## Disclaimer - Forward Looking Statements

*This presentation is for information purposes only. Neither this presentation nor the information contained in it constitutes an offer, invitation, solicitation or recommendation in relation to the purchase or sale of shares in any jurisdiction.*

*This presentation may not be distributed in any jurisdiction except in accordance with the legal requirements applicable in that jurisdiction. Recipients should inform themselves of the restrictions that apply in their own jurisdiction. A failure to do so may result in a violation of securities laws in that jurisdiction.*

*This presentation does not constitute financial product advice and has been prepared without taking into account the recipients' investment objectives, financial circumstances or particular needs, and the opinions and recommendations in this presentation are not intended to represent recommendations to particular persons. Recipients should seek professional advice when deciding if an investment is appropriate. All securities transactions involve risks, which include, among others, the risk of adverse or unanticipated market, financial or political developments.*

*Certain statements contained in this presentation, including information as to the future financial or operating performance of Charger Metals NL ('the Company') and its projects, are forward-looking statements.*

*Such forward-looking statements are necessarily based on a number of estimates and assumptions that, while considered reasonable by the Company, are inherently subject to significant technical, business, economic, competitive, political and social uncertainties and contingencies, involve known and unknown risks and uncertainties that could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward-looking statements, and may include, among other things, statements regarding targets, estimates and assumptions in respect of commodity prices, operating costs and results, capital expenditures, ore reserves and mineral resources and anticipated grades and recovery rates and are, or may be, based on assumptions and estimates related to future technical, economic, market, political, social and other conditions.*

*The Company disclaims any intent or obligation to update publicly any forward-looking statements, whether as a result of new*

*information, future events or results or otherwise. The words 'believe', 'expect', 'anticipate', 'indicate', 'contemplate', 'target', 'plan', 'intends', 'continue', 'budget', 'estimate', 'may', 'will', 'schedule' and other, similar expressions identify forward-looking statements. All forward-looking statements made in this presentation are qualified by the foregoing cautionary statements. Investors are cautioned that forward-looking statements are not guarantees of future performance and, accordingly, investors are cautioned not to put undue reliance on forward-looking statements due to the inherent uncertainty therein.*

*Many known and unknown factors could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward-looking statements. Such factors include, but are not limited to: competition; mineral prices; ability to meet additional funding requirements; exploration, development and operating risks; uninsurable risks; uncertainties inherent in ore reserve and resource estimates; dependence on third-party smelting facilities; factors associated with foreign operations and related regulatory risks; environmental regulation and liability; currency risks; effects of inflation on results of operations; factors relating to title to*

*properties; native title and Aboriginal heritage issues; dependence on key personnel, and share-price volatility. They also include unanticipated and unusual events, many of which it is beyond the Company's ability to control or predict.*

