# Disclaimer

**Forward Looking Statements:** This presentation has been prepared by Strickland Metals Limited (STK). The information contained in this presentation is a professional opinion only and is given in good faith. Certain information in this document has been derived from third parties and though STK has no reason to believe that it is not accurate, reliable or complete, it has not been independently audited or verified by STK. This presentation is in summary form and does not purport to be all inclusive or complete. Recipients should conduct their own investigations and perform their own analysis in order to satisfy themselves as to the accuracy and the completeness of the information, statements and opinions contained. This is for information purposes only. Neither this nor the information contained in it constitutes an offer, invitation, solicitation or recommendation in relation to the purchase or sale of STK shares in any jurisdiction. This does not constitute investment advice and has been prepared without taking into account the recipient's investment objectives, financial circumstances or particular needs and the opinions and recommendations in this presentation are not intended to represent recommendations of particular investments to particular persons. Recipients should seek professional advice when deciding if an investment is appropriate. All securities transactions involve risks, which include (among others) the risk of adverse or unanticipated market, financial or political developments. To the fullest extent permitted by law, STK, its officers, employees, related bodies corporate, agents and advisors do not make any representations or warranty, express or implied, as to the currency, accuracy, reliability or completeness of any information, statements, opinions, estimated, forecasts or other representations contained in this presentation. No responsibility for any errors or omissions from this arising out of negligence or otherwise is accepted. Any forward looking statements included in this document involve subjective judgment and analysis and are subject to uncertainties, risks and contingencies, many of which are outside the control of, and may be unknown to, STK. In particular, they speak only as of the date of this document, they assume the success of STK's strategies, and they are subject to significant regulatory business, competitive and economic uncertainties and risks. Actual events may vary materially from the forward-looking statements and the assumptions on which the forward-looking statements are based. Recipients of this document are cautioned to not place undue reliance on such forward-looking statements.

**Competent Person Statement:** The information in this presentation that relates to Exploration Results and Mineral Resources has been extracted from various STK ASX announcements and are available to view on the STK website at [www.stricklandmetals.com.au](http://www.stricklandmetals.com.au) or through the ASX website at [www.asx.com.au](http://www.asx.com.au) (using ticker code "STK"). STK confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

**Exploration Targets Cautionary Statement:** This presentation may comment on and discuss STK's exploration in terms of target size and type. The information relating to Exploration Targets should not be misunderstood or misconstrued as an estimate of Mineral Resources or Ore Reserves. The potential quantity and quality of material discussed as Exploration Targets is conceptual in nature since there has been insufficient work completed to define them as Mineral Resources or Ore Reserves. It is uncertain if further exploration work will result in the determination of a Mineral Resource or Ore Reserve. Any Exploration Targets referred to in this presentation are not Mineral Resources. The Potential quantity and grade of the Exploration targets are conceptual in nature and there has been insufficient exploration to determine a Mineral Resource. There is no certainty that additional exploration work will result in the estimation and reporting of Mineral Resources.

# 2022: Strickland's most exciting year yet...

## ✓ 2021: Major reset for the Company

- New Board and Management in April 2021
- Approximately AUD30m fresh equity capital raised
- Major consolidation of gold tenure over NE Flank of Yandal belt – current resource 600k ozs Au
- New discovery at Iroquois Zn-Pb

## ✓ 2022: Major Drilling Programs Underway

- 23,000m RC and Diamond program underway – assays to start flowing in coming weeks
- 3<sup>rd</sup> rig to be added in May 2022
- 4<sup>th</sup> rig (aircore) to commence 30,000m program H2 2022

## Board

---

Anthony McClure (Non Executive Chairman)	Highly experienced executive and geologist; ex Nickel Mines Ltd, Bolnisi Gold NL, European Gas Ltd; current Managing Director Silver Mines Ltd
Mark Cossom (Non Executive Director)	Current Managing Director Gateway Mining Ltd; formerly Doray Minerals and was manager of Horse Well Project
David Morgan (Non Executive Director)	30+ years experience in Australia and Africa; current Non Executive Director DiscovEx Resources Ltd
Trent Franklin (Non Executive Director)	Managing Director Enrizen Financial Group; NED or Co Sec involvement with Silver Mines Ltd, Gateway Mining Ltd, Futura Resources Ltd; prev Australian Olympic Committee

## Key Management

---

Andrew Bray  
(Chief Executive Officer)

10+ years in formation, financing and development of natural resource companies, incl Gateway Mining Ltd, Silver Mines Ltd, Futura Resources Ltd amongst others.

