## 5 PURPOSE AND EFFECT OF THE OFFER

### 5.1 Introduction

The Company is seeking to raise up to approximately \$1.46 million before issue costs under the Offer at a price of \$0.03 per Share on the basis of 1 New Share for every 5 existing Shares held as at the Record Date, with 1 New Option (exercisable for \$0.10 and expiring 2 years from issue) for every 2 New Share issued.

Shareholders may, in addition to their Entitlement apply for Shortfall Shares.

The Offer is fully underwritten by Mahe Capital Pty Limited.

### 5.2 Purpose of the Offer

The Company intends to use the funds received to complete its current drilling programs and expand upon its exploration programs at its Chilean copper/gold projects.

The Directors intend to apply the proceeds from the Offer as follows:

Use of funds	Underwritten Amount
Exploration	1,000,000
Working Capital	341,150
Costs of the Offer	125,488
<b>Total</b>	<b>\$1,466,638</b>

#### Notes:

- 1 This table is a statement of the proposed application of the funds raised as at the date of this Prospectus. As with any budget, intervening events and new circumstances have the potential to affect the Company's decisions. The Company reserves the right to vary the way funds are applied.
- 2 General working capital is for corporate administration and operating costs (including directors' fees, ASX and share registry fees, legal, tax and audit fees, insurance and travel costs).
- 3 See section 10.5 for further details relating to the estimated expenses of the Offer.

### 5.3 Statement of financial position

Set out in section 13 is the unaudited Statement of Financial Position of the Company and the Pro-Forma Statement of Financial Position, as at 31 December 2021 and on the basis of the following assumptions:

- (a) the Offer was effective on 31 December 2021;
- (b) no further Shares are issued other than all Shares offered under this Prospectus;
- (c) take up of the Offer assuming Full Subscription is received; and
- (d) costs of the Offer are \$125,488.

The pro-forma Statement of Financial Position has been prepared to provide investors with information on the assets and liabilities of the Company and pro-forma assets and liabilities of the Company set out in section 13. The pro-forma financial information is unaudited presented in an abbreviated form, insofar as it does not include all of the disclosures required by Australian Accounting Standards applicable to annual financial statements.

#### 5.4 Effect of the Offer on the Company's securities

Assuming that no further Shares are issued prior to the Record Date, at the close of the Offer the capital structure of the Company will be:

Shares	Underwritten Amount	
	Number	%
Existing Shares	244,439,757	83.33
New Shares offered under this Prospectus	48,887,951	16.67
<b>Total Shares</b>	<b>293,327,708</b>	<b>100.0</b>

Assuming that no further Options are issued prior to the Record Date, at the close of the Offer, the number of Options on issue will be:

Convertible securities	Underwritten Amount	
	Number	%
Existing Performance Rights and Options (ESOP)	10,400,000	29.85
Options to be offered under the Offer	24,443,975	70.15
<b>Total Options</b>	<b>34,843,975</b>	<b>100</b>

#### 5.5 Effect on control

There will be no effect on control of the Company if all Shareholders take up their Entitlement.

##### (a) Underwriter

As detailed in section 8.4 of this Prospectus, the Underwriter has agreed to underwrite the issue of up to 48,887,951 New Shares under the Offer. The Underwriter has agreed that no person will acquire, through sub-underwriting the Offer, a relevant interest in more than 19.9% of the Company's issued Shares.

The Underwriter has advised the Company that neither it, nor any of its associates, currently has a relevant in any Shares.

The Underwriter's relevant interests in the Company following the Offer will depend upon the number of New Shares taken up and the number of New Shares subscribed for by sub-underwriters. If no entitlement is taken up under the Offer (an outcome the Board and Underwriter consider unlikely), the Underwriter will be required to subscribe for Shares equating to approximately 16.67% of the issued capital of the Company upon completion of the Offer (assuming no Shares are issued to the sub-

underwriters). The Underwriter has advised the Company that whilst not a condition of the underwriting, it has sufficient sub-underwriting commitments, (including collectively for 15 million New Shares sub-underwritten by the Directors) that as a result the Underwriter does not expect to acquire any Shares.

(b) Others

As the Offer is renounceable, for the purposes of Listing Rule 7.7.1(c), the Company has appointed the Underwriter as nominee to arrange for the sale of the entitlements that would have been given to Ineligible Shareholders and to account to them for the net proceeds of the sale. The Company has not appointed a nominee in accordance with section 615 of the Corporations Act, as no person may acquire a relevant interest in 20% or more of the Company's Shares as a result of the Offer.

Given the structure of the Offer and underwriting, the Directors do not believe that there will be any material effect on control of the Company as a result of the Offer.