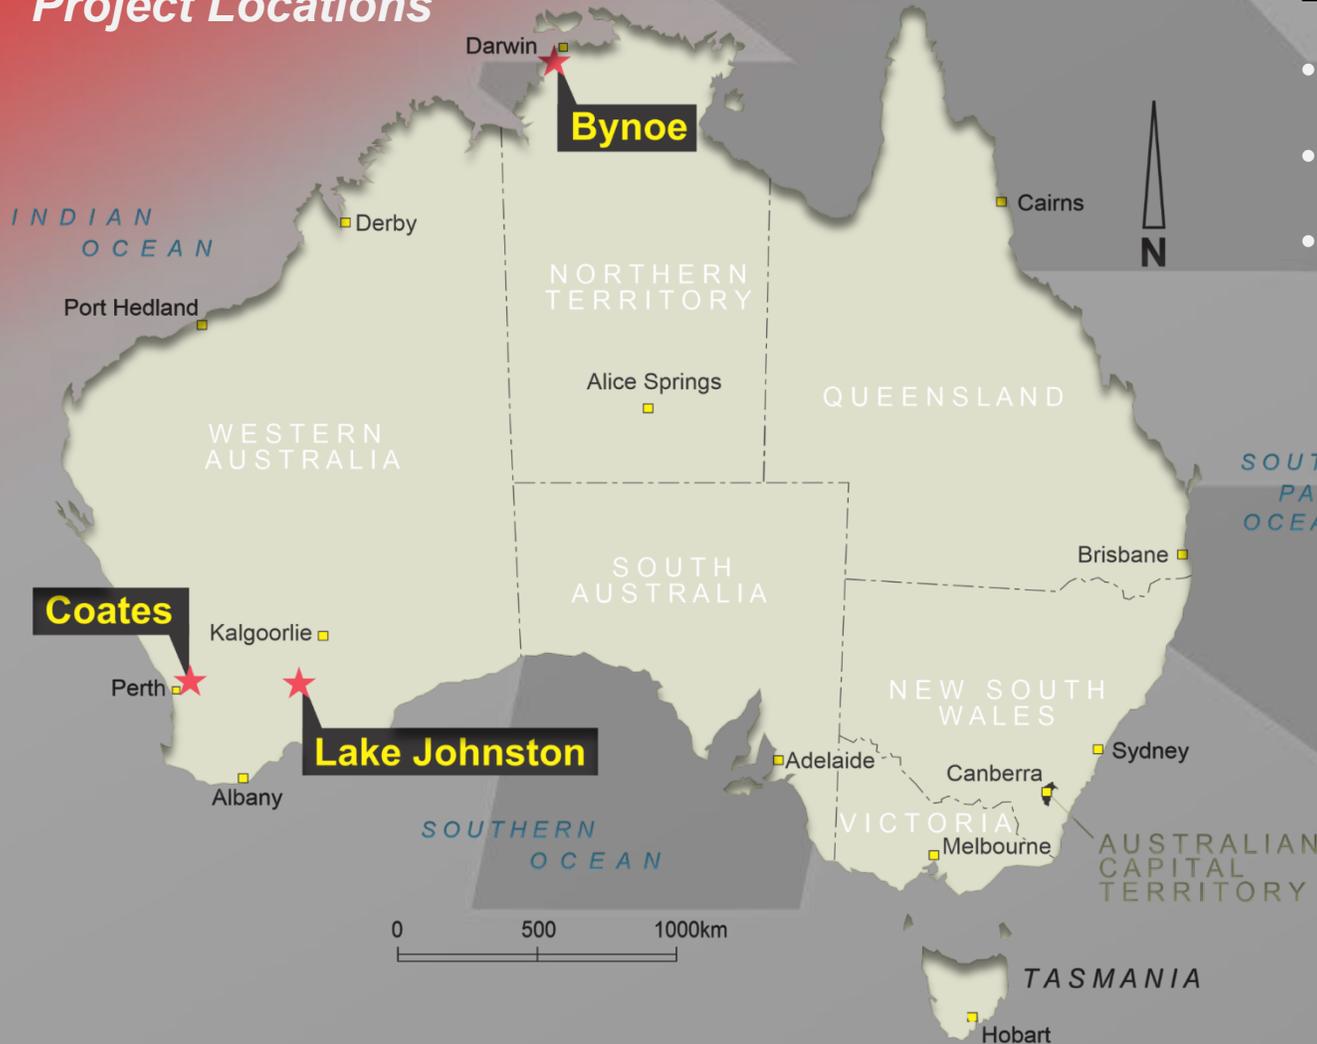

### **COMPETENT PERSON'S STATEMENT**

*The information contained in this presentation that relates to exploration strategy or to exploration results is based on information generated by Charger Metals NL, and compiled by, or reviewed by, Mr David Crook who is a Member of the Australasian Institute of Mining and Metallurgy and the Australian Institute of Geoscientists. Mr Crook has sufficient experience which is relevant to the activities reported herein to qualify as a Competent Person as defined in the 2012 edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Minerals Resources and Ore Reserves. Mr Crook consents to the inclusion in the presentation the matters based on his information in the form and context in which it appears.*

## Targeting Battery Industry Metals (in three emerging provinces)

### Project Locations

### Listed July 2021:

- 70-85% of the Coates Ni-Cu-Co-PGE Project (WA)
- 70% of the Lake Johnson Lithium Project (WA)
- 70% interest in the Bynoe Lithium Project (NT)

**Inaugural drilling  
programme  
approaches**

**David Crook - Managing Director**

**Terry Gardiner - Non-Executive Chairman**

**Adrian Griffin - Non-Executive Director**

**Jonathan Whyte - Chief Financial Officer, Company Secretary**

**Bryan Dixon – Business Development and Investor Relations**

**Jonathon Smalley – Exploration Manager**

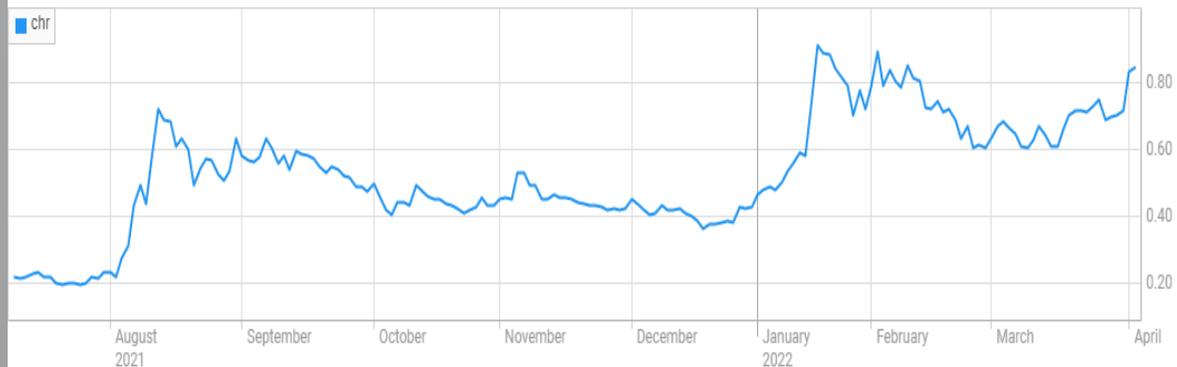

### Capital Structure

Shares on Issue	50.96 million
Options (\$0.30 7/24, \$0.60 10/24)	7.0 million
Share Price	\$0.80
Market Capitalisation	\$40.8 million
Cash (31 December 2022)	\$4.5 million

