Principal Activities

The principal activities of the Consolidated Entity during the interim period consisted of exploration and evaluation of Sulphate of Potash (SOP) projects in the Laverton region of Western Australia.

Review of Operations

Introduction

During the six months to 31 December 2021, the Company completed a positive Scoping Study on its high-grade Lake Throssell Sulphate of Potash (**SOP**) Project (**Lake Throssell**), confirming the potential to develop a long-life, top-10 global SOP operation with low operating costs and robust financials. The positive outcomes of the Scoping Study supported the immediate commencement of Pre-Feasibility Study (**PFS**) activities.

The Company also secured the grant of two exploration tenements covering the Eastern half of the Lake Yeo Project area and commenced fieldwork for a maiden gravity survey at Lake Yeo. Subsequent to 31 December 2021, the Company raised \$4 million (before costs) in an oversubscribed rights issue and placement to fund the ongoing evaluation of Lake Throssell.

In summary, the Company achieved the following key milestones during the reporting period:

Lake Throssell Sulphate of Potash Project

- Upgraded the Mineral Resource Estimate to 14.4Mt @ 4,665mg/L potassium (K) (or 10.4kg/m³ K₂SO₄) including 4.2Mt at 4,770mg/L K (or 10.6kg/m³ K₂SO₄) in the Indicated category;
- Completed a positive Scoping Study indicating the potential to develop lowest-cost quartile, top-10 global SOP operation;
- Commenced Pre-Feasibility Study activities including an in-fill gravity survey;
- Progressed environmental baseline surveys; and
- Subsequent to the end of the reporting period, secured the grant of the remaining exploration tenements, E38/3458, E38/3483, E38/3435 and E38/3544.

Lake Yeo Sulphate of Potash Project

- Secured the grant of two exploration tenements covering the eastern half of the Lake Yeo Project area; and
- Commenced fieldwork for a maiden gravity survey.

Lake Throssell Sulphate of Potash Project

(E38/3065, E38/3458, E38/3483, E38/3537 and E38/3544)

The Lake Throssell SOP Project is located ~170km east of Laverton, Western Australia, and is situated close to established transport infrastructure (Figures 1 and 2). The Project lies adjacent to the Great Central Road which connects Laverton through to the Northern Territory and Queensland and which is being upgraded to form the Outback Highway a key piece of national infrastructure that will also deliver significant infrastructure and logistical benefits to the Lake Throssell Project. The Project is located just 20km from the Gold Road's Gruyere Gold Mine.

The Project covers a total area of 1,085km² and encompasses the Lake Throssell playa lake and underlying palaeovalley for more than 70km in strike length.