## 5.6 Dilution

Shareholders who do not participate in the Offer will have their holdings diluted. Following is a table which sets out the dilutionary effect, assuming the full amount is raised and no further Shares are issued or Options exercised:

Holder	Holding at Record Date		Entitlement	Holding following the Offer if no Entitlement taken up	
	Number	%		Number	%
1	244,440	0.10%	48,888	244,440	0.08%
2	611,099	0.25%	122,220	611,099	0.21%
3	2,444,398	1.00%	488,880	2,444,398	0.83%
4	6,110,994	2.50%	1,222,199	6,110,994	2.08%

## 6 RISK FACTORS

This section identifies the major risks the Board has identified regarding an investment in the Company. The Company's business is subject to risk factors, both specific to its business activities, and risks of a general nature. Individually, or in combination, these might affect the future operating performance of the Company and the value of an investment in the Company. There can be no guarantee that the Company will achieve its stated objectives or that any forward looking statements will be achieved. An investment in the Company should be considered in light of relevant risks, both general and specific. Each of the risks set out below could, if it eventuates, have a material adverse impact on the Company's prospects, and the market price of the Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

Before deciding to invest in the Company, potential investors should:

- (a) read the entire Prospectus;
- (b) consider the assumptions underlying any forward looking statements;
- (c) review these factors in light of their personal circumstances; and
- (d) seek professional advice from their accountant, stockbroker, lawyer or other professional adviser before deciding whether to invest.

### 6.2 Risk specific to the Offer

- (a) Future funding and ability to continue as a going concern

Funds raised from the Offer will be used for the purposes mentioned under section 5.2 of the prospectus. Whilst the Company believes that the Underwritten Amount will be sufficient to carry out the next stage exploration program, additional funding will be required to fully realise the Company's exploration objectives. Raising additional capital may be dilutive to existing Shareholders.

- (b) Dilution

Shareholders who do not take up their Entitlement will have their holding in the Company diluted. Details of dilution are set out in section 5.6 above.

### 6.3 Specific Investment Risks

- (a) Exploration Risk

Whilst the Company has published resources for two of its Chilean projects, there is a risk that the Company's proposed exploration program will not be successful in expanding the current resource to economic size.

- (b) Access risk

There is regulation and restriction on the ability of exploration and mining companies to have access to land in Chile. Negotiations with land owners/occupiers are generally required before the Company can access land for exploration or mining activities. Inability to access, or delays experienced in accessing, the land may impact on the Company's activities.

(c) Permit Risk

The Company's main exploration projects are located in Chile. While not all exploration activities on the Company's projects require permits, some exploration activities involving drilling require the requisite government permits.

There is a risk of delay or that applicable laws, regulations or the governing authorities will change or that such changes will result in additional material expenditures or time delays. There is also a risk that the necessary land acquisitions, permits, certificates, consents, authorisations and agreements required to implement future exploration, project development, or mining of the Company's projects may not be obtained under conditions or within time frames that make such plans economic.

(d) Commodity prices

The Company is exploring for copper and gold, and as a result is significantly exposed to fluctuations on those commodity prices. There is a risk that the price may fall, which will have an adverse effect on the Company's Share price and ability to raise further capital.

(e) Future capital needs and additional funding

The Company recorded a net loss of \$1,287,719 for the year ending 30 June 2021. As at 31 December 2021, it had approximately \$204,000 cash and cash equivalents on hand. The approximate minimum required annual expenditure commitments on its tenements is approximately US\$80,000.

The Company's ability to raise further capital (equity or debt) within an acceptable time, of a sufficient amount and on terms acceptable to the Company will vary according to a number of factors, including exploration results and then prevailing market conditions. Alternatively and if required, the Company may be required to relinquish exploration tenements where it cannot either meet minimum expenditure requirements or obtain exemptions.

If the Company is required, or chooses, to advance the Company's projects beyond the completion of those stated objectives, the Company will require additional funding to progress its projects beyond the work programs identified in this Prospectus. There is no assurance that the Company will be able to access this funding on favourable terms or at all. If adequate funds are not available on acceptable terms the Company may not be able to further develop its projects and it may impact on the Company's ability to continue as a going concern.

## 6.4 Industry Risk

(a) Additional Requirements for Capital

Since its inception the Company's principal activity has been and remains the exploration for commercially exploitable mineral deposits. The Company does not as yet generate revenue from its principal activity, and accordingly, it requires continual equity or debt funding to meet existing and future expenditure requirements. There is no guarantee the Company will secure sufficient funding to implement its exploration intentions as outlined in the Prospectus. Should the Company require additional funding there can be no assurance that additional

funding will be available on acceptable terms, or at all. An inability to obtain additional funding, if required, would have a material adverse effect on the Company's business, financial condition and performance and the Company's ability to continue as a going concern.

(b) Mining and Exploration Risk

The business of mineral exploration, development and production is subject to risk by its nature. The success of the business depends, inter alia, on successful exploration and/or acquisition of reserves, securing and maintaining title to concessions and tenements, successful design, construction, commissioning and operating of mining and processing facilities, successful development and production in accordance with forecasts and successful management of the operations. Exploration and mining are speculative undertakings which may be hampered by force majeure circumstances, land claims and unforeseen mining problems. Increased costs, lower output or high operating costs may all contribute to make a project less profitable than expected at the time of the development decision. There is no assurance that the Company's attempts to exploit its exploration activities will be successful.

The Company's exploration activities to date are not advanced to a stage where reliable reserve or resource estimates can be made. Reserve and resource estimates, if made in the future, are judgments based on drilling results, past experience with mining properties, knowledge, experience, industry practice and many other factors. Estimates which are valid when made may change substantially when new information becomes available. Ore estimation is an interpretive process based on available data and interpretations and, thus, estimations may prove inaccurate.