### Shareholders

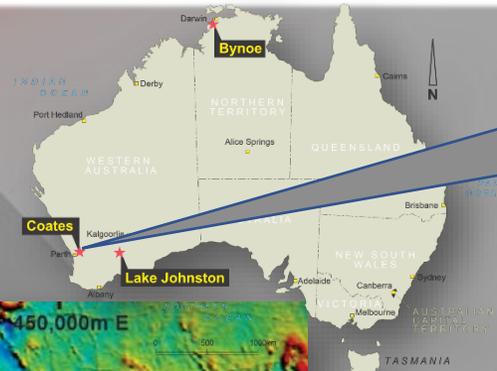

Lithium Australia NL	18.80%
Gunsynd PLC	5.69%
Adrian Griffin	5.35%
Lind Global Macro Fund LP	4.91%
Directors/Management (diluted)	10.2%
Top 20 Shareholders	61.3%

  - *aligns with the western Coates mafic intrusive complex*
  - *Large multi-layered conductor*

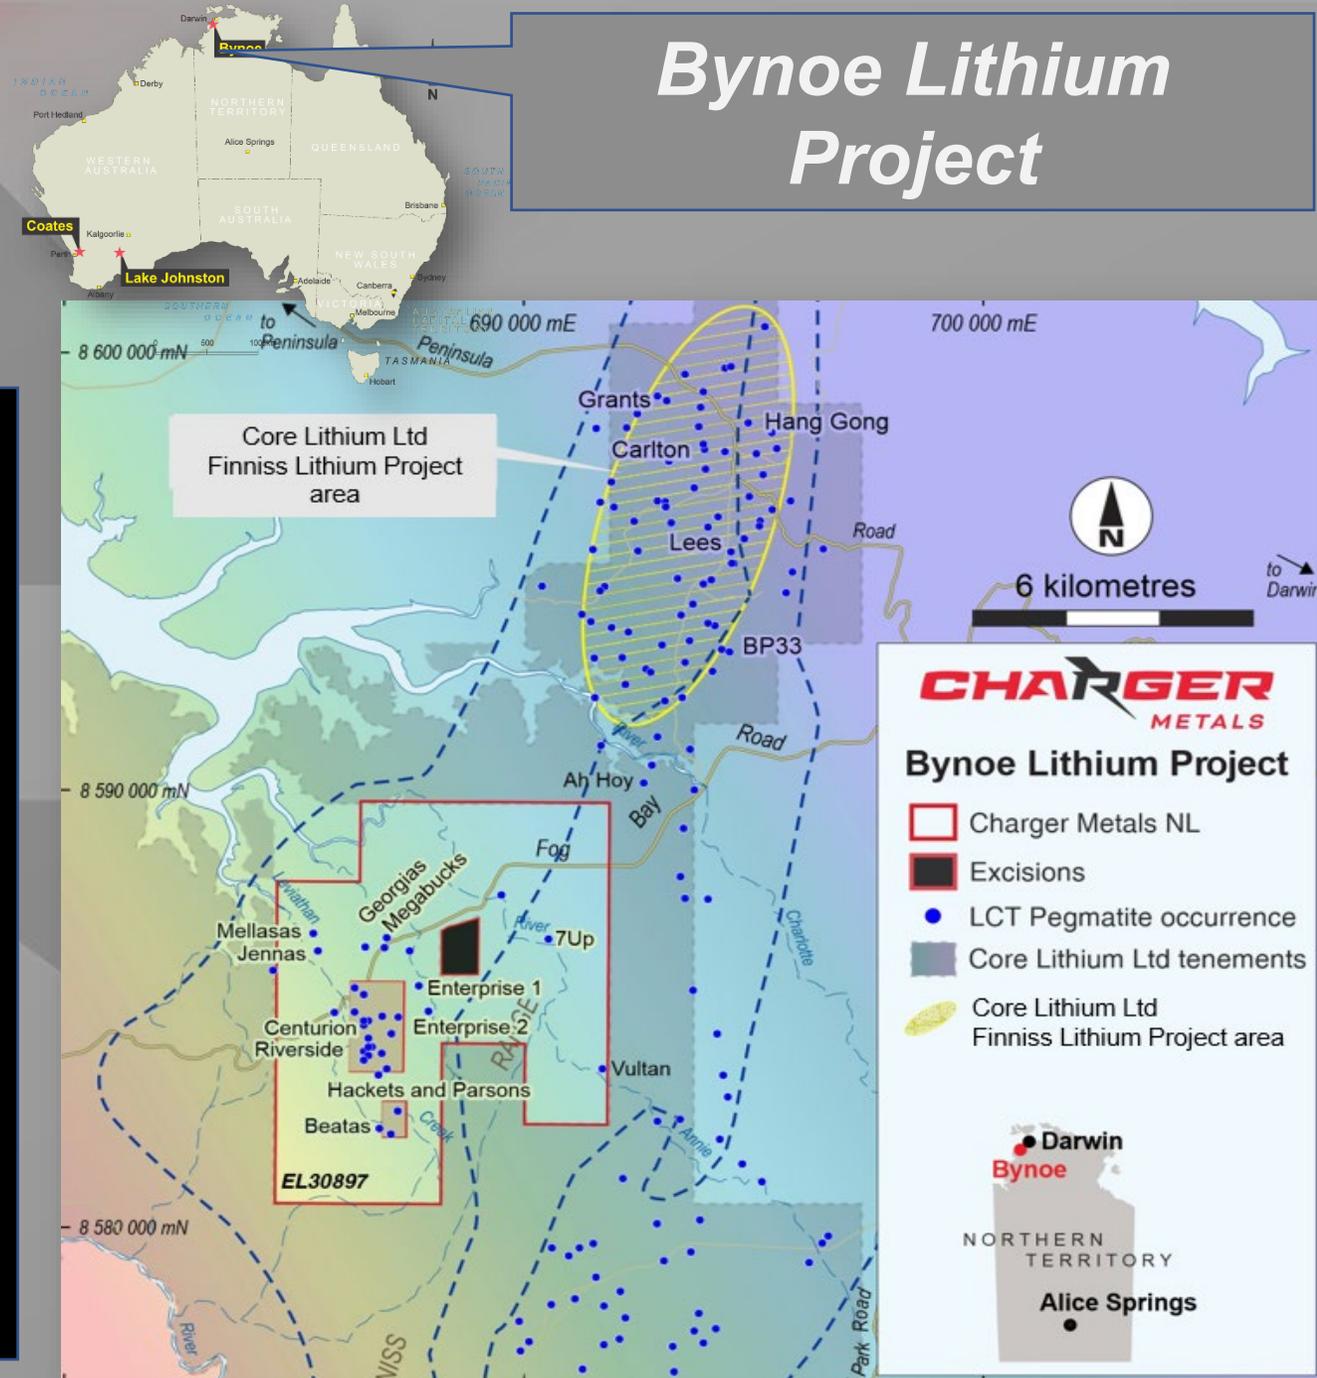

### T1 Target

- *aligns with the western Coates mafic intrusive*
- *Large multi-layered conductor*
- *Coincident Ni-Cu-PGE-As geochemistry*
- *Drilling imminent*

