## Review of Operations

### Exploration and Evaluation

Zuleika's tenement portfolio is illustrated in the following Figure 1.

**Figure 1 - Zuleika Gold's tenement portfolio in Western Australia. Inset Kalgoorlie / Menzies Projects**

Zuleika Gold's presence in the gold-rich Kalgoorlie region gives the Company scope to undertake exploration on relatively under-explored ground in this world class gold region.

In October 2019, Zuleika Gold entered into two joint ventures in the world class Kalgoorlie Goldfield; the namesake Zuleika Project (~220 km<sup>2</sup>) centred around the prolific Zuleika Shear Zone; and the Credo Well Project (~12 km<sup>2</sup>) located northeast of the Mt Pleasant gold mining centre. The Zuleika and Credo areas have generated ~20 million ounces of gold and contain a number of producing gold mines currently operated by Evolution and Zijin (Norton Goldfields).

# DIRECTORS' REPORT

## Review of Operations (CONTINUED)

In January 2019, Zuleika Gold acquired the rights to earn up to 80% in two tenements covering an area of ~400 km<sup>2</sup> north of Kalgoorlie in the gold mining centres of Goongarrie and Menzies.

In 2018, Zuleika Gold purchased 100% of the Ruby Plains Gold Project from private vendors. The project is located in the Kimberley region of Western Australia, 70km SSE of the township and historical goldfield at Halls Creek and covers ~1,000 km<sup>2</sup> of paleo-placer deposits which have characteristics similar in terms of age and genesis to the paleo-sedimentary multi-million-ounce gold deposits of the rich Californian goldfields.

Zuleika Gold is in dispute with Vango Mining Limited (ASX: VAN) over the Company's right to earn up to a 50% interest in the K2 Mine in accordance with a binding farm-in joint venture agreement, for the expenditure of up to \$3M on pre-development expenditure. The K2 Mine has a 1.4km developed decline to the ore blocks and contains Resources of 107,000 ounces at 8.9 g/t Au which includes 67,000 ounces at 10.9 g/t. The mine requires dewatering and refurbishment of the decline prior to gold production. Vango has challenged Zuleika's rights to earn-in to the K2 Mine and the matter is now the subject of a legal dispute before the Courts of Western Australia.

On 1 February 2021, the Company announced the commencement of a 30,000m exploration program, which was designed to advance exploration on the Zuleika Project, specifically: Paradigm East Prospect; Browns Dam Prospect; Breakaway Dam Prospect and follow-up work on the Credo Well Gold Prospect; together with testing new prospect areas with drilling and early-stage reconnaissance exploration.

By the end of 2021 the Company had advanced the program and to date has drilled ~78% of the planned 30,000m, totalling 23,370m including, 18,246m of aircore (AC) and 5,124m of reverse circulation (RC) drilling.

Results to date from the program have confirmed the highly prospective nature of the Company's gold project portfolio and support its strategy to test known targets for continuity of mineralisation and simultaneously define new potential targets in new prospects.

The work continues to be undertaken in a highly efficient and effective manner by Zuleika Gold's technical and drilling teams.

In addition to the drilling, Zuleika Gold will continue to systematically carry out soil sample surveys on a number of other tenements within the Company's portfolio, using a cutting-edge ultrafine assay technique developed by the CSIRO, which is an excellent tool for defining subtle gold anomalies in soil covered terrain, generating more targets to drill test.

Zuleika Gold's project area is extensive and contains several major structural zones and secondary structures off these zones that are considered to have high potential for hosting economic mineralisation.

Zuleika Gold is working systematically to evaluate the entire project area in the most cost-effective manner.

This methodology is producing consistently good gold results, allowing the ranking of the prospects based on those which have the best chance of hosting economic gold resources. The results have confirmed and enhanced our working geological models, which are providing increasing confidence that our exploration goals will be achieved.

## Financial Result

The loss after tax for the half-year ended 31 December 2021 was \$1,964,870 (2020: loss of \$4,623,969).

## Events Subsequent to Reporting Date

On 18 January 2022, the Company announced (subject to receiving shareholder approval at a General Meeting to be held on 18 March 2022) a private placement to Mr Mark Creasy of 100,000,000 fully paid ordinary shares, at an issue price of \$0.03 per share, and 100,000,000 free attaching options as follows:

- 50,000,000 options each exercisable at \$0.05 and expiring on 28 February 2025;
- 30,000,000 options each exercisable at \$0.07 and expiring on 28 February 2025; and
- 20,000,000 options each exercisable at \$0.10 and expiring on 28 February 2025.

On 25 January 2022, 3,000,000 fully paid ordinary shares were issued following the exercise of 3,000,000 options each exercisable at \$0.02 and expiring 31 January 2022.

On 2 February 2022, the Company issued 500,000 fully paid ordinary shares, at a deemed issue price of \$0.02 per share, in consideration for the acquisition of the Gold Rights for Mining Leases M29/417 and M29/418.

On 10 February 2022, the Company announced the passing of Mr Malcolm Carson (executive Chairman) and the appointment of Mr Michael Higginson as a non-executive director.

On 14 February 2022, the Company announced a major 20,000m expansionary drilling program at its Kalgoorlie gold projects.

On 4 March 2022, the Company announced that 4,000,000 Performance Rights (issued on 13 January 2020) had lapsed as a result of the passing of Mr Carson.

No other material subsequent events have occurred from balance date to the date of this report.