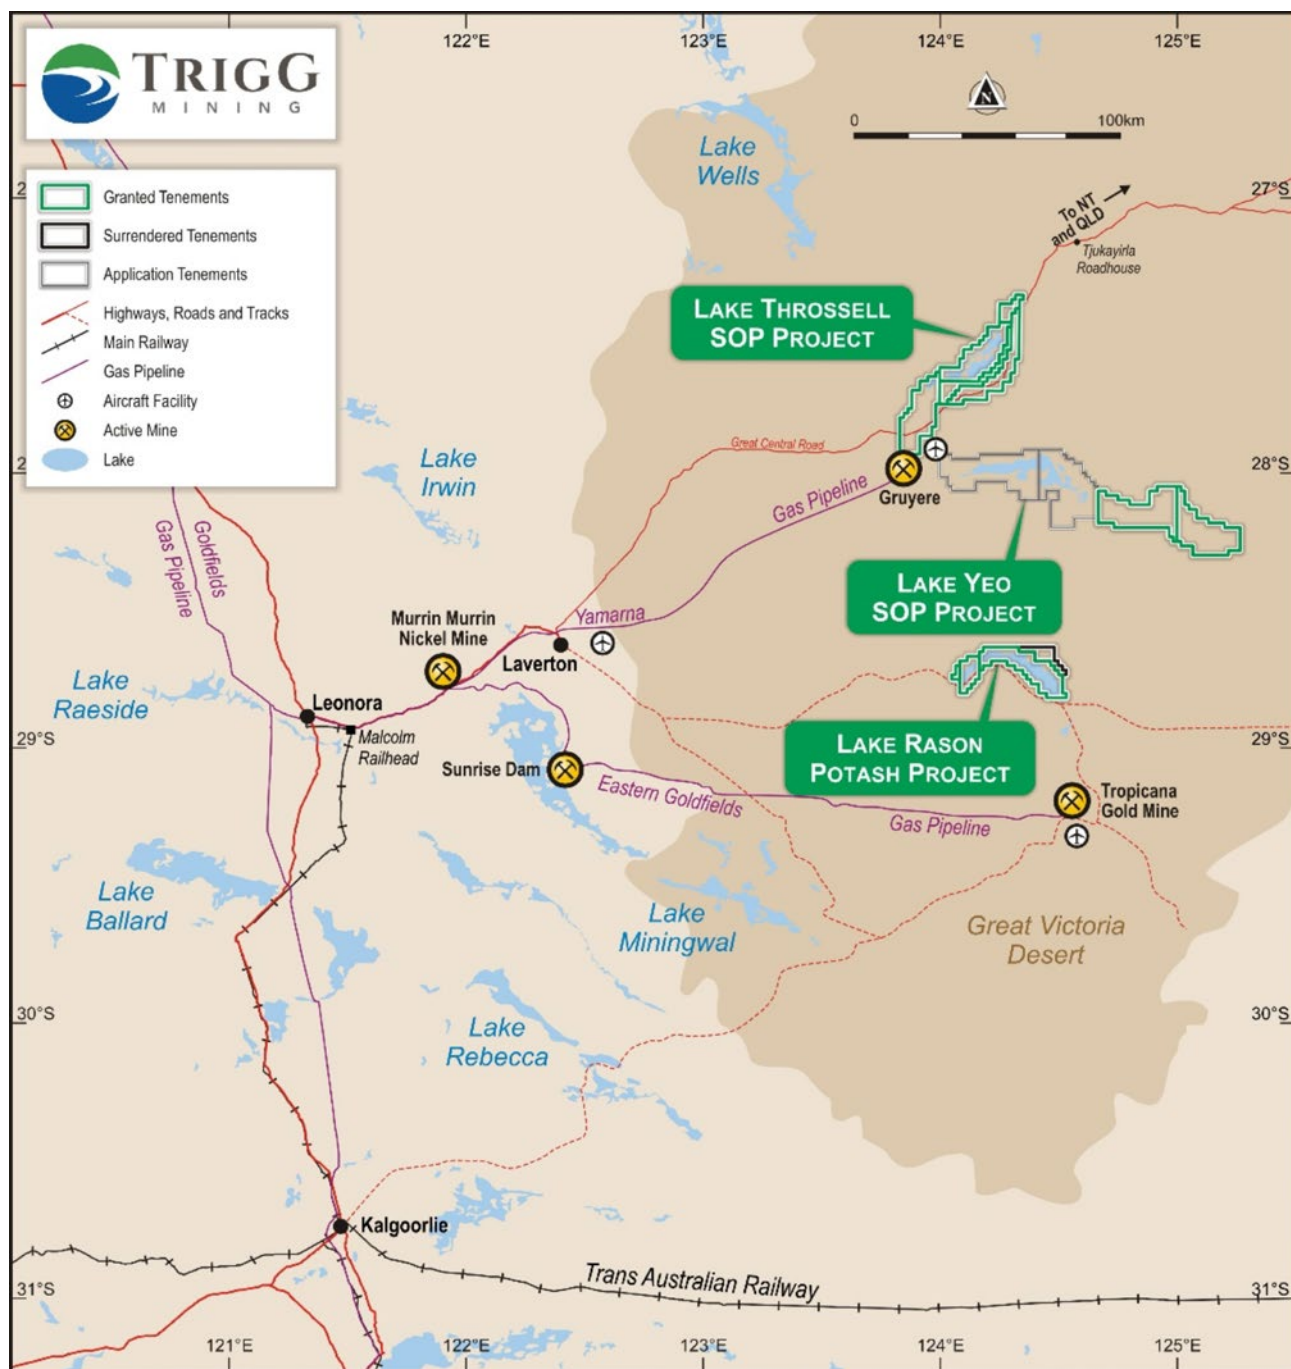

FIGURE 1: LOCATION OF TRIGG MINING'S SULPHATE OF POTASH PROJECTS

During the reporting period, the Company completed a Positive Scoping Study for the Lake Throssell SOP Project (**Project**) based on the harvesting of brine water from subterranean aquifers and processing it using evaporation ponds, a processing plant and other supporting infrastructure to produce a naturally forming potassium-rich salt, potassium sulphate

(or Sulphate of Potash) which is used globally as a fertiliser and in other industrial purposes.