Peter Cash  
(Operations Manager)

A highly experienced mining executive with more than 25 years' experience working both in Australia and overseas. He has previously held a range of senior executive positions in Corporate Development, Exploration and Investor Relations with junior and mid-tier ASX-listed resource companies including CRA Exploration, Rio-Tinto, Focus Minerals, Noble Mineral Resources, Talisman Mining and until 2019, was the CEO of mid-tier gold producer Millennium Minerals.

Peter Langworthy  
(Technical Manager)

Highly respected geologist; previous director Gateway Mining Ltd, Silver Mines Ltd, Capricorn Metals Ltd, Northern Star Resources Ltd, Talisman Mining Ltd, amongst others

Richard Pugh  
(Geology Manager)

Previously worked as a project geologist for Doray Minerals Limited and Barrick Gold Corporation. He has held management roles at ASX-listed entities Auris Minerals Limited and RNI NL.

Sleiman Majdoub  
(Company Secretary)

Solicitor with significant experience in advising ASX Listed companies, incl Gateway Mining Ltd and Silver Mines Ltd

## Millrose Overview

# Millrose Project Overview

## Millrose Gold and Millrose East:

- Nine exploration licenses and one mining lease application covering over 600km<sup>2</sup> tenement holding adjacent to STK's recently acquired (from RNX), Yandal East project
- Existing 346K oz Au inferred + indicated resource (JORC 2012) – CSA Global<sup>1</sup>
- 30km of strike over the Celia Shear Zone
- Minimal exploration for the last 20 years

## Mineral Estimate carried out in 2016 by CSA Global

Category	Tonnes (Mt)	Grade Au (g/t)	Contained Metals Au (oz)
Indicated	4.3	1.9	264,000
Inferred	1.7	1.5	82,000
Total	6.0	1.8	346,000

### Notes:

Mineral Resources are based on JORC 2012 Code definitions. A cut-off grade of 0.5 g/t gold has been applied.

Rows and columns may not add up exactly due to rounding.

1. Refer to ASX release dated 23 June 2021 for full details

## Millrose Long Section

Southerly extension  
target (RC drilling)

'Gap' in between resources (no  
historic RC drilling) – planned  
RC with diamond follow up

Laterite gold zone (RC drilling)

