

Information Form and Checklist

Annexure 1 (Mining Entities)

Name of entity

ABN/ACN/ARBN/ARSN

Lithium Plus Minerals Ltd

ACN 653 574 219

This Annexure forms part of the Information Form and Checklist supplied by the entity named above to support its application for admission to the official list of ASX Limited (ASX) as an ASX Listing.

A reference in this Annexure to JORC means the Australasian Code for Reporting Exploration Results, Mineral Resources and Ore Resources - 2012 Edition, a copy of which is included in Annexure 5A of the Listing Rules. Terms used in this Annexure which are defined in JORC (including, without limitation, 'exploration target', 'exploration results', 'mineral resource', 'ore reserve' and 'competent person') have the same meaning as in JORC.

General requirements

Complete this section if the Offer Document includes any reference to an exploration target, exploration results or estimates of mineral resources or ore reserves.

1. Where in the Offer Document does it state that the exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be) have been prepared and reported in accordance with JORC (Listing Rule 5.6)?¹

Section 1.1 of the Independent Geologist's Report (IGR)

2. Where in the Offer Document does it state:

- that the exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be) are based on, and fairly represent, information and supporting documentation prepared by a named competent person² or persons (Listing Rule 5.22(a) for material mining projects and JORC clause 9 for other projects);
- whether the competent person is an employee of the mining entity or a related party and, if not, the name of the competent person's employer (Listing Rule 5.22(b) for material mining projects and JORC clause 9 for other projects)?
- the name of the professional organisation of which the competent person is a member (Listing Rule 5.22(c) for material mining projects and JORC clauses 9 and 11 for other projects); and
- that the competent person has given his or her prior written consent as to the form and context in which the exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be) and the supporting information are presented in the Offer Document (Listing Rule 5.22 for material mining projects and JORC clause 9 for other projects)?

Page 3 of the Prospectus provides that the information that relates to Exploration Results, Mineral Resources or Reserves (as those terms are used and defined in the JORC Code) is based on information compiled by Dr. Jason Berton. Dr Berton is a director of the Company and a member of the Australasian Institute of Mining and Metallurgy (AusIMM). He gives consent to the inclusion of the matters discussed, based on the form and context in which it appears.

¹ The Offer Document must use terminology consistent with the terms in Figure 1 of JORC. Terms such as 'mining inventory' or 'mineable resource' are not allowed.

² JORC clause 11 defines a 'competent person' as a minerals industry professional who is a Member or Fellow of The Australasian Institute of Mining and Metallurgy, or of the Australian Institute of Geoscientists, or of a 'Recognised Professional Organisation', as included in a list available on the JORC and ASX websites. The person must have a minimum of five years relevant experience in the style of mineralisation or type of deposit under consideration and in the activity which that person is undertaking. If the competent person is preparing documentation on exploration results, the relevant experience must be in exploration. If the competent person is estimating, or supervising the estimation of mineral resources, the relevant experience must be in the estimation, assessment and evaluation of mineral resources. If the competent person is estimating, or supervising the estimation of ore reserves, the relevant experience must be in the estimation, assessment, evaluation and economic extraction of ore reserves.

Location/Confirmation

3. Please enter "Confirmed" in the column to the right to indicate that the Offer Document discloses any potential conflict of interest any of the named competent persons may have and, if it does, indicate where in the Offer Document that disclosure has been made (JORC clause 9)?

The Offer document discloses Dr Berton's interest in the Company arising from his role as a director and securityholder.

Section 1.9 of the IGR confirms that neither SRK Consulting (Australasia) Pty Ltd (**SRK**) nor the authors of the report have any material interest that could affect their independence.

4. Is there an Independent Geologist's Report included in the Offer Document?

If so, where does it state that any exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be):

- are based on, and fairly represent, information and supporting documentation prepared by a named competent person or persons;
- the name of the professional organisation of which the competent person is a member; and
- that the competent person has given his or her prior written consent as to the form and context in which the exploration target, exploration results or estimates of mineral resources or ore reserves (as the case may be) and the supporting information are presented in the report (Listing Rule 5.22 for material mining projects and JORC clause 9 for other projects)?

Yes, an Independent Geologist's Report is included in the report.