The actual quality and characteristics of ore deposits cannot be known until mining takes place, and will almost always differ from the assumptions used to develop reserves. Further, reserves are valued based on future costs and future prices and, consequently, the actual reserves and resources may differ from those estimated, which may result in either a positive or negative effect.

No assurance can be given that commercial tonnages, grades or recovery will be achieved or realised. Commodity price fluctuations, increased production costs, or reduced recovery rates, may render possible reserves containing relatively lower grades uneconomic and may result in a restatement of such reserves. Moreover, short-term operating factors relating to possible reserves, such as sequential development of ore bodies and processing of new or different ore types or grades, may cause mining operations to be unprofitable in any particular accounting period.

There is a risk that unforeseen geological and geotechnical difficulties may be encountered if and when developing and mining reserves. In this event, a loss of revenue may be caused due to the lower than expected production and/or higher than anticipated operation and maintenance costs and/or on-going unplanned capital expenditure in order to meet production targets.

(c) Title

The Company's mining exploration activities are dependent on the grant, or as the case may be, the maintenance of appropriate licenses, which may be withdrawn or

made subject to limitations. The granting of license, maintaining of license or obtaining renewals, often depends on the Company being successful in obtaining required statutory approvals for its proposed activities and that the licenses, concessions, tenements, leases, permits or consents it holds will be renewed as and when required. There is no assurance that such renewals will be given as a matter of course and there is no assurance that new conditions will not be imposed in connection therewith.

(d) Results of Studies

Subject to the results of future exploration and testing programs, the Company may progressively undertake a number of studies in respect to the Company's current or new projects. These studies may include scoping, pre-feasibility and bankable feasibility studies.

These studies will be completed within certain parameters designed to determine the economic feasibility of the Company's current or new projects within certain limits. There can be no guarantee that any of the studies will confirm the economic viability of the Company's current or new projects or the results of other studies undertaken by the Company (e.g. the results of a feasibility study may materially differ to the results of a scoping study).

Further, even if a study determines the economics of the Company's current or new projects, there can be no guarantee that the current or new projects will be successfully brought into production as assumed or within the estimated parameters in the feasibility study once production commences including but not limited to operation costs, mineral recoveries and commodity prices. In addition, the ability of the Company to complete a study may be dependent on the Company's ability to raise further funds to complete the study if required.

(e) Metallurgy

Metal or mineral recoveries are dependent upon the metallurgical process, and by its nature processing contains elements of significant risk such as:

- (i) identifying a metallurgical process through test work to produce a saleable metal or concentrate;
- (ii) developing an economic process route to produce a metal or concentrate; and
- (iii) changes in mineralogy in the ore deposit can result in inconsistent metal recovery, affecting the economic viability of the project.

No assurance can be given that any particular level of recovery from mineral resources or reserves will in fact be realised or that a mineral resource will ever qualify as commercially viable which can be legally and economically exploited.

(f) Economic and Government Risks

Economic and legislative changes in Chile may affect the future viability of the Company. The future viability of the Company is also dependent on a number of other factors affecting the performance of all industries, not just the exploration and mining industries. These factors include, but are not limited to:

- (i) General economic conditions in Australia and Chile, and their major trading partners.
- (ii) Changes in government policies, taxation and other laws.
- (iii) The strength of the equity and share markets in Australia and throughout the world, and in particular investor sentiment towards the commodities (resources) sector.
- (iv) Movement in, or outlook on, interest rates and inflation rates.
- (v) Natural disasters, social upheaval disease (COVID) or war in Australia and other countries.

Industry profitability can be affected by changes in government which are outside the control of the Company. The Company's activities are subject to extensive laws and regulations controlling not only the exploration for and mining of minerals, but also the possible effects of such activities upon the environment and interests of native and/or indigenous peoples. Permits from regulatory authorities are required for many aspects of mine operation and reclamation. There is no assurance that permits will be obtained when sought or that unfavourable conditions will not be imposed. Future legislation and regulations could cause additional expense, capital expenditures, restrictions and delays in development of the Company's tenements, the extent of which cannot be predicted.

(g) Reliance on Key Personnel

The responsibility of overseeing the day to day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their involvement with the Company.

(h) Competition

The industry in which the Company is involved is subject to domestic and global competition. While the Company undertakes all reasonable due diligence in its business decisions and operations, the Company has no influence or control over the activities of competitors and these activities may positively or negatively affect the operating and financial performance of the Company's projects and business.

(i) Insurance

Insurance of all risks associated with exploration is not always available and, where it is available, the cost may be high. The Company will have insurance in place considered appropriate for the Company's needs.

The business of the Company is subject to a number of risks and hazards generally, including adverse environmental conditions, industrial accidents, labour disputes, unusual or unexpected geological conditions, ground or slope failures, cave-ins, changes in the regulatory environment and natural phenomena such as extreme weather conditions, floods and earthquakes. Such occurrences could result in damage to mineral properties, buildings, personal injury or death, environmental damage to properties of the Company or others, delays in mining, monetary losses and possible legal liability.

Although the Company maintains insurance to protect against certain risks in such amounts as it considers to be reasonable, its insurance will not cover all the potential risks associated with its operations and insurance coverage may not continue to be available or may not be adequate to cover any resulting liability, particularly if the Company seeks to acquire new projects which are located in other jurisdictions or involve a new commodity.