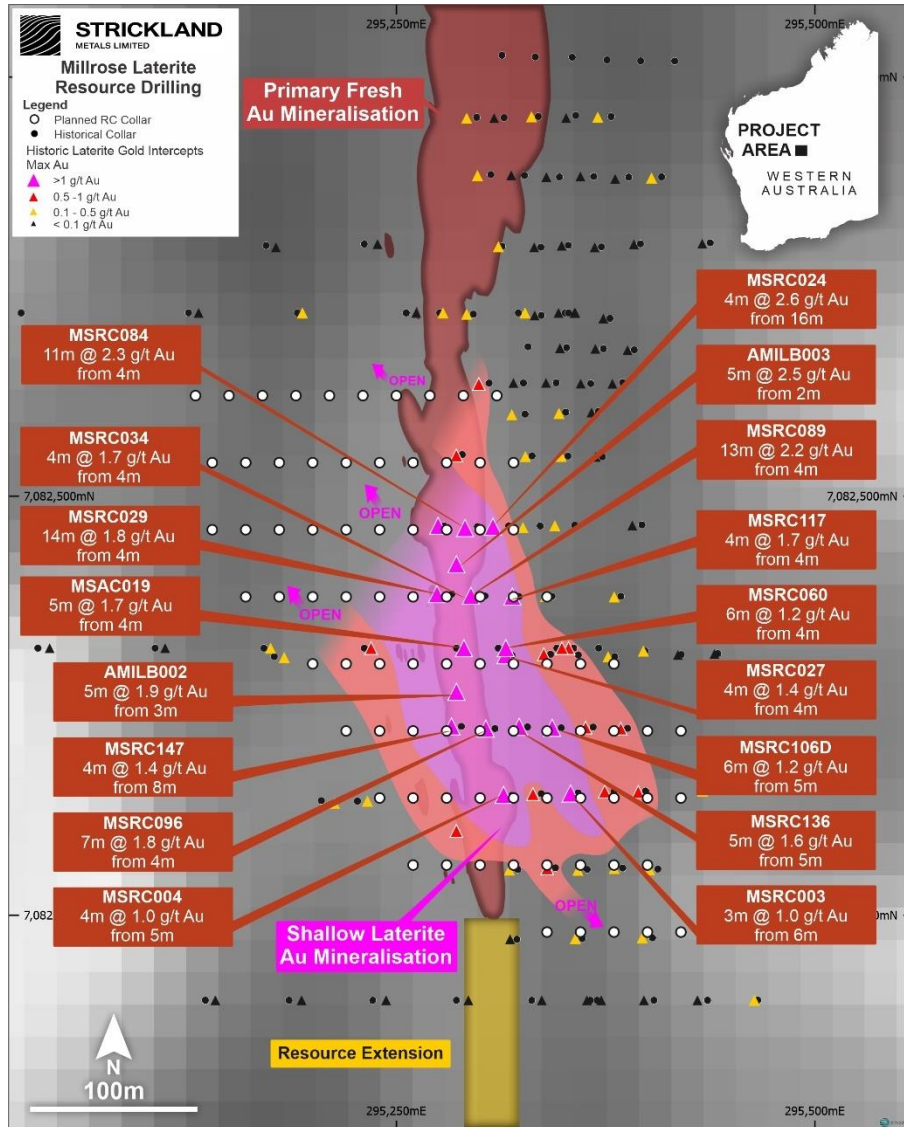

Millrose North  
diamond program

Northerly extension  
target (RC drilling)

