# ENTITLEMENT OFFER SUCCESSFULLY COMPLETED

Alchemy Resources Limited (ASX: ALY) (Company) is pleased to advise that the pro rata non-renounceable 1 for 6 entitlement offer (the Offer) announced on 11 October 2021 has been strongly supported and closed oversubscribed, and has now been completed raising a total of \$1,232,446 (before costs). Applications received comprised the following:

Issue Category	Shares	Funds
Entitlement acceptances	48,947,444	\$ 538,423
Shortfall applications	101,000,829	\$1,111,010
Total acceptances and shortfall applications	149,948,273	\$1,649,432
<b>Acceptances and shortfall applications accepted</b>	<b>112,040,575</b>	<b>\$1,232,446</b>

The acceptances and shortfall applications received represent a 34% oversubscription to the Offer. This follows the successful placement to sophisticated investors announced on 11 October 2021, which raised \$1.85 million (before costs). In total, \$3.08 million (before costs) was raised through the Offer and placement.

The Company expects that the new securities will be allotted and all holding statements dispatched to Shareholders on 22 November 2021 together with the refund of any excess shortfall application monies.

The funds raised under the Offer are intended to be used to fund:

- Diamond (DD), reverse circulation (RC) and air core (AC) drill programs at the Karonie Gold Project in Western Australia to follow up resource extension opportunities and identified high priority regional targets;
- AC drilling, geochemical and targeted geophysical campaign at the Lake Rebecca Gold Project in Western Australia, to refine and target significant gold anomalies;
- DD and RC drilling at the Overflow and Yellow Mountain Gold / Base Metals Projects in the Cobar Basin in New South Wales to test for extensions to existing mineralisation; and
- Corporate costs and general working capital requirements.

*Chief Executive Officer Mr James Wilson commented:*

“The Company would like to thank all existing and new Shareholders who participated in the Offer and the recent placement for their support. The Company is now well-funded to pursue its exploration activities, and we look forward to providing an update in the near future.”
