### **About Nanoveu Limited**

We are technology innovators who specialize in modern, cutting-edge nanotechnology that improve the way we live, from reducing contagious transmissions on high touch points to immersive vision-based entertainment. <https://www.nanoveu.com/>

**Nanoshield** - is a film which uses a patented polymer of Cuprous embedded film to self-disinfect surfaces. Nanoshield antiviral protection which is available in a variety of shapes and forms, from mobile screen covers, to mobile phone cases and as a PVC commercial film, capable of being applied to a number of surfaces such as doorhandles and push panels. The perfectly clear plastic film contains a layer of charged copper nanoparticles which have antiviral and antimicrobial properties. This technology is also being applied to fabric applications targeting use in the personal protective equipment sector.

**EyeFly3D** - is a film applied to digital displays that allowed users to experience 3D without the need for glasses on everyday mobile handheld devices.

**Customskins** - are vending machines capable of precisely applying screen covers to mobile phones with an alignment accuracy of 150 microns.

**EyeFyx** - currently in research and development stage, EyeFyx is a vision correction solution using hardware and software to manipulate screen output addressing long-sightedness without the need to wear reading glasses.

# FLAGSHIP DIRECT CUSTOMER

## Providing Validation from a Tier-1 Global Company

- From June 2020, Nestlé Research undertook thorough performance evaluation of Nanoshield in their Switzerland laboratories, with peer reviewed findings published in science journals in May 2021
- Nanoveu continues to have Nestlé Professional as a Nanoshield direct customer, with orders from regional divisions including Greece, Australia, Singapore, Dubai, Turkey, Switzerland and Austria
  - Nescafé touch screens
  - We Proudly Serve Starbucks® machine screens

Nestlé Professional, the global leader in out of home branded hot and cold beverage and food solutions, is deploying anti-viral and anti-bacterial self-disinfecting screen protectors for its out of home coffee machines.

With the COVID-19 pandemic, consumers are looking for more reassurance on safety and hygiene when they have a coffee on-the-go, at work or a convenience store.

In an effort to provide solutions adapted to the current sanitary situation, Nestlé Professional teamed up with Nanoveu, a leading technology research company to customize its Nanoshield™ anti-viral and anti-bacterial screen protector for Nestlé Professional's *Nescafé* and *We Proudly Serve Starbucks®* coffee machines.

Nestlé Professional place ongoing orders which are not individually material.

# NANOSHIELD™ FOR ARMAGUARD

## Providing Antiviral Protection

- Nanoveu's Australian distributor High Touch is helping keep Australians safe with a range of Nanoshield films.
- High Touch's agreement for Nanoshield antiviral surface protection for Armaguard's extensive network of ATMs, self service cash dispensers and kiosks, vending machines, parking and ticketing dispensers, covers every Australian metropolitan center.
- Armaguard Group is a leader in secure supply chain and technology solutions across Australia, New Zealand and Southeast Asia.

**"Armaguard has a proud history of protecting Australian communities. Partnering with (Nanoshield) High Guard enables us to continue keeping our customers, their employees, and communities safe, and now we can help keep them healthy as well,"**

- Scott Forster, Executive GM, Group Transformation & International, Linfox Armaguard.