# STRICKLAND

METALS LIMITED

*Millrose laterite resource drill out*

*Along strike mineralised extensions*

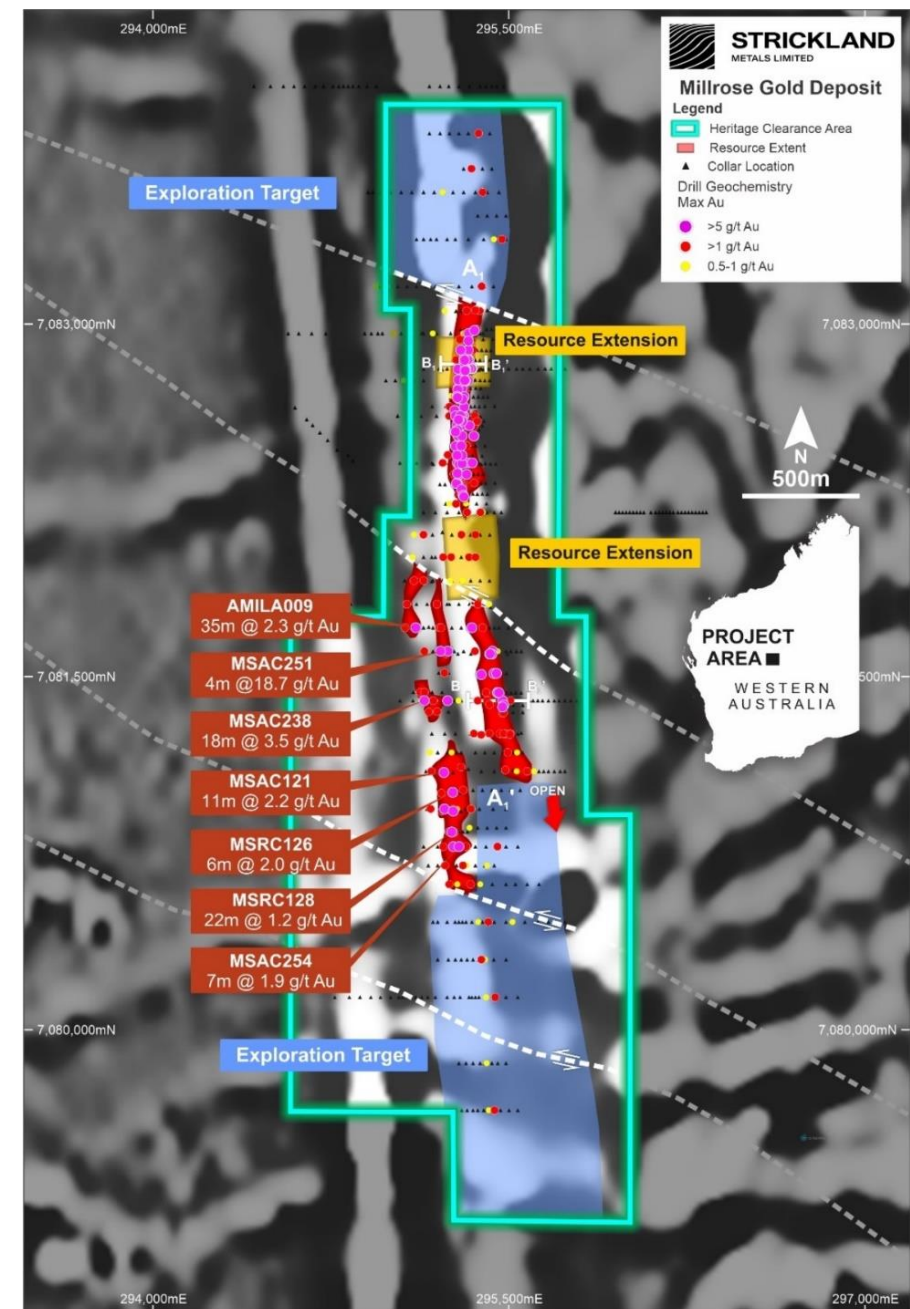

# Millrose Exploration Upside

- Outstanding opportunity to rapidly add gold ounces
- 23,000m (Diamond and RC) resource drill out underway
- ‘Gap’ in between the north and south deposits not included in past resource calculations
- 3km of combined strike north and south – historic aircore anomalism
- Gold mineralisation trend is identifiable in geophysical datasets
- **Targeting resource upgrade within 12 months**

