Annual General Meeting of Shareholders

November 2021
CEO – Matt Macfarlane
ASX:ICE

Regulatory and legal

icetana Limited ACN 140 449 725 (the Company) is the issuer of this presentation.

Forward-looking statements

This presentation contains forward-looking statements. Those forward-looking statements reflect views held only as at the date of this presentation. Any such statement is subject to inherent risks and uncertainties. Actual events or results may differ materially from the events or results expressed or implied in any forward-looking statement, and such deviations are both normal and to be expected. Recipients must make their own assessment about the likelihood of a matter, about which a forward looking statement is made, occurring. The Company makes no representation about the likelihood of a matter, about which a forward-looking statement is made, occurring. The Company and its directors, employees, agents, advisers and consultants: give no representation or warranty to a recipient of this presentation as to the accuracy or completeness of the statements contained in this presentation or in relation to any other matter; and to the fullest extent permitted by law, disclaim responsibility for and have no liability to a recipient of this presentation for any error or omission in or for any statement in this presentation.

Reliance on presentation

A recipient of this presentation must make their own assessment of the matters contained herein and rely on their own investigations and judgment in making an investment in the Company. This presentation does not purport to contain all of the information required to make an informed decision whether to invest in the Company. Specifically, this presentation does not purport to contain all the information that investors and their professional advisers would reasonably require to make an informed assessment of the Company's assets and liabilities, financial position and performance, profits, losses and prospects.

Not a recommendation or financial advice

The information in this presentation is not a recommendation to subscribe for securities in the Company and does not constitute financial advice. Any person who intends to subscribe for securities must conduct their own investigations, assessment and analysis of the Company and its operations and prospects and must base their investment decision solely on those investigations and that assessment and analysis. Prospective investors should consult their own legal, accounting and financial advisers about an investment in the Company.

WAVES OF CHANGE ALIGNING

Camera surveillance booming

AI hardware and software technology advancing

Outsourced guarding services

 **icetana**

unique & differentiated
motion-intelligence
product delivered by an
experienced motivated
team

MOTION INTELLIGENCE

- ➔ icetana uses AI to improve surveillance operations
- ➔ System self learns 'normal' movement
- ➔ Reports **abnormal movement in real-time** – we call this “**motion intelligence**”
- ➔ Complements existing video management systems to remove noise and **increase efficiency** for operators

1 BILLION SURVEILLANCE CAMERAS

Global installed base (millions)*

Monitoring cameras @30 per person would require more than 33 million people.