## Bynoe Lithium Project NT

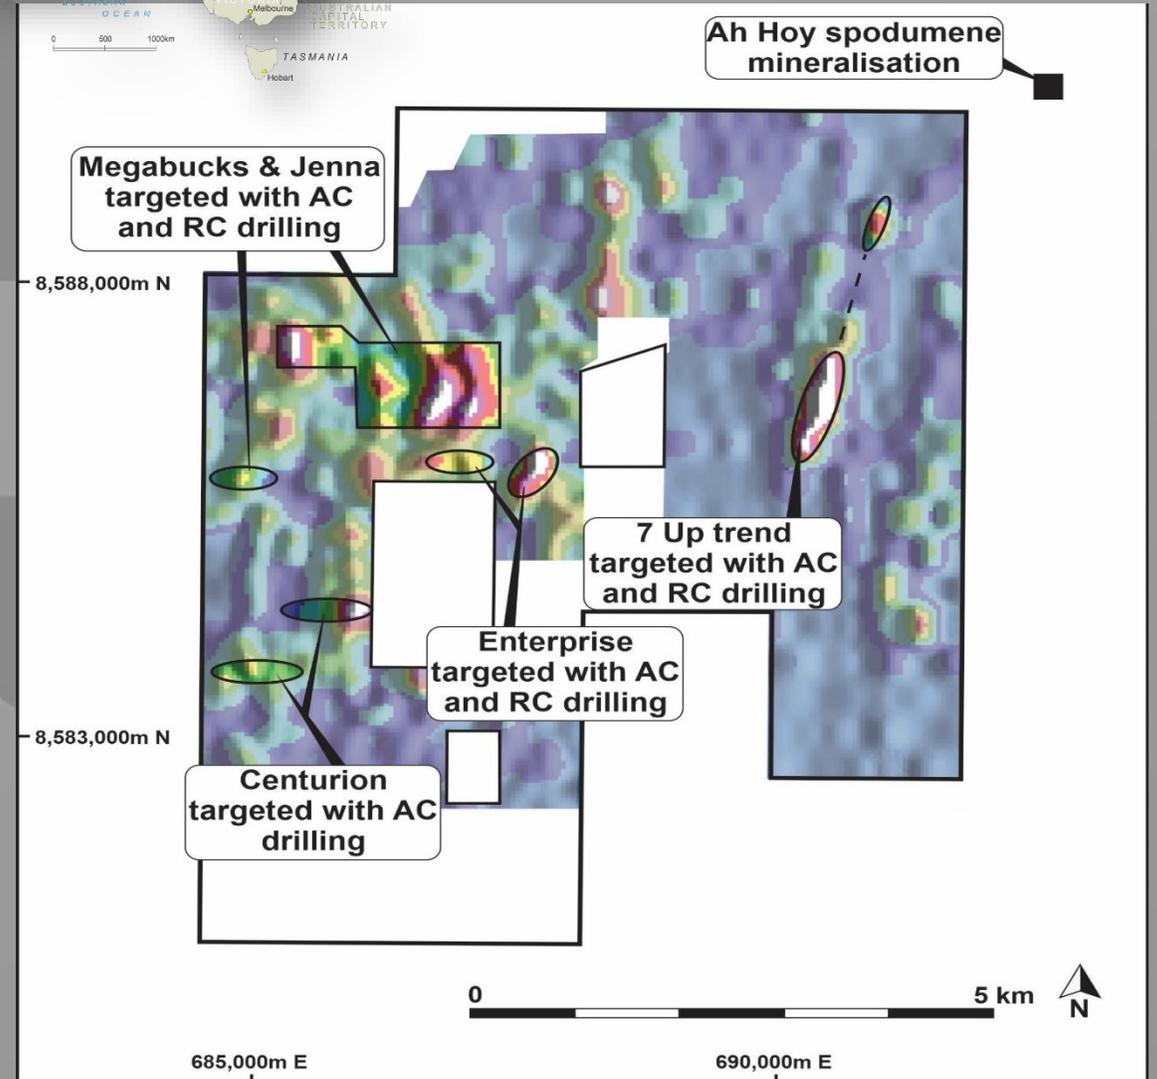

- Covers approximately 62.7 km<sup>2</sup> .
- Surrounded by Core Lithium Ltd, Finniss Mineral Resource 14.7 Mt at 1.32% Li<sub>2</sub>O<sup>1</sup>
- Starting dataset from 2007-2012 geochemistry shows LCT vectors, and many point pegmatite intersections.
- Gravity shows contiguous geological environment.