**STRICKLAND**  
METALS LIMITED

# Yandal Gold Project

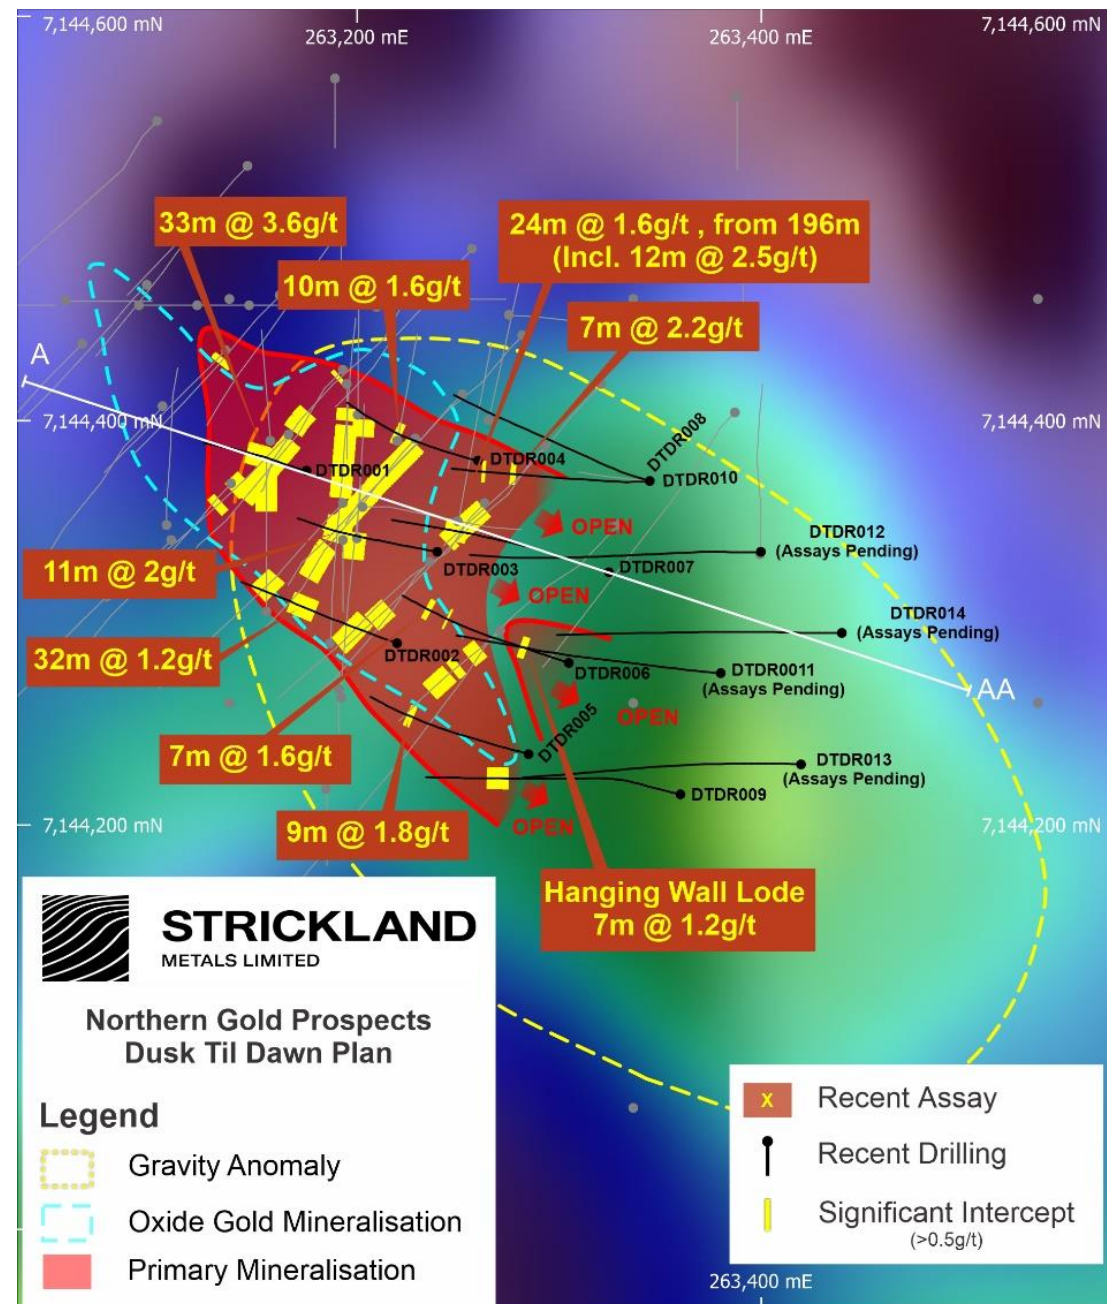

## Dusk til Dawn

- Existing 108,900 oz Au resource<sup>1</sup>
- Resource believed to have been previously incorrectly modeled
- Now demonstrated there is a south-east plunge
- Mineralisation remains entirely open at depth
- New hangingwall load intersected
- New results released 30 Nov 2021 include:
  - DTDR001: **33m @ 3.6g/t Au** from 61m;
  - DTDR007: **12m @ 2.5g/t Au** within 24m @ 1.6g/t Au from 196m;
  - DTDR002: **10m @ 1.9g/t Au** within 32m @ 1.2g/t Au from 120m;
  - DTDR003: **11m @ 2.0g/t Au** from 157m;
  - DTDR005: **6m @ 2.4g/t Au** within 9m @ 1.8g/t Au from 179m;
  - DTDR010: **7m @ 2.2g/t Au** from 212m;
  - DTDR004: **10m @ 1.6g/t Au** from 117m; and
  - DTDR006: **7m @ 1.6g/t Au** from 218m

*For full details see ASX Announcement 30 November 2021*

*1. 3.496 Mt @ 1.0 g/t Au for 108,900 ounces. For further Mineral Resource details refer to announcement dated 26 August 2019.*