It is not always possible to obtain insurance against all such risks and the Company may decide not to insure against certain risks because of high premiums or other reasons. Moreover, insurance against risks such as environmental pollution or other hazards as a result of exploration and production is not generally available to the Company or to other companies in the mining industry on acceptable terms. Losses from these events may cause the Company to incur significant costs that could have a material adverse effect upon its financial performance and results of operations.

## **6.5 General Investment Risks**

### **(a) Share Market Investments**

It is important to recognise that the price of Shares may rise or fall, and they might trade at prices below or above the Offer Price. There can also be no assurance that an active trading market will develop for the Shares.

Factors affecting the price at which the Shares are traded on ASX could include domestic and international economic conditions. In addition, the prices of many listed entities' securities are affected by factors that might be unrelated to the operating performance of the relevant company. Those fluctuations might adversely affect the price of the Shares.

### **(b) General Economic Conditions**

The Company's operating and financial performance is influenced by a variety of general economic and business conditions including the level of inflation, interest rates and government fiscal, monetary and regulatory policies. Prolonged deterioration in general economic conditions, including an increase in interest rates, could be expected to have a corresponding adverse impact on the Company's operating and financial performance.

### **(c) Accounting Standards**

Australian accounting standards are set by the Australian Accounting Standards Board (AASB) and are outside the Directors' and the Company's control. Changes to accounting standards issued by AASB could materially adversely affect the financial performance and position reported in the Company's financial statements.

### **(d) Taxation Risks**

Changes to the rate of taxes imposed on the Company or tax legislation generally may affect the Company and its Shareholders. In addition, an interpretation of Australian taxation laws by the Australian Taxation Office that differs to the Company's interpretation may lead to an increase in the Company's taxation liabilities and a reduction in Shareholder returns.

Personal tax liabilities are the responsibility of each individual investor. The Company is not responsible either for taxation or penalties incurred by investors.

The number of Existing Shares you hold as at the Record Date and the rights attached to those Existing Shares will not be affected if you choose not to accept any of your Entitlement.

## **7.8 Payment methods**

### ***BPAY or electronic funds transfer***

You may pay by BPAY or, for Eligible Shareholders with a registered address in New Zealand and who cannot pay by BPAY, electronic funds transfer (EFT). Refer to your personalised instructions on your Entitlement and Acceptance Form for instructions on how to make payment. Shareholders do not need to complete and return the Entitlement and Acceptance Form; however must ensure that payment is received by no later than 5.00pm AEST on the Closing Date.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. It is your responsibility to ensure that funds submitted through BPAY or EFT are received by 5.00pm AEST on the Closing Date.

If you have more than one shareholding and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those shareholdings only use the Customer Reference Number or unique reference number specific to that shareholding as set out in the applicable Entitlement and Acceptance Form. Do not

use the same Customer Reference Number or unique reference number for more than one of your shareholdings. This can result in your application monies being applied to your Entitlement in respect of only one of your shareholdings (with the result that any application in respect of your remaining shareholdings will not be recognised as valid).

The Company shall not be responsible for any postal or delivery delays or delay in the receipt of the BPAY or, for Eligible Shareholders with a registered address in New Zealand and who cannot pay by BPAY, EFT payment.

## **7.9 Entitlement and Acceptance Form is binding**

By making a payment in respect of an Application by BPAY or EFT constitutes a binding offer to acquire New Shares on the terms and conditions set out in this Prospectus and, once lodged, cannot be withdrawn (other than in circumstances prescribed by the Corporations Act).

By making a payment in respect of an Application by BPAY or EFT, you will be deemed to have represented that you are an Eligible Shareholder. In addition, you will also be deemed to have represented and warranted on behalf of yourself or each person on whose account you are acting that the law in your place of residence and/or where you have been given the Prospectus, does not prohibit you from being given the Prospectus and that you:

- (a) agree to be bound by the terms of the Offer;
- (b) declare that all details and statements in the Entitlement and Acceptance Form are complete and accurate;
- (c) declare that you are over 18 years of age and have full legal capacity and power to perform all your rights and obligations under the Entitlement and Acceptance Form;
- (d) authorise the Company and its respective officers or agents, to do anything on your behalf necessary for the New Shares to be issued to you, including to act on instructions of the Company's share registry upon using the contact details set out in the Entitlement and Acceptance Form;
- (e) declare that you are the current registered holder of Shares and are an Australian or New Zealand resident, and you are not in the United States or a US Person, or acting for the account or benefit of a US Person;
- (f) acknowledge that the information contained in, or accompanying, the Prospectus is not investment or financial product advice or a recommendation that New Shares are suitable for you given your investment objectives, financial situation or particular needs; and
- (g) acknowledge that the New Shares have not, and will not be, registered under the securities laws in any other jurisdictions outside Australia and New Zealand and accordingly, the New Shares may not be offered, sold or otherwise transferred except in accordance with an available exemption from, or in a transaction not subject to, the registration requirements of applicable securities laws, including (but not limited to) the US Securities Act.

The Entitlement and Acceptance Form does not need to be signed to be a valid application. An Application will be deemed to have been accepted by the Company upon the issue of the New Shares.

If a payment of the application monies is for the wrong amount, it may still be treated as a valid application for New Shares. The Directors' decision whether to treat an acceptance as valid is final. However, an Applicant will not be treated as having applied for more Shares than is indicated by the amount of the application monies received by the Company.