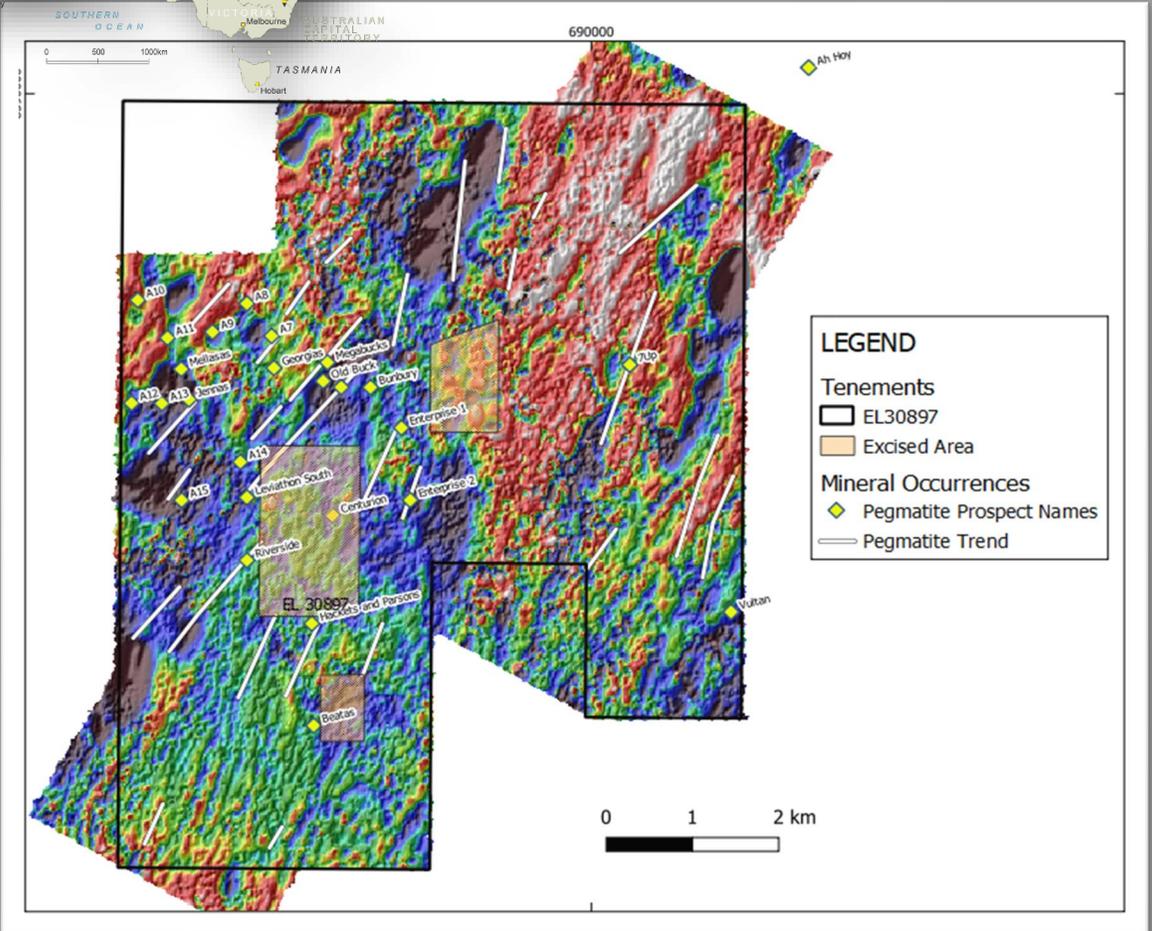

<sup>1</sup> Source: Core Lithium Limited Quarterly Activities Report for Three Months Ended 31 March 2021

### Bynoe Lithium Project NT

- *Soil geochemistry generates drill targets at Seven Up, Mega Bucks and Enterprise.*
- *Mine Management Plan progressing*
- *Aircore and RC Drilling ready to go when approvals received*

