

ASX ANNOUNCEMENT

11 March 2022

Investor Webinar

Cyprium Metals Limited ("CYM", "Cyprium" or "the Company") is pleased to invite investors and shareholders to the Cyprium Metals Investor Webinar to be held on Monday 14th March 2022 at 11:00 am AEDT / 08:00 am AWDT.

Cyprium Managing Director, Barry Cahill will provide an update on the government approvals and results of the Nifty Copper Project Restart Study as well as present the recently lodged CYM Restart Study Presentation.

Details of the event are as follows:

Event: Cyprium Metals Investor Webinar

Presenters: Managing Director, Barry Cahill

Time: Monday 14 March 2022, 11:00 am AEDT / 08:00am AWDT

Where: Zoom Webinar, details to be provided upon registration. To register your interest for the webinar please click through to the link below.

Registration Link:

<https://janemorganmanagement-au.zoom.us/j/82019309517?pwd=TVhXcE5yMzIDVzhJaHFORENzRWJaUT09>

After registering your interest, you will receive a confirmation email with information about joining the webinar. Participants will be able to submit questions via the Panel throughout the presentation, however, given we are expecting a large number of attendees we encourage shareholders to send through questions via email beforehand to lexi@janemorganmanagement.com.au

This ASX announcement was approved and authorised by the Managing Director.

About Cyprium Metals Limited

Cyprium Metals Limited (ASX: CYM) is an ASX listed company with copper projects in Australia. The Company has a highly credentialed management team that is experienced in successfully developing sulphide heap leach copper projects in challenging locations. The Company's strategy is to acquire, develop and operate mineral resource projects in Australia which are optimised by innovative processing solutions to produce copper metal on-site to maximise value.

The Company has projects in the Murchison and Paterson regions of Western Australia that is host to a number of base metals deposits with copper and gold mineralisation.

Paterson Copper Projects

This portfolio of copper projects comprises the Nifty Copper Mine, Maroochydore Copper Project and Paterson Exploration Project.

The Nifty Copper Mine ("Nifty") is located on the western edge of the Great Sandy Desert in the north-eastern Pilbara region of Western Australia, approximately 330km southeast of Port Hedland. Nifty contains a 2012 JORC Mineral Resource of 732,200 tonnes of contained copperⁱ. Cyprium is focussed on a heap leach SX-EW operation to retreat the current heap leach pads as well as open pit oxide and transitional material. Studies will investigate the potential restart of the copper concentrator to treat open pit sulphide material.

The Maroochydore deposit is located ~85km southeast of Nifty and includes a shallow 2012 JORC Mineral Resource of 486,000 tonnes of contained copperⁱⁱ. Aeris Resources Limited (ASX: AIS, formerly Straits Resources Limited) holds certain rights to "buy back up to 50%" into any proposed mine development in respect of the Maroochydore Project, subject to a payment of 3 times the exploration expenditure contribution that would have been required to maintain its interest in the project.

An exploration earn-in joint venture has been entered into with IGO Limited on ~2,400km² of the Paterson Exploration Project. Under the agreement, IGO is to sole fund \$32 million of exploration activities over 6.5 years to earn a 70% interest in the Paterson Exploration Project, including a minimum expenditure of \$11 million over the first 3.5 years. Upon earning a 70% interest, the Joint Venture will form and IGO will free-carry Paterson Copper to the completion of a pre-feasibility study (PFS) on a new mineral discovery.

Murchison Copper-Gold Projects

Cyprium has an 80% attributable interest in a joint venture with Musgrave Minerals Limited (ASX: MGX) at the Cue Copper-Gold Project, which is located ~20km to the east of Cue in Western Australia. Cyprium will free-carry the Cue Copper Project to the completion of a definitive feasibility study (DFS). The Cue Copper-Gold Project includes the Hollandaire Copper-Gold Mineral Resources of 51,500 tonnes contained copperⁱⁱⁱ, which is open at depth. Metallurgical test-work has been undertaken to determine the optimal copper extraction methodology, which resulted in rapid leaching times (refer to 9 March 2020 CYM announcement, "*Copper Metal Plated*", <https://cypriummetals.com/copper-metal-plated/>).