## 8.5 Entitlement to Offer

The Offer is made to Eligible Shareholders, who are those Shareholders that:

- (a) are the registered holder of Shares as at 5.00pm (AEST) on the Record Date; and
- (b) have a registered address in Australia or New Zealand.

## 8.6 Shortfall

Any New Shares not applied for under the Offer will become Shortfall Shares. The Directors, in conjunction with the Underwriter, reserve the right to issue any Shortfall Shares at their discretion within 3 months after the Closing Date (**Shortfall Offer**).

The Shortfall Offer is, to the extent it is made in Australia, made under this Prospectus. To the extent the Shortfall Offer is made outside Australia, the Shortfall Offer is made without disclosure, a prospectus, lodgement, filing or registration, or other requirements of any

applicable securities law, and only in circumstances where it is lawful to do so (such as to institutional or sophisticated investors).

Eligible Shareholders may apply for Shortfall Shares by completing the accompanying Entitlement and Acceptance Form in accordance with the instructions set out on that form. Other investors who are not Eligible Shareholders may apply for Shortfall Shares using the Shortfall Application Form attached to this Prospectus. Persons outside Australia doing so represent to the Company that they can apply for Shortfall Shares in circumstances which do not require the offer for Shortfall Shares or this Prospectus to be registered.

It is possible that there may be no Shortfall Shares available for issue.

Subject to the above, the Directors reserve the right at their absolute discretion and subject to the Corporations Act and Listing Rules, to:

- (a) issue Shortfall Shares at their discretion by applying a policy of allocating Shortfall Shares in a manner that is in the Company's best interests and in accordance with the Underwriting Agreement; and
- (b) to reject any application for Shortfall Shares or to issue a lesser number of Shortfall Shares than that applied for.

It is an express term of the Shortfall Offer that applicants for Shortfall Shares will be bound to accept a lesser number of Shortfall Shares allocated to them than applied for. If a lesser number is allocated, excess application money will be refunded without interest as soon as practicable after the Closing Date.

## **8.7 New Zealand Shareholders**

The Offer contained in this Prospectus to Eligible Shareholders with registered addresses in New Zealand is made in reliance on the Securities Act (Overseas Companies) Exemption Notice 2013 (New Zealand). Members of the public in New Zealand who are not existing Shareholders on the Record Date are not entitled to apply for any New Shares. This Prospectus has not been registered, filed or approved by any New Zealand regulatory authority. This Prospectus is not an investment statement or prospectus under New Zealand law and is not required to, and may not, contain all the information that an investment statement or prospectus under New Zealand law is required to contain.

## **8.8 Treatment of Ineligible Shareholders and sale for Ineligible Shareholders' Entitlement**

Given the small number of Ineligible Shareholders and the cost of complying with applicable regulations outside Australia and New Zealand, the Company has decided that it would be unreasonable to extend the Offer to Ineligible Shareholders. The Prospectus will not be sent to those Shareholders.

This Prospectus does not constitute an offer of securities in any jurisdiction where, or to any person to whom, it would not be lawful to issue the Prospectus or make the Offer. No action has been taken to register or qualify the New Shares or the Offer or otherwise to permit an offering of the New Shares in any jurisdiction other than as set out in this section.

This document is not for publication or distribution, directly or indirectly, in or into the United States of America (including its territories and possessions, any state of the US and the District of Columbia). This document is not an offer of securities for sale into the United States or to, or for the account or benefit of, US Persons. The securities referred to herein

have not been and will not be registered under the US Securities Act, and may not be offered or sold in the United States or to, or for the account or benefit of, US Persons. No public offering of securities is being made in the United States or elsewhere where it would be unlawful to do so.

Recipients may not send or otherwise distribute this Prospectus or the Entitlement and Acceptance Form to any person outside Australia or New Zealand (other than to Eligible Shareholders).

For the purposes of Listing Rule 7.7.1(c), the Company has appointed the Underwriter as nominee to arrange for the sale of the Non-Eligible Foreign Shareholders' Entitlements and to account to them for the net proceeds of the sale.

The proceeds of sale (in Australian dollars) will be distributed to the Non-Eligible Foreign Shareholders for whose benefits the Rights have been sold in proportion to their shareholdings as at the Record Date (after deducting the costs of the sale).

#### **8.9 Beneficial holders, nominees, trustees and custodians**

Nominees, trustees and custodians that hold Shares on behalf of others should note that the Offer is available only to Eligible Shareholders. The Company is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of securities. If any nominee or custodian is acting on behalf of a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Offer is compatible with applicable foreign laws.

#### **8.10 Allotment and application money**

New Shares will be issued only after all application money has been received and ASX has granted permission for the New Shares to be quoted. It is expected that New Shares will be issued on 16 February 2022 and normal trading of the New Shares on ASX is expected to commence on 16 February 2022.

All application monies will be deposited into a separate bank account of the Company and held in trust for Applicants until the Shares are issued or application monies returned. Any interest that accrues will be retained by the Company and will not be paid to Applicants.

