

15 February 2022

SRG Global Secures Higher Bridge / Road Accreditation and awarded ~\$11m Latrobe River Bridge Contract

Highlights:

- **Awarded highest bridge accreditation (B4) and higher road accreditation (R2) nationally**
- **Secured ~\$11m Latrobe River Bridge contract with the Victorian Dept. of Transport**
- **Scope includes specialist bridge construction and associated roadworks**
- **Total contract wins announced since mid-November 2021 of \$411m**

SRG Global Ltd ('SRG Global' or 'the Company') (ASX: SRG) is pleased to announce that it has secured the highest possible national bridge accreditation rating of B4 and an increased national road accreditation rating of R2. This will allow SRG Global to tender for any major bridge project nationally that requires a road component rating of R2.

The Company has also been awarded a contract with the Victorian Department of Transport to complete the Latrobe River Bridge Replacement project valued at ~\$11m. SRG Global will replace the existing bridge with a new 63-metre-long, three-span reinforced concrete bridge, as well as completing the associated roadworks. The new project will start immediately and run for approximately 14 months.

David Macgeorge, Managing Director, commented: "We are pleased to have received the new national bridge and road accreditation which recognises our strong experience in specialist bridge construction. The higher accreditation will unlock a larger market opportunity for our Civil Engineering business in the transport infrastructure sector.

I am also pleased to be awarded the Latrobe River Bridge Replacement contract. This is the first project utilising the new bridge and road accreditation rating and continues our long-standing relationship with the Victorian Department of Transport."

This now brings the total contract wins announced since mid-November 2021 to \$411m.