Natural Sulphate of Potash is a highly efficient mineral fertiliser providing two of the four macro nutrients for plant growth essential for food production and shown to increase root matter – necessary for carbon farming as a climate change mitigant.

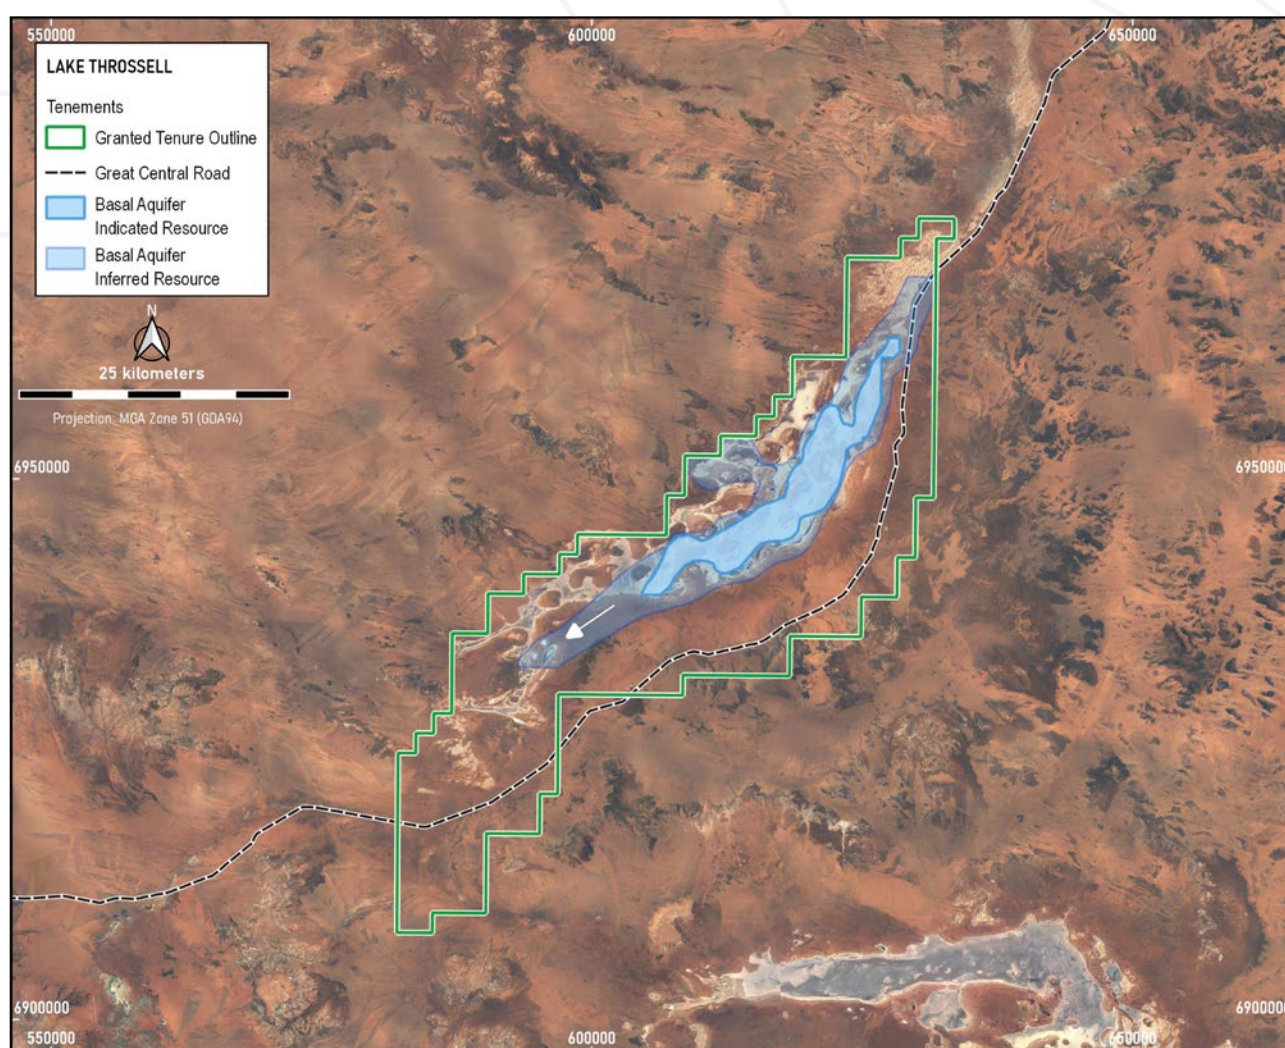

FIGURE 2: THE LAKE THROSSELL SOP PROJECT

Key highlights of the Scoping Study are:

- Substantial utilisation of solar energy – using solar evaporation and 5MW solar power plant;
- Low greenhouse gas (**GHG**) emissions 0.17t CO₂ equiv/t SOP with pre-feasibility to investigate further reductions in GHG emissions;
- Annual nameplate Production Target of 245ktpa SOP over an initial Life-of-Mine (LOM) of 21 years;
- LOM Production Target is 41% of the Total Drainable Mineral Resource;
- Approximately 82% of the payback period is from Indicated Mineral Resources and 70% over the LOM Indicated;
- A LOM average cash operating cost of \$341/t SOP and an all-in sustaining cost of \$372/t SOP;
- An initial capital cost of \$378M, including a \$70M contingency with an accuracy of ±25-35%;
- Lake Throssell will generate an average EBITDA of \$97 million per annum at a US\$550/t SOP price; and
- Robust financials which confirm the potential for Lake Throssell to be a top 10 global SOP Project.

Full Details of the Lake Throssell Scoping Study were provided in the Company's ASX Announcement dated 5 October 2021.

Based on the success of the Scoping Study, work commenced during the interim period to support a Pre-Feasibility Study (PFS) for the Lake Throssell Project. The field work for an infill gravity survey (Figure 3) was undertaken during the interim period for 220 line-kilometres with lines spaced 1km apart and stations spaced at 200m. The survey is designed to refine the locations for the test-production bores to be drilled in 2022 to support the estimation of an Ore Reserve for the PFS.

Interpretation of the survey results is expected to be completed during the March Quarter.