- **Project Outlook**
- Preparation for drilling in the 2022 dry season

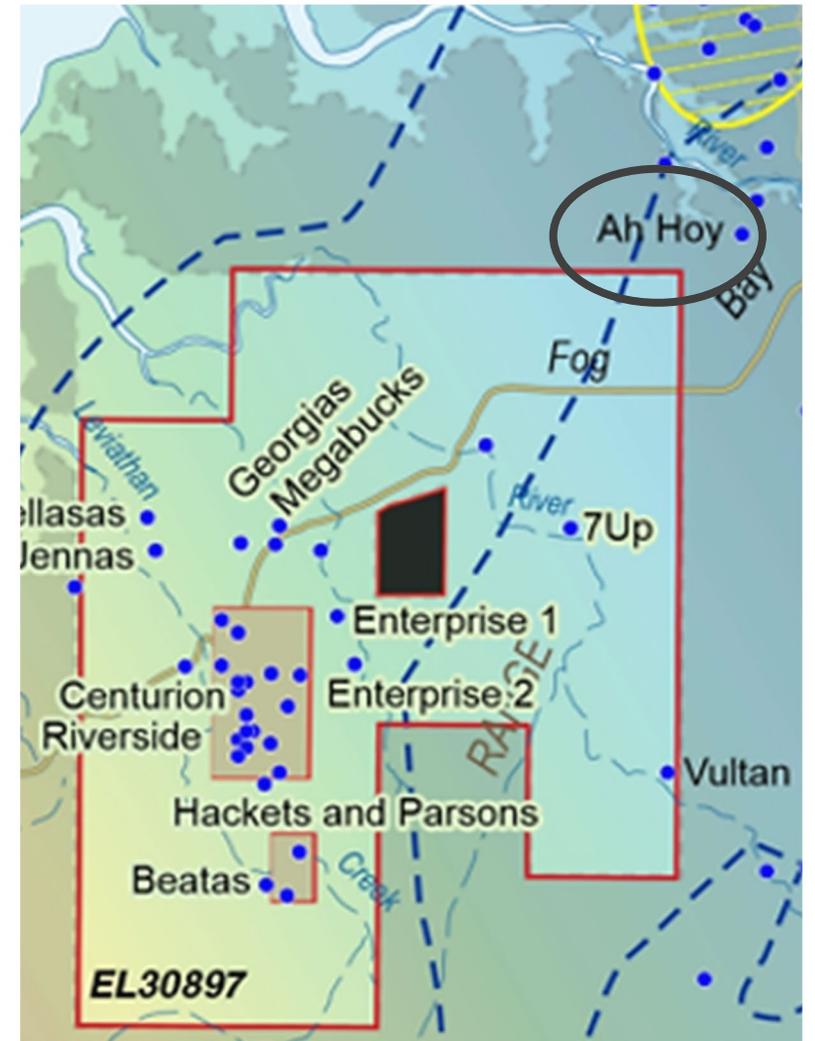

**Geophysical image confirms trends of pegmatites from geochemistry**

## Bynoe Lithium Project

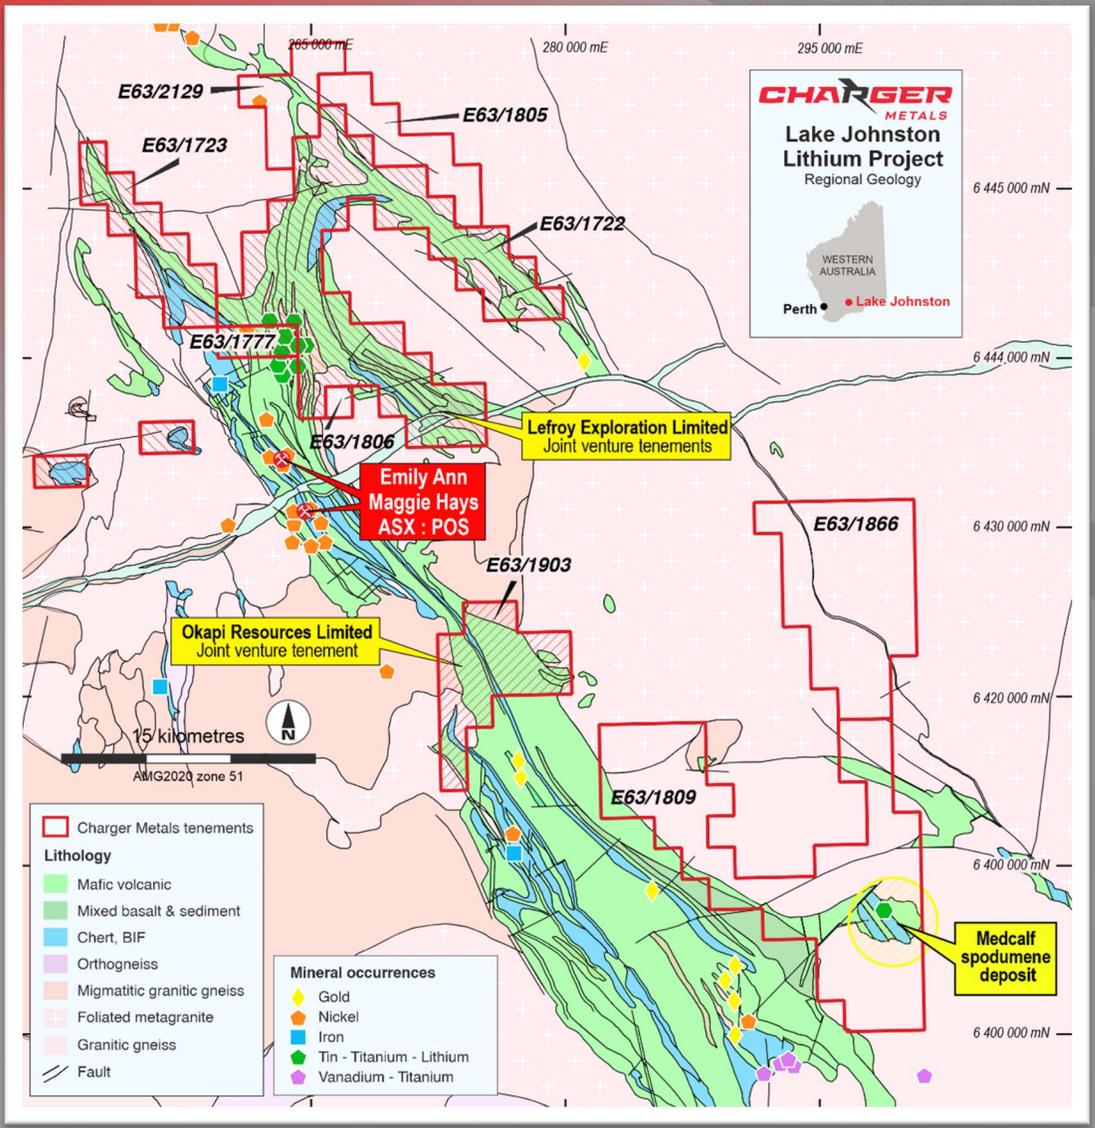

“Eleven RC drill holes have been completed at Ah Hoy with most holes intersected consistent thicknesses of spodumene mineralisation within the Western Pegmatite. Assay results have been received for all holes at Ah Hoy with the best intersections as follows.

- 11m @ 1.42% Li<sub>2</sub>O in SRC053
- 19m @ 1.21% Li<sub>2</sub>O in SRC054
- 14m @ 1.37% Li<sub>2</sub>O in SRC055
- 11m @ 1.28% Li<sub>2</sub>O in SRC056”