#### **8.11 Quotation**

The Company has applied to ASX for quotation of the securities offered by this Prospectus on ASX. If ASX does not grant permission for the quotation within 3 months after the date of this Prospectus, or such longer period as modified by ASIC, none of the securities offered by this Prospectus will be allotted or issued. In these circumstances, all Applications will be dealt with in accordance with the Corporations Act including the return of all application monies without interest.

A decision by ASX to grant official quotation of the securities offered under this Prospectus is not to be taken in any way as an indication of ASX's view as to the merits of the Company or of the New Shares.

Quotation, if granted, of the securities offered by this Prospectus will commence as soon as practicable after statements of holdings of the securities are dispatched.

### 8.12 Market prices of Existing Shares on ASX

The highest and lowest market sale price of the Existing Shares, which are on the same terms and conditions as the New Shares being offered under this Prospectus, during the 3 months immediately preceding the lodgement of this Prospectus with the ASIC, and the last market sale price prior to the Offer being announced, are set out below.

	3 month high	3 month low	Last market sale price
Price (\$)	\$0.048	\$0.038	\$0.04
Date	27/10/2021	31/12/2021	14 January 2022

### 8.13 CHESS

The Company participates in the Clearing House Electronic Subregister System (**CHESS**). CHESS is operated by ASX Settlement Pty Ltd (**ASPL**), a wholly owned subsidiary of ASX.

Under CHESS, the Company does not issue certificates to investors. Instead, security holders will receive a statement of their holdings in the Company, including New Shares issued under this Prospectus. If an investor is broker sponsored, ASPL will send a CHESS statement.

The CHESS statement will set out the number of New Shares issued under this Prospectus, provide details of your holder identification number and give the participation identification number of the sponsor.

If you are registered on the issuer sponsored sub register, your statement will be dispatched by the Company's share registrar and will contain the number of New Shares issued to you under this Prospectus and your security holder reference number.

A CHESS statement or issuer sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their shareholding changes. Shareholders may request a statement at any other time, however, a charge may be made for additional statements.

### 8.14 Taxation and duty implications

The Directors do not consider that it is appropriate to give Shareholders advice regarding the taxation consequences of the Company conducting the Offer or Shareholders applying for New Shares under this Prospectus, as it is not possible to provide a comprehensive summary of the possible taxation positions of Shareholders. The Company, its advisers and officers, do not accept any responsibility or liability for any taxation consequences to Shareholders in the Offer. Shareholders should, therefore, consult their own professional tax adviser in connection with the taxation implications of the Offer.

No brokerage or stamp duty is payable by Applicants in respect of Applications for New Shares under this Prospectus.

### 8.15 Privacy

The Company collects information about each Applicant provided on an Entitlement and Acceptance Form for the purposes of processing the Application and, if the Application is successful, to administer the Applicant's security holding in the Company.

By submitting an Entitlement and Acceptance Form, each Applicant agrees that the Company may use the information provided by an Applicant on the Entitlement and Acceptance Form for the purposes set out in this privacy disclosure statement and may disclose it for those purposes to the Share Registry, the Company's related body corporates, agents, contractors and third party service providers, including mailing houses and professional advisers, and to ASX and regulatory authorities.

The Corporations Act requires the Company to include information about the Shareholder (including name, address and details of the Shares held) in its public register. The information contained in the Company's public register must remain there even if that person ceases to be a Shareholder. Information contained in the Company's register is also used to facilitate distribution payments and corporate communications (including the Company's financial results, annual reports and other information that the Company may wish to communicate to its security holders) and compliance by the Company with legal and regulatory requirements.

If you do not provide the information required on the Entitlement and Acceptance Form, the Company may not be able to accept or process your Application. An Applicant has the right to gain access to the information that the Company holds about that person subject to certain exceptions under law. A fee may be charged for access. Such requests must be made in writing to the Company's registered office.

### **9.1 Rights and liability attaching to Shares**

Full details of the rights and liabilities attaching to the Shares are:

- detailed in the Constitution, a copy of which can be inspected, free of charge, at the registered office of the Company during normal business hours; and
- in certain circumstances, regulated by the Corporations Act, the Listing Rules and the general law.

The following is a summary of the more significant rights and liabilities attaching to the Shares. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

#### **(a) Voting rights**

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at a general meeting of members every member has one vote on a show of hands and one vote per Share on a poll. Voting may be in person or by proxy, attorney or representative.

(b) Dividends

Except as otherwise required by the Corporations Act and to the terms on which shares are on issue and the rights and restrictions attaching to shares, the Directors may from time to time:

- (i) declare dividends (whether final or interim) to be paid to members on such terms, including the amount and the time for and the method of payment, as the Directors think fit; or
- (ii) determine that a dividend is payable, fix the amount and time for payment.

(c) Future issues of securities

Subject to the Corporations Act and the Listing Rules, the Directors may issue, grant options over, or otherwise dispose of unissued shares in the Company at the times and on the terms that the Directors think proper and a share may be issued with preferential or special rights.

(d) Transfer of Shares

A shareholder may transfer Shares by a market transfer in accordance with any computerised or electronic system established or recognised by ASX for the purpose of facilitating transfers in Shares or by an instrument in writing in a form approved by ASX or the Board.

(e) Meetings and notices

Each shareholder is entitled to receive notice of, and to attend, general meetings for the Company and to receive all notices, accounts and other documents required to be sent to shareholders under the Constitution, the Corporations Act or the Listing Rules.