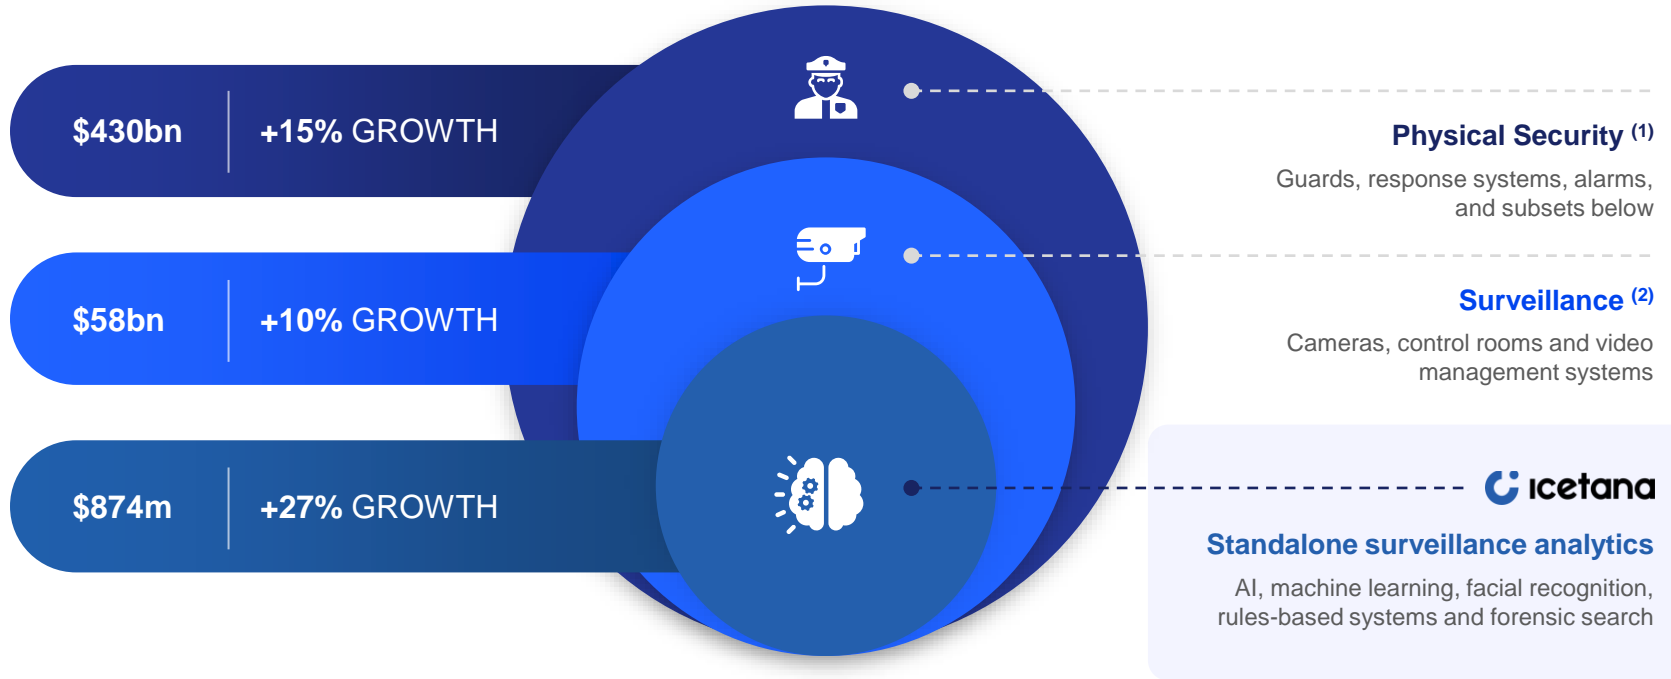

AI is the only way real-time events can be effectively tracked on the vast number of cameras used by today's organisations.

Motion intelligence is a natural first step into real-time monitoring.

access

For Guarding Services customers

Security operators move
from 30 cameras to 250
cameras with icetana

icetana finds unpredictable
events – competitors look
for specific events.

A single risk event detected in
real-time can support an entire
year of icetana licensing.

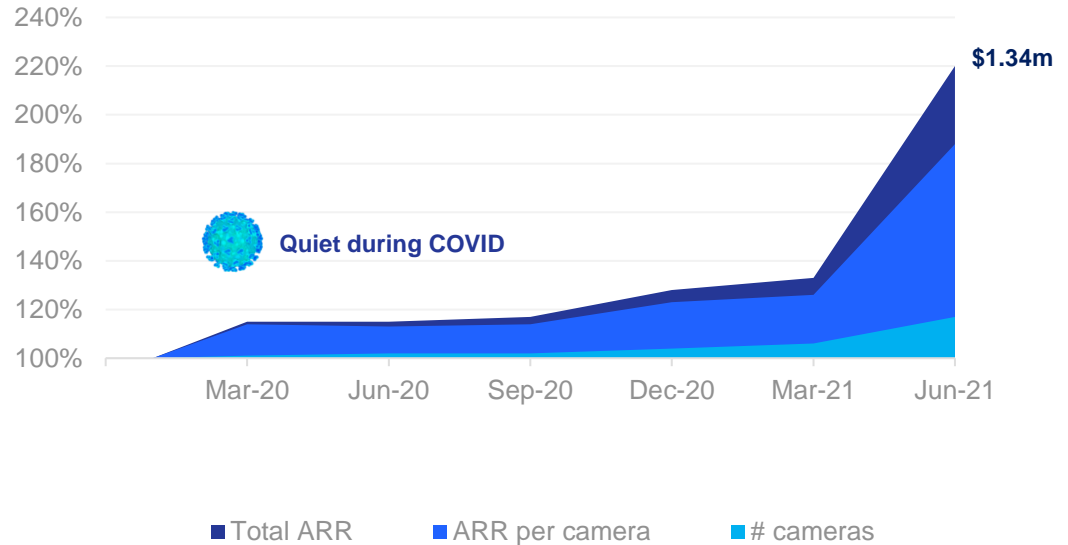

Our clients have told us:
100 icetana cameras = 1 less guard providing
a **\$35,000 p/a net saving** for every 100 cameras connected

