DIRECTORS' REPORT

Your directors submit the financial report of the consolidated group (Group) for the half-year ended 31 December 2021.

Directors

The names of directors who held office during or since the end of the half-year:

Tao (Norman) Li – Non-Executive Chairman Rocky Zhou – Non-Executive Director Minna (Norman) Rong – Non-Executive Director Jacqueline Phillips – Non-Executive Director, appointed 12 July 2021 David Marchant – Non-Executive Director, appointed 6 September 2021 Tony Rowlinson – CEO and Managing Director, resigned 12 July 2021 Matthew Bailey – Non-Executive Director, resigned 6 September 2021

Principal Activities

The principal activities of The Food Revolution Group during the period were:

- receiving, processing, manufacturing and distributing juice and other plant-based wellness products;
- the provision of co-packing services to third parties; and
- the research and development of various innovative food related technologies to develop new functional food products and ingredients.

The Group's operations are currently conducted in Australia.

Review of Operations

1H FY2022 overview

Key activities of the Group in 1H FY2022 are summarised below:

- Appointment of CEO Steven Cail as announced on 12 July 2021. Steven joined the company as CFO on 5 March 2021 and under his short tenure has led a quick turn-around driving results, governance, and key operational change. Steven has played a key role in delivering FOD financing outcomes, along with guiding the FY2022 plans to support the next growth phase of the business. Steven has strong operational and commercial experience and prior to FOD headed up logistics at Target – Wesfarmers, along with key senior commercial/leadership roles across various large multi-nationals.
- As announced on 12 July 2021, the Group secured a 5-year bank facility from NAB which replaced the Greensill facility. At the end of H1 FY2022 the Group had repaid \$0.54m of this facility.
- In H1 FY2022 the company appointed two new independent directors to the Board. The appointment of Jacqueline Phillips and David Marchant will support the businesses priorities to strengthen corporate governance, management of the business and the creative and commercial capabilities.
- Appointment of CFO Mr Ashley Bottrell as announced on 24 November 2021.

Earnings performance review 1H FY2022

In H1 FY2022 the Group generated reported earnings before interest, tax, depreciation and amortisation (EBITDA) of \$0.81 million, which was a decrease on the comparative period of \$1.43 million. Whilst a decrease on the prior comparative period, this is a pleasing result for the business as the profitability of the core juice associated business increased, and the prior year result included non-recurring sanitiser sales (gross margin of \$0.8m), JobKeeper (\$0.7m) and rental income (\$0.5m).

Revenue decreased from \$22.2m in H1 FY2021 to \$21.7m in H1 FY2022 (FY2021 includes \$1.4m of sanitiser sales). However, a more profitable sales mix and an increase in margin against the comparative period has delivered stronger gross margin in H1 FY2022. The key drivers of stronger gross margin included the successful launch of Juice Lab wellness shots and Carbonated Wellness Drinks. Juice Lab wellness shots have continued to outperform competitors with a 55% market share in the newly created wellness shots segment¹. The FOD beverage

DIRECTORS' REPORT

business and Original Juice Co ranges are exceeding the chilled juice and drink category growth versus last year and operating as the third biggest chilled juice and drinks provider in the supermarket retail space².

The business remains focused on continuing to grow its plant-based wellness range with the launch of the plant-based protein smoothies as announced to the market on 24 January 2022. The new product development of our Juice Lab range is building further support in the first half of and into the second half of FY2022, as consumers look for better-for-you alternatives that are free of artificial sweeteners or preservatives.

The first half has seen the business make good progress in strengthening the foundations necessary for stronger long-term shareholder value and progress on key metrics. The business is also focused on maximising and extracting the full value of the product life cycle and reducing operational waste to landfill.

COVID-19

The COVID-19 situation in Australia has been extremely challenging with continued disruption in H1 FY2022. The ability of our business to continue to meet customers' requirements and further develop first to market products, not only highlights the strength and the capacity of our team to adjust rapidly to meet customer demands, but continues to position The Food revolution Group well for the future.

Domestic supply chains were significantly impacted by labour availability pressures as a result of isolation requirements and elevated absenteeism, leading to additional costs in labour and transport. Our focus as a business remains on ensuring the health and safety of our employees.

Operating Results

- Revenue
 - Gross sales for the Group were \$21,724,949 and net revenues after trading terms, volume rebates and other claims (trading terms) were \$17,588,625. The juice related gross sales are up 4.21% on the PCP. Trading terms generally apply in respect of sales of product into the grocery channel.
- Cashflow
 - Operational cash outflow for the period of \$2,130,804 which included a one-off payment of \$1.3m associated with the Original Juice Company transaction to settle an agreed outstanding payable from a previous period.
 - \$2.0m operating cash investment into inventory holdings to lock in beneficial fruit pricing from strong market supply and providing flexibility to meet new blends and recipes for out of season raw materials.
 - Cash of \$0.88 million on hand as at 31 December 2021.
- Gross profit and EBITDA
 - The gross profit grew from \$5.69m to \$6.08m which equates to 34.57% of net sales.
 - The loss before tax was \$1,001,295 for the half-year.
 - The combination of improving sales volumes, prices and efficiencies delivered an EBITDA of \$0.81 million for 1H FY2022.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Basis of Preparation

These general purpose interim financial statements for half-year reporting period ended 31 December 2020 have been prepared in accordance with requirements of the *Corporations Act 2001* and Australian Accounting Standard AASB 134: *Interim Financial Reporting*. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of The Food Revolution Group Limited and its controlled entities (referred to as the "consolidated group" or "Group"). As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2019, together with any public announcements made during the following half-year.