# CONDENSED NOTES TO THE FINANCIAL STATEMENTS

for the half-year ended 31 December 2021

## 1. Basis of preparation of interim financial report

Zuleika Gold Limited (**Zuleika Gold** or **Company**) is a public company limited by shares incorporated in Australia whose shares are quoted on the Australian Securities Exchange.

These financial statements comprise the Company and a dormant subsidiary. The half-year financial statements are therefore prepared as a Company. The half-year financial statements were authorised for issue by the Board of Directors on 16 March 2022.

This interim financial report for the half-year period ended 31 December 2021 has been prepared in accordance with accounting standard AASB 134 Interim Financial Reporting and the Corporations Act 2001. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

This interim financial report does not include full disclosures of the type normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the Group as in the full financial report.

It is recommended that this interim financial report be read in conjunction with the annual financial report for the financial year ended 30 June 2021 and considered together with any public announcements made by Zuleika Gold during the half-year ended 31 December 2021 in accordance with the continuous disclosure requirements arising under the Corporations Act 2001 and the ASX Listing Rules.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the impact of any new or amended standards became applicable for the current reporting period.

## 2. Summary of Significant Accounting Policies

### (a) Exploration and evaluation expenditure

Exploration and evaluation expenditures in relation to each separate area of interest is recognised as an exploration and evaluation asset in the year in which they are incurred where the following conditions are satisfied:

- (i) the rights to tenure of the area of interest are current; and
- (ii) at least one of the following conditions is also met:
  - (a) the exploration and evaluation expenditures are expected to be recouped through successful development and exploration of the area of interest, or alternatively, by its sale; or
  - (b) exploration and evaluation activities in the area of interest have not at the reporting date reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active operations in, or in relation to, the area of interest are continuing.

Exploration and evaluation assets are initially measured at cost and include acquisition of rights to explore, studies, exploratory drilling, trenching and sampling and associated activities directly related to each area of interest. Consultants fees related to the overall exploration programmes are allocated across the tenements on a pro-rata basis. General and administrative costs are only included in the measurement of exploration and evaluation costs where they are related directly to operational activities in a particular area of interest.

Exploration and evaluation assets are assessed for impairment when facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount. The assessment of impairment indicators as per AASB 6 is undertaken at least annually. Where there are impairment indicators, the recoverable amount of the exploration and evaluation asset is estimated to determine the extent of the impairment loss (if any). Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in previous years.

Where a decision is made to

- (i) abandon the entire area of interest; or
- (ii) allow the entire area of interest to expire without renewal; or
- (iii) it is reasonably likely that the area of interest will expire in the near future; or
- (iv) a decision is made to no longer undertaken exploration work,

then the exploration and evaluation assets will be written off.

Where a decision has been made to proceed with development in respect of a particular area of interest, the relevant exploration and evaluation asset is tested for impairment and the balance is then reclassified to development.

## 2. Summary of Significant Accounting Policies (cont)

### (b) New and revised accounting standards adopted by the Company

All the new standards and interpretations effective from 1 July 2021 were adopted. The adoption of the new or amended standards and interpretations did not result in any significant changes to the Company's accounting policies. The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

### (c) Going concern

The financial report has been prepared on a going concern basis.

The Board considers that there are sufficient grounds to believe that the Company will be able to continue to pay its debts as and when they fall due. This is based on future cash forecasts, existing cash reserves and the ability to significantly reduce activity to preserve cash if necessary. Furthermore, the Directors are also of the opinion that a capital raising could be achieved to raise additional funds if required. Subsequent to the end of the half-year, the Company agreed to issue 100,000,000 fully paid ordinary shares to raise \$3,000,000 (before costs), subject to receiving shareholder approval in March 2022.

## 3. Segment Information

The Company operates predominantly in the mineral exploration industry in Australia. For management purposes, the Company is organised into one main operating segment which involves the exploration of minerals in Australia. All of the Company's activities are interrelated and discrete financial information is reported to the Board (Chief Operating Decision Maker) as a single segment. Accordingly, all significant operating decisions are based upon analysis of the Company as one segment. The financial results from this segment are equivalent to the financial statements of the Company as a whole.

## 4. Loss from continuing operations

## DIRECTORS' DECLARATION

The Directors declare that:

- (a) The financial statements and notes, as set out on pages 7 to 20, are in accordance with the Corporations Act 2001, including:
  - i. complying with Accounting Standard AASB 134 – Interim Financial Reporting and the Corporations Regulations 2001; and
  - ii. giving a true and fair view of the Company's financial position as at 31 December 2021 and of its performance, as represented by the results of its operations and its cash flows, for the half-year ended on that date.
- (b) In the Directors' opinion there are reasonable grounds to believe that Zuleika Gold Limited will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the Directors made pursuant to s.303(5) of the Corporations Act 2001.

On behalf of the Directors

**Annie Guo**

**Managing Director**

**Dated this 16 March 2022**

**INDEPENDENT AUDITOR'S REVIEW REPORT  
TO THE MEMBERS OF  
ZULEIKA GOLD LIMITED**

**Report on the Half-Year Financial Report**

**Conclusion**

We have reviewed the half-year financial report of Zuleika Gold Limited, which comprises the statement of financial position as at 31 December 2021, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Zuleika Gold Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Zuleika Gold Limited's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

**Basis for Conclusion**

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* has been given to the directors of the Company on 16 March 2022.

**Responsibility of the Directors for the Financial Report**

The directors of the Zuleika Gold Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility for the Review of the Financial Report***

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2021 and its performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