Section 1.2 of the IGR provides that Dr Karen Lloyd is the competent person who has reviewed the exploration results as reported by the Company and the information in the IGR.

Dr Lloyd is a Fellow of the AusIMM and is employed by SRK, an independent mining consultancy. She consents to the inclusion in the IGR of the matters based on the information in the form and context in which it appears.

Is the Independent Geologist's Report either a technical assessment report, valuation report, or fairness and reasonableness report prepared in accordance with the Valmin Code?

If so, where does it state in the report the declarations required by section 12 of the Valmin Code?

The IGR is a technical assessment report. Section 1 contains the declarations required by Section 12 of the Valmin Code.

5. Does the Offer Document include a "metal equivalents" calculation?

If so, where does the Offer Document include the following information required under JORC clause 50:

- individual grades for all metals included in the metal equivalent calculation;
- except where the information is commercially sensitive, the assumed commodity prices for all metals;³
- assumed metallurgical recoveries for all metals and a discussion of the basis on which the assumed recoveries are derived (metallurgical test work, detailed mineralogy, similar deposits, etc);⁴
- a clear statement that it is the entity's opinion that all the elements included in the metal equivalents calculation have a reasonable potential to be recovered and sold; and
- the calculation formula used?

No

³ Actual assumed prices should be disclosed. It is not sufficient to refer to a "spot price", without disclosing the actual price in question. Where the actual assumed prices used are said to be commercially sensitive, the entity must disclose sufficient information, perhaps in narrative rather than numerical form, for investors to understand the methodology it has used to determine these prices.

⁴ Estimates of metallurgical recoveries for each metal must be used to calculate meaningful metal equivalents. Reporting on the basis of metal equivalents is not appropriate if metallurgical recovery information is not available or able to be estimated with reasonable confidence.

Exploration targets

Complete this section if the Offer Document includes any reference to an exploration target.

- | | |
|---|---------------------------------|
| 7. Where in the Offer Document does it disclose a detailed explanation of the basis for the exploration target, including whether the target is based on actual exploration results or on proposed exploration programmes and a specific description of the level of exploration activity already completed (JORC clause 17)? | No exploration target included. |
| 8. Where in the Offer Document does it state the proposed exploration activities designed to test the validity of the exploration target and the timeframe within which those activities are expected to be completed (JORC clause 17)? | N/A |
| 9. Where in the Offer Document does it include the required statement by a named competent person taking responsibility for the form and context in which the exploration target appears (JORC clause 17)? | N/A |
| 10. Where in the Offer Document does it include the required clarification statement that the potential quantity and grade is conceptual in nature, that there has been insufficient exploration to estimate a mineral resource and that it is uncertain if further exploration will result in the estimation of a mineral resource (JORC clause 17)? ⁵ | N/A |
| 11. Please enter "Confirmed" in the column to the right to indicate that the following JORC requirements have been satisfied: <ul style="list-style-type: none"> • information relating to the exploration target has been expressed so that it cannot be misrepresented or misconstrued as an estimate of a mineral resource or ore reserve and the terms "resource" and "reserve" have not been used in this context (JORC clause 17); • the exploration target is expressed as a tonnage and grade range and as an approximation only (JORC clause 17); • the Offer Document includes a description of the process used to determine the grade and tonnage ranges used to describe the exploration target (JORC clause 17); • there are no "headline statements" in the Offer Document referring to the exploration target (JORC clause 17); and • the exploration target does not include a "metal equivalent" estimate or calculation (JORC clause 50). | N/A |

Exploration results

Complete this section if the Offer Document includes any reference to exploration results

- | | |
|---|------------------------|
| 12. Where in the Offer Document is the separate report in relation to each of the criteria in sections 1 and 2 of JORC Table 1 (Listing Rule 5.7.1)? ⁶ | Appendix A of the IGR. |
|---|------------------------|

⁵ Note that the clarification statement must be within the same paragraph as the first reference to the exploration target in the Offer Document.

⁶ If an entity that determines that any of the criteria is not material to understanding the exploration results, the entity must identify the criteria and explain why it has determined that it is not material to that understanding.

