i-Sprint Innovations Joins the archTIS Channel Partner Program

Singapore partner delivers first customer win as Microsoft IP Co-sell for advanced information security in Asia Pacific Region

CANBERRA, AUS and SINGAPORE – 7 June 2022 - [archTIS](https://www.archtis.com), a global technology provider of innovative solutions for secure collaboration of sensitive information, today announced i-Sprint Innovations (i-Sprint) (www.i-sprint.com) has joined the archTIS Channel Partner Program to resell archTIS' dynamic, data-centric security solution NC Protect to customers in Asia Pacific Region. i-Sprint has also secured their first NC Protect customer to dynamically secure Microsoft 365 files, a joint win under the Microsoft IP-Co Sell Program.

The partnership allows i-Sprint, a leading provider in securing identity and transactions in the cyber world, to resell and provide services for archTIS' NC Protect solution to support enterprise, government and defence clients in Asia Pacific with the ability to securely access and collaborate on sensitive and classified data.

Albert Ching, Vice Chairman and CTO of i-Sprint, said, "Companies are providing a remote or hybrid working arrangement for employees. Collaboration and sharing of files have become the normal way of doing work. We see a demand from our customers and markets for a solution to protect such work norms. By partnering with archTIS, i-Sprint can complete our product offering to provide advanced information protection, and secure collaboration for Microsoft 365 and file sharing solutions in Asia Pacific markets."

Matthew Kluken, GM of archTIS Asia Pacific, said, "I'm excited to announce our partnership with i-Sprint to expand their data security solutions portfolio and offerings for the financial services industry and other security-sensitive organizations with NC Protect. We have quickly shown how i-Sprint can empower their customers to safeguard sensitive and confidential information with our first new joint client. We would also like to thank Austrade who was fundamental in facilitating the partnership."

i-Sprint Innovations Joins the archTIS Channel Partner Program

The archTIS portfolio of award-winning data-centric information security solutions protect the world's most sensitive content in government, defence, supply chain, enterprises and regulated industries through attribute-based access and control (ABAC) policies. NC Protect provides enhanced information protection for file access and sharing, messaging and emailing of sensitive and classified content across Microsoft 365 apps, Dropbox, Nutanix Files and Windows file shares.

Kurt Mueffelman, Global COO stated, "The addition of i-Sprint as a strong partner in Singapore, along with an immediate customer win, validates archTIS' global strategy to develop key partners with existing customers looking to enhance their security with data-centric solutions. As a Microsoft Co-sell win, it also creates partner-to-partner linkage with Microsoft for a joint customer needing to extend the ability to secure access and file sharing using NC Protect for M365."
