

Swift Signs \$3.4 Million in New Contracts

- Swift has secured four new agreements with existing customers Shell Prelude, Western Areas, Anglo Gold, and McKenzie Aged Care.
- The new contracts include ongoing subscriptions to Swift's proprietary engagement, communications, and entertainment platform.
- \$3.4 million in Total Contract Value, revenues to commence in Q4 FY22.

Swift announces that it has entered into new agreements with existing Swift customers in the Mining, Oil and Gas, and Aged Care sectors for Swift's propriety engagement, communications, and entertainment platform. The combined Total Contract Value (TCV) of these agreements is \$3.4 million of which over 85% is subscription revenue.

- Shell has engaged Swift to deploy the Company's proprietary engagement, communication, and entertainment solutions to the Shell Prelude Floating Liquefied Natural Gas (FLNG) facility. This contract upgrades Shell Preludes existing system in FY23 and continues subscription revenue for 24 months. This agreement highlights Swift's system flexibility and strengthens Swift's position in the offshore oil & gas sector.
- Western Areas has agreed to continue their subscription services which will see the Swift system available on site for an additional 36 months.
- AngloGold Ashanti has renewed their existing agreement which includes access to the Swift system and support services for the full term. This agreement extends their subscription service for an additional 12 months.
- McKenzie, a premium Aged Care provider operating across NSW, QLD, and VIC, has signed on for an additional term which will see Swift Access continued to be implemented across all 17 of their Residential Aged Care facilities.

Swift CEO Brian Mangano says, "We are delighted to continue working with Shell Prelude, Western Areas, Anglo Gold, and McKenzie. These new contracts are the result of the hard work done by Swift's Aged Care and Mining and Resources sales teams and demonstrates our strong subscription revenue base. Having worked with these customers for many years, we're excited to continue servicing their residents and staff, and look forward to the positive impact that Swift's unique product offering will have in the years to come."

Whilst the aggregate revenue from these contracts is material to the Company, no individual contract currently generates future revenue over \$1.0 million.

ABOUT SWIFT

Swift is a specialist technology company delivering network infrastructure and premium entertainment and communications across Mining and Resources, Residential Aged Care, Retirement Living, Government and other sectors.

We connect and engage communities through entertainment and communications solutions.