- | | |
|--|---|
| <p>13. Where in the Offer Document is the separate table setting out the following information for material drill-holes (unless the entity determines that the information is not material):⁷</p> <ul style="list-style-type: none"> • easting and northing of the drill-hole collar; • elevation or RL of the drill-hole collar; • dip and azimuth of the hole; • down hole width and depth; and • end of hole (Listing Rule 5.7.2)? | <p>Section 4 of the IGR regarding historical results.</p> |
| <p>14. Please enter "Confirmed" in the column to the right to indicate that the following JORC requirements have been satisfied:</p> <ul style="list-style-type: none"> • if the exploration results relate to mineralisation not classified as a mineral resource or ore reserve, then estimates of tonnages and average grade have not been assigned to the mineralisation except as an exploration target in accordance with JORC clause 17 (JORC clause 18); • if true widths of mineralisation are not reported, an appropriate qualification has been included in the Offer Document (JORC clause 19); • clear diagrams and maps designed to represent the geological context have been included in the Offer Document which include a plan view of drill hole collar locations and appropriate sectional views (JORC clause 19); • there has been no selected disclosure of information such as isolated assays, isolated drill holes, assays of panned concentrates or supergene enriched soils or surface samples, without placing them in perspective (JORC clause 19); • if the Offer Document includes exploration results based on rock chip or grab sampling, the location (represented as a table, diagram or map), total number and assay results for the sampling have been included for each sample so as to ensure samples are representative and not selectively reported (JORC clause 19 and JORC Table 1); and • if the Offer Document reports visual results in the absence of assays, it does not include any reference to the grade or economic potential of the mineralisation (Example D in Annexure A of Guidance Note 8). | <p>Confirmed.</p> <p>Diagrams throughout the report.</p> <p>Assays reported from minimum to maximum and average values.</p> <p>All contained within Table 1 for Bynoe and Arunta.</p> |

Mineral resources

Complete this section if the Offer Document includes any reference to an estimate of mineral resources.

- | | |
|---|------------|
| <p>15. Where in the Offer Document does the competent person explicitly discuss the basis for the reasonable prospects for eventual economic extraction of the mineral resource (JORC clause 20)?</p> | <p>N/A</p> |
| <p>16. Where in the Offer Document does the competent person explicitly discuss the technical and economic support for the cut-off assumption applied (JORC clause 20)?</p> | <p>N/A</p> |
| <p>17. Where in the Offer Document does it disclose the relevant geology and geological interpretation (Listing Rule 5.8.1 first bullet point)?⁸</p> | <p>N/A</p> |
| <p>18. Where in the Offer Document does it disclose the entity's sampling and sub-sampling techniques (Listing Rule 5.8.1 second bullet point)?</p> | <p>N/A</p> |
| <p>19. Where in the Offer Document does it disclose the entity's drilling techniques (Listing Rule 5.8.1 third bullet point)?</p> | <p>N/A</p> |

⁷ An entity that determines that a drill-hole table setting out the information described above is not material, is not required to attach the table to the Offer Document but must explain why it has determined that the table is not material to understanding the exploration results.

⁸ Note that the information referred in items 17-24 should be disclosed independently from the separate report in relation to each of the criteria in sections 1, 2 and 3 (and 5 if appropriate) of JORC Table 1 required under Listing Rule 5.8.2 mentioned in item 25 below.