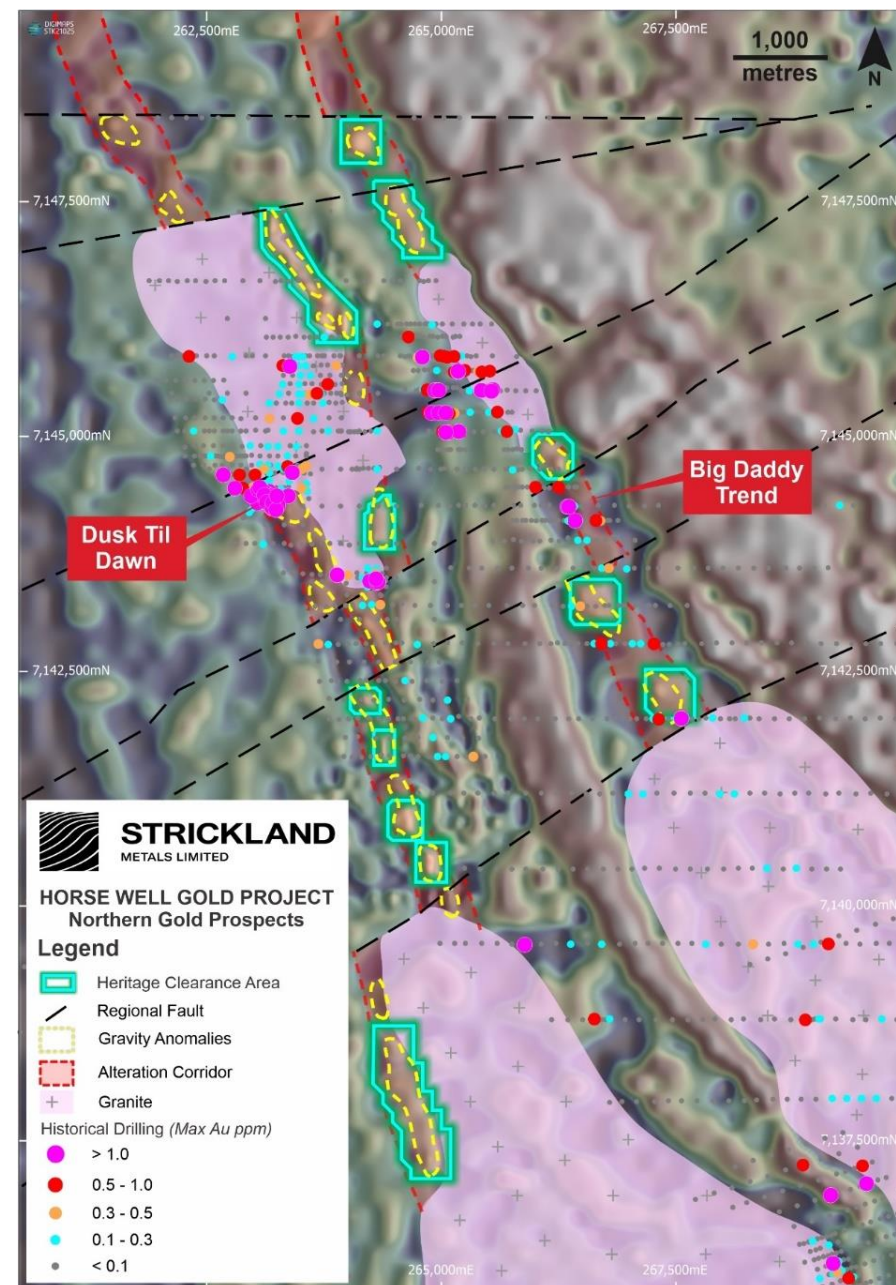

## Dusk til Dawn region

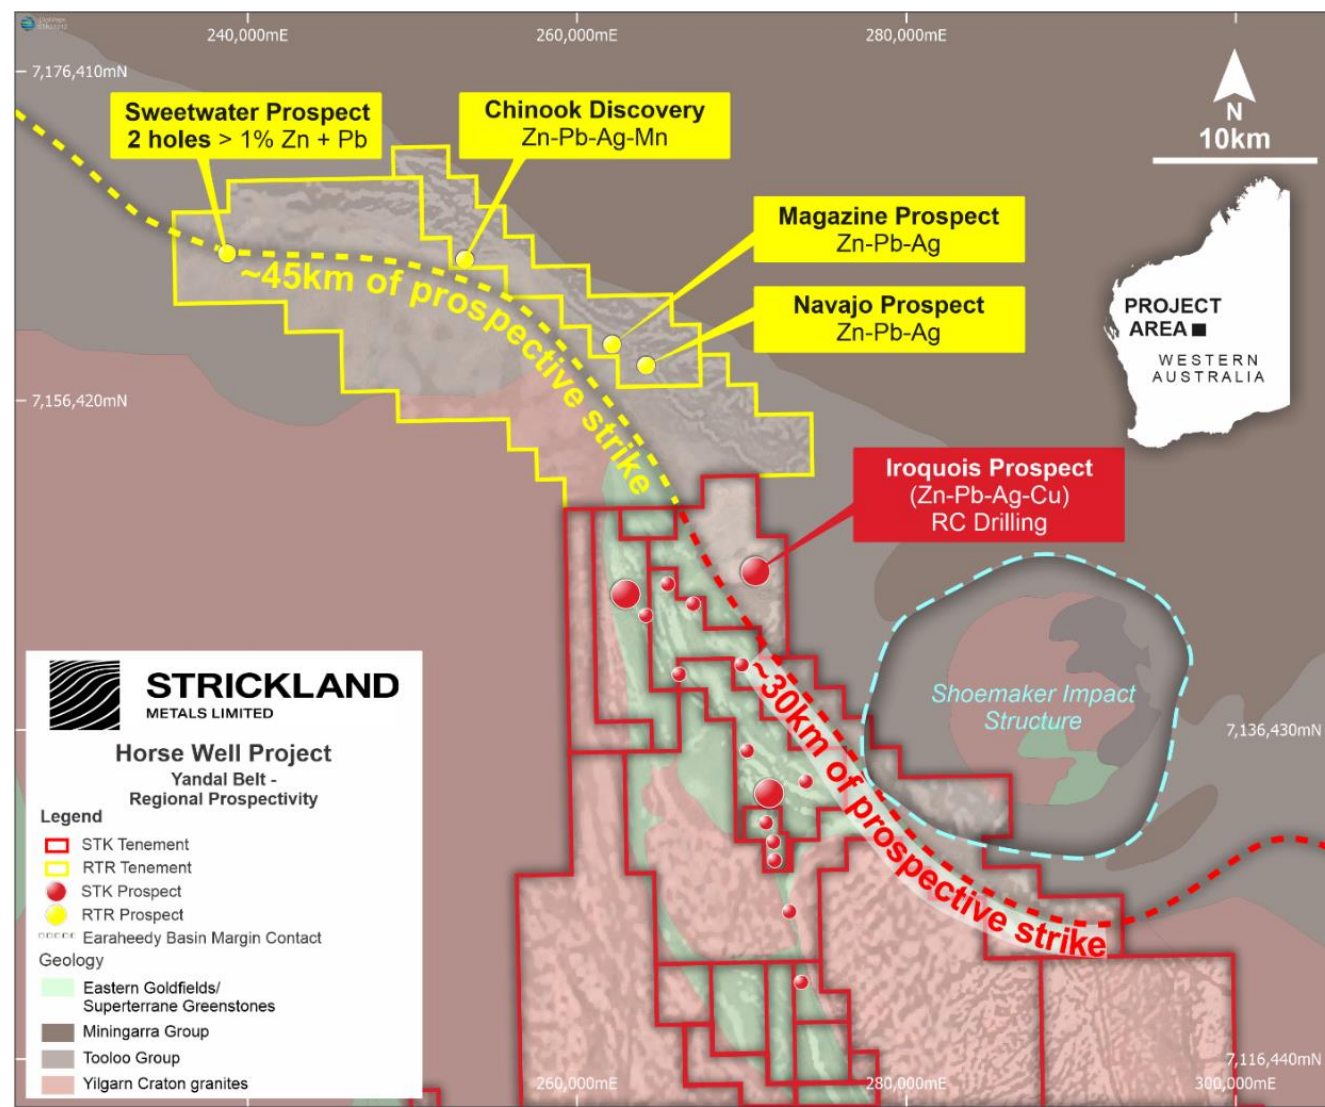

- Major alteration corridors coincident with gold anomalism identified (biotite-calcic plagioclase-K feldspar-quartz-pyrite)
- Alteration assemblage indicative of significant fluid flow (i.e. potential for a very large gold system)
- Gravity features potentially associated with pyrite which at Dusk til Dawn has a very close association with gold
- Repeats of the Dusk til Dawn mineralisation could lead to very substantial gold system
- **Up to twenty regional Dusk til Dawn look-a-like targets**