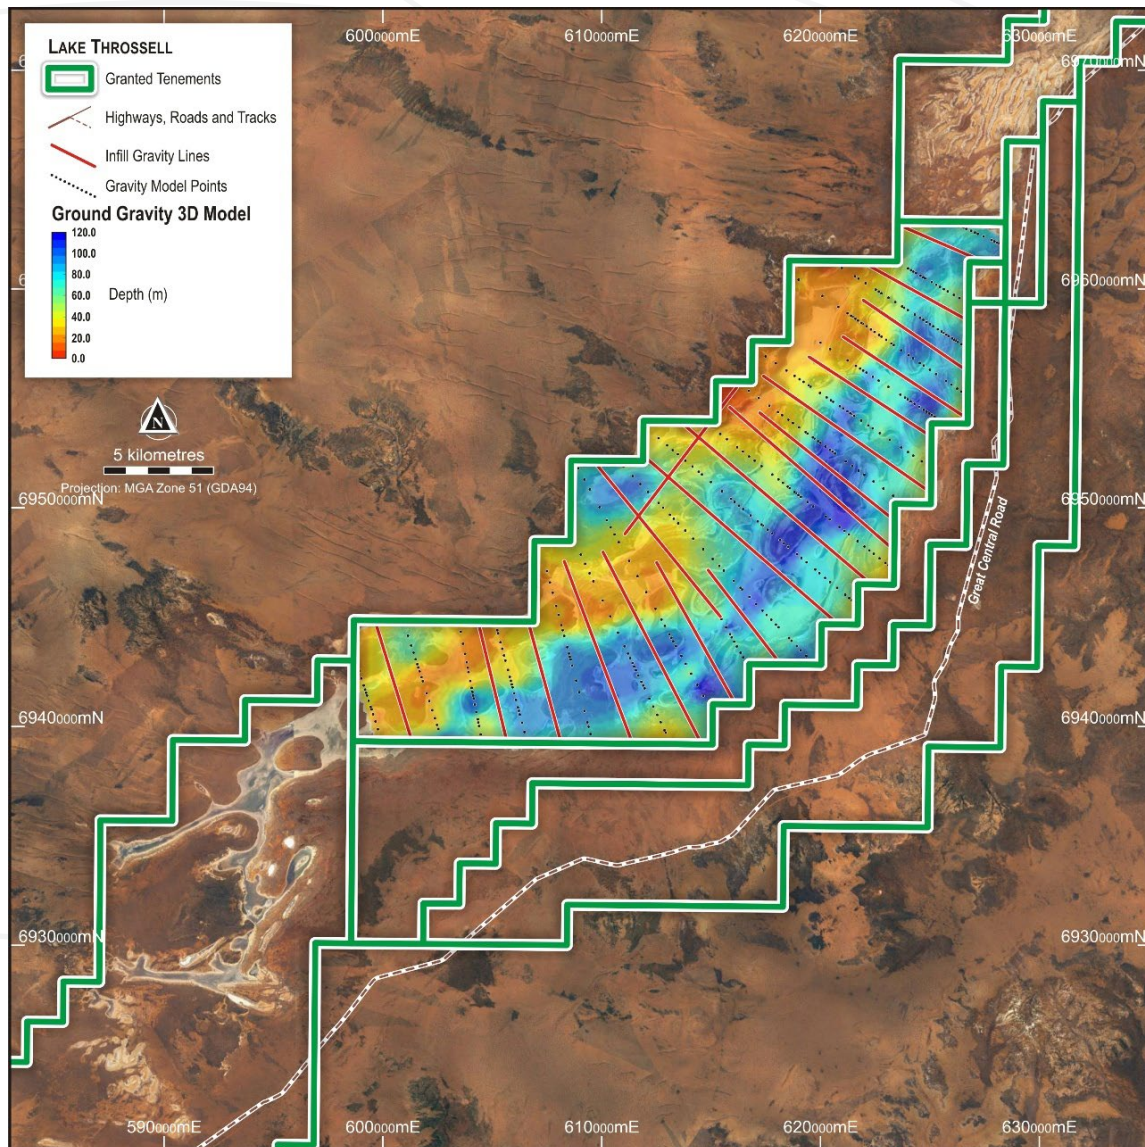

FIGURE 3: LAKE THROSSELL GRAVITY INTERPRETATION AND LOCATION OF INFILL PROGRAM

Lake Yeo Sulphate of Potash Project

(E38/3607, E38/3608, E38/3610, E38/3851)

The Lake Yeo Project is located from 35km to the south of Lake Throssell SOP Project (Figure 1) and covers an area of 1,915km², with over 200km² of playa and approximately 130km of interpreted palaeovalley.

Radiometric potassium (K) intensity¹ shows elevated K at the lake surface compared to the surrounding regolith to a greater extent than Lake Throssell and the Aster Gypsum Index maps high levels of gypsum that indicates the presence of sulphate (SO₄) at the surface (Figure 4 & 5). These signatures suggest that Lake Yeo may potentially contain brine of similar grade and composition to Lake Throssell.

Following the execution of a Heritage Protection and Land Access Agreement with the Nangaanya-ku, Traditional Owners of Lake Yeo, tenements E35/3610 and E69/3851 were granted during the reporting period.

The fieldwork for a maiden 170 line-kilometre gravity survey was completed to assist in defining the underlying palaeovalley and potential storage capacity for the aquifer. Interpretation of the results is expected to be released during the March Quarter.

Lake Yeo is an important strategic asset within Trigg's project portfolio and provides additional growth opportunity for the Lake Throssell SOP Project.