Shareholders may requisition meetings in accordance with the Corporations Act.

(f) Liquidation rights

The Company has one class of shares on issue, ordinary shares. Each ordinary Share ranks equally in the event of liquidation.

(g) Variation of rights

Subject to the Corporations Act and Listing Rules, the rights attached to the Shares may be varied in accordance with the Corporations Act

(h) Election of directors

At every annual general meeting one third of the Directors (rounded up to the nearest whole number) must retire from office. Any Director who would have held office for more than 3 years if that Director remains in office until the next general meeting must retire. These retirement rules do not apply to certain appointments including the managing director.

(i) Indemnities

To the extent permitted by law the Company must indemnify each past and present Director and secretary against any liability incurred by that person as an officer of

the Company and any legal costs incurred in defending an action in respect of such liability.

(j) Winding up

Subject to the Corporations Act, the ASX Listing Rules and any rights or restrictions attached to a class of shares, on a winding up of the Company any surplus must be divided among the shareholders of the Company.

(k) Shareholder liability

As the Shares offered under the Prospectus are fully paid Shares, they are not subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(l) Alteration to the Constitution

The Constitution can only be amended by a special resolution passed by at least three quarters of shareholders present and voting at the general meeting. At least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

(m) Listing Rules

If the Company is admitted to trading on the Official List, then despite anything in the Constitution, if the Listing Rules prohibit an act being done, the act must not be done. Nothing in the Constitution prevents an act being done that the Listing Rules require to be done. If the Listing Rules require an act to be done or not to be done, authority is given for that act to be done or not to be done (as the case may be). If the Listing Rules require the Constitution to contain a provision and it does not contain such a provision, the Constitution is deemed to contain that provision. If the Listing Rules require the Constitution not to contain a provision and it contains such a provision, the Constitution is deemed not to contain that provision. If a provision of the Constitution is or becomes inconsistent with the Listing Rules, the Constitution is deemed not to contain that provision to the extent of the inconsistency.

Options offered under this Prospectus are subject to the following terms:

- (a) Each Option entitles the holder to, upon exercise, be issued one Share.
- (b) The exercise price of the Options is \$0.10 each.
- (c) The expiry date is 24 months from issue.
- (d) The Options may be exercised at any time prior to the expiry date, in whole or in part, upon payment of the exercise price per Option.
- (e) The Company currently intends to apply for quotation of the Options on the official list of the ASX. Quotation of the Options is not guaranteed or automatic but will depend on ASX exercising its discretion under the Listing Rules.
- (f) The Options are freely transferable subject to any restriction or escrow arrangements imposed by the Corporations Act and the ASX Listing Rules.

- (g) The holder of an Option may not exercise less than 5,000 Options at any one time unless the holder has less than 5,000 Options in which event the Holder must exercise all of the Options together.
- (h) The Company will provide to each Option holder a notice that is to be completed when exercising the Options (Notice of Exercise). Options may be exercised by the Option holder in whole or in part by completing the Notice of Exercise and forwarding the same to the Share Registry to be received prior to the expiry date. The Notice of Exercise must state the number of Options exercised, the consequent number of Shares to be issued and the identity of the proposed subscribers. The Notice of Exercise by an Option holder must be accompanied by payment in full for the relevant number of Shares being subscribed, being an amount of the exercise price per Share.
- (i) All Shares issued upon the exercise of the Options will rank equally in all respects with the Company's then issued Shares. The Company must apply to the ASX in accordance with the Listing Rules for all Shares pursuant to the exercise of Options to be admitted to quotation.
- (j) There are no participating rights or entitlements inherent in the Options and the holders will not be entitled to participate in new issues or pro-rata issues of capital to Shareholders during the term of the Options. Thereby, the Option holder has no rights to a change in:
  - (i) the exercise price of the Option; or
  - (ii) period of exercise of the Option; or
  - (iii) except in the event of a Bonus Issue (defined below), a change to the number of underlying securities over which the Option can be exercised.
- (k) The Company will ensure, for the purposes of determining entitlements to any issue, that Option holder will be notified of a proposed issue after the issue is announced. This will give Option holders the opportunity to exercise their Options prior to the date for determining entitlements to participate in such issues.
- (l) If from time to time on or prior to the Expiry Date the Company makes a bonus issue of securities to holders of Shares in the Company (Bonus Issue), then upon exercise of his or her Options a holder will be entitled to have issued to him or her (in addition to the Shares which he or she is otherwise entitled to have issued to him or her upon such exercise) the number of securities which would have been issued to him or her under that Bonus Issue if the Options had been exercised before the record date for the Bonus Issue.
- (m) In the event of any reconstruction (including consolidation, subdivisions, reduction or return) of the authorised or issued capital of the Company, all rights of the Option holder shall be reconstructed (as appropriate) in accordance with the ASX Listing Rules.

## 10 ADDITIONAL INFORMATION

### 10.1 Continuous disclosure obligations

The Company is a 'disclosing entity' (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities. The New Shares which will be issued pursuant to this Prospectus are in the same class of Shares that have been quoted on the Official List during the 12 months prior to the issue of this Prospectus.