NEW CAMERAS BRING HIGHER ARR

Increase in both camera count and average ARR

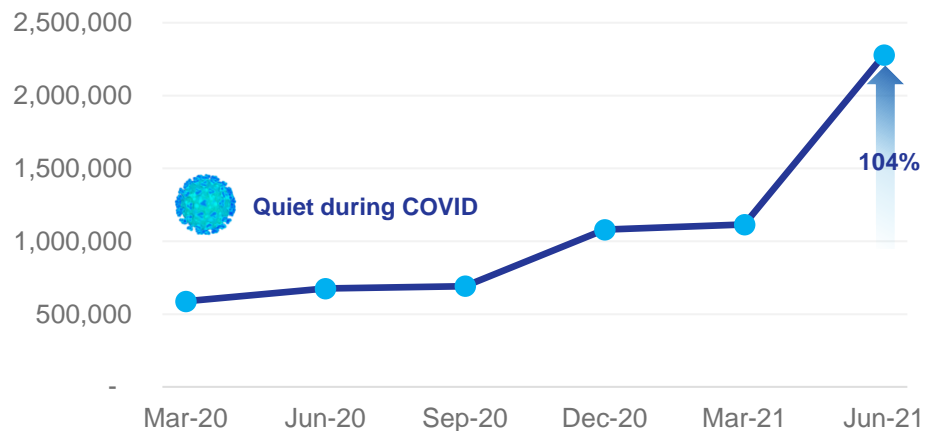

- ➡ Strong rebound as markets re-open from COVID
- ➡ Leads are re-engaging and our installation pace has picked up
- ➡ Recurring revenue growth anticipated through calendar 2022
- ➡ New cameras are bringing higher average which compounds to drive total ARR

Camera and ARR acceleration

PIPELINE GROWING

Pipeline additions A\$

Pipeline is accelerating post-COVID

\$2.3m

of new deals added to the pipeline in June quarter

The Company cautions that it is not party to any binding agreements with respect to proposals in the pipeline. There can be no certainty that any binding agreements will be reached. The Company will make further announcements in the event that binding agreements are executed in accordance with its continuous disclosure obligations.

Bahrain shopping mall
Faster response saved
\$10s of 000's

Unsafe work practice

Staff were provided
training
Future risk reduced

Unauthorised access

Over \$2m saved in graffiti removal costs

Protest tracked

Campus safety strengthened by real-time crowd tracking

Workplace threats

Staff counselled and escalation averted

GUARDING SERVICES ENGAGEMENT

Zennikkei

Japan's 3rd largest guarding company

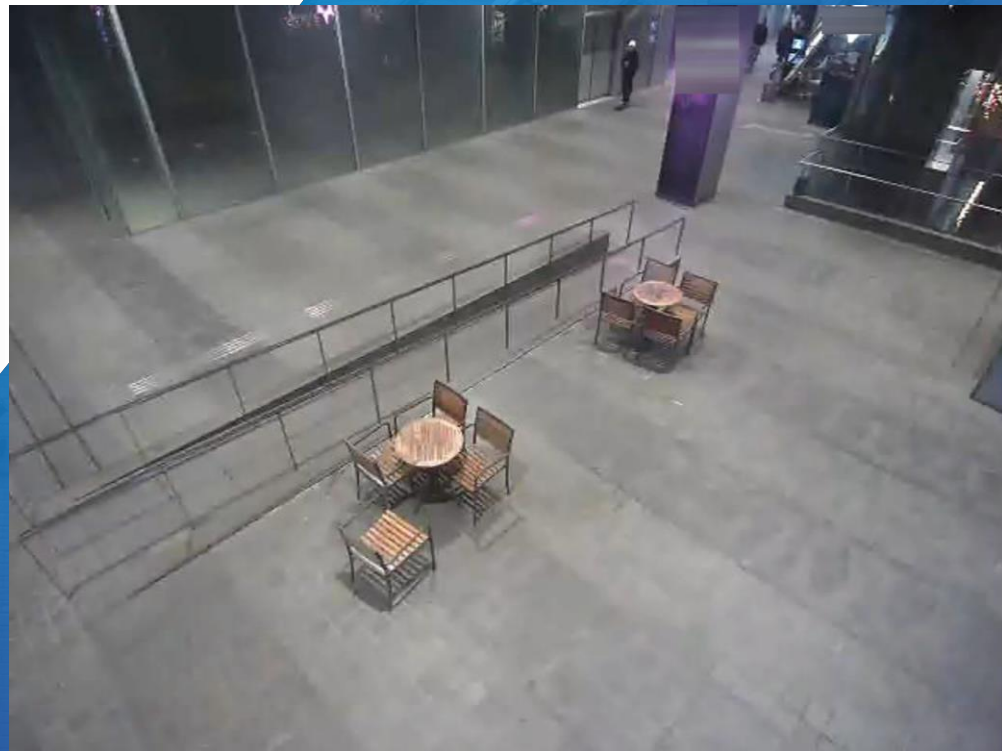

"After an extensive period of testing icetana in the Japanese market, we found it extremely useful in complementing our guarding services offering.

In particular, icetana's auto-learning function unleashes clients from complex decision-making requirements for security rules setting.

This removes the "defining-evaluating-adaptation" process required for alternative rules-based AI products and allows the security function to focus on the complex risks that exist in the real-world environment.

icetana's ability to detect a broad range of unusual activities in real-time means that Zennikkei is able to provide a highly responsive combined CCTV monitoring and guarding offering to our corporate customers."

Zennikkei Co. Ltd, Tatsuro Yamazaki, R & D Senior Manager