## Iroquois : Zn-Pb Discovery in Earaheedy Basin

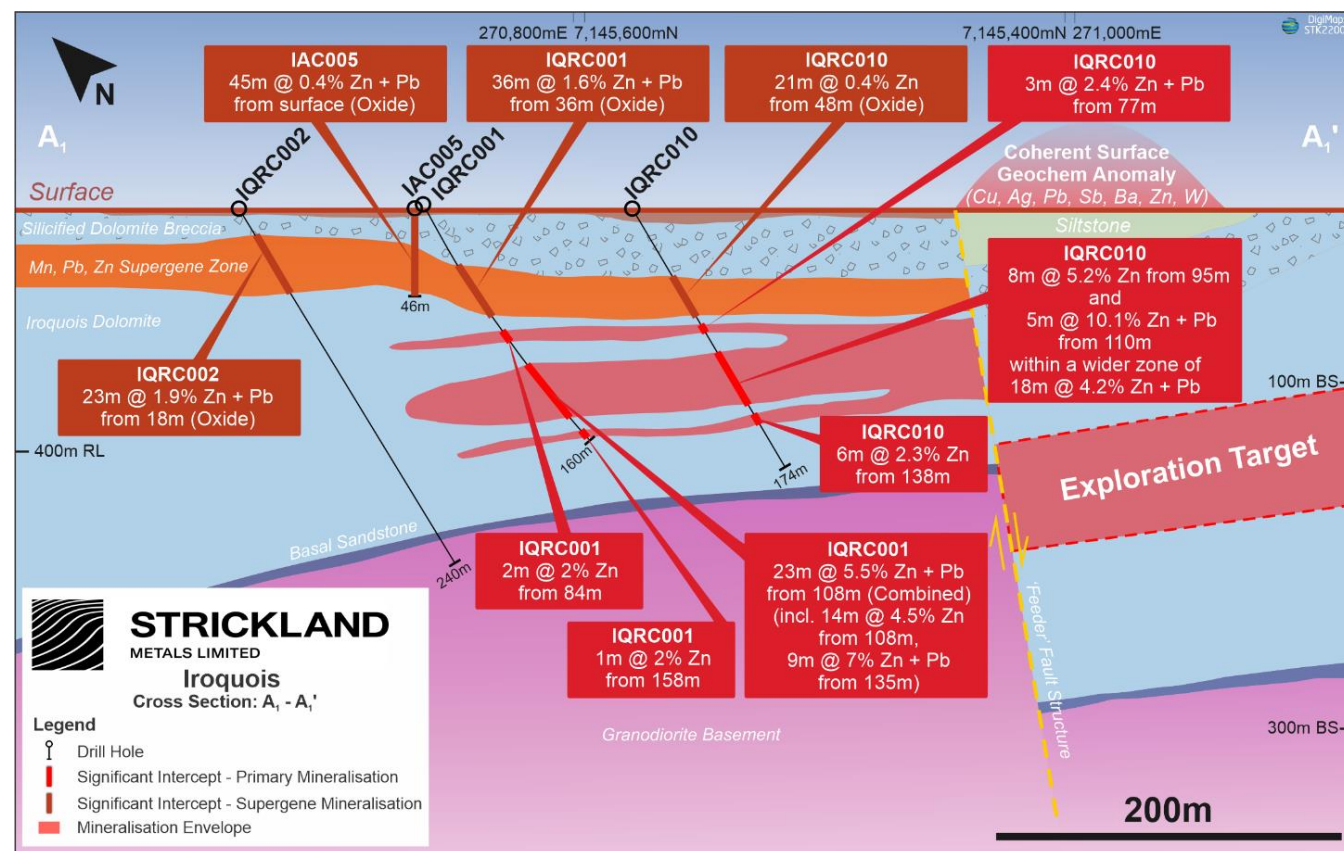

## Iroquois – Zn-Pb

### New Discovery within the Iroquois Dolomite

- IQRC001: **23m @ 5.5% Zn+Pb** from 108m incl **9m @ 7% Zn+Pb**
- IQRC003: **12m @ 5.4% Zn + Pb** from 58m
- IQRC010: **8m @ 5.2% Zn** from 95m and **5m @ 10.1% Zn + Pb** from 110 m (within **18m @ 4.2% Zn + Pb**)
- IQRC004: **3m @ 7.6% Zn** from 65m (within **14m @ 2.2% Zn**)
- IQRC005: **10m @ 3.7% Zn** from 123m (within **20m @ 2.4% Zn**)

See ASX announcement dated 3 March 2022 for full details.

## Iroquois – Zn-Pb

### Next Steps

- Complete Heritage Surveys H12022
- Soil sampling program H1 2022
- IP geophysics program H1 2022
- Follow up drilling

# Plans for 2022...

## Upcoming news flow

- Samples currently at the lab:
  - 84x RC holes from the Millrose laterite drill out
  - 6x RC holes from Millrose North
  - 6x Diamond holes from Millrose North
  - 7x RC holes from Millrose Central (the 'gap' in between deposits)
- Assays expected to start being received in approx. 3 weeks

## 2022 Plans

- Complete Millrose resource expansion program (23,000m)
- Commence programs around Dusk til Dawn and Big Daddy (8,000m)
- Commence 30,000m aircore program
- Return to Iroquois to follow up Zn-Pb mineralisation

*Thank you.*