This Prospectus is a "transaction specific prospectus" to which the special content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities in a class which has been continuously quoted by ASX in the three months prior to the date of the prospectus. In general terms "transaction specific prospectuses" are only required to contain information in relation to the effect of the issue of New Shares on the Company and the rights attaching to the New Shares. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the period from lodgement of the Company's annual financial statements of the Company for the financial year ended 30 June 2021 to the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

The Company confirms that, to the extent to which it is reasonable for investors and their professional advisers to expect to find the information in this Prospectus, there is no information

- (a) that has been excluded from a continuous disclosure notice in accordance with ASX Listing Rules; and
- (b) is information that investors and their professional advisers would reasonably require for the purpose of making an informed assessment of:
  - (i) the assets and liabilities, financial position and performance, profits and losses and prospects of the Company; and
  - (ii) the rights and liabilities attaching to New Shares.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
  - (i) the annual financial statements of the Company for the financial year ended 30 June 2021 being the last financial statements for a financial year, of the Company lodged with the ASIC before the issue of this Prospectus;
  - (ii) any half-year financial report lodged with ASIC by the Company after the lodgement of that annual report and before the lodgement of this Prospectus; and
  - (iii) any continuous disclosure notices given by the Company after the lodgement of the financial statements referred to in paragraph (i) and before the lodgement of this Prospectus with ASIC.

Copies of all documents lodged with the ASIC in relation to the Company can be obtained free of charge from the Company's registered office during normal office hours or from [asx.com.au](http://asx.com.au).

## 10.2 Directors' interests

As at the date of this Prospectus the Directors have a relevant interest in securities of the Company and remuneration as set out in the annual reports over the last 2 years as set out below.

		Mark Stowell	David Frances <sup>2</sup>	Richard Caldwell <sup>2</sup>
Annual Remuneration: 2020-2021 <sup>1</sup>		\$99,280	\$10,000	\$9,601
Annual Remuneration: 2019-2020		\$51,000	-	-
Shares		9,856,886	0	6,000,000
Converting Securities		4,000,000	1,000,000	1,000,000
Entitlement		1,971,377	0	1,200,000
Sub-underwriting commitment		\$200,000	\$50,000	\$200,000

### Notes:

1 The Chairman and non-executive Directors are entitled to annual directors' fees of \$2,000 per month (exclusive of superannuation) respectively. Mr Stowell is also entitled to receive a further \$5,000 per month under a consultancy agreement.

2 Mr Frances and Caldwell were appointed Directors on 5 February 2021.

The Directors have agreed to sub-underwrite the Offer as set out above. Under the sub-underwriting arrangements with the Underwriter, sub-underwriters will only be relieved of their obligation if the Offer is withdrawn. The Director has no right to any sub-underwriting fee.

The Directors have determined that, upon the advice of the Underwriter, these sub-underwriting arrangements are, as no sub-underwriting fee is paid, inferior to terms negotiated with other unrelated sub-underwriters and, for that reason, the financial benefit

given by the Company is on arm's length terms so that shareholder approval is not required under Chapter 2E of the Corporations Act.

The Constitution provides that the Directors may be paid for their services as Directors. Non-executive directors may only be paid a sum not exceeding such fixed sum per annum as may be determined by the Company in general meeting (currently \$500,000), to be divided among the non-executive directors and in default of agreement then in equal shares.

The Company also pays premiums to insure all of the Directors against liabilities for costs and expenses incurred by them in defending legal proceedings arising from their conduct whilst acting in the capacity as a Director of the Company.

Other than as set out above or elsewhere in this Prospectus, no Director or proposed Director holds at the date of this Prospectus, or held at any time during the last 2 years before the date of lodgement of this Prospectus with ASIC, any interest in:

- (a) the formation or promotion of the Company; or
- (b) any property acquired or proposed to be acquired by the Company in connection with its formation or promotion of the Company or the Offer; or
- (c) the Offer,

and no amounts have been paid or agreed to be paid and no benefits have been given or agreed to be given:

- (d) to a Director or proposed Director or to any firm which any such Director is a partner, to induce him or her to become, or to qualify as, a Director; or
- (e) for services provided by a Director or proposed Director or to any firm which any such Director is a partner, in connection with the formation or promotion of the Company or the Offer.

### **10.3 Interests of promoters and named persons**

Except as disclosed in this Prospectus, no expert, promoter or any other person named in this Prospectus as performing a function in a professional advisory or other capacity in connection with the preparation or distribution of the Prospectus, nor any firm in which any of those persons is or was a partner nor any company in which any of those persons is or was associated with, has now, or has had, in the 2 year period ending on the date of this Prospectus, any interest in:

- (a) the formation or promotion of the Company; or
- (b) property acquired or proposed to be acquired by the Company in connection with its formation or promotion or the Offer; or
- (c) the Offer.

Mahe Capital Pty Limited has acted as lead manager and underwriter to the Offer. The fees to be paid for this service are set out in section 8.4. Mahe Capital Pty Limited has not received any fees for services to the Company in the 2 years prior to the date of this Prospectus.

Atkinson Corporate Lawyers has acted as solicitor to the Offer. In respect of this work, the Company will pay approximately \$10,000 exclusive of GST. Subsequently fees will be paid in accordance with normal hourly rates. Atkinson Corporate Lawyers has received \$6,435

(excluding GST) in fees for services to the Company in the 2 years prior to the date of this Prospectus.