20. Where in the Offer Document does it disclose the criteria used for classification, including drill and data spacing and distribution – this includes separately identifying the drill spacing used to classify each category of mineral resources (inferred, indicated and measured) where estimates for more than one category of mineral resource are reported (Listing Rule 5.8.1 fourth bullet point)?	N/A
21. Where in the Offer Document does it disclose the entity's sample analysis method (Listing Rule 5.8.1 fifth bullet point)?	N/A
22. Where in the Offer Document does it disclose the entity's estimation methodology (Listing Rule 5.8.1 sixth bullet point)?	N/A
23. Where in the Offer Document does it disclose the entity's cut-off grade(s), including the basis for the selected cut-off grade(s) (Listing Rule 5.8.1 seventh bullet point)?	N/A
24. Where in the Offer Document does it disclose mining and metallurgical methods and parameters, and other material modifying factors considered to date (Listing Rule 5.8.1 eighth bullet point)?	N/A
25. Where in the Offer Document is the separate report in relation to each of the criteria in sections 1, 2 and 3 (and 5 if appropriate) of JORC Table 1 (Listing Rule 5.8.2)? ⁹	N/A
<p>26. Please enter "Confirmed" in the column to the right to indicate that the following JORC requirements have been satisfied:</p> <ul style="list-style-type: none"> the mineral resource estimate has been appropriately classified according to increasing geological confidence (ie inferred, indicated or measured – JORC clause 20-24); if an estimation of an inferred mineral resource is presented on the basis of extrapolation beyond the nominal sampling spacing and taking into account the style of mineralisation, the report contains sufficient information to inform the reader of: <ul style="list-style-type: none"> the maximum distance that the resource is extrapolated beyond the sample points; the proportion of the resource that is based on extrapolated data; the basis on which the resource is extrapolated to these limits; and a diagrammatic representation of the inferred mineral resource showing clearly the extrapolated part of the estimated resource (JORC clause 21); the mineral resource estimate has been rounded off to appropriately significant figures, is referred to as an estimate not as a calculation and, in the case of inferred mineral resources, is qualified by the term 'approximately' (JORC clause 25); where contained metal or mineral content has been reported, corresponding tonnages and grade have also been reported (JORC clause 26); inferred, indicated or measured resources have not been reported as a combined estimate unless details for the individual categories have also been provided (JORC clause 26); and resource estimates have not been aggregated with reserve estimates to report a single combined figure (JORC clause 26). 	N/A

⁹ If an entity that determines that any of the criteria is not material to understanding the estimate of mineral resources, the entity must identify the criteria and explain why it has determined that it is not material to that understanding.

Ore reserves

Complete this section if the Offer Document includes any reference to an estimate of ore reserves.

27. Where in the Offer Document does it disclose the material assumptions and the outcomes from any pre-feasibility study (PFS) or feasibility study (FS), as the case may be, defining the ore reserves (Listing Rule 5.9.1 first bullet point)? ¹⁰	N/A
28. Where in the Offer Document does it disclose the criteria used for classification, including the classification of the mineral resources on which the ore reserves are based and the confidence in the modifying factors applied (Listing Rule 5.9.1 second bullet point)?	N/A
29. Where in the Offer Document does it disclose the mining method selected and other mining assumptions, including mining recovery factors and mining dilution factors (Listing Rule 5.9.1 third bullet point)?	N/A
30. Where in the Offer Document does it disclose the processing method selected and other processing assumptions, including the recovery factors applied and the allowances made for deleterious elements (Listing Rule 5.9.1 fourth bullet point)?	N/A
31. Where in the Offer Document does it disclose the basis of the cut-off grade(s) or quality parameters applied (Listing Rule 5.9.1 fifth bullet point)?	N/A
32. Where in the Offer Document does it disclose estimation methodology (Listing Rule 5.9.1 sixth bullet point)?	N/A
33. Where in the Offer Document does it disclose material modifying factors, including the status of environmental approvals, mining tenements and approvals, other governmental factors and infrastructure requirements for the selected mining methods and for transportation to market (Listing Rule 5.9.1 seventh bullet point)?	N/A
34. Where in the Offer Document is the separate report in relation to each of the criteria in sections 1, 2, 3 and 4 (and 5 if appropriate) of JORC Table 1 (Listing Rule 5.9.2)? ¹¹	N/A
35. Please enter "Confirmed" in the column to the right to indicate that the following JORC requirements have been satisfied: <ul style="list-style-type: none"> the reserve estimate has been appropriately classified according to increasing geological confidence (ie probable or proved – JORC clause 29-32); the reserve estimate has been rounded off to appropriately significant figures (JORC clause 33); where present metal or mineral content has been reported, corresponding tonnages and grade have also been reported (JORC clause 34); proved and probable reserves have not been reported as a combined estimate unless details for the individual categories have also been provided (JORC clause 34); reserve estimates have not been aggregated with resource estimates to report a single combined figure (JORC clause 36); and where figures for both resources and reserves are reported, a statement has been included in the Offer Document which clearly indicates whether the resources are inclusive of, or additional to, the reserves (JORC clause 36). 	N/A

¹⁰ If the economic assumptions are commercially sensitive to the entity, an explanation of the methodology used to determine the assumptions rather than the actual figure can be reported.