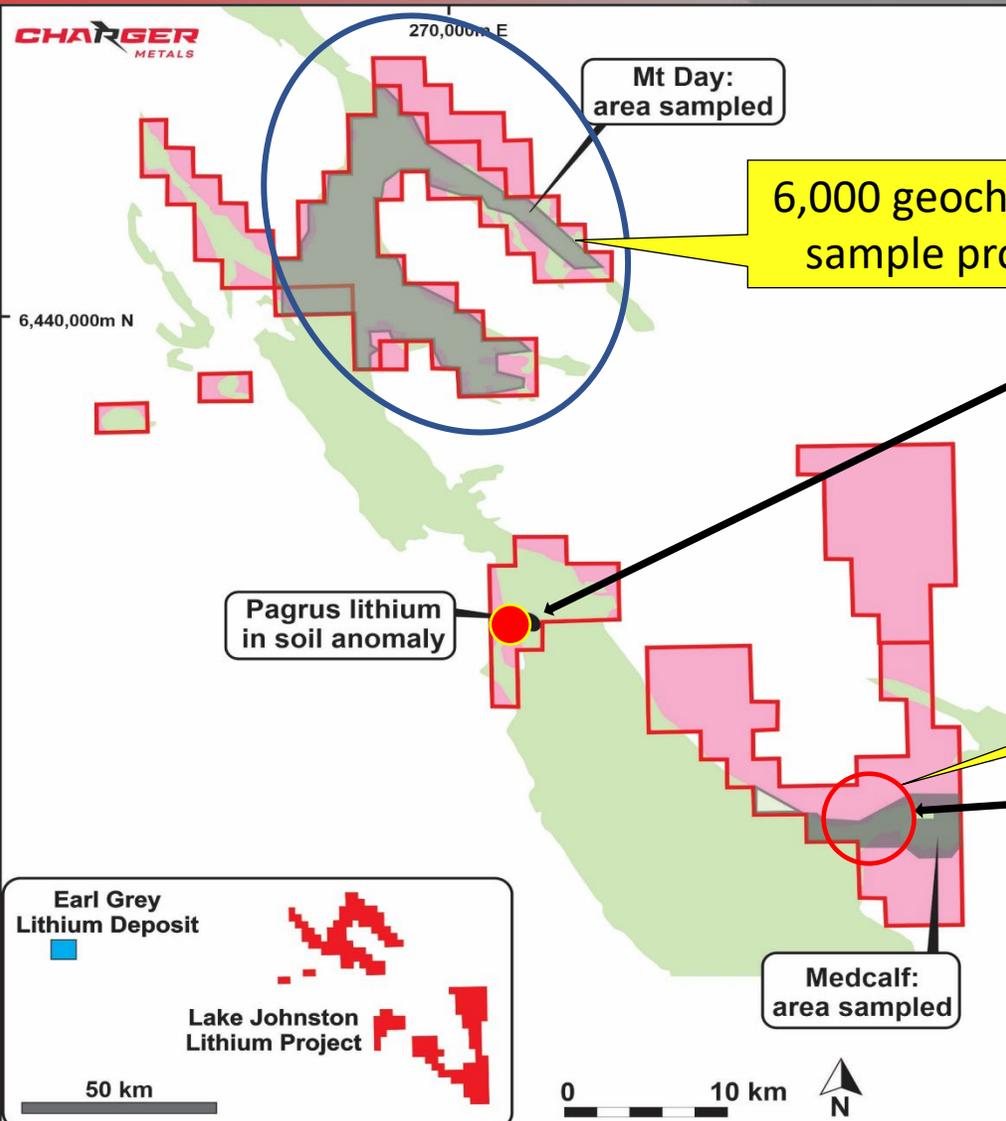

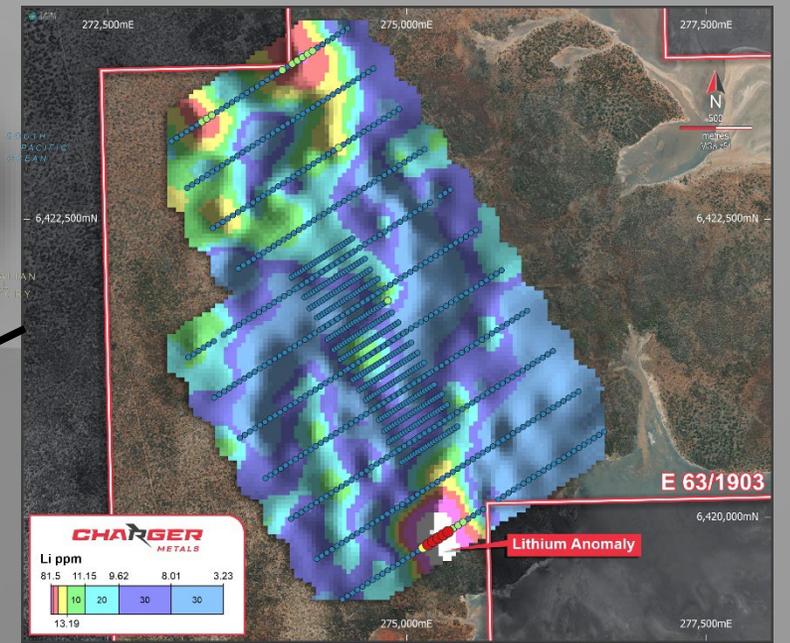

## Lake Johnston Lithium Project

## Lake Johnston Lithium Project WA

- Medcalf Spodumene deposit discovered in 2018
- Large LCT pegmatite field at Mount Day, 50km NW
- Region is attractive since the discovery of the Earl Grey/Mt Holland lithium deposits by Kidman Resources Limited.

# CHARGER METALS

Lake Johnston Lithium Project

- *Commodities* – Li, Ni, Cu, PGE are all metals in demand
- **Projects:**
  - **Coates** - A Julimar lookalike. *Drilling imminent*
  - **Bynoe** – Drill Targets determined. Land Access in progress.
  - **Lake Johnston** - large landholding with known spodumene
- **Leverage** – Billion Dollar neighbours show value of drilling success
- **Well credentialed mining industry professionals with backgrounds in these commodities**
