500m and 3,000m of drilling is expected to be completed in the current programme.

Drilling will build on the previous successful Aurumin drilling at existing deposits (Lightning, Frodo and LO3) and will follow up the newly identified mineralised structures at T6 (Frodo North) and T12.

Drilling at Lightning aims to extend mineralisation further north into the ultramafic, following the high-grade intersection, **4m @ 48.69g/t Au**, from the July drill programme (refer ASX announcement 01/09/2021).

The Company expects this drilling programme to take around three weeks.

Competent Person Statement

The information in this announcement that relates to exploration results, data quality, geological interpretations for the Mt Dimer Project is based on information compiled by Peter Aldridge, a Competent Person who is a Member of the Australian Institute of Geoscientists and a full-time employee of Aurumin Limited. Mr Aldridge has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Aldridge consents to the inclusion in this announcement of the matters based on this information in the form and context in which it appears.

About Aurumin Limited

Aurumin Limited is an Australian company, listed on the ASX in December 2020, as a mineral exploration company. The Company has four gold projects including two historical high-grade production centres, Mt Dimer and Mt Palmer:

- Mt Dimer – Over 125,000 ounces of gold produced, including open pit and underground production of approximately 600,000 tonnes @ 6.4 g/t, and a substantial tenure footprint.
- Mt Palmer – Historical open pit and underground production for approximately 158,000 ounces of gold at an average grade of 15.9 g/t.

The Company is actively exploring its tenements and will pursue further acquisitions which complement its existing focus and create additional Shareholder value.