FIGURE 5: GYPSUM INTENSITY OF LAKES THROSSSELL AND YEO

Lake Rason Sulphate of Potash Project

(E38/3089, E38/3437, E38/3464)

The Lake Rason SOP Project is ~170km east of Laverton (Figure 6). The Project lies adjacent to the Rason Lake Road and is approximately 60km north of the Tropicana Gold Mine. The Project comprises three granted tenements covering an area of 425km² and encompassing the Lake Rason playa lake and underlying palaeochannel.

As part of the Lake Throssell Scoping Study, the project economics of Lake Rason was evaluated. Given the lower grade and smaller scale of the deposit, the Company considers Lake Rason to be lower priority and has applied for and received retention status for E38/3089.

During the reporting period, E38/3463 was granted and E38/3298 was surrendered.

No further work is currently planned for Lake Rason.

Trigg Mining Limited (**Trigg Mining** or the **Company**) is a public company limited by shares incorporated and domiciled in Australia whose shares are publicly traded on the Australian Securities Exchange (**ASX**). The consolidated interim financial report for the period ended 31 December 2021 comprises the Company and its subsidiary (together referred to as the **Consolidated Entity**). The interim financial report was authorised for issue in accordance with a resolution of the directors on 15 March 2022.

2 Basis of preparation

(a) Statement of compliance

This interim financial report for the half year reporting period ended 31 December 2021 has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the Corporations Act 2001. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

This interim financial report does not include full disclosures of the type normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the Company as in the full financial report.

It is recommended that this interim financial report be read in conjunction with the annual financial report for the year ended 30 June 2021 and considered together with any public announcements made by Trigg Mining up to the date of this report in accordance with the continuous disclosure requirements arising under the Corporations Act 2001 and the ASX Listing Rules.

(b) Basis of measurement

The interim financial report has been prepared on a historical cost basis. The interim financial report is presented in Australian dollars and all values rounded to their nearest dollar unless otherwise stated.

The financial statements provide comparative information in respect of the previous period.

(c) Going Concern

The interim financial statements have been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

Notwithstanding the fact that the Consolidated Entity incurred a loss of \$1,112,162 (2020: \$1,627,632) and had net cash outflows from operating activities of \$1,884,307 (2020: \$1,478,166), the directors are of the opinion that there are reasonable grounds to believe that the Consolidated Entity will be able to continue as a going concern for the following reasons:

- The Company has access to cash reserves of \$2,303,367 as at 31 December 2021 (30 June 2021: \$4,104,012).
- The Company has raised \$4 million (before costs) subsequent to interim period end.
- The Company has the ability to adjust its exploration expenditure subject to results of its exploration activities.

(d) Significant accounting policies

The accounting policies and methods of computation adopted are consistent with those of the previous financial year and corresponding interim reporting period. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

(e) Accounting estimates and judgements

The preparation of the interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this interim financial report, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements as at and for the year ended 30 June 2021.

(f) Adoption of new and revised standards*Standards and Interpretations applicable to 31 December 2021*

In the half-year ended 31 December 2021, the directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Company and effective for the current annual reporting period. As a result of this review, the directors have determined that there is no material impact of the new and revised Standards and Interpretations on the Company and, therefore, no material change is necessary to the Company's accounting policies.

Standards and Interpretations in issue not yet adopted

The directors have also reviewed all Standards and Interpretations on issue not yet adopted for the half year ended 31 December 2021. As a result of this review the directors have determined that there is no material impact of the Standards and Interpretations on issue not yet adopted on the Company and, therefore, no change is necessary to the Company's accounting policies.

The following table gives the assumptions made in determining the fair value of options on the date of grant:

Grant date	Expiry Date	Fair value per option	Exercise price	Price of shares on grant date	Estimated volatility	Risk free interest rate	Dividend yield
17 Sep 2020 ²	31 Oct 2022	\$0.089	\$0.25	\$0.19	100%	0.23%	Nil

23 Nov 2021	23 Nov 2026	\$0.068	\$0.149	\$0.099	100%	1.44%	Nil

The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may not necessarily be the actual outcome.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Trigg Mining Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Trigg Mining Limited (the Company) and its subsidiary (the Group), which comprises the consolidated statement of financial position as at 31 December 2021, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2021 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the directors for the financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

INDEPENDENT AUDITOR'S REVIEW REPORT

**Auditor's responsibility for the review of the financial report**

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the Company's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