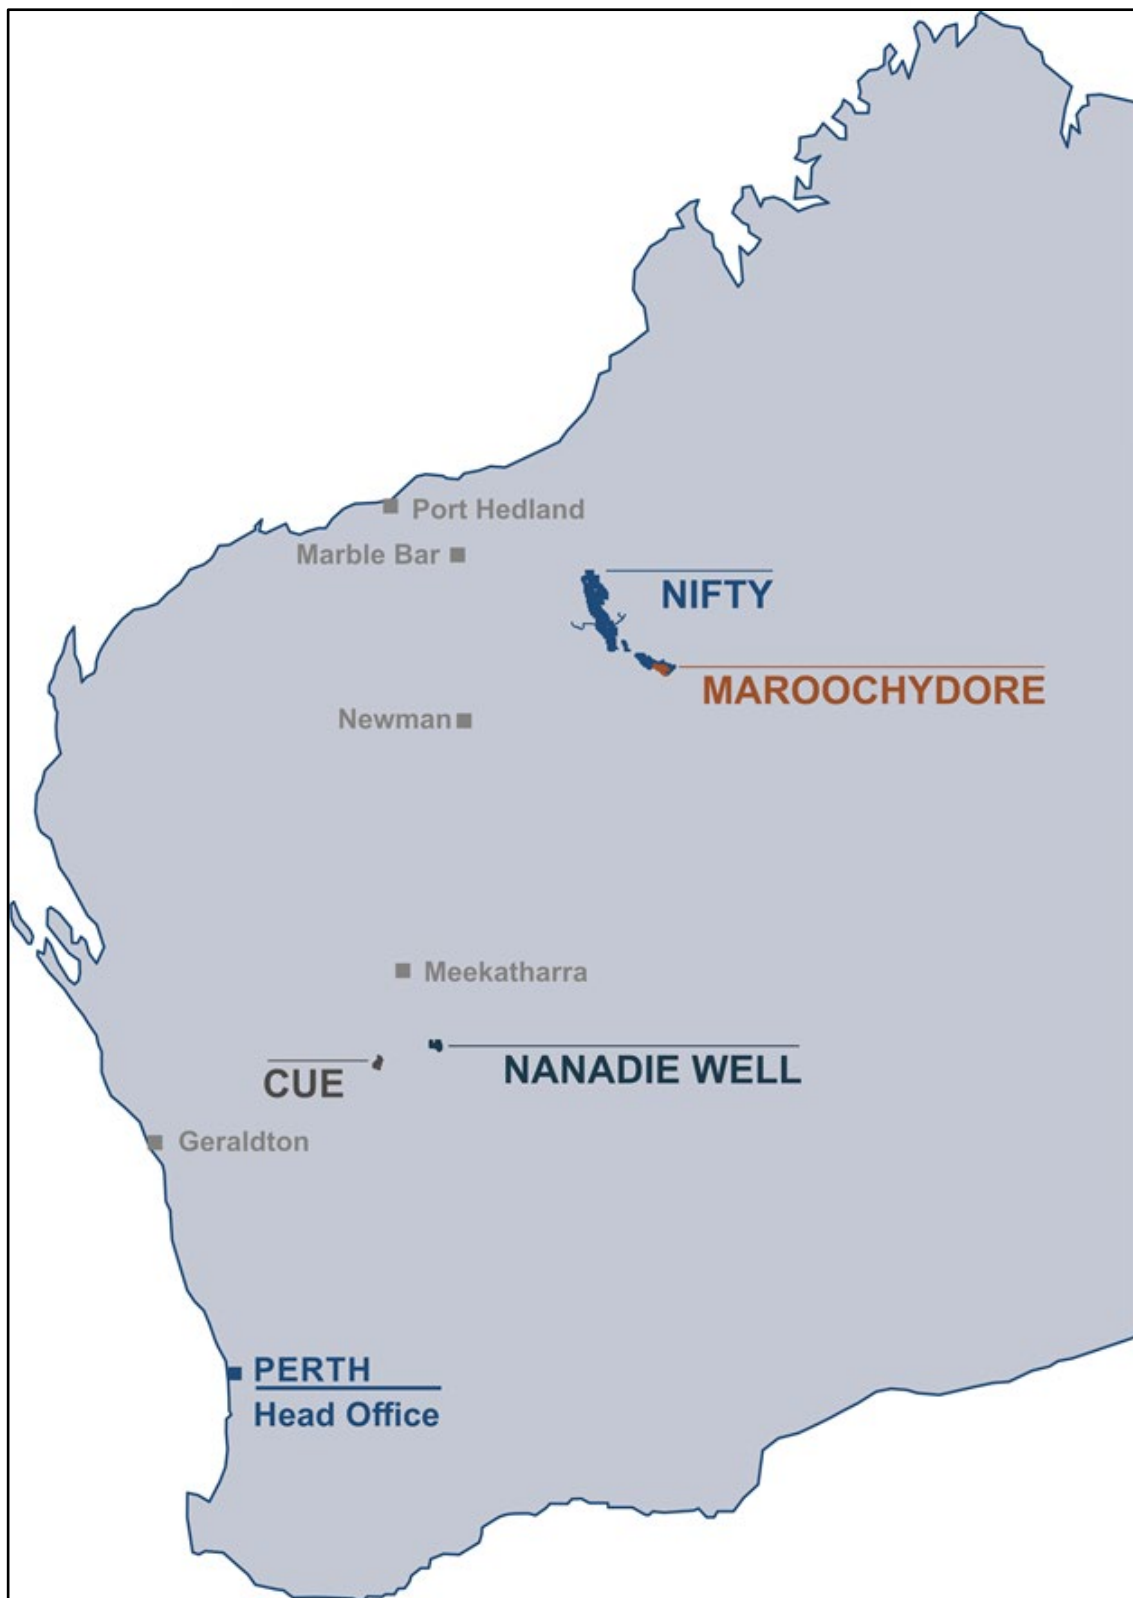

The Nanadie Well Project is located ~650km northeast of Perth and ~75km southeast of Meekatharra in the Murchison District of Western Australia, within mining lease M51/887.

The Cue and Nanadie Well Copper-Gold projects are included in an ongoing scoping study, to determine the parameters required to develop a copper project in the region, which provides direction for resource expansion work.

ⁱ Refer to CYM ASX announcement dated 17 November 2021 "*Updated Nifty Copper Mineral Resource Estimate*"

ⁱⁱ Refer to MLX ASX announcements: 10 March 2020, "*Nifty Copper Mine Resource Update*" and 18 August 2016, "*Annual Update of Mineral Resources and Ore Reserves*"

ⁱⁱⁱ Refer to CYM ASX announcement: 29 September 2020, "*Hollandaire Copper-gold Mineral Resource Estimate*"