¹¹ If an entity that determines that any of the criteria is not material to understanding the estimate of ore reserves, the entity must identify the criteria and explain why it has determined that it is not material to that understanding.

Production targets or financial information derived from production targets

Complete this section if the Offer Document includes any reference to a production target or financial information derived from a production target (such as forecast revenues, forecast costs of production, forecast capex, a net present value, internal rate of return or payback period).

- | | |
|--|-----|
| 36. Where in the Offer Document does it disclose the material assumptions on which the production target is based (Listing Rule 5.16.1)? | N/A |
| Specifically, where in the Offer Document does it disclose the material assumptions about the 'modifying factors' in the JORC Code? | N/A |
| Specifically, where in the Offer Document does it disclose the material assumptions about the scheduling of development and production and the availability of project finance? | N/A |
| 37. Where in the Offer Document does it state that the reserves or resources underpinning the production target have been prepared by a competent person in accordance with the JORC Code (Listing Rule 5.16.2)? ¹² | N/A |
| 38. Where in the Offer Document does it state the relevant proportions of ore reserves, mineral resources, exploration target and qualifying foreign estimates underpinning the production target (Listing Rule 5.16.3)? | N/A |
| 39. Is a proportion of the production target based on an inferred mineral resource?
If so, please indicate where in the Offer Document the required cautionary statement has been included stating that: ¹³
<i>"There is a low level of geological confidence associated with inferred mineral resources and there is no certainty that further exploration work will result in the determination of indicated mineral resources or that the production target itself will be realised"</i> (Listing Rule 5.16.4)? | N/A |
| 40. Is a proportion of the production target based on an exploration target?
If so, where in the Offer Document does it include a statement of the factors that lead the entity to believe that it has a reasonable basis for reporting the production target in that context (Listing Rule 5.16.5 and section 8 of Guidance Note 31 <i>Reporting on Mining Activities</i>)? | N/A |
| Please also indicate where in the Offer Document the required cautionary statement has been included stating that: ¹⁴
<i>"The potential quantity and grade of an exploration target is conceptual in nature, there has been insufficient exploration to determine a mineral resource and there is no certainty that further exploration work will result in the determination of mineral resources or that the production target itself will be realised."</i> (Listing Rule 5.16.5 and section 8 of Guidance Note 31 <i>Reporting on Mining Activities</i>)? | N/A |
| 41. Is the Production Target based solely on an inferred mineral resource?
If so, where in the Offer Document does it include a statement of the factors that lead the entity to believe that it has a reasonable basis for reporting the production target based solely on inferred mineral resources (Listing Rule 5.16.6 and section 8.7 of Guidance Note 31 <i>Reporting on Mining Activities</i>)? | N/A |

¹² Note that disclosing a production target that is based solely on an exploration target or solely on a combination of inferred mineral resources and an exploration target is prohibited (Listing Rule 15.5(a)), as is disclosing a production target based solely or partly on historical estimates or foreign estimates (other than qualifying foreign estimates) of mineralisation (Listing Rule 15.5(b)). A production target that is based solely on an inferred mineral resource must comply with Listing Rule 5.16.6.

¹³ Note that the cautionary statement must be proximate to, and have equal prominence as, the reported production target.

¹⁴ Note again that the cautionary statement must be proximate to, and have equal prominence as, the reported production target.