These interim financial statements were authorised for issue on 25 February 2022.

b. Accounting Policies

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements.

c. Going Concern

The financial statements have been prepared on the going concern basis, which assumes the continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business. During the half-year ended 31 December 2021, the Group incurred a loss after tax of \$1,001,295, operating cash outflows of \$2,130,804 and as of that date, the Group's current liabilities exceeded its current assets by \$5,046,208. The cash outflows from operating activities included a one-off payment of \$1.3m to settle an outstanding payable from previous periods.

The directors have prepared cash flow projections that support the ability of the Group to continue as a going concern. These cash flow projections assume:

- Realisation of the projected sales from new and existing products;
- Implementation of cost-saving initiatives and entering into repayment arrangements with creditors to
 preserve working capital;
- Continued support from the existing financier (refer to Note 8). The current NAB loan facility is subject to an annual review and the Group's ability to service loan repayment obligations and meet its covenants as required by the financier. In addition to the \$6.5m loan facility, the Group was also granted a \$1.0m invoice finance facility by NAB for working capital to meet any seasonality cashflow requirements, which was not being utilised as at 31 December 2021.

The directors are confident in the Group's ability to achieve the projected forecasts and have therefore concluded that it is appropriate to adopt the going concern basis in preparing the interim financial statements. The directors are of the view that the Group will be able to pay its debts as and when they become due and payable from net cash from operating activities and from existing funds on hand.

In the event that the Group is unable to achieve the above, such circumstances would indicate that a material uncertainty exists that may cast significant doubt as to whether the Group will continue as a going concern and therefore may not be able to realise its assets and extinguish its liabilities in the ordinary course of operations and at the amounts stated in the interim financial report.

NOTE 2: DIVIDENDS

There were no dividends paid, recommended or declared during the current or previous financial half-year.

NOTE 3: OPERATING SEGMENTS

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

The Directors have considered the requirements of AASB 8 – Operating Segments and have concluded that at this time there are no separately identifiable reportable segments.

NOTE 10: FAIR VALUE MEASUREMENTS

The Group measures some items of plant and equipment at fair value on a non-recurring basis

a. Valuation Techniques

In the absence of an active market for an identical asset or liability, the Group selects and uses one or more valuation techniques to measure the fair value of the asset or liability. The Group selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Group are consistent with one or more of the following valuation approaches:

- Market approach uses prices and other relevant information generated by market transactions for identical or similar assets or liabilities.
- Income approach converts estimated future cash flows or income and expenses into a single discounted present value.
- Cost approach reflects the current replacement cost of an asset at its current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Group gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

NOTE 10: FAIR VALUE MEASUREMENTS

c. Valuation Techniques Used to Determine Level 3 Fair Values

The fair value of plant and equipment is based on their market value as determined by an independent valuer who has recognised and appropriate professional qualifications and recent experience in the category of plant and equipment being valued. The most recent valuation was conducted on 27 November 2017 and there were no indicators suggesting that the fair value is materially different than the carrying value of plant and equipment at balance date.

The market value is the amount which an asset should exchange at the date of valuation between a willing buyer and willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. The valuation also assumes the assets will be sold by way of a private treaty sale and remain in its current location after the sale.

DIRECTORS' DECLARATION

In accordance with a resolution of the directors of The Food Revolution Group Limited, the directors of the company declare that:

- 1. The financial statements and notes, as set out on pages 6 to 17, are in accordance with the *Corporations Act* 2001, including:
 - a. complying with Accounting Standard AASB 134: Interim Financial Reporting; and
 - b. giving a true and fair view of the Consolidated Group's financial position as at 31 December 2021 and of its performance for the half-year ended on that date.
- 2. In the directors' opinion there are reasonable grounds to believe that the Entity will be able to pay its debts as and when they become due and payable.

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF THE FOOD REVOLUTION GROUP LIMITED

Report on the Half-year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of The Food Revolution Group Limited, which comprises the consolidated statement of financial position as at 31 December 2021, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of The Food Revolution Group Limited does not comply with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of The Food Revolution Group Limited's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
- (ii) complying with Accounting Standard AASB 134: Interim Financial Reporting and the Corporations Regulations 2001.

Basis of Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity.* Our responsibilities are further described in the Auditor's Responsibilities section of our report. We are independent of the The Food Revolution Group Limited in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of The Food Revolution Group Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

Material Uncertainty Related to Going Concern

We draw attention to Note 1(c) in the financial report which indicates that the group incurred a loss after tax of \$1,001,295 during the half-year ended 31 December 2021 and as of that date, the group's current liabilities exceeded its current assets by \$5,046,208. As stated in Note 1(c), these events or conditions, along with other matters as set forth in Note 1(c) indicate the existence of a material uncertainty that may cast significant doubt on the group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Directors' Responsibility for the Half-Year Financial Report

The directors of The Food Revolution Group Limited are responsible for the preparation of the halfyear financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF THE FOOD REVOLUTION GROUP LIMITED

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134: *Interim Financial Reporting and the Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