Please indicate where in the Offer Document it states the level of confidence with which the inferred mineral resources are estimated and the basis for that level of confidence (Listing Rule 5.16.6)	N/A
<p>Please also indicate where in the Offer Document the required cautionary statement has been included stating that:¹⁵</p> <p><i>“There is a low level of geological confidence associated with inferred mineral resources and there is no certainty that further exploration work will result in the determination of indicated mineral resources or that the production target itself will be realised. The stated production target is based on the company’s current expectations of future results or events and should not be solely relied upon by investors when making investment decisions. Further evaluation work and appropriate studies are required to establish sufficient confidence that this target will be met.”</i> (Listing Rule 5.16.6)</p>	N/A
And provide a copy of the technical report required under Listing Rule 5.16.6 to support the production target with a sufficient level of confidence and which has been prepared by, or under the supervision of, a named independent competent person or persons and includes the information referred to in Listing Rules 5.22(b) and (c)	N/A
42. Is the production target based on a portion of inferred mineral resources and/or an exploration target in addition to ore reserves and/or measured and indicated mineral resources?	
If so, please enter “Confirmed” in the column to the right to indicate that the entity is satisfied that the respective proportions of inferred mineral resources and the exploration target are not the determining factors in project viability (section 8.5 of Guidance Note 31 <i>Reporting on Mining Activities</i>)	N/A
Please also enter “Confirmed” in the column to the right to indicate that the inferred mineral resources and exploration target do not feature as a significant proportion early in the mine plan (section 8.5 of Guidance Note 31 <i>Reporting on Mining Activities</i>)	N/A
<p>43. Is a proportion of the production target based on qualifying foreign estimates that have not been verified and reported as mineral resources or ore reserves in accordance with the JORC Code after 3 years from the date the qualifying foreign estimates were initially reported?</p> <p>If so, where in the Offer Document is the statement and explanation referred to in Listing Rule 5.14.2 (Listing Rule 5.16.7)?</p>	N/A
<p>44. Does the Offer Document include forecast financial information derived from a production target relating to:</p> <ul style="list-style-type: none"> the mineral resources and ore reserves holdings of the entity (an entity level production target); or a material mining project of the entity (or two or more mining projects which together are material to the entity)? 	
If so, where in the Offer Document does it include all material assumptions on which the forecast financial information is based (Listing Rule 5.17.1)? ¹⁶	N/A
Where in the Offer Document does it state the production target from which the forecast financial information is derived, including all the information contained in Listing Rule 5.16 (Listing Rule 5.17.2)	N/A

¹⁵ Note again that the cautionary statement must be proximate to, and have equal prominence as, the reported production target.

¹⁶ If the economic assumptions are commercially sensitive to the entity, an explanation of the methodology used to determine the assumptions rather than the actual figure can be reported. Note, however, that economic assumptions may not be commercially sensitive. An entity that considers that certain information is commercially sensitive should refer to section 8.6 of Guidance Note 31 on the steps ASX expects it to take in these circumstances.

If a significant proportion of the production target is based on an exploration target, where in the Offer Document does it state the implications for the forecast financial information of not including the exploration target in the production target (Listing Rule 5.17.3)

N/A

Scoping studies¹⁷

Complete this section if the Offer Document includes any reference to a scoping study.

45. Is the scoping study partially supported by an inferred mineral resource and/or exploration target?

If so, where in the Offer Document does it state both the proportion and relative sequencing of the inferred mineral resource and/or exploration target within the scoping study (JORC clause 38)?

N/A

46. Where in the Offer Document is the cautionary statement required under clause 38 of the JORC Code about the scoping study?¹⁸

N/A

47. Has the sample cautionary statement suggested in clause 38 of the JORC Code been augmented to reflect the surrounding facts and circumstances and to address the other issues dealt with in ASX's scoping study guidance (ASX Scoping Study Guideline 4)?

N/A

Mining exploration entities

Complete this section if the entity is a mining exploration entity.

48. Where in the Offer Document is there a map or maps of the entity's mining tenements prepared by a competent person, which:
- indicate the geology and other pertinent features of the tenements, including their extent and location in relation to a capital city or major town, and relative to any nearby properties which have a significant bearing on the potential of the tenements;
 - are dated; and
 - identify the competent person and the report to which they relate?

Section 3 of the IGR contains maps prepared by SRK. These maps are accurate as at the date of issue of the IGR, being 12 February 2022.

49. Where in the Offer Document is there a schedule of the entity's mining tenements prepared by a competent person, which states in relation to each mining tenement:
- the geographical area where the mining tenement is situated;
 - the nature of the title to the mining tenement;
 - whether the title has been formally confirmed or approved and, if not, whether an application for confirmation or approval is pending and whether the application is subject to challenge; and
 - the person in whose name the title to the mining tenement is currently held?

Schedule 1 of the Solicitor's Report on Tenements.

50. Where in the Offer Document is there a statement setting out a program of expenditure, together with a timetable for completion of an exploration program, in respect of each mining tenement (or, where applicable, each group of tenements)?

Section 6 of the IGR sets out a program of expenditure, along with a timeframe in respect of each Project.

¹⁷ JORC clause 38 defines a "scoping study" as an order of magnitude technical and economic study of the potential viability of mineral resources. It includes appropriate assessments of realistically assumed modifying factors together with any other relevant operational factors that are necessary to demonstrate at the time of reporting that progress to a pre-feasibility study can be reasonably justified.

¹⁸ Note that the cautionary statement must be in the same paragraph as, or immediately following, the disclosure of the scoping study.

51. Within the 2 years preceding the date of the entity's application for admission to the official list, has the entity acquired, or entered into an agreement to acquire, an interest in a mining exploration area or similar mining tenement from any person?

If so, where in the Offer Document does it disclose:

- the date of the acquisition or agreement;
- full details of the tenement, including any title particulars;
- the name of the vendor;
- if the vendor was not the beneficial owner of the tenement at the date of the acquisition or agreement, the name of the beneficial owner;
- details of any relationship between the vendor (or, if the vendor was not the beneficial owner of the tenement at the date of the acquisition or agreement, between the beneficial owner(s)) and the entity or any related party or promoter of, or adviser to, the entity; and
- details of the purchase price paid or payable and all other consideration (whether legally enforceable or not) passing directly or indirectly to the vendor,

and, if the vendor acquired the tenement from a third party within that 2 year period, the equivalent details to those set out above in relation to the arrangements between the vendor and the third party?

Yes. See section 6.5(a) which sets out a summary of the Sale of Tenements Agreement and the relationship between the Company and the vendor.

Is the vendor (or, if the vendor was not the beneficial owner of the tenement at the date of the acquisition or agreement, are any of the beneficial owner(s)) a related party or promoter of the entity or an associate of a related party or promoter of the entity?

If so, please enter "Confirmed" in the column to the right to indicate that the consideration paid by the entity for the tenement was solely restricted securities, save to the extent it involved the reimbursement of expenditure incurred in developing the tenement¹⁹ or the entity was not required to apply the restrictions in Appendix 9B under Listing Rule 9.1.3 (Listing Rule 1.1 Condition 11)

Confirmed – the vendor is a related party and received 36,000,000 shares in the Company in consideration for the transfer.

Please also provide a copy of the agreement(s) relating to the acquisition entered into by the entity and any expert's report or valuation obtained by the entity in relation to the acquisition

See Tab 15 attached to the Appendix 1A Information Form and Checklist (Sale of Tenements Agreement)

52. Is the entity or a child entity in a joint venture arrangement to investigate or explore a mining tenement?

If so, please provide a copy of the joint venture agreement

N/A

Where in the joint venture agreement does it provide that if the entity requires it, the operator of the joint venture will give the entity all the information the entity requires to comply with the Listing Rules, and that the information may be given to ASX for release to the market if necessary for the entity to comply with the Listing Rules (Listing Rule 5.45)?

N/A

Historical or foreign estimates for a material mining project²⁰

Complete this section if the Offer Document includes any reference to historical or foreign estimates for a material mining project.

53. Where in the Offer Document does it disclose the source and date of the historical estimates or foreign estimates (Listing Rule 5.12.1)?

N/A

¹⁹ ASX may require evidence to support expenditure claims.

²⁰ An "historical estimate" is an estimate of quantity and grade of mineralisation that is based on information and supporting documentation that was prepared prior to the introduction of JORC (1989) and which an entity has not verified as mineral resources or ore reserves in accordance with JORC (Listing Rule 19.12). A "foreign estimate" is an estimate of quantity and grade of mineralisation that was prepared using a mineral resources classification and reporting standard from another jurisdiction prior to an entity acquiring, or entering into an agreement to acquire, an interest in a mining tenement that contains the deposit, and which the entity has not

/cont.

54. Where in the Offer Document does it disclose whether the historical estimates or foreign estimates use categories of mineralisation other than those defined in JORC and if so, an explanation of the differences (Listing Rule 5.12.2)?	N/A
55. Where in the Offer Document does it disclose the relevance and materiality of the historical estimates or foreign estimates to the entity (Listing Rule 5.12.3)?	N/A
